The week's total for all cities shows a gain of 16·9 per cent over 1894. The increase contrasted with 1893 is 29 per cent and the falling off from 1892 is 20 per cent. Outside of New York the aggregate for the current year exhibits an excess, as compared with 1894, of 8·8 per cent, and the gain over 1893 is 31·7 per cent. The decrease from the 1892 figures reaches 16·3 per cent.

THE FINANCIAL SITUATION.

The week has been devoid of important events or occurrences. There have been further considerable gold shipments, and the Syndicate has continued to make good in great part the loss to the Treasury resulting from the withdrawals for that purpose. The Treasury statement on Thursday reported the net amount of gold somewhat below the 100-million mark (it being stated at $99,127,567), but this did not include the $2,500,000 gold deposited by the Syndicate on Wednesday afternoon, nor does it appear to have taken account of Wednesday's gold withdrawals. In the statement issued yesterday these items were included, and the reserve was reported at $100,113,529. But the engagement of $1,700,000 gold for export today will again carry the amount below the limit, so a further deposit by the Syndicate is looked for. The gold shipments for the week aggregate $4,550,000, and in addition some small amounts have been sent to Canada.

With the bulk of the corn crop safe now against damage from frost, the activity in trade circles, which has been a marked feature of the situation for many weeks, is becoming still more pronounced. By reference to our review of the dry goods trade on another page, it will be seen that that market is showing great activity and great strength, that in many classes of staple goods unsold supplies are reported little better than nominal, that the production for both this month and next has in numerous instances already been sold and that some lines of goods have been entirely withdrawn from the market for the time being. From the iron trade the accounts are becoming more and more buoyant, and numerous further and very large advances in prices in different branches of the trade are reported.

In view of this activity in trade, it may seem strange that our statement of bank clearings for the month of August should show a smaller ratio of improvement than for either of the months immediately preceding. For August the percentage of increase is only 16·1 per cent, whereas for July it was 29·8 per cent, for June 22·1 per cent and for May 24·7 per cent. This is with New York included. Outside of New York the comparison is much the same, the increase for August being 7·7 per cent, as against 21·7 per cent for July, 12·5 per cent for June and 12·3 per cent for May. But the explanation is not far to seek. In August last year the volume of business was temporarily on an exceptional basis. The great railway strike in July, and the strike of the bituminous coal miners which lasted from April to nearly the end of June (and in some cases to a much later date), had so far delayed trade in the months preceding that in August, with the removal of these previously existing drawbacks, business was resumed on a very extensive scale; in brief, transactions in August last year embraced a good deal of business which, except for the labor troubles, would have been done in the months preceding. It follows that in comparing with the clearings for that month of 1894 we are comparing with much better results than was the case in other recent months. This appears, too, from the records of the clearings for 1894. These records show that in August of that year there was a *gain* of 5·6 per cent, but in July there had been 15·7 per cent decrease, in June 21·1 per cent decrease and in May 26·5 per cent decrease. In other words, the gain of 16·1 per cent in August this year comes after a gain in 1894, while the gains in the months preceding came after very heavy losses.

Another circumstance has made the ratio of improvement for August smaller than in the months preceding, namely the shortage in the winter-wheat crop. With a full crop the movement of winter wheat is certain to be large in August. This year on account of the poor yield the movement has been very greatly reduced. The effects are seen in the losses in clearings reported at such points as Chicago and Cincinnati, though at the same time it is important to remember that at both the places mentioned clearings last year, for the reasons already given, had been very heavy. On account of these losses at Chicago and Cincinnati, the Middle Western group of places shows for August 1895 a small decrease from 1894. On the other hand, in the Eastern manufacturing and financial centres the gains over last year remain large, the New England group showing 19·6 per cent increase and the Middle States group 21·9 per cent increase.

The movement of currency to the interior still continues only moderate, and it is chiefly to the West and Northwest. The shipments are somewhat checked by the fact that banks desiring currency are required to pay full express charges, which amount to Chicago to 75 cents per $1,000; to St. Louis to $1, and to St. Paul and New Orleans to $1 25, the Government having a year ago, as will be remembered, abrogated the special privilege extended to the banks of shipping at Government contract rates of 15 cents per $1,000 to points other than New Orleans, to which the rate was 50 cents. Banks having extensive correspondence report large re-discounting for institutions in the extreme Northwest, and this is in part accounted for by the fact, which is stated on the authority of the representative of a large milling interest in Minnesota, that the millers in that State and holders of wheat are disposed to convert the grain into flour for export, for which there is a large and growing market abroad, rather than sell their wheat to exporters at low prices. Re-discounting for banks in the South and Southwest is not heavy, though there is a good inquiry. There has, however, been comparatively large borrowing from Philadelphia and the East. The banks at those points have considerable money loaned out here on paper or on time. As their customers are now making calls upon them, they obtain the money on demand from New York, to be repaid as their paper or time loans fall due.

Money on call representing bankers' balances has uniformly loaned at 1 per cent this week at the Stock Exchange, and banks and trust companies quote 1 per cent as the minimum. There is very little demand for time loans on stock collateral even for periods extending to the end of the year, and the inquiry is chiefly for five to seven months. Rates are 1½ per cent for thirty days, 2 for sixty days, 2½ for ninety days to four months and 2¾@3 for five to seven months. There is a little better supply of commercial paper and the demand is somewhat increasing, a few of the large banks coming into the market as buyers, but those institutions which are meeting or are expecting calls from their correspondents in the interior are still out of the market as buyers. Quotations are 3½@4 per cent for sixty to ninety-day en-

dorsed bills receivable, 3¾@4¼ for four months' commission house, 4¼@5 for prime four months, 4¾@5¾ for prime six months and 5¼ and above for good four to six months' single names.

There has been no important feature in the European financial situation this week. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ⅝ of 1 per cent. The open market rate at Paris is 1½ and at Berlin and Frankfort it is 2 per cent. According to our special cable from London the Bank of England gained £373,697 bullion during the week and held at the close of the week £41,612,649. Our correspondent further advises us that the gain was due to the receipt of £762,000 from abroad (£551,000 being bought in the open market, and £202,000 coming from Australia and £9,000 from France), to the export of £50,000 (wholly to the Cape), and to the shipment of £338,000 to the interior of Great Britain.

The foreign exchange market has been quiet and firm this week, without any really new feature. The demand has been fair but sufficient to absorb all offerings, and the supply has been chiefly confined to bills drawn against shipments of gold. Bankers report very few security bills, but on the contrary there has been some inquiry from arbitrage houses who have remitted for stocks sold for European account. The commercial futures offered this week are firmly held at 4 87½ for October and 4 87 for November and December against cotton and 4 86½ for December and January against grain shipments. Very few spot or near cotton bills are coming forward, and an offer of 4 89 in New Orleans was rejected as too low. Bankers who are in a position to judge express the opinion that there will be a liberal supply of spot cotton bills in October and November and of grain in December and January. The market opened slightly easier on Tuesday, though not quotably lower, and rates for actual business in sterling were 4 89@4 89¼ for sixty-day, 4 90@4 90¼ for sight and 4 90¼@4 90½ for cable transfers. During the day Hoskier, Wood & Co. engaged $1,000,000 and Nesslage & Fuller $100,000 gold for shipment to Europe on the following day and Handy & Harman announced that they would ship $50,000 bullion. The Farmers' Loan & Trust Company deposited $2,000,000 gold in the Sub-Treasury, for which a receipt was taken, and this was supposed to be for Syndicate account. On Wednesday the tone of the market was steady at unchanged rates for actual business, and W. H. Crossman & Bro. engaged $1,000,000, Arbuckle & Co. $600,000 and Nesslage & Fuller $100,000 gold for shipment on the following day. During the afternoon the Syndicate deposited $2,500,000 gold in the Sub-Treasury, for which legal tenders were given. The market was quoted strong on Thursday, and though sterling remained unchanged francs and marks were advanced. One of the Canadian banks withdrew $50,000 gold for shipment to Canada. Yesterday the market remained firm, and $1,700,000 gold was engaged for shipment today—$1,250,000 by W. H. Crossman & Bro., $100,000 by Nesslage & Fuller, $150,000 by Handy & Harman, $50,000 by the International Metal Company and $150,000 by Hard & Rand. The Canadian Bank of Commerce took $100,000 for shipment to Canada. The following table shows the daily posted rates for exchange by the leading drawers.

The market closed firm on Friday at 4 89@4 90 for sixty day and 4 90@4 91 for sight. Rates for actual business in sterling were 4 89@4 89¼ for long, 4 90@4 90¼ for short and 4 90¼@4 90½ for cable transfers. Prime commercial bills were 4 88½@4 88¾ and documentary 4 88@4 88¼.

We have referred in a previous paragraph to the fact that the ratio of gain in bank clearings for August is smaller than for the months immediately preceding, and have shown that this is due to the circumstance that comparison is with better results in 1894 than was the case in the other months, and in part also to the smaller wheat movement the present year. In the following we furnish a summary of the monthly results since the 1st of January.

Among the leading cities there are a few which report smaller clearings than in August 1894, but in most cases this is because there had been very decided improvement a year ago. A four-year comparison for the principal cities is furnished in the following.

BANK CLEARINGS AT LEADING CITIES.

Dealings on the New York Stock Exchange, though made at rising prices, were of only moderate volume during August, and therefore can not have affected to any material extent the comparison of the bank clearings. We have reviewed the course of business on the

Exchange in our QUOTATION SUPPLEMENT to-day, and therefore give our usual table here without further comment.

The Southern Pacific for July reports a very large gain in both gross and net, comparison being with the strike period in 1894; in gross the gain is $1,034,151 and in net $384,930, this covering all the lines operated directly or indirectly. The Atchison for the same month shows $611,411 increase in gross and $177,904 increase in net. The Erie has $246,042 increase in gross, $23,281 increase in net; the Louisville & Nashville $254,040 increase in gross, $56,651 increase in net; and the Denver & Rio Grande $204,729 increase in gross, $158,852 increase in net. The following shows the July gross and net earnings for four years of a number of roads.

* Earnings for 1895 and 1894 given on a basis slightly different from that for the two preceding years.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Sept. 6, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	2,766,000	$3,687,000	Loss. $921,000
Gold.....	408,000	624,000	Loss. 216,000
Total gold and legal tenders.....	$3,174,000	$4,311,000	Loss.$1,137,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Sept. 6, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings
Banks' interior movement, as above	$3,174,000	$4,311,000	Loss.$1,137,000
Sub-Treas. oper. and gold expts....	20,100,000	24,400,000	Loss. 4,300,000
Total gold and legal tenders.....	$23,274,000	$28,711,000	Loss. 5,437,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

THE ST. PAUL REPORT.

The annual report of the Chicago Milwaukee & St. Paul has been awaited with considerable interest, and we think no one will be disappointed with the showing which it makes. It grows somewhat wearisome to have to reiterate with the receipt of each company's report that the year was one of extremely unfavorable conditions—that to the general depression in business, which curtailed traffic in all directions, there was added a crop failure of unusual dimensions, whose effects were felt not only in a great falling off in the volume of grain tonnage but also in a falling off in other classes of traffic, owing to the diminished purchasing power of the communities most affected by the shortage. But no review of the year would possess any value which ignored these most important considerations bearing upon and controlling the year's results.

In the case of the St. Paul particularly it is desirable that sight should not be lost of the unfavorable character of the year, for like all the other roads in the same section it suffered a very noteworthy contraction of its revenues as the result of that fact. We have spoken of the loss in the grain tonnage as a consequence of the crop failure. Upon that point the traffic statistics of the last three years will repay study. With the St. Paul wheat and not corn is the cereal of greatest importance. But the spring-wheat crop, no less than the corn crop, as will be remembered, was short last season; and we find by the report that the road's tonnage in wheat in the late fiscal year was only 735,743 tons, against 940,878 tons in 1893-4 and 1,492,698 tons in 1892 3. Here then there has been a loss in this one item of tonnage in two years of nearly 757,000 tons—the ratio of falling off being over 50 per cent. But in addition there was a falling off in most of the other items of agricultural tonnage. For instance, of barley the road moved only 504,889 tons in 1895 against 516,167 tons in 1894 and 612,465 tons in 1893; of oats, 351,509 tons against 410,020 tons and 464,246 tons respectively; of corn, 174,046 tons against 468,017 tons and 256,107 tons; of flaxseed, 73,943 tons against 116,909 tons and 140,811 tons; of hay, 125,011 tons against 177,482 tons and 158,315 tons, &c., &c. Altogether the road had only 2,794,746 tons of grain and agricultural tonnage in 1894-5 against 3,482,317 tons in 1893 4 and 4,033,874 tons in 1892 3. In other words, in the two years this class of tonnage fell away roughly 1¼ million tons, which shows clearly the effects and great importance of last season's crop failure.

In the other items of freight there have been equally marked losses, in part as the result of the crop failure and in part as the result of the general prostration of trade all over the United States. Thus the tonnage in lumber in the late year was only 1,205,396 tons, against 1,953,122 tons in 1893, the tonnage in merchandise 922,532 tons against 1,211,971 tons, the tonnage in miscellaneous articles 684,442 tons against 1,124,013

&c., &c. Taking the grand aggregate of the freight tonnage of all classes, the total for 1895 is found to have been only 10,475,942 tons, against 10,794,058 tons in 1894 and no less than 13,453,349 tons in 1893. It is worth pointing out that the further loss in 1895 (after the large loss in 1894) followed entirely from the smaller agricultural tonnage; in the tonnage outside of agricultural products there was a small increase, though this did not extend to all the items. The increase was marked in brick and stone, in iron and steel, in manufactures, in coal, and in miscellaneous forest products, from which it is apparent that the road has not failed to feel the beneficial effects of the general revival in trade which became very marked just before the close of the fiscal year. However, notwithstanding the increase in that way the aggregate freight tonnage, as we have seen, was smaller than in 1894 and almost three million tons less than in 1893. Moreover, the falling off was mainly in the tonnage hauled the longest distances. Taking the freight movement one mile as the measure of the volume of business, we find that in 1895 the number of tons of freight carried one mile was only 1,765 millions, against 2,077 millions in 1894 and 2,506 millions in 1893—that is, as compared with two years ago there has been a contraction of no less than 741 million ton miles.

This great loss in traffic, with a coincident decline in the passenger earnings, is reflected in a very striking decrease in the revenues of the company. To say that gross earnings in the late year were about four million dollars less than in the year preceding is to state a fact which seems striking enough. But to understand fully the significance of this large loss we must bear in mind that it is additional to a loss of over 4½ million dollars in 1893-4, so that in two years the gross earnings of the company have been reduced in amount of over 8½ million dollars, falling from $35,743,429 in 1893 to $27,335,369 in 1895.

Nothing could show more clearly than these comparisons how trying to the company and its management the last two years have been. It is almost superfluous to say that if the property had not been in thoroughly good condition the company could hardly have averted serious embarrassment as the result of this great shrinkage in its revenues. As it was, the management found it possible to reduce expenses in a very marked way. The exact decrease in gross earnings in the two years was $8,408,059, and of this $6,669,190 was offset by a saving in expenses, so that the loss in net was reduced to less than two million dollars, the net for 1895 standing at $10,291,616 against $12,030,485 for 1893. Of the saving of 6⅔ million dollars in expenses, somewhat over 3 million dollars was effected in the late year, and the decrease is all the more noteworthy in view of the fact that there has been no reduction in the wages paid station and train men.

As showing one of the ways in which the saving in expenses was made possible, we may note that the company reduced its train mileage from 31,750,418 miles in 1893 to 23,690,828 miles in 1895. The reduction has been very great in all classes of trains, though in the case of the passenger trains it was not found practicable to carry the economy in train service to the same length as in the case of the other trains, since, as we all know, the public expects the same accommodations and the same service in bad times as in good times. Under the reduction in train mileage the revenue per freight train mile was larger in 1895 than in either of the two years preceding, being $1·6359 per mile run in 1895, against $1·5834 in 1894 and $1·5701 in 1893. The passenger trains, on the other hand, earned only 75·25 cents in 1895, against 90·32 cents in 1894 and 91·51 cents in 1893.

With a smaller tonnage and a reduced train service, the expenses for conducting transportation were only $8,348,158 in 1895 against $9,621,027 in 1894 and $11,088,475 in 1893. For maintenance of rolling stock $2,085,309 was spent in 1895, against $2,698,459 in 1894 and $3,814,927 in 1893, and for maintenance of way and structures $3,703,465 in 1895, against $4,469,838 in 1894 and $5,244,337 in 1893. It is proper to say with reference to the decrease under these two latter heads that the expenditures in those departments in the year 1893 were exceptionally heavy, making the comparison to that extent an unfair one. The report says that liberal expenditures upon the property in recent years; the comparative cheapness of rails, ties and other material; and the reduced volume of traffic, explain the decrease in the maintenance and operating expenses in the year just closed, and that the physical condition of the property is excellent.

Especial interest of course attaches to the income account for the twelve months. It appears that notwithstanding the loss in gross and net earnings the surplus above charges for the year amounts to $2,796,886. Allowing $1,819,433 for the 7 per cent dividends upon the preferred stock, this would leave $977,453 for the common stock, equal to somewhat over two per cent upon the amount of such stock outstanding. For an extraordinarily bad year, when gross earnings were 8½ million dollars below those of two years ago, that is a remarkably good showing. Incidentally this has a bearing upon the outlook for the future, for obviously with earnings reduced 8½ million dollars, there is a corresponding margin for a recovery, now that the situation has so greatly changed again for the better. It is agreed on all sides that both the harvest of corn and of spring wheat in the St. Paul's territory the present year will be the largest ever raised. With that fact granted, there can be no doubt that gross earnings in the current fiscal year—barring some now unforeseen occurrence—will show a very decided improvement over the low total of the late year.

In some respects the present report of the St. Paul is as good as any in its history. Its financial condition is certainly exceptionally strong, a fact which is especially significant when we bear in mind that the company has passed through two years of great depression. The $1,000,000 of loans and bills payable which existed on June 30 1894 were paid off during the year, and the company now has no floating debt in the strict sense of the word. At the same time it holds in its treasury $4,622,770 of unused bonds, while the amount of the cash and accounts receivable stands at $4,849,476 ($2,791,724 being in actual cash), a total of cash and cash assets (not counting $1,743,013 of supplies and materials on hand) of nearly 9½ million dollars. Against this the total of the current liabilities June 30 1895, including the large amount of interest falling due the next day, July 1, was only $6,121,546.

The equipment of the company has shown some shortage both last year and the year before. But the report contains a full explanation of this. Altogether the shortage for the two years is 572 cars. It is pointed out that the amount necessary for the replacement of these 572 cars—$260,610—has been charged to operating expenses during the two years, and stands

at the credit of a special account entitled "Rolling Stock Replacement Fund." The fund has not been utilized in the purchase of cars simply because with business so dull the road had no need for further equipment.

Owing to the inability to obtain reasonable rates of insurance, the company two years ago organized an insurance department of its own. It appears that this has proved very successful. The company began underwriting its risks on February 11 1893, and from the report it appears that in the period since then the revenue of the insurance department has exceeded its expenses and losses by $188,808, that the original fund of $300,000 has been increased to $410,000 par value of securities held, and that there is $88,808 cash on hand, against which there are possible claims for unadjusted fire losses not exceeding $10,000.

RUSSIA'S GREAT RAILROAD.

Newspaper readers are not ignorant of the fact that the Russian Government has for some years been engaged in the construction of the greatest railroad in the world—a railroad twice as long as the Canadian Pacific. We have twice before written with reference to its progress. It is not the less true, however, that this immense work has not received the attention to which it has from the first been entitled. This comparative neglect is to be attributed to various causes.

It is a somewhat significant fact that the construction of this great road was begun about the same time that we commenced to make arrangements for holding our World's Fair; and not unlikely the superior immediate interest commanded by the latter put the former, to a large extent, in the shade. Other causes, such as the out-of-the-way character of the region traversed, and that the progress of the work was a matter of observation to Russians alone, exercised an influence in the same direction. Recent events in the Far East, however, and the dawning importance of the fact that the great road will soon be completed, are leading us more and more to see that with the opening of the Siberian Railroad, thus connecting the Pacific with St. Petersburg, and virtually with the Atlantic, a new and effective force in peace and war will have been introduced into the world's affairs.

It is not possible for the American people to be indifferent to an enterprise which is destined to have such results—results which, whatever inconvenience they may occasion in some directions, must in the main lie in the line of progress and improvement—and from the benefits of which they will not be excluded. Of Russian policy, generally, we do not profess to be great admirers. So far however as this Siberian railroad is concerned, Russia is entitled to praise. It might be wrong to say that it has no relation to certain ambitious schemes; for it must inevitably, unless something thoroughly unexpected does happen, make her one of the very first of the Asiatic Powers. But whatever the motive the work is in the line and service of civilization; and in carrying it on Russia has made large sacrifices and spent immense sums of money. Our attention has been called afresh to this subject by an exceedingly interesting, well-informed and timely article in a recent issue of the Boston *Transcript*. The article was written by Mr. Ebell, who acted as one of the Russian interpreters at the recent World's Fair at Chicago.

Mr. Ebell reminds us that it was the present Emperor who, as Czarovitch, inaugurated the work at Vladivostock on May 11, 1891. He had received the rescript from his father March 17 the same year, before setting out on his tour to the countries of the Far East. On his return to Russian soil he carried out his father's instructions, reading the rescript and turning the first sod. The avowed object of the construction of such a road, according to the rescript, was "the connecting of the richly-endowed provinces of Siberia with the internal net-work of European Russia." According to one arrangement, the railroad was divided into three sections—from Vladivostock to Chernivorkee, from the latter to Omsk, and from Omsk to St. Petersburg. The central part alone is incomplete. Mr. Ebell gives a much more minute division. The entire line, which, according to him, consists of seven sections, is 7,112 versts. Beginning at Vladivostock, the road runs in a northerly direction 382 versts, or about 254 miles, to Graffskaja, thence 347 versts to Khabaroffka, thence westward 2,000 versts to Strityinsk, thence 1,009 versts to Mysorvsk, thence 202 versts to Irkutsk, from Irkutsk 1,794 versts to Oby, on the river of that name, and from Oby 1,328 versts to Chaliabinsk, where it connects with the European system. The branch lines are numerous; and some of them are long.

Mr. Ebell does not tell us how much of the road is in working order. We know, however, from other sources, that before the close of last year 122 miles were running from Vladivostock, that on September 6 goods trains were running from the Ural to Omsk, and that on October 20 the connection was completed between the last-named place and St. Petersburg via Moscow. The central portion, according to official report at the end of last year, was progressing satisfactorily and rapidly. There is thus a strong presumption that the trans-Siberian railroad if not completed will be in use for the greater part of its length before the end of the present year. For the construction of this road 350,000,000 roubles were set apart. From the details given by Mr. Ebell the money has been wisely enough distributed; but we have no means of knowing how far it has met the requirements of the situation.

Writing for an American paper, it was quite natural for the correspondent of the "Transcript" to picture in somewhat glowing colors the advantages likely to result from the opening up of this new grand trunk road. Horace Greeley, we are told, when he said "Go West, young man," did not dream of a commercial trail into the confines of Asia, India and Africa by way of the Pacific and Siberia. It would be strange, indeed, if from such a highway of commerce we did not reap some advantage. Russia will have become a next-door neighbor. The railroad will take us into the very heart of Northern Asia. Russia will find us quite as accessible as any part of Europe. Transit will be simple and direct. The great Northern Empire has many wants which we can supply; and she has much which she can call her own which we can help her to turn to good account. Our machinery in various forms has already in considerable quantity found its way into Siberia; and it is but natural to conclude that with this railroad opened importation of such material from these shores will be increased.

But we are just as likely to reap advantages from China and Japan; and it will not be wonderful if the advantages from these last shall far exceed those from Russia. Railroads are certain to be largely on the increase in both those countries; and although Japan is likely to

make a bold effort to meet all her own wants in the matter of machinery, it will be some years before she can dispense with imported articles in that line; and her very activity in striving after independence will be to us an immense advantage. It was Carlyle who said China roused would be irresistible. She has been somewhat difficult to awaken; and so far as she has been roused she has shown but a feeble hand. But the awakening may come; and if it does, and if her renewed energies shall lead her not into war but into the paths of progress, into business activities generally, the world may have to admit the correctness of Carlyle's dictum after all.

What the world wants is peace—enduring peace. It wants it because peace means the highest good. Moreover, not in many years have the material interests of the nations looked brighter were it not for this bugbear of war. It is gratifying to be able to state that at the present moment war seems remote. Self-interest is becoming a great peacemaker; and if it ever was the interest of the nations to make efforts and sacrifices to preserve the peace unbroken, it is their interest now.

THE DENVER & RIO GRANDE.

If the years of business depression through which the country has passed had served no other purpose, they would be useful in having tended to differentiate sharply between properties of intrinsic merit and those inherently unsound. Not a few railroads which it was supposed had been established on an enduring basis proved utterly weak and insecure, to the great loss of their security holders. On the other hand, others have passed through this period of adverse conditions in a most creditable manner, and have displayed elements of strength and stability that must be exceedingly gratifying both to their managers and to those interested in either their shares or their bonds.

Among these various roads, the Denver & Rio Grande is distinguished in a most favorable way. We know of no railroad system that has been put to a severer test. The road had to contend not only with general business depression but with special prostration of the one industry upon which it was supposed the State in which its lines are located relied for its prosperity. The Denver & Rio Grande, as we all know, is a Colorado system of roads, and Colorado, as we also know, has in recent years been the largest silver-producing State in the country. When the great decline in the price of silver occurred, which led to such a decided curtailment in the silver output of the State, there were many who felt that the blow was so serious that it would take many years for the people of the State to recover from its effects.

What hurt Colorado must of course hurt the Denver & Rio Grande, and though the latter had been paying dividends on its preferred stock, the question was now being asked whether the company under the changed conditions could be expected to earn even its fixed charges. The loss in the ore traffic would not in itself alone have been considered of very great moment, but it was feared that the connection between the silver industry and the other industries of the State was so close—that the one was so inseparably bound up with the others—that a general collapse might ensue. It is undeniable that for a time the outlook did appear gloomy, and with the tremendous losses in earnings which marked the early part of the disturbance (gross receipts of the Denver & Rio Grande in some months of 1893 having fallen off almost 50 per cent) the task of the management was by no means an easy one. But the result has shown that the company could earn its fixed charges even under such extraordinarily adverse circumstances, and it has also shown that while silver-mining is undoubtedly a very important industry in Colorado, the State is not so exclusively dependent upon that one industry as had been supposed, that the State possesses great recuperative powers, that her people are alive and energetic, and that they have quickly turned to develop the other resources which the State possesses in such abundance, thus retrieving to that extent the loss from the decline in silver.

In reviewing the report for 1893-4 a year ago we noted that in that year the company had earned $87,661 in excess of its fixed charges. That was a very remarkable result, for as compared with the preceding fiscal year gross earnings had dropped off from $9,317,647 to $6,476,044 and net earnings from $4,035,561 to $2,503,492. In the late fiscal year (we mean the year ending June 30 1895, for which the report has just been issued) business again began to improve, and gross earnings were added to in the sum of $440,797. The increase is not very large, considering the loss of $2,841,603, in the previous year, but almost the whole of it counted as a gain in the net, the management having succeeded in earning the additional revenue with an addition of only $18,661 to the operating expenses, making net in 1894-5 $2,925,629, against $2,503,492 in 1893-4. As suggesting one of the reasons for this favorable net result, we may note that one of the high officers of the road a few days ago laid special stress on the fact that in the case of the Denver & Rio Grande rates were made in William Street (here in New York) at a directors' meeting, and that they can only be changed at a meeting of directors. This means that the company obtains full published rates, that freight agents are not allowed to cut under such rates, and that therefore there are no rebates to pay. The officer referred to also stated that the management was determined that traffic should not be moved at a loss; that whenever that point was reached the Denver would withdraw from the contest (as it had done in a recent instance) and let the other roads take the business.

Under the increase in net there is a surplus above charges for the late year in the sum of $528,690. It is well to remember, too, that the net, though much better than in the previous year, was nevertheless very much smaller than two years ago—in fact over a million dollars smaller. The company moved 1,992,764 tons of freight in 1894-95, against 1,739,353 tons in 1893-94, but as against 2,488,079 tons in 1892-3. The recovery in the late year indicates the recuperation which is in progress in Colorado, and is the more noteworthy in view of a further decline in certain leading items of freight. For instance, of precious ore the tonnage was only 215,968 tons in 1894-5, against 236,578 tons in 1893-4 and 314,336 tons in 1892-3, and of coal (anthracite and bituminous) the tonnage was 740,230 tons, against 763,829 in 1893-4 and 1,100,044 tons in 1892-3. As showing the direction in which business has been developed, we may note that of iron ore the road moved 214,942 tons in 1895, against only 114,939 tons in 1894 and 171,784 tons in 1893; of iron and steel rails 45,843 tons, against 22,237 and 36,197 tons respectively; of stone, sand, etc., 140,742 tons, against

72,271 tons and 140,987 tons; of petroleum 41,976 tons, against 25,991 tons and 40,841 tons; and of fruits and vegetables 51,453 tons, against 40,846 tons and 19,085 tons. Of merchandise the road carried 121,795 tons, against 99,374 tons and 138,329 tons respectively; of lumber 60,668 tons, against 42,315 tons and 88,412 tons, and of coke 119,088 tons, against 90,513 tons and 154,995 tons.

The finances of the road are in excellent shape. The $150,000 of loans and bills payable shown in the balance sheet a year ago were paid off during the twelve months, and the report calls attention to the fact that the current liabilities of the company on June 30 1895 were only $1,432,729, against $1,868,874 on June 30 1893, and that the current assets now exceed the current liabilities in the sum of $1,992,670, against an excess of only $1,351,229 in 1893—in brief, that "during two years of business depression the liabilities of the company have been reduced about $436,000, and the excess of assets has been increased more than $640,000, although a year ago the value of securities in the treasury and in the Special Renewal Fund were, for prudential reasons, reduced in the accounts to the extent of $151,380." At the end of the fiscal year 1895 the aggregate of unpaid vouchers was only $145,318, against $297,951 in 1894, $462,919 in 1893, $522,332 in 1892 and $927,074 in 1881. This shows a very noteworthy change during the four years, and it also shows, as the report well says, that the company is now in the position of paying promptly each month the bills for labor and material incurred during the month preceding.

The management during the year have written down the book value of the equipment $1,000,000, which is additional to a reduction of $895,871 two years ago. At the same time it should be understood that the equipment has not been allowed to deteriorate, but that the step taken is in continuation of the conservative policy in that particular entered upon in 1893. A portion of the company's equipment is narrow gauge, and the board of directors think that the growth of population and the demands of traffic may at some future time necessitate changing portions of the narrow gauge lines to standard gauge, and that in that event more or less of the narrow-gauge rolling stock may be thrown into disuse; so they are making early preparations for the change. The reduction in the value of the equipment has of course been charged to general profit and loss account, but even after charging off this large amount the credit balance to that account still stands at $2,130,194. And substantially the whole of this is represented by cash assets in the company's treasury, for we have seen that the current assets exceed the current liabilities in amount of $1,992,671.

Summing up, we may say that the results throughout reflect great credit upon the management of the property. When the crisis in the silver industry occurred, they were confronted by a very trying situation. But they foresaw what the effects would be and promptly prepared for the change. They stopped the payment of dividends and curtailed expenses in every direction where this could be done without impairing the efficiency or safety of the road. As a consequence, the company has been able to meet all its charges notwithstanding an enormous contraction in its business, and at the same time to still further improve its financial condition. The result is that now that Colorado is retrieving its loss in silver by development in other directions and that a general revival of business all over the United States is in progress, the company is in position where it can avail to the full of the advantages which this brightening outlook offers. As an additional encouraging feature it is well to observe that the late year has been distinguished also by the settling up of some quite important matters, among others the effecting of a reorganization of the Rio Grande Southern, in which the Denver Company is so largely interested, and the adjustment of the difficulties between the Denver and the Union Pacific Denver & Gulf regarding the joint use of the track south of Pueblo.

NEW YORK ONTARIO & WESTERN ANNUAL STATEMENT.

Among the smaller roads, none issues a clearer and fuller annual report than the New York Ontario & Western. Its books and accounts are regularly audited, too, by a well-known firm of public accountants elected by the stockholders at their annual meeting. This is in conformity with the practice in England of having an independent audit, and the managers of the company take great pride in this feature of the company's affairs.

Since the building of the Scranton Extension the road has developed a large traffic in anthracite coal, and each year it becomes more apparent that the construction of that extension was a wise move. Every one is familiar with the fact that the last twelve or eighteen months have been a very unsatisfactory period in the anthracite trade, yet the company in the late year had a larger coal tonnage than in any previous year. The figures are worth giving. In the year 1891 the coal tonnage was 811,485 tons; in 1892 there was an increase to 1,120,416 tons, in 1893 an increase to 1,352,225 tons, in 1894 an increase to 1,642,063 tons and in 1895 an increase to 1,715,991 tons. The unsatisfactory condition of the trade, however, is reflected in a falling off in the revenues derived from the transportation of this coal. Between 1891 and 1894 the gross earnings from coal increased from $782,218 to $1,753,874; in 1895 there was a decrease to $1,581,227. In developing this coal traffic it has been the policy of the management to create as far as possible new markets instead of sending the coal all to New York which is a poor market. One direction in which quite a respectable traffic has been built up is in the coal movement to Oswego for shipment to Canada and the West via the Lakes.

The report the present year is issued several weeks earlier than in previous years, owing to the desire of the management to comply with the suggestion of the New York Stock Exchange that reports of railway companies should be issued well in advance of the stockholders' annual meetings. Since the opening of its line to the coal fields, the company has been able to show each year a large surplus of earnings above the fixed charges; for the late year, under the depression in general business and the unsatisfactory condition of the anthracite trade, with the resulting loss in earnings, the surplus was somewhat less than in the year preceding, but was nevertheless large, amounting to $326,383. In brief, the company had net income of $1,026,701, while the charges were only $700,318. The record of the road's growth is interesting, and we give below a summary covering the last nine years. It will be observed that prior to 1890 the annual surplus averaged but little over $60,000 per year, as against a surplus now of from $300,000 to $400,000.

NEW YORK ONTARIO & WESTERN.

Year ending June 30.	Gross Earnings.	Operating Expenses and Taxes.	Net Revenue.	Charges.	Surplus.
	$	$	$	$	$

President Fowler discusses in an intelligent way the question of securing remunerative rates for the transportation of passengers and freight on United States railroads, citing statistics to show the decline which is constantly going on, and his remarks on this point are deserving of careful consideration. He also furnishes a very full and clear statement of the nature and present situation of the voting trust, under which control of the Ontario & Western property has been held for some years. He shows that the trust exists in the interests of the common stockholders and has on the whole been of much advantage to the property and a wise provision for its benefit and security. Still the directors and officers are, he says, desirous of ending it at the earliest moment practicable, and hence as soon as the financial condition and surplus earnings of the company justify the payment and continuation of an annual dividend on the common stock, such a dividend will be declared without hesitation or unnecessary delay.

COTTON MOVEMENT AND CROP OF 1894-95

Our statement of the cotton crop of the United States for the year ending Sept. 1, 1895, will be found below. It will be seen that the total crop this year reaches 9,892,766 bales while the exports are 6,719,713 bales, and the spinners' takings are 3,007,522 bales, leaving a stock on hand at the close of the year of 280,063 bales. The whole movement for the twelve months is given in the following pages, with such suggestions and explanations as the peculiar features of the year appear to require. The first table indicates the stock at each port Sept. 1, 1895, the receipts at the ports for each of the past two years, and the export movement for the past year (1894-95) in detail, and the totals for 1893-94 and 1892-93.

☞ * These figures are only the portion of the receipts at these ports which arrived by rail overland from Tennessee, &c.

The foregoing shows that the *total receipts at the Atlantic and Gulf shipping ports* this year have been 7,882,163 bales, against 5,983,392 bales last year and 5,124,476 bales in 1892-93; and that the exports have been 6,719,713 bales, against 5,231,494 bales last season and 4,402,890 bales the previous season. Liverpool getting out of this crop 3,259,709 bales. If now we add the shipments from Tennessee and elsewhere direct to manufacturers, and Southern consumption, we have the following as the crop statement for the three years.

Year Ending September 1.	1894-95.	1893-94.	1892-93.
Receipts at the shipp'g p'rts, bales	7,882,163	5,983,392	5,124,476
Add shipments from Tennessee, &c., direct to manufacturers	1,157,251	820,490	858,965
Total	9,039,414	6,803,882	5,983,441
Manufactured South, not included above	853,352	723,329	733,701
Total Cotton Crop for the Year ..... bales	**9,892,766**	**7,527,211**	**6,717,142**

The result of these figures is a total of 9,892,766 bales (weighing 5,019,439,687 pounds) as the crop for year ending August 31, 1895, against 7,527,211 bales (weighing 3,748,422,352 pounds) as the crop for year ending August 31, 1894.

The distribution of these crops has been as follows:

	1894-95. Bales.	1893-94. Bales.	1892-93. Bales.
Consumption—			
North	2,154,170	1,613,971	1,747,314
South	853,352	723,329	733,701

Add— Stock net increase less foreign cotton imported	24,268	*107,252	*237,614
Total crop	9,892,766	7,527,211	6,717,142

*Net deduction.

United States.—The outcome of the cotton-manufacturing industry, taken as a whole, has averaged fairly well during the year ending with the first of the current month. To be sure, stocks of goods had accumulated when the new year opened, and for the first few weeks labor was disorganized. But these matters were soon adjusted, and since then, though prices of products have been low, the raw material also has been low, and the result has been a narrow but favorable margin. Those conditions are true when speaking of the entire year and in a general way.

At the same time it is a fact that conspicuous contrasts mark the twelve months. Compare the situation September 1 1894 with September 1 1895. At the former date managers were extremely cautious in their movements, and they had good reason to be. They had passed through a very trying year (1893-94), a year ever memorable for a period of almost complete stoppage of industries. Resumption of work in nearly every trade had already made and was then making monthly progress, but as yet the revival was very far from general and the expansion slow. Cotton spindles had begun to move again, and the movement among spinners was more extended than in many departments of business; it had not then reached full activity, and yet stocks of goods, as already said, had become troublesome. Moreover, a new tariff was just going into operation, and the effect of the changes in duties was still to be tested. Inasmuch as the managers of cotton mills are as a rule believers in protection and favored the old law, they naturally took an unfavorable view of the influence of the new revision on their industry. Led by these conditions, there was quite a general effort made a year ago in August and September to lower wages. Our readers remember the strikes that proposal caused in Fall River, New Bedford and elsewhere. The strike at New Bedford ended on the 11th of October after continuing for eight weeks, the men returning to work at the reduced wage scale. At Fall River, however, operations were not fully resumed until the close of October, the lock-out being terminated by the men accepting the proposition of the owners; thus it happened that from August 20 to October 30 the greater portion of the spindles in the Fall River mills was idle. This reduction in wages, however, and the declining price of the raw material, with a somewhat less rapid decline in goods, put and kept the trade in a profitable shape during the early half of the crop season.

Since the first of March there has been a material change in business conditions. As our readers well know, February was the occasion of the memorable Government bond sale, a transaction which reconstructed the industrial situation. Beginning with that event the progress towards the resumption of work, of wages and of restored prosperity has been rapid. In April current business had so much improved that many managers were able to redeem their promise and resume the payment of the old wages. Those that did not restore them in that month did so soon after. Now nearly every department of manufacture is paying more money to

its employees and almost all sections of the country are sharing in the benefits of revived business. The Northwest, owing to the small grain crops in 1891, has hitherto proved a most conspicuous exception, but with its bountiful harvests is just now likewise joining in the improvement. The best illustration of the new progress made is found in the iron trade. On the first of August 1895 there were 200 furnaces in blast, having a weekly capacity of 180,525 tons—the prospect also being that the September statement would show a large further increase—against 179 furnaces with a capacity of 163,391 tons February 1 1895 and 145 furnaces producing 115,256 tons per week August 1 1894. These iron figures represent the notable business revival that has been in progress and in good measure indicate the comparative condition of the cotton goods trade at the dates named and the development in the trade during the corresponding twelve months.

It is to be said though that in matter of price all branches of the cotton goods industry are not equally well situated. Cotton has advanced materially since February 1, but some makes of goods have not. Hence at the moment there are mills which if they had to buy the raw material at the present cost would be running at a loss. This, however, is obviously a temporary situation; almost all mills are full of orders and making money even now, while the trend of events is onwards and upwards, and when the new crops begin to move freely there can scarcely be a doubt of decided prosperity in all departments of the goods trade. For it is to be remembered that the existing activity in purchases of iron and of goods is based on only a very partial development of the country's capacity for consumption. All the Northwest a good part of the South, and the other agricultural districts, are only just now beginning to feel the influence of the industrial change. Besides, the great railroad interest has as yet not resumed much more than a small fraction of its ordinary expenditures. When all these forces at present held in check get in motion, as they are sure to do with the passing months, we look to see a consumption which will so fully tax the present productive power of the country as to make transactions not only large, but everywhere profitable.

With regard to the print cloth market it appears that, notwithstanding the almost complete suspension of operations at Fall River for fully two months, production there has been much more than in the previous year, aggregating 9,405,000 pieces in 1894-95, against 8,850,000 pieces in 1893-94. This line of goods has probably been better situated than any other so far at least as the margin for profit is concerned. While at times prices have been below those quoted on the same date last year, at other times they have been higher. The result is that the average price realized for 64x64s during 1894-95 has been 2¾ cents, against 2 78-100 cents for 1893-94, or a loss of only 3-100 cent. Contrast this decidedly slight decline in the manufactured product with the radical decrease in the cost of the raw material. The average price for low middling cotton in the New York market for the months October to April inclusive, the period when the mills accumulate the greater part of their stock, was this season barely 5½ cents per pound, whereas for the like period of 1893-94 the average was 7½ cents. Expressed in another form, the demand has been so free that manufacturers have obtained about as much for their goods this year as last, while their cotton has cost them fully 25 per cent less. The truth is, consumption of print cloths has more than kept pace with production. There had been an accumulation of stock in the old year. On August 17, 1894, manufacturers held 835,000 pieces. The lock-out served at once to reduce this total, the year closing on the 31st of August with aggregate holdings 726,000 pieces. During the twelve months since then, although the production has, as shown, been much more than the previous year's, there were only 181,000 pieces on hand Aug. 31, 1895, or a reduction during the year of 545,000 pieces. At the close of August in 1893 the aggregate stock of print cloths was 635,000 pieces, but in 1892 there was no stock. In 1891, however, manufacturers held 707,000 pieces and in 1890 their stock reached 603,000 pieces. In fact the stock at the close of August this year is smaller than at the same time in any year since 1888, only excepting 1892. Without attempting to follow at length the course of the market from month to month, we give the following, which shows at a glance the relative position of the raw material, printing cloths and other standard goods on the first day of each month during the past three years.

First Day of Each Month.	Year Ending with August 31—

Note.—Sheetings—Agents' prices (for Atlantic A) are given. Printing cloths are manufacturers' net prices. Discount on standard sheetings is almost invariably 5 per cent. For Lancaster ginghams, the prices in the present season are subject to a discount of 5 per cent.

* Owing to a prolonged strike at the Lancaster Mills these ginghams are hardly representative of present market. The Amoskeag, a corresponding fabric, has advanced to 5¼c.

The contrast the foregoing presents between this year's market and the market in 1893-94 is striking. It will be noticed also that the closing months of 1892-93 indicated a much less favorable situation than the earlier months of the same year, but that in 1893-94 the position was reversed, the closing months affording the better showing. These facts reflect the course of the recent depression this department of the cotton goods trade has passed through. The previous cycle of activity began about September 1, 1891. On September 1, 1892, we reported that the market was in the best shape it had been for years; there was no stock on hand and print cloths were wanted faster than they could be manufactured. About March 1, 1893, the turn in the position of the market came—it was almost imperceptible at first, but gradually the conditions became so adverse that on the first of August, 1894, quite a number of the mills found it necessary to shut down. The course of affairs since August, 1894, we have related above.

In connection with the foregoing and before passing to a review of the conditions of cotton-manufacture in the South, it will be interesting to note another feature that will long make the last cotton crop season conspicuous. We refer to the phenomenally low prices at which raw cotton has ruled so large a part of the twelve months as to make the year's average phenomenal also. In the table last given we have a statement of the price on the first of each month for three years. A further fact of interest is that at no time within the past half century have the quotations touched such low figures as in November, 1894, and February and March, 1895, when the price for low middling uplands at New York was 5⅛ cents. But what we particularly wish to make a record of is the year's average prices. For that purpose we have prepared the following, compiled from our records, which shows at a glance the highest, lowest and average price of low middling uplands in New York for each season since 1869-70.

	High.	Low.	Av'ge.		High.	Low.	Av'ge.
1894-95	7 3/4	5 1/8	6	1881-82	12 3/4	11 1/16	11 3/4
1893-94	8 1/8	6 7/16	7 1/4	1880-81	12 5/16	9 11/16	10 13/16
1892-93	9 9/16	6 5/8	8	1879-80	13 1/8	10 1/16	11 3/4
1891-92	8 3/16	6 1/4	7 1/4	1878-79	13 7/16	8 7/16	10 7/16
1890-91	10 9/16	7 3/8	8 5/8	1877-78	11 15/16	9 7/8	10 13/16
1889-90	12 5/16	9 3/4	10 13/16	1876-77	12 13/16	10 3/8	11 5/16
1888-89	11 1/16	9 1/8	10	1875-76	14 1/8	10 3/4	12 1/8
1887-88	10 15/16	9 1/16	9 13/16	1874-75	16 1/4	13 5/8	15
1886-87	11 1/16	8 5/8	9 1/2	1873-74	19 5/8	13 1/8	16 3/16
1885-86	9 1/16	8 3/8	9	1872-73	21 1/4	18 1/4	19 1/8
1884-85	11 3/16	9 3/8	10 1/16	1871-72	26 3/8	18	21 7/16
1883-84	11 9/16	9 3/4	10 5/8	1870-71	20 3/8	13 1/2	16 3/16
1882-83	12 7/16	9 1/2	10 1/8	1869-70	34 1/4	18 1/2	23 1/4

Prior to October 1, 1874, quotations were by old classification, which was about ⅜c. higher than new.

Even the above comparison does not tell the whole story from the producers' point of view. An average of only 6 cents a pound at New York for low middling cotton during the whole twelve months is a severe experience. But to approach the figures the planter has received we must go further than that. An obvious deduction to be made is the average expense of getting the cotton from the plantation to New York, which would not be far from one cent. Then again the crop on many plantations has not averaged as high as low middling. But without dwelling on that point it is sufficient to recall the fact, already mentioned, that almost all the crop is sold

within the months from October to April, and that during that time the price at New York barely averaged 5½ cents.

Turning next to that interesting branch of our subject, cotton-manufacturing in the South, we find results which are certainly gratifying. It seems that the production of goods, which lagged somewhat at the opening of the season, was soon after being prosecuted under full pressure, and since the beginning of January all the mills have been running at their full capacity, and in many cases night and day. It is needless to say that the year has been a more profitable one than that immediately preceding it, and that the outlook for the future is generally considered to be very bright. This condition of things has had the effect of greatly stimulating the building of new mills and the enlargement of existing factories.

We have continued this year the work of gathering full information with regard to the development and operation of Southern factories during the season—an annual census which we began nearly a decade ago. Within the past month not only have we procured from each mill returns as to the actual consumption of cotton in bales and pounds and the number of spindles and looms added, working and idle during the twelve months, but also considerable information with regard to new mills now in course of construction and the further additions to existing plants in contemplation. The returns made to us have been extremely prompt and complete, so that we can today give the actual condition in these particulars of almost every factory in the South. The aggregates of our detailed returns arranged by States are as follows. It should be remembered that these figures include (1) mills in operation all the year; (2) new mills started up during the course of the year; and (3) also a few mills which have been in operation this year but have stopped temporarily and expect to start up again in 1895-96.

NOTE.—Much new machinery has been put in operation within the last few months, increasing the number of spindles appreciably without affecting consumption to any extent.

That the prevailing tendency at the South still is to build larger mills or increase the spinning power of old ones is indicated by the fact that the number of spindles per mill in the last season reached 7,389, against 6,751 in 1893-94, 6,631 in 1892-93 and 6,619 in 1891-92. The number of spindles in 1894-95 aggregated 46½ per cent more than in 1889-90 and 9½ per cent more than in 1893-94. These returns for the last six years include as heretofore the spindles in operation and those shortly to start up again. In a subsequent table for the whole country we include those idle for a year or more, omitting only those that are old and useless and permanently out of employ. It further appears from the returns made to us that there have been 14 old mills running 40,884 spindles stopped, and 15 new mills running 47,440 spindles started, making a net addition of 1 new mill running 6,556 spindles during the year. Moreover, the total new spindles added this year is 212,039 net, showing that 205,483 of these spindles have been an increase in the spinning capacity of old mills. Aside from the above, we have knowledge of 14 new mills containing 148,000 spindles which expect to start up within a short time, and there are 15 mills in course of construction but which will not be in operation until after the first of January. Extensive additions to old mills, aggregating fully 300,000 spindles, are also contemplated in the near future.

There is one other branch of the cotton goods industry in the United States we must not leave unnoticed. We refer to the exports of cotton goods, a department which, although being well cultivated, does not show such expansion as has been expected. Notwithstanding the efforts put forth to gain a footing in foreign markets, the movement from this country keeps extremely small. The current year's shipments have been slightly less than in 1893-94, but this falling off is due entirely to the smaller takings by China. The total exports to other countries record a fair increase, South America in particular having absorbed an enlarged quantity of our cotton manufactures. The table below does not include cotton goods exported to China via Vancouver, which also reached a less important aggregate than in either of the two preceding fiscal years. For the fiscal year 1895 these shipments were 21,230 packages, containing 18,398,000 yards, against 30,309 packages or 20,589,000 yards in 1893-94, 25,686 packages or 18,295,800 yards in 1892-93, and 18,465 packages or 12,592,400 yards in 1891-92. It is so well understood that the main cause for the falling off in this movement to China has been the late war between that country and Japan that any reference thereto seems unnecessary.

In the table below we merely give—as stated above—the aggregate exports as reported by the Bureau of Statistics, and they record a loss the past year of $350,473. By referring, however, to the detailed statement published in the CHRONICLE of Aug. 17, page 289, we find that the exports to China decreased 17,067,517 yards, or nearly 34 per cent, during the season, but that as a rule other countries took a greater quantity of our manufactures than in the previous year. The official record of the last five years is as follows:

Exports of Cotton Manufactures.	Year Ending June 30— 1895.	1894.	1893.	1892.	1891.
Colored Goods	Yds. 58,467,763	61,535,459	43,016,1[illegible]	40,815,450	39,027,682
Do	Value. $3,444,53[illegible]	$3,554,6[illegible]	$2,502,16[illegible]	$2,484,960	$2,591,419
Uncolored goods	Yds. 125,760,81[illegible]	124,819,378	100,776,[illegible]	142,958,871	135,518,590
Do	Value. $7,311,67[illegible]	$7,[illegible]8,851	$6,[illegible]6,02	$8,674,66[illegible]	$9,270,497
Other manf'e of	Value. $4,310,[illegible]	$3,843,807	$3,70[illegible],871	$3,058,254	$1,804,811
Total cotton manufactures exported	Value. $15,066,810	$14,340,693	$11,[illegible]9,355	$13,2[illegible]6,277	$13,472,657

A similar exhibit covering India's shipments we have also given for a number of years by way of comparison. It should be borne in mind that if we were to go back to 1876 India's total would be very small, the value for that year having been but £963,000, or say less than 3½ million dollars, while that of the United States for the same year was $7,723,978. The record for the last six years has been as follows:

Cotton.	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.
	£	£	£	£	£	£
Twist & yarns	5,673,094	4,974,153	6,773,689	5,771,089	6,543,384	5,748,722
Manufactures	1,479,586	1,368,425	1,347,176	1,284,062	1,159,475	1,005,011
Total	7,[illegible]52,680	6,342,578	8,120,865	7,055,151	7,702,859	6,753,733

☞ The official figures are given in rupees, and we turn them into pounds sterling on the basis of ten rupees to a pound. That of course does not make allowance for the depreciation of the rupee, but under the circumstances it probably makes the comparison as nearly correct as it can be made in values.

The shipments this year, it will be seen, exhibit an appreciable increase over the total for 1893-94, but are less than in either 1892-93 or 1890-91. At the same time India's export trade in cotton goods is much heavier than that of the United States, the aggregate value of her shipments for 1894-95 having been £7,148,680, or $35,500,000.

As to the number of spindles in the United States, it is to be said that there are very few idle now, practically none except those that are permanently out of use. A considerable number of new spindles have been set in motion the past twelve months and much work in the way of extending the producing capacity of old mills and the building of new factories is now in progress. This is a natural result of the revival of business activity. The aggregate net gain in spindles at the North has been about 150,000 spindles, and we have information of fully 200,000 spindles that will be in motion within the next six months. At the South, according to our returns, through new mills and additions to old mills there has been a gain of 142,124 spindles. With this year's changes the number of spindles in the whole country at the close of 1894-95 and of the previous five years would be as stated in the subjoined table. It should be said in explanation of our compilation of total spindles that *this statement represents all mills, whether in operation or not* (except such as have been closed with no present intention of starting up again), whereas the details of Southern mills by States given previ-

ously represent only mills in operation in some portion of 1894-95, or about to start up.

Spindles.	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.
North.....	13,700,000	13,550,000	13,475,000	13,275,000	12,925,000	12,825,000
South.....	2,433,948	2,291,064	2,166,023	2,002,869	1,856,000	1,725,000
Total....	16,133,948	15,841,064	15,641,023	15,277,869	14,781,000	14,550,000

American spinners close the year with much larger stocks of cotton. The takings through the year of Northern and Southern spinners have been as given below:

Total crop of the United States as before stated.....bales.			9,892,766
Stock on hand commencement of year (Sept. 1, 1894)—			
At Northern ports.....	104,810		
At Southern ports.....	78,927—	183,737	
At Northern interior markets.....		3,001—	186,738
Total supply during the year ending Sept. 1, 1895.....			10,079,504
Of this supply there has been exported to foreign ports during the year..	6,719,713	.....	
Less foreign cotton included	74,839	- 6,644,874	
Sent to Canada direct from West.....		99,092	
Burnt North and South.....		42,171	
Stock on hand end of year (Sept. 1, 1895)—			
At Northern ports.....	169,527		
At Southern ports	110,536—	280,063	
At Northern interior markets.....		5,782 -	7,071,982
Tot. takings by spinners in the U. S. for year end. Sept. 1, 1895			3,007,522
Taken by Southern spinners (included in above total).....			853,352
Total taken by Northern spinners.....			2,154,170

* Burnt includes not only what has been thus destroyed at the Northern and Southern outports, but also all burnt on Northern railroads and in Northern factories.

These figures show that the total takings by spinners North and South during 1894-95 have reached 3,007,522 bales, of which the Northern mills have taken 2,154,170 bales and the Southern mills 853,352 bales. Our summary of takings and consumption on the basis of *no stocks in the hands of Northern spinners on September* 1, 1875, reaches the following results. The width of our columns compels us to omit the results of the years 1875-76 to and including 1888-89.

Takings and Consumpt'n.	1889-90.	1890-91.	1891-92.	1892-93.	1893-94.	1894-95.

The foregoing leaves stocks in spinners' hands at 360,618 bales, and shows that the United States consumed 2,694,121 bales.

Europe.—The conspicuous feature of the European spinning trade during 1894-95 has been the enlarged use of cotton in face of a slow and depressed market for goods at many centers of manufacture all through the year, or at least until within the last month or six weeks. The consumption of the raw material, according to Mr. Ellison, has been estimated at 82,000 bales per week in Great Britain, or 2,000 bales per week more than last season, and 98,000 bales per week on the Continent, or 5,000 bales each week more than the previous year—all bales of the average weight of 400 pounds. A further circumstance of some significance relating to the same point is that this increased European consumption of cotton has occurred notwithstanding the war which has been in progress a large portion of the year between China and Japan, and notwithstanding also the smaller takings by India if we include both yarn and cloth. So far as Great Britain is concerned, the year's increase in manufactured cottons has nevertheless in great part been absorbed by export to countries other than those mentioned above, and chiefly to Africa. In this manner the year's exports of yarn and cloth by Great Britain have so far been added to as to exceed any recent former year in spite of the falling off to India, etc.

It seems a little inconsistent that poor trade and larger exports should be concurrent, especially when we may assume that the home demand was no worse and probably better than in the previous year, for general business in Great Britain has been reported better in 1894-95. The explanation is apparent: The result has been largely due to the condition that India, Great Britain's largest customer, was overstocked with goods when the season began, supplies in excess of immediate consumption having been sent there in 1893-94, in anticipation of the imposition of an import duty. The demand from that quarter the current season has consequently been of such a negative character as to leave the advantage in all proposals with the buyer. Add to that the further fact that a declining price for the raw material through the year always makes a bad market to sell goods on, and we probably have the explanation for the unsatisfactory situation which has existed. Probably under the circumstances even a halting demand for the increased products would not have been found, had it not been for the temptation which the very low prices of cloths and yarn held out to buyers, due to the abnormally low price of cotton.

As the year closes there seems to be something of a revival in the tone of the market and the character of the demand—that is, there is more of spirit in the one and of urgency in the other. This, though, has not as yet proceeded far enough to correct the relation of prices between the product and the raw material; but that will come in course of time if there is no set-back. The only unfavorable circumstance is the poor crops in Great Britain, which may lessen the home requirements for goods. On the other hand, the prospect of a better foreign demand, we think, is good. An influence of no small proportions, one which will help give an impulse to commerce the world over, is the decided revival of business activity which is sure to prevail in the United States. If the reader will study Europe's trade history he will find how important a feature the United States demand has proved in the past, and how quickly Europe's, and especially Great Britain's trade, has responded to revived activity here. Not until the volume of the silver issues became so excessive as to disturb the free action of these reciprocal commercial relations between Europe and America did this influence fail to assert itself.

We have already referred to the decrease this year in the shipments of goods to India by Great Britain and the disturbance likewise of the trade with China and Japan by the war. A feature of the movement to India is that while the takings of the finished products are smaller there is a material increase in shipments of yarns; and we notice that the current year's increase in yarns is in addition to a gain in the same item the previous season. This addition is reported to be a movement through India to China and Japan, to which countries the direct shipments of yarn have during the corresponding periods fallen off. It is interesting to note, however, that Great Britain's total shipments of yarn to all countries are this year larger than for several years, while the shipments of goods are smaller than a year ago; furthermore it appears that the only countries specified to which the direct shipments of yarn by Great Britain have not increased are Holland, China and Japan, Turkey and Egypt. We give below a statement showing first the shipments of goods and yarns by Great Britain to India stated separately for two years and in subsequent columns the similar figures for China and Japan given together. Each movement is presented in three columns; the first column covers yarns in pounds, the second piece goods in yards and the third the total of both yarns and goods in pounds.

Great Britain's Exports to—	India			China and Japan.

* Estimated for the quarter on the July movement.

Our totals of pounds in the foregoing are of course not exact. It must be borne in mind also that the current year's figures are *estimated* for the last two months of the last quarter but the previous two years are the completed officia results in all respects except that the totals in pounds are prepared by ourselves, as just stated.

To complete the record we give in connection with the foregoing a general compilation which covers the total exports from Great Britain to all countries of cotton goods and cotton yarns and also a total of both, reduced by us to pounds to perfect the comparison. The results by quarters only are given here, the statement by months appearing in our cotton report generally the third Saturday each month. That the reader

may not be misled we repeat with reference to this statement what we have just said with reference to the previous table, that for the last two months of the last quarter of the current season the figures are estimated on the basis of the July movement, the official statement for those two months not having been published as we write. *Three ciphers are omitted.*

GREAT BRITAIN'S COTTON GOODS EXPORTS FOR TWO YEARS.

	1894-95.			1893-94.		
	Yarns, Pounds.	*Piece Goods, Yards.*	*Total, Pounds.*	*Yarn, Pounds.*	*Piece Goods, Yards.*	*Total, Pounds.*
1st quar.—Oct.-Dec.	68,241	1,3[illegible]	321,816	61,371	1,276,814	317,759
2d " —Jan.-Mar.	71,189	1,2[illegible]	314,462	60,830	1,401,484	350,211
3d " —Apr.-June.	66,[illegible]18	1,1[illegible]3,500	294,143	65,[illegible]9	1,[illegible]1,816	297,714
4th " —July-Sept.	67,350	1,400,[illegible]00	350,174	63,820	1,[illegible]1,[illegible]62	316,994
Total	273,698	5,2[illegible]5,384	1,281,595	246,300	5,215,216	1,282,174

These total results show what we have before set out, that measured in pounds the export movement has been larger the current year than last year. But that conclusion does not tell the whole story; the truth is it has been larger the current year than in any one of the last eleven years, the period in which we have kept the record in this form. That is quite a remarkable circumstance, especially when we recall the further fact previously stated, that the year has not been a profitable year either for those who have spun the yarns or for those who have made the goods.

It will make this record more complete by giving a brief summary of prices. We have made the statement cover the last three years, so that the figures may reflect the comparative situation. It is interesting to notice that cotton dropped below 4d. per pound in June 1894 (being quoted in Liverpool June 30, 1894 at 3 15-16d.) and reached the lowest point in its downward movement in January 1895, the price on the 31st of that month being 2 31-32d., and only averaged 3d. per pound for the three months December 1894 to February 1895; for the next three months, March to May, it averaged 3 5/8d. and for the three months ending August 31st 1895 the average was 3 3/8d., the close on August 31st being 4 7-32d. A glance at the quotations for both yarn and piece goods shows how narrow during the greater part of the season must have been the margin for both the spinner and the manufacturer.

We now add by months the course of the Manchester goods market during the season closing with August 31 1895, and also the Liverpool cotton market in the same form for the same period. These summaries have been prepared for this occasion with great care and the details will we think prove an interesting and useful record for reference.

SEPTEMBER.—*Manchester.*—September, 1894, opened on a discouraging outlook; and yet the recent decreased production of goods added to less favorable crop news from America had caused a slight recovery in cotton and its products even in August, which in the first part of September induced a little better inquiry for goods, coupled with a slight rise in values of both yarns and cloth. This little impulse to business likewise continued throughout the greater part of the succeeding fortnight, but the larger crop estimates from the United States that began to be current then, prevented any further marking up of prices; in fact, taken in connection with the restricted demand, these estimates were instrumental in bringing about a further decline, which set in on the 20th. The demand again increased a trifle in the last few days of the month, but the general course of the market continued downward. This lower range of values and unremunerative goods market explain the small consumption of cotton by Great Britain in September; for it was because of that condition that the annual holidays which fall in that month were prolonged in some districts and short time was adopted in others. Mr. Ellison's estimate of consumption for September, 1894, was an average of only 70,000 bales of 400 lbs. each per week in Great Britain against 82,000 bales in September, 1893, and 92,000 bales of like weight on the Continent September, 1894, against 88,000 bales in September, 1893. The exports of yarns and goods from Great Britain kept up very well considering the conditions; the total (all reduced to pounds) were in September 102,821,000 lbs., against 102,321,000 lbs. in 1893. *Liverpool.*—The cotton market opened the month with middling uplands ruling at 3 3-16d., or 9-16d. lower than on the corresponding day in 1893. During the first few days of the month reports of damage to the crop in the United States by heavy rains stimulated trade, with the result that by the 6th instant quotations had been marked up 3-32d. Advices from America subsequently, however, covered favorable news with regard to crop prospects, and notwithstanding a good demand from spinners a decline set in which carried prices steadily downward, the close being at 3 17-32d., or a loss of 9-32d. from September 1.

OCTOBER.—*Manchester.*—The goods market in October was adversely affected by the course of cotton. In the first few days of the month quotations ruled slightly higher than during the closing days of September, but then prices began to sag off, and by the end of the month yarns had lost about 1/4d. and cloth 1 to 2d. This close alliance between goods and the raw material is nearly always observable. Buyers of goods as a rule look for lower prices, and so are not eager purchasers when the raw material is declining. Business was not large in any direction, and yet the better grades were in fair request at times. During the month the exports of yarns and goods from Great Britain reached the large aggregate of 117,587,000 lbs., against 103,162,000 lbs. in October, 1893. The estimate of consumption in October was 83,000 bales of 400 lbs. each for Great Britain and 98,000 bales of like weight on the Continent. *Liverpool.*—Crop advices from the United States played a very important part in determining the course of the market during October. At the opening of the month there was a good demand, but at declining quotations. On the 3d instant, however, stronger cables from New York gave an upward turn to prices. The improvement was of short duration, the free crop movement in America and the larger estimates of the yield (10 million bales being now the favorite figures) inducing a weak feeling, under which a downward turn set in on the 6th and was not arrested (and then only temporarily) until the 15th, the falling off in the interim reaching 3-16d. During the remainder of the month liberal purchases served at times to steady the market, but the general tendency of prices was towards a lower level, the close being at 3 5-32d., a net loss since the 15th of 5-32d., and a total decline from the opening of 9-16d.

NOVEMBER.—*Manchester.*—The development during November in the market for raw material operated further to the disadvantage of spinners. No little demoralization was caused by the crop estimate referred to below, issued on the 7th of the month, and by the material decline in the staple which followed; moreover the subsequent rise only further disturbed calculations, making both buyers and sellers of goods cautious. As a consequence the volume of transactions was only moderate, and production was to a small extent curtailed. These conditions with reference to the raw material were the more burdensome because India was over-supplied with goods, the China demand was checked by the war, and the state of trade in the United States had reduced its wants. Nevertheless exports continued free, the shipments of yarns and goods from Great Britain (all reduced to pounds) being in November 109,[illegible],000 lbs., against 101,718,000 in 1893. Mr. Ellison's estimate of consumption in November both for Great Britain and on the Continent was the same as for the preceding month. *Liverpool.*—A fair business in spot cotton at steady rates was in progress the first few days of November, but the market became almost panicky after the issue on the 7th instant of the large crop estimate of 10¼ million bales made by an American firm. This started a decline under which in the succeeding four days middling uplands dropped to 3 31 32d., or 5-32d. below the ruling quotation of November 1. Encouraging reports respecting the business outlook in America on the 13th imparted a more cheerful tone to the market, and there was a recovery of 1-16d. Demand continued light, however, and price again gave way 1-32d. on the 15th. On the 19th cables tending to discredit the estimates of yield put forth earlier in the month led to an upward turn to prices, and quotations rose steadily, the culminating point being reached on the 27th with middling uplands at 3 7-32d., a gain in the interim of 3-16d. A slight reaction occurred subsequently, but the close was at 3 5-32d., or 1-32d. above the opening price of the month.

DECEMBER.—*Manchester.*—The very low prices for goods incident to the low values ruling for cotton seem to have stimulated the demand for spinners' products. Evidence of this is found in the continued large export movement. We have referred to that feature in this summary for previous months. The December exports were not quite as large as those for October and November, but were larger than for the same month of either of the previous four years. India and China took less, but this loss was more than made good in the movement to other points. Further proof of the active distribution of goods is shown by the large purchases of cotton and the increased consumption, though prices of the manufactured articles were unremunerative. Notwithstanding these facts the goods trade showed no real life; there was no anxiety for business among buyers except upon their own terms. Under these circumstances it is hardly necessary to

add that prices during the month further receded. Exports of cotton manufactures from Great Britain were during the month 105,019,000 lbs., against 102,887,000 lbs. for the same period of 1893. The previous month's rate of consumption was maintained. Consumption in December was reported at 180,000 bales, against 173,000 bales in 1893. *Liverpool.*—The continued heavy crop movement in America, giving confidence to those who anticipated an excessively large yield, served to check any tendency toward an increase in dealings. In fact on the first day of the month middling upland fell off 1-16d., without bringing in buyers. According as the news from day to day was considered to be favorable or otherwise to the market, prices rose or fell slightly, but the net result for the month was a decline of 3 32d., the close being at 3 1-16d. The holidays acted to curtail operations materially.

JANUARY.—*Manchester.*—Among spinners the new year opened on a gloomy prospect. Already the loom was either standing or running at the beck and call of the buyer. That is to say, every proposal had been taken in December by the manufacturer that did not show too great a loss, the controlling object being to keep the mill in operation. Few concerns had made money in 1894, and many had actually netted a loss. With such a background, the first of January held out cold comfort to the spinner. To the conditions which had produced the past the future afforded a prospect of other conditions of a like character—an assurance that the yield of cotton had been considerably in excess of the world's requirements; an industrial outlook in America becoming daily more disturbed; the India market, already oversupplied, promising to be further handicapped by an import duty; and finally the war in China still progressing. To the foregoing we will only add that goods were made and distributed in excess of January, 1894. But though the spinner did the work all the benefits from the low prices of cotton and goods went to the consumer. The January exports of yarn and cloth reached a total of 114,613,000 lbs., against 108,695,000 lbs. in 1894. In Great Britain and on the Continent the rate of consumption was estimated the same as in the preceding month. *Liverpool.*—The feature of the cotton market the first week of the new year was a good demand from consumers; as a result prices hardened somewhat and were marked up 1-16d. on the 8th. This improvement did not last, the continued heavy crop movement in America, inducing free offerings, weakened values. Prices consequently receded to 3 1-16d. on the 11th, and although no further decline occurred until the 19th the general tendency was downward. A falling off of 1-32d. on the 19th was followed by similar decreases on the 23d and 28th, the quotation for middling upland on the latter date having been 3 31-32d. No further change occurred, and the market closed at a net loss of 3-32d. from the opening.

FEBRUARY.—*Manchester.*—There was no material change in conditions in February. A quiet feeling pervaded the market all through the month. The majority of manufacturers continued to sell their goods below cost, and yet in the aggregate there was no material falling off in production. Transactions closely approximated current production, yet prices showed some decline on both yarns and goods. Toward the close of February reports were current that an attempt would be made to reduce by 5 per cent the wages of operatives. As to exports, they were less than the same month a year ago; at the same time as the month was only 28 days the total was a fair average, being 99,553,000 lbs., against 109 841,000 lbs. for the like period of 1894. Estimated consumption was unchanged. *Liverpool.*—American cable advices served to impart steadiness and an upward tendency to the market during February. There was apparent a disposition in America, and especially at the South, to hold cotton for higher prices, and the inference drawn therefrom in Liverpool was that a considerable reduction in area was contemplated for the next planting. A fair demand from consumers was noted in the opening week, and this, with the circumstances mentioned above, caused a hardening of values, and finally on the 7th middling upland was marked up 1-32d. A falling off in receipts at United States ports assisted in bringing about a further advance of 1-32d on the 18th, middling uplands being quoted at 3 1-32d.; but an increase in the crop movement subsequently was a weakening influence, and the price reacted to ⅞d. on the 25th. At this figure the market closed on the 28th, the net gain during the month having been 1-32d.

MARCH.—*Manchester.*—A new and favorable turn was apparent in Manchester in March. This was the result of a decided change of condition and feeling in financial circles in New York and London since the bond sale effected by the United States Government early in February; of evidences daily gaining strength of an approaching end to the Japanese-Chinese war, confirmed on the 30th of March by the signing of an armistice suspending active hostilities as a preliminary to a peace conference; also of the new activity and higher prices for cotton. Transactions were on a very much larger scale than for some time previously, and prices hardened materially. Spinners and manufacturers were both reported to be largely under contract as the month closed. Exports of yarns and goods continued large, aggregating 105,654 000 lbs., against 111,847,000 lbs. in 1894. The previous month's rate of consumption both in Great Britain and on the Continent was maintained. *Liverpool.*—The market was quite firmly held during the opening days of March, and with an increased spot demand quotations soon hardened and a rise set in. At first the upward movement was very gradual—1-32d. at a time—but the aggregate advance between the 4th and 14th was 3-16d. Subsequently reports current that a peace between Japan and China was likely soon to be concluded imparted increased strength to the market, and by the 20th prices had made a further gain of 5-32d. Other influences of a favoring character are noted above in our remarks with regard to the Manchester market. Values weakened somewhat on the 21st, and then came a reaction under which quotations fell off 3 32d., but the greater part of the decline was recovered between the 25th and the close. The final quotation for middling uplands was 3 5-16d., a gain of 5-16d. for the month.

APRIL.—*Manchester.*—Trade in the cotton-manufacturing districts of Great Britain was quite satisfactory all through April at gradually advancing figures, the same influences acting as predominated in April. The demand for both home consumption and export showed an improving tendency and gave a firm tone to the market. Yarns were marked up 5-16d. to ⅜d during the month, and the gain in shirtings approximated 1⅛d. Yarns and goods exports from Great Britain were 101.970,000 lbs., against 101,642,000 lbs. in April of 1894. The rate of consumption by the mills, both in Great Britain and on the Continent, was estimated the same as for the preceding month. *Liverpool.*—April witnessed considerable activity in the market for the raw material, broken only by the Easter holiday recess. Very satisfactory news from the manufacturing districts and reports from America of renewed confidence in business circles, besides advices which pointed to a materially decreased area in the South for the next crop, were elements contributing strength and a firmer feeling; these influences were heightened by the impending ratification of peace between Japan and China. At the opening of the month middling upland was quoted at 3 11-32d., from which point the market steadily advanced to 3⅝d. on the 20th, or a gain in the interim of 9-32d. At that price the market closed on the 30th after slight fluctuations during the intervening days.

MAY.—*Manchester.*—There was no change in tone or character of the goods market in May. A fairly satisfactory volume of business was transacted at some slight advance in prices. Manufacturers were said to be well under contract for forward deliveries, and therefore showed no disposition to shade ruling quotations. Exports of cotton manufactures, from Great Britain continued free; they were during the month 102.452,000 lbs., against 98.292,000 lbs. for the same period of 1894. Estimates of consumption were unchanged. *Liverpool.*—The tendency of the market was downward at the opening of the month, in consequence of reports from the United States which indicated that under the influence of the higher prices for cotton the planting would be larger than the earlier reports promised. Quotations, however, were but slightly affected. The market opened at 3 9-16d. for middling uplands, a loss of 1-16d. from the closing price of April, but recovered to 3⅝d. on the following day. Subsequently, and continuing up to the middle of the month, fluctuations were within narrow limits, up and down, leaving quotations on the 15th the same as on the 2d. Favorable advices from the manufacturing districts, not only of Europe but of the United States, were an important factor during the succeeding fortnight, and under their stimulating influence an advance of ¼d. was secured, the close being at 3⅞d., or a gain for the month of ¼d.

JUNE.—*Manchester.*—June was a little disappointing to manufacturers in Great Britain, the volume of transactions for the month having fallen below expectations. It was anticipated that after the May holidays a better demand for goods would spring up, more particularly for export, but while home trade showed some improvement the inquiry for foreign markets was for the most part poor. Following the course of the market for cotton, prices for manufactures eased off gradually, aggregating a decrease of about ¼d. on yarns and 1d. on shirtings. Yarns and goods exported from Great Britain were 88 925,000 lbs., against 97,655 000 lbs. in June of 1894. The rate of consumption by the mills, both in Great Britain and on the Continent, was as estimated for preceding months. *Liverpool.*—Operations were carried on with much caution all through the month, the market being largely under the influence of news from America. Cotton acreage reports in the United States were a feature of the month, but they had no marked influence, being variously interpreted, owing to the uncertainty imparted to prospective results through a new estimate of previous acreage put out by the Agricultural Department. Perhaps that was a chief cause for the greater caution which prevailed. The Whitsuntide holidays interfered materially with business during the first week of the month, the Liverpool Cotton Exchange remaining closed on the 1st and 3d and from the 6th to 8th, inclusive. At the opening on the 4th middling upland declined 1-32d. as a result of a weakening of values in the United States, but the loss was recovered the following day. On the 10th a rise of 1-32d, was recorded. For the remainder of the month the general trend was downward, this result being ascribable to more favorable crop advices and a rather light demand from spinners. But the decline was moderate, the net loss on middling upland between the 12th and 29th reaching 3 16d. The close was at 3 11-16d., or a falling off from the final May price of 3 16.

JULY—*Manchester.*—During the first week of July a better tone prevailed in the goods market and a fair volume of transactions was reported, but subsequently trade became quiet and dealings were on a restricted scale. Among the features of the month was a somewhat improved inquiry for

India, but at such a low range of values that manufacturers were averse to accepting the prices offered. It is not anticipated that a remunerative business can be done with India until the stocks in the hands of native dealers are further reduced, now that cotton has advanced. Another factor contributing to the unsatisfactory state of affairs was the election, which occupied public attention and thought. About the middle of the month a slight curtailment of production was talked about. Exports of cotton goods from Great Britain during July were on a liberal scale, being larger than in any month since January, reaching a total of 144,362,000 lbs., against 111,354,000 lbs. for the like period of 1894. The previous month's rate of consumption, both in Great Britain and on the Continent, was maintained. *Liverpool.*—An improved feeling was manifest at the beginning of the month, consequent upon the elimination from the market of many timid holders in the closing days of June. Quotations were marked up 1-32d on the 1st and again on the 3d, middling uplands then ruling at 3 3/4d. This advance of 1-16d. was lost, however, on the 5th and 6th, but fully recovered on the 8th and 9th, to be lost again between the 11th and 13th on more favorable crop advices from America than had been looked for. During the remaining days of the month fluctuations were within narrow limits, the close being at 3 11-16d., or the same as the final June price.

AUGUST.—*Manchester.*—The market for goods showed improvement both in tone and price during August. This was chiefly due to the developments with reference to the raw material. Reports and indications tended to show that the American crop had probably been over-estimated. This was just the stimulant buyers of goods needed. Prices of the raw material advanced the finished products went up and the demand for them from being indifferent became urgent. Trade was interfered with in the early part of the month by the holidays, which extended from the 3d to the 6th inclusive; but when business was resumed it was at hardening prices and with dealings somewhat larger in volume. Towards the middle of the month orders came in quite freely from China and a little later a good demand from India was a feature. Quotations rose gradually with cotton and for the month the increase in yarns reached 7-16@1/2d., while shirtings were marked up 1@1¼d. *Liverpool.*—Reports from America with reference to the condition of the growing crop were the conspicuous influence which controlled the market during August and in part of much firmness. The market opened the first day of the month at 3 11-16d. for middling uplands. An advance of 1-32d. was recorded on the following day. A further gain of 1-16d. occurred on the 7th and the Agricultural Department's report, which showed a lower average condition than had been anticipated, was responsible for a further increase of 1/2d on the 12th. Between that date and the end of the month better reports from the manufacturing districts and small receipts of cotton at the ports in the United States, besides advices from America, confirming the less favorable crop conditions, stimulated a further net advance of 5-16d., the close being at 4 7-32d. for middling upland, or a gain for the month of 17-32d.

We now add our usual tables of consumption and supply of cotton. These figures are not the takings of the mills, but the actual consumption of the mills, *and are in all cases expressed in bales of 400 pounds.*

Consumption. Bales of 400 lbs.	Europe			United States			Total World.
	Great Britain.	Continent.	Total Europe.	North.	South.	Total U. S.

* Figures for European Consumption for 1893-94 and 1894-95 will probably be changed slightly by Mr. Ellison when he makes up his October annual.

The foregoing clearly demonstrates the course of the cotton industry in Europe and the United States. By including India, the actual world's consumption for a series of years would appear as follows:

World's Consumption.	Great Britain.	Continent	United States.	India.	Total.
1879-80	3,350,000	2,750,000	1,981,000	301,480	8,382,480
1880-81	3,572,000	2,956,000	2,118,000	371,400	9,017,400
1881-82	3,640,000	3,198,000	2,197,000	389,600	9,424,600
1882-83	3,744,000	3,380,000	2,375,000	447,400	9,946,400
1883-84	3,666,000	3,380,000	2,244,000	520,700	9,810,700
1884-85	3,433,000	3,255,000	1,909,000	584,800	9,181,800
1885-86	3,628,000	3,465,000	2,278,000	630,300	10,001,300
1886-87	3,694,000	3,640,000	2,423,000	711,800	10,468,800
1887-88	3,841,000	3,796,000	2,530,000	771,670	10,938,670
1888-89	3,770,000	4,069,000	2,685,000	870,880	11,394,880
1889-90	4,034,000	4,290,000	2,731,000	988,293	12,043,293
1890-91	4,230,000	4,538,000	2,958,000	1,155,328	12,881,328
1891-92	3,977,000	4,524,000	3,220,000	1,142,619	12,863,619
1892-93	3,583,000	4,576,000	3,189,000	1,147,598	12,495,588
1893-94	4,140,000	4,822,000	2,830,000	1,199,234	12,891,234
1894-95	4,264,000	5,036,000	3,219,000	1,270,000	13,789,000

NOTE.—The above does not include American cotton consumed in Canada, in Mexico, and burnt.

Another general table which we have compiled of late years is needed in connection with the foregoing to furnish a comprehensive idea of the extent and expansion of this industry. It discloses Europe and America's cotton supply, and the sources of it. The special points we have sought to illustrate by the statements are, first, the relative contribution to the world's raw material by the United States and by other sources, and, second, to follow its distribution.

WORLD'S SUPPLY AND DISTRIBUTION OF COTTON.

	Visible and invisible begin'g of year.	Crops. United States.	Crops. Supply of other Countr's	Crops. Total Crop.	Total Actual Consumpt'n.	Balance of year's supply. End of Year. Visible	Balance of year's supply. End of Year. Invisible.	Burnt, &c.†
1866-67	[illegible]	[illegible]	2,178,000	4,108,000	3,858,000	1,400,000	210,000	30,000

Average	[illegible]	[illegible]	[illegible]	9,[illegible]	9,[illegible]	[illegible]	[illegible]	117,000
1890-91	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	1,[illegible]	560,000	160,000
1891-92	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	2,[illegible]	647,000	[illegible]
1892-93	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	436,000	125,000
1893-94	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	[illegible]	430,000	125,000
1894-95	[illegible]	[illegible]	[illegible]	14,[illegible]	[illegible]	[illegible]	[illegible]	[illegible]

To illustrate the preceding, take the last season, 1894-95, and the results would be as follows:

Supply—Visible and invisible stock beginning of year		2,707,000
Total crop during year		14,050,000
Total supply—bales of 400 lbs.		16,757,000
Distribution—Total consumption	12,570,000	
Burnt, &c., during year	125,000	12,695,000
Leaving visible stock	2,790,000	
Leaving invisible stock	1,272,000	
Total visible and invisible stocks at end of year		3,962,000

† This column covers cotton exported to countries not covered by the area of consumption, and cotton burnt in U. S., on sea, and in Europe.

Overland and Crop Movement.

Overland.—The volume of cotton carried overland shows very naturally a considerable increase. With a crop over 2¼ million bales greater than in the preceding year, the marketing of a larger aggregate by the all-rail route was to be anticipated. More particularly is this true when, as in the present instance, the increased yield occurred in large part in those sections from which the overland supply is principally drawn. The actual gain over last year in the all-rail movement is six hundred and thirteen thousand two hundred and forty-eight

bales, or 48·64 per cent, whereas the crop of 1894-95 exceeds that of 1893-94 by but 31·43 per cent. At the same time this year's overland is only sixty-seven thousand bales more than in 1891-92, although the crop of that year was eight hundred and fifty-four thousand bales less than in the current year. But it will be noticed that in the last twenty years—since 1875-76—the rail movement has increased nearly 165 per cent, against a gain in total yield for the like period of about 112 per cent.

The various routes have shared in the above noted increase of six hundred and thirteen thousand bales in widely varying degree. Through St. Louis, Louisville and Cairo the movement has enlarged to the extent of about 50 per cent in each case, and the gain via Cincinnati reaches 65 per cent. On the other hand, the routes via Evansville, which last year lost nearly half of their cotton traffic, show this year a further considerable decline. The movement via Hannibal has fallen to very meagre proportions. There has been a marked increase in total carried over "other routes," due in large part to the opening up of new lines or connections.

The changes in yield in the various sections are reflected in large measure by the marketing through the outports. In the season just closed almost every district in the cotton belt produced more cotton than in the preceding year, but the increase was much greater in some cases than in others. In Texas the gain was very heavy, a fact that is fully confirmed by the receipts at Galveston, &c. More cotton was raised in the Mississippi Valley than in 1893-94, and as a result the movement through New Orleans exhibits an appreciable expansion. In the Atlantic States the yield if it has increased at all has increased only moderately. The variations that have occurred in the last ten years are shown in the subjoined statement.

Per cent of Crop Received at—	1894-95.	1893-94.	1892-93.	1891-92.	1890-91.	1889-90.	1888-89.	1887-88.	1886-87.	1885-86.

Tot. U. S. crop.	100·00	100·00	100·00	100·00	100·00	100·00	100·00	100·00	100·00	100·00

In the above table we have figured only what is called the *net* overland, as the remainder of the *gross* amount is counted at New York, Boston, Philadelphia, &c., or at the Southern ports where it first appears in the receipts. At the same time the entire *gross* overland reaches a market by some all-rail route; hence in measuring the total overland we can do so correctly only by using the *gross* figures. To indicate therefore the progress made since 1875-76, we give the following:

Crop of	*Total Yield.*	*Gross Overland.*	*Increase and Decrease—*	
			Of Crop.	*Of Overland.*
	Bales.	*Bales.*	*Per Ct.*	*Per Ct.*
1894-95	9,892,766	1,867,104	*Increase* 31·43	*Increase* 48·64

Change from season of '75-76 to '94-95			*Incr'se* 111·89	*Incr'se* 164·82

In determining this year the portion of the crop forwarded by each of the different overland routes, we have followed our usual method:

First—Of counting each bale of cotton at the Southern outport where it first appears.

Second—Of deducting from gross overland all cotton shipped by rail from Southern outports to the North.

Third—Of deducting also from overland any amounts taken from Southern outports for Southern consumption.

Fourth—Of deducting likewise arrivals by railroads at New York, Boston, Baltimore and Philadelphia, all of which have been counted in the receipts from week to week during the year.

With these explanations nothing further is needed to make plain the following statement of the movement overland for the year ending September 1, 1895:

	1894-95.	1893-94.	1892-93.
Amount shipped—			
Via St. Louis	948,604	623,466	496,108
Via Cairo	337,423	233,684	205,701
Via Hannibal	302	13,756	138,802
Via Evansville	3,784	7,509	13,982
Via Louisville	189,758	134,877	143,088
Via Cincinnati	178,020	108,347	109,760
Via other routes	194,702	118,421	168,773
Shipped to mills, not included above	14,511	13,796	16,298
Total gross overland	1,867,104	1,253,856	1,290,512
Deduct shipments—			
Overland to New York, Boston, &c.	578,025	304,620	313,731
Between interior towns	33,520	21,919	33,065
Galveston, inland and local mills	5,366	10,499	5,050
New Orleans, inland and local mills	33,613	24,601	16,502
Mobile, inland and local mills	18,284	16,119	21,998
Savannah, inland and local mills	3,506	1,955	2,149
Charleston, inland and local mills	14,131	12,225	14,374
N. Carol'a ports, inland and local mills.	8,351	2,213	2,451
Virginia ports, inland and local mills	15,057	39,215	22,227
Total to be deducted	709,853	433,366	431,547
Leaving total net overland*	1,157,251	820,490	858,965

* This total includes shipments to Canada, &c., by rail, which during 1894-95 amounted to 99,092 bales, and are deducted in the statement of consumption.

Crop Details.—We now proceed to give the details of the entire crop for two years.

Louisiana.

Exported from N. Orleans:	1894-95.		1893-94.	
To foreign ports	2,053,931		1,636,811	
To coastwise ports	538,708		404,983	
To Northern ports, &c. by river and rail*	18,977		12,112	
Manufactured*	14,636		12,489	
Burnt	39,691		200	
Stock at close of year	67,855—2,733,698		30,767—2,097,362	
Deduct:				
Received from Mobile	115,629		157,455	

Louisiana—(Concluded).

	1894-95.		1893-94.	
Received from Galveston and other Texas ports	3,187		9,782	
Stock beginning of year	30,767—	149,583	37,051—	204,268
Total product of year		2,584,115		1,893,094

* In overland we have deducted these two items.

Alabama.

Exported from Mobile:*				
To foreign ports	122,935		34,680	
To coastwise ports	138,093		184,029	
Manufactured	.....		100	
Stock at close of year	5,407—	266,495	2,783—	221,577
Deduct:				
Receipts from N. Orleans.	10,276		1,036	
Receipts from Pensacola.	13,211		15,991	
Stock beginning of year	2,788—	26,275	5,425—	22,452
Total product of year		240,220		199,125

* Under the head of coastwise shipments from Mobile are included 13,284 bales shipped inland by rail north and for Southern consumption, which will be found deducted in the overland movement.

Texas.

Exp'ted from Galveston, &c.:				
To foreign ports (except Mexico)	1,349,153		782,166	
To Mexico, from Galveston, Corpus Christi, &c.	58,178		29,292	
To coastwise ports*	337,427		253,116	
Stock at close of year	11,151—1,755,909		20,313—1,084,797	
Deduct:				
Received at Galveston from New Orleans, &c	268		.....	
Received at El Paso, &c. from Galveston, &c.	.....		350	
Stock beginning of year	20,313—	20,581	16,717—	17,067
Total product of year		1,735,328		1,067,730

* Coastwise exports include 5,366 bales shipped inland and taken for consumption, which are deducted in overland statement.

Florida.

Exported from Fernandina, &c.*				
To foreign ports	300		500	
To coastwise ports	31,314		37,297	
Stock at close of year	.....	31,614	.....	37,797
Deduct:				
Received from Mobile	300		.....	
Stock beginning of year	.....	300	.....	.....
Total product of year		31,314		37,797

* These figures represent this year, as heretofore, only the shipments from the Florida *outports*. Florida cotton has also gone inland to Savannah, &c., but we have followed our usual custom of counting that cotton at the *outports where it first appears*.

Georgia.

	1894-95.		1893-94.	
Exported from Savannah:—				
To foreign ports—Upland	525,101		491,064	
To foreign ports—Sea Isl'd	20,526		25,258	
To coastwise ports—				
Upland*	357,343		424,326	
Sea Island	44,199		29,520	
Exp'd from Brunswick, &c.:				
To foreign ports	103,394		71,310	
To coastwise ports	44,461		27,929	
Burnt	278		823	
Manufactured*	2,199		1,623	
Stock at close of year—				
Upland	5,446		8,398	
Sea Island	403—	1,103,350	825—	1,081,576
Deduct:				
Rec'v'd from Ch'ston, &c.	6,403		6,240	
Received from Florida—				
Upland†	.....		540	
Stock beginning of year—				
Upland	8,398		10,047	
Sea Island	925—	15,626	1,412—	18,279
Total product of year		1,087,724		1,063,297

* The amounts shipped inland and taken for consumption are deducted in overland.

† These are only the receipts at Savannah by water from the Florida outports, and, being counted in the Florida receipts, are deducted here. Besides these amounts there have also been 16,530 bales Upland and 11,093 bales Sea Island, from the interior of Florida, received at Savannah during the year by rail.

South Carolina.

Exported from Charleston:				
To foreign ports—Upland	337,889		324,135	
To foreign ports—Sea Isl'd	2,864		233	
To coastwise ports—				
Upland*	79,699		82,673	
Sea Island	2,445		2,152	
Exported from Port Royal and Beaufort:				
To foreign ports—Upland	158,286		79,915	
To foreign ports—Sea Isl'd	103		170	
Exported coastwise from Georgetown, &c.	2,617		1,668	
Stock at close of year—				
Upland	14,370		11,277	
Sea Island	2—	593,275	463—	502,686
Deduct				
Rec'd from Savannah—				
Upland	42		67,084	
Received from Florida at Charleston—				
Sea Island	61		.....	
Received from N. Orleans	....		300	
Stock beginning of year—				
Upland	11,277		12,513	
Sea Island	463—	11,843	504—	80,403
Total product of year		586,432		422,283

* Included in this item are 14,131 bales, the amounts taken by local mills and shipped to interior, all of which is deducted in overland.

North Carolina.

Exported from Wilmington:				
To foreign ports	202,270		167,404	
To coastwise ports*	31,724		21,849	
Coast'w'se from Washington, &c.	33,561		38,944	
Manufactured	1,653		1,182	
Stock at close of year	349—	269,557	1,375—	229,924
Deduct				
Stock beginning of year	1,375—	1,375	1,740—	1,740
Total product of year		268,182		228,184

* Of these shipments 6,628 bales went inland by rail from Wilmington and with local consumption are deducted in overland.

Virginia.

Exported from Norfolk:				
To foreign ports	198,824		174,010	
To coastwise ports*	234,582		336,717	
Exported from West Point:				
To foreign ports	107,158		95,964	
To coastwise ports	179,579		143,388	
Exp'd fm Newp't News, &c.				
To foreign ports	33,363		48,210	
To coastwise ports	400		2,231	
Taken for manufacture	14,363		11,784	
Burnt	24		179

1880-81	6,589,329	1859-60	4,823,770	1841-42	1,688,675
1879-80	5,757,397	1858-59	3,994,481	1840-41	1,639,353
1878-79	5,073,531	1857-58	3,238,902	1839-40	2,181,749
1877-78	4,811,265	1856-57	3,056,519	1838-39	1,363,403

Weight of Bales.

The average weight of bales and the gross weight of the crop we have made up as follows for this year, and give last year for comparison:

Crop of—	*Year ending September 1, 1895.*			*Year ending September 1, 1894.*		
	Number of bales.	*Weight in pounds.*	*Average weight.*	*Number of bales.*	*Weight in pounds.*	*Average weight.*
Texas	1,735,328	922,413,509	531·55	1,067,730	556,906,613	521·58
Louisiana	2,584,115	1,309,973,747	511·19	1,898,091	950,257,464	501·96
Alabama	740,220	121,695,727	507·85	199,125	99,721,960	500·80
Georgia*	1,119,938	558,152,662	491·63	1,101,094	533,358,923	484·39
So. Carolina	586,142	287,438,112	491·00	422,282	200,337,710	481·59
Virginia	770,823	378,281,337	490·75	787,262	374,162,987	487·66
No. Carolina	268,182	132,538,226	494·21	228,184	110,068,780	482·50
Tenn'sees, &c	2,588,626	1,306,146,228	504·18	1,865,439	920,578,075	493·03
Total crop	9,892,766	5,019,439,687	507·38	7,527,211	3,748,422,352	497·98

* Including Florida.

According to the foregoing, the average gross weight per bale this season was 507·38 lbs., against 497·98 lbs. in 1893-94, or 9·40 lbs. more than last year. Had, therefore, only as many pounds been put into each bale as during the previous season, the crop would have aggregated 10,079,600 bales. The relation of the gross weights this year to previous years may be seen from the following comparison:

Season of—	*Crop.*		*Average Weight, per Bale*
	Number of Bales.	*Weight, Pounds*	
1894-95	9,892,766	5,019,439,687	507·38
1893-94	7,527,211	3,748,422,352	497·98
1892-93	6,717,142	3,357,588,631	499·80
1891-92	9,038,707	4,508,374,105	498·78
1890-91	8,655,518	4,326,100,345	499·84
1889-90	7,313,726	3,628,520,834	496·13
1888-89	6,935,982	3,437,408,499	495·60

New Crop and its Marketing.

Special difficulty besets an investigation with reference to the outcome of the growing crop because of the backwardness of the plant. There is of course no doubt that the area the current season is appreciably less than in 1894 and that fact alone warrants the conclusion that the yield will be materially less, especially as the last crop was a very full one on the acreage planted. Furthermore, advices from the different sections of the South indicate that taking the cotton belt as a whole the condition of the plant at this time is not so satisfactory as it was a year ago. At no time since growth began has the general outlook been considered as good as last season, and within the past five or six weeks there has been some depreciation in almost every State. In Texas lack of rain has brought about a lowering of condition, and in some other sections of the South an excess of rain has operated in the same direction.

Analyzing our advices from the various States the present promise would seem to be best in Georgia and least encouraging in Texas. Georgia did not make a full crop last year and may possibly produce as much cotton this year as it did then if future conditions prove favorable. But as at present advised we cannot say the same of any other State. In fact our latest advices denote that since the first of September the situation has been growing worse nearly everywhere.

With reference to maturity we give our usual statement of receipts up to September 1 and the date of marketing first

bale. The table of receipts is an especially useful record. It will be seen that in no year included in the statement have the aggregate receipts prior to the first of September been nearly so small as in the current year; indeed, by referring to former reports we find that we have to go back to 1884 to get a year when the August movement has been so restricted. This furnishes pretty conclusive evidence of the backwardness of the 1895 crop, as there has been no unusual influence to delay the arrivals. Moreover, our advices denote that only within the past two weeks has picking become at all active in Texas, and is only just now getting under way in many other sections. We bring forward our usual data bearing upon the maturity of the plant, presenting first the compilation covering the date of receipt of first bales.

	Date of Receipt of First Bale.

As to the arrivals of new cotton to the first of September, there are in many years circumstances tending to hasten or retard the early movement. Two years ago financial stringency acted as a deterring influence, but last year the movement was natural. This year, as stated above, maturity alone is responsible for the unusually small volume of receipts. It will be noticed that Galveston has received thus far but 2,877 bales of the new crop, or 83 per cent less than last year, and that at New Orleans the arrivals have been only 4,879 bales, against 15,233 bales in 1894.

Sea Island Crop and Consumption.

We have continued throughout the season of 1894-95 the compilation of a weekly record of the Sea Island crop, and every effort has been made to keep our readers well informed as to the movement of this variety of cotton. As in 1893-94, the correctness of our methods in compiling the totals from week to week is pretty well established by the results given below, which practically agree with the figures published in the Chronicle of August 24. It will be noticed that the crop shows an appreciable increase over 1893-94, and is in fact the heaviest yield on record.

	1894-95.		1893-94.	
Florida.

Total Sea Island crop of the United States		74,839		61,052

The distribution of the crop has been as follows:

Ports of—	Supply year ending Sept. 1, 1895.			How Distributed.		Of which Exported to—		Total For'gn Exports.
	Stock Sept. 1, 1894.	Net Crop.	Total Supply.	Stock, Sept. 1, 1895.	Leav'g for Distrib'tn.	Great Brit'n.	Havre &c.	
S. Carolina	463	5,913	6,376	2	6,374	2,914	53	2,967
Georgia	825	53,716	54,541	405	54,138	18,850	2,441	21,291
Florida	....	15,176	15,176	.....	15,176	.....	....	.....
Texas	....	1	1	.....	1	.....	....	.....
Mississippi	...	4	4	.....	4	.....	....	.....
Louisiana	....	29	29	.....	29	.....	....	.....
New York	....	.....	.....	.....	.....	4,425	3,156	7,581
Boston	....	.....	.....	.....	.....	8,471	....	8,471
Baltimore	....	.....	.....	.....	.....	431	....	431
Total	1,288	74,839	76,127	405	75,722	35,091	5,650	40,741

From the foregoing we see that the total growth of Sea Island this year is 74,839 bales; and with the stock at the beginning of the year (1,288 bales), we have the following as the total supply and distribution:

This year's crop	bales.	74,839
Stock September 1, 1894		1,288
Total year's supply	bales.	76,127
Distributed as follows:		
Exported to foreign ports	bales. 40,741	
Stock end of year	405	—41,146
Leaving for consumption in United States	bales.	34,981

We thus reach the conclusion that our spinners have taken of Sea Island cotton this year 34,979 bales (2 bales being burnt), or 10,634 bales more than in the previous year.

The following useful table shows the crops and movement of Sea Island since the war:

Season	Crop.					Foreign Exports.			American Consumption*	Stock August 31.
	Florida.	Georgia.	South Carolina.	Texas, &c.	Total.	Great Brit'n	Continent.	Total exports

* Receipts and shipments are net figures in both years.

Shipments in this statement include amounts taken from interior towns for home consumption and amounts burnt.

In the following we present a statement of the year's exports from each port, showing the direction which these shipments have taken. Similar statements have been given in all previous reviews, and a comparison as to the extent of the total movement to each port can be made with back years. Contrasting the current returns with those for last season, we find that there has been an increase in the exports to almost all ports.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1894 there is an increase in the aggregate of 17·6 per cent. So far as the individual cities are concerned New York exhibits an increase of 30·5 per cent, and the gains at other points are: Boston 16·4 per cent, St. Louis 9·8 per cent, Philadelphia 7·1 per cent, Baltimore 9 per cent and New Orleans 38·6 per cent. Chicago records a decrease of 2·2 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending September 7.		
	1895.	1894.	Per Cent.
New York	$440,826,447	$337,718,664	+30·5
Boston	63,634,447	53,814,432	+16·4
Philadelphia	59,094,882	55,154,873	+ 7·1
Baltimore	10,648,319	9,768,120	+ 9·0

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Aug. 24, 1895.

After the exceptional activity in the money market last week rates are once more falling away and are likely to fall further for some time. Mainly this is caused by the large receipts of gold, more than a million sterling having been sent into the Bank of England during the week ended Wednesday night. But though rates are again declining, the accumulation of surplus capital is being gradually worked off. Last month's Board of Trade return was undoubtedly encouraging, showing that at last there is very general improvement in trade. The railway traffic returns are also very satisfactory, and the advance in prices that has taken place is being maintained; while new companies of all kinds, though chiefly South African and Western Australia, are being launched in extraordinary numbers. All this must tell after awhile.

The silver market is very quiet. There is no demand for India, China or Japan, yet there has not been as much fall as was expected, and the India Council continues to sell its drafts exceedingly well. On Wednesday it offered for tender 30 lakhs. The applications were for somewhat over five times as much, and the whole amount was disposed of at 1s. 1 1/4d. per rupee.

The holiday season is at last beginning to tell upon the stock markets, business having been undoubtedly quieter this week than for a long time past. Political uneasiness does not seem as yet to have much affected markets. In political circles, however, there is a good deal of apprehension. The Sultan appears to be unmanageable. He is resisting the pressure brought to bear upon him by this country, France and Russia. It is said that Lord Salisbury would go much further than either France and Russia, and it is believed that the unwillingness of France or Russia to act energetically is being taken advantage of by the Sultan. The disturbances in Macedonia have not yet been put down, and the relations between Turkey and Bulgaria are growing strained. Every one believes that peace will be maintained because no Government is willing to face the risks of war. But at the Foreign

Office and in all the Chancellries all over the Continent there are grave fears that circumstances may occur to excite alarm before the year is out.

The action of France on the Upper Nile and on the Niger is likewise a cause of disquiet, and the condition of things in Siam and in the Far East generally is far from satisfactory. As yet, however, the city takes little note of these disquieting circumstances. It believes that peace will not be disturbed, and the belief is shared by the business community in Paris, Berlin and Vienna. Consequently, international securities are fairly firm, though there is difficulty in maintaining the prices of both Spanish and Italian bonds. Spain is spending far more than she can afford in Cuba, and it is difficult to see how she can pay her way unless she is able to borrow in Paris. There is not the least chance of a large Spanish loan being floated anywhere else, certainly not in London. But possibly the Paris bankers may ultimately come to the relief of the Spanish Treasury. The Italian crisis is not so acute as it was, but the bank failure in Genoa has undoubtedly caused serious losses in several directions and so has weakened the market for Italian rentes.

In the American department there is not much doing. The withdrawals of gold from the Treasury have checked all business. Every one hopes that the loan Syndicate will continue to pay in gold; but still there is an unwillingness to act until it is seen whether merchandise exports from the United States will increase sufficiently next month to stop the gold shipments and turn the exchange in favor of New York. Even investment in good bonds is not so large as it was. Of course it is to be recollected that holiday-making is in full swing and that naturally, therefore, investment business has fallen off. In the share market there is hardly anything doing.

The activity in the mining market is less wild than it was, though it is remarkable still, considering the time of year. That prices generally have been rushed too high is the opinion of all well-informed persons, and several bankers are showing an unwillingness just now to lend upon mining shares. That the mining industry in South Africa is genuine, that the field is the richest in the world, is not disputed. But it is held almost universally here that prices are too high, and that therefore ultimately there must be a set-back. There is some apprehension therefore that at the settlement which begins on Monday there may be a very general refusal on the part of bankers to lend as much as they have hitherto done in the mining market. Consequently realizing has been going on upon a considerable scale for some days past and prices have somewhat declined. The decline, however, is slight compared with the extraordinary rise of the past month. If money is plentiful and rates are fairly easy at the settlement, no doubt speculation will begin again. But if money proves to be as scarce as many now fear, it will not surprise the well-informed to see a very sharp fall in the mining department.

Still the floating of new companies goes on unchecked. Usually new issues cease at the end of July or very soon after, but this month they have continued in the most unparalleled way, and in many cases they have been rushed to extraordinary premiums. For instance, Bernato's Bank was brought out only a week or two since, the shares being of the nominal value of £1. Within a week the quotation was run up to £4. Mr. Bernato has just returned from South Africa and it is reported that he is very much displeased at this wild speculation. He threatens to stop the completion of the issue, as he asks, with some force, how it is possible to make profits that would justify a premium of 300 per cent?

In the other departments of the Stock Exchange likewise business has eased off. All the first-class securities, like consols, are exceedingly high; but in the British railway market and in the colonial and miscellaneous departments there is a slight decline in prices. Generally the Stock Exchange bears evidence to the absence of the more active operators from the city.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

	1895. Aug. 21. £	1894 Aug. 22 £	1893. Aug. 23. £	1892. Aug. 24. £

Total 1895	$950,199	$24,802,831	$11,995	$1,286,685
Total 1894	654,400	23,373,579	3,884	1,141,863
Total 1893	732,150	21,543,294	5,741	2,486,849

Breadstuffs Figures Brought From Page 437.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Aug. 31, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley	Rye.
	Bbls.196lbs	Bush.60 lbs	Bush.56 lbs	Bush.32 lbs	Bush.48 lbs	Bu.56 lbs
Chicago	58,694	368,218	1,826,895	1,797,979	191,150	43,350
Milwaukee	46,975	277,100	93,650	162,400	164,100	39,600
Duluth	10,575	1,199,289		1,678	28,023	
Minneapolis		1,601,650	6,230			
Toledo	1,925	228,200	48,200	14,400	2,400	3,600
Detroit	2,350	168,161	10,474	39,668		
Cleveland	1,250	65,782	9,068	21,913		
St. Louis	15,100	264,572	222,240	274,245	371	2,736
Peoria	3,995	21,000	178,300	357,650	1,400	2,400
Kansas City		91,187	6,795			
Tot. wk. '95	239,141	4,411,163	2,313,051	2,670,161	392,744	92,416
Same wk. '94	301,257	6,439,291	1,511,536	3,966,348	973,760	78,189
Same wk. '93	320,011	2,921,901	3,460,618	3,337,636	59,315	85,925
Since Aug. 1						
1894-95	1,060,949	14,458,202	13,964,421	11,850,659	534,764	385,732
1893-94	1,548,429	23,888,923	7,825,285	14,702,739	1,003,181	244,081
1892-93	1,601,430	15,520,445	14,724,180	13,822,981	259,461	408,870

The receipts of flour and grain at the seaboard ports for the week ended Aug. 31, 1895, follow:

Receipts at—	Flour. bbls.	Wheat. bush.	Corn. bush.	Oats. bush.	Barley bush.	Rye bush.
New York	144,150	59,500	1,215,925	615,000		
Boston	28,116	92,140	12,000	75,895		1,915
Montreal	71,121	534,993	76,618	17,921	6,736	
Philadelphia	51,771	5,200	61,650	1,700		
Baltimore	93,761	1,000	1,000,674	102,819		15,619
Richmond	2,165	14,972	13,942	16,186		1,169
New Orleans	9,941	1,200	9,000	9,227		
Total week	405,514	1,707,926	2,403,909	743,950	6,736	17,991
Week 1894	379,029	1,943,579	242,961	1,540,551		4,794

The total receipts at ports named in last table from Jan. 1 to Aug. 31 compare as follows for four years:

Receipts of—	1895.	1894.	1893.	1892.
Flour.....bbls.	10,511,732	14,100,621	12,481,663	12,552,396
Wheat.....bush.	92,903,730	91,927,924	64,891,702	76,813,519

—Messrs. Samuel G. Studley and Edward C Larned have formed a copartnership under the name of Studley & Larned for the transacting of a general banking and commission business at No. 8 Exchange Place, Boston. The new firm have a direct private wire to Redmond, Kerr & Co., in New York, and besides dealing in commercial paper, collateral loans and securities on the New York and Boston Stock Exchanges, will make a specialty of high-grade bonds and stocks.

—Attention is called to the list of municipal bonds advertised in the CHRONICLE by Messrs. E. C. Stanwood & Co., Boston. This is a new Boston house, its senior member being formerly of the firm of Gay & Stanwood. The business of the house will be in municipal and railroad bonds.

— Messrs. R. L. Day & Co., 40 Water Street, Boston, members of the New York and Boston Stock Exchanges, have opened a New York office at 7 Nassau Street. Investment bonds of the highest grade are dealt in by this firm, Boston securities being made a specialty.

—The Columbus Hocking Coal & Iron Co. bondholders committee announce that deposits of nearly a majority of the bonds have been made with the Central Trust Co. Prompt deposits are urged.

—Columbus, Ohio, 5 per cent bonds are offered to the amount of $200,000 by Messrs. W. J. Hayes & Sons, Cleveland and Boston; see particulars in advertisement.

—Messrs Clark, Dodge & Co. announce in another column that they will buy and sell stock and bond rights of the New York New Haven & Hartford RR. Co.

—Mr. F. J. Lisman, of 10 Wall Street, advertises in another column a number of inactive railway securities in which he is desirous of trading.

WALL STREET, FRIDAY, SEPT 6, 1895.—5 P. M.

The Money Market and Financial Situation.—An event of the week much talked of in financial and railroad circles was the decision by Judge Jenkins in regard to the jurisdiction of the Wisconsin Court which appointed the receivers of the Northern Pacific Railroad. This was regarded as favorable to the officers of the company, who, it is well known, are not in sympathy with the present receivers.

The earnings of the Chicago Milwaukee & St. Paul Railroad for the fourth week in August are reported to have been heavier than for any corresponding period in the history of the road. They certainly are relatively very large and reflect the possibilities of the granger roads under this year's large crops.

The belief seems to be gaining ground that a plan for reorganizing Reading will soon be promulgated and that the business of mining and marketing anthracite coal will then be put on a paying basis

The conditions of the iron market continue to attract attention and are a prominent feature of the general situation.

Some of the largest plants are running at their full capacity day and night and are obliged to put a time limit on contracts.

Notwithstanding a slightly better demand for currency from interior points for crop-moving purposes, the supply of money at this center continues very large and the market remains easy.

The open market rate for call loans during the week on stock and bond collaterals has been 1 per cent. To-day's rate on call was 1 per cent. Prime commercial paper is quoted at 3½ to 4¼ per cent

The bank of England weekly statement on Thursday showed an increase in bullion of £373,697, and the percentage of reserve to liabilities was 59·89 against 60·12, last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 6,210,000 francs in gold and 1,748,000 francs in silver.

The New York City Clearing-House banks in their statement of Aug. 31 showed an increase in the reserve held of $1,932,100 and a surplus over the required reserve of $89,149,925 against $87,566,675 the previous week.

Foreign Exchange.—In the foreign exchange market conditions remain unchanged. While the demand is moderate the supply of commercial and security bills is limited and gold shipments have continued. The exports of gold during the week amount to $4,550,000, of which $1,700,000 goes to morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 89@4 89¼; demand, 4 90@4 90¼; cables, 4 90¼@4 90½.

Posted rates of leading bankers are as follows:

September 6.	Sixty Days.	Demand.
Prime bankers' sterling bills on London..	4 89@4 90	4 90@4 91
Prime commercial.....	4 88½@4 88¾	.....

State and Railroad Bonds.—Sales of State bonds at the Board include $40,500 Virginia fund. debt 2-3s of 1991 at 63¾ to 64⅛; $17,000 Tenn. settlement 3s at 90 to 91, and $2,000 Alabama Class C at 100¼.

The market for railroad bonds continued active and strong until Thursday, when there was some reaction in the more speculative issues, in sympathy with the course of the stock market. Notwithstanding this, however, the closing prices are generally higher than those of last week. The features have been New York Lake Erie & Western 2d rects., which have made a further advance of over 8 points, which reflects the favor with which the reorganization plan is regarded. Wisconsin Central 1st trust rects. have been unusually active and sold at 64 on Wednesday, an advance of nearly 7 points within a week and of 20 points within six months. Louisville New Albany & Chicago gen. mor g. 5s have gained over 2 points on largely increased earnings, in sympathy with the stock. Chic. & No Pac. trust rects. and Pitts. & Western are each about 2 points higher than last week.

Cordage bonds have responded to the prospect of a speedy reorganization of the company, and sold at 52⅞ on Wednesday, against 47¾ on the same day of last week. The Readings have been most active on the list and are all from 1 to 2 points higher than our last quotations. Other active issues include the Atchisons, Mo. Kan. & Tex., St. Louis Southwest., Tex. & Pac., U. P. D. & Gulf and Wabash bonds. The market to-day for both bonds and stocks has been strong and closing prices are generally higher than the opening.

Railroad and Miscellaneous Stocks.—Following the close holiday on Monday the market for railroad stocks was active and buoyant on Tuesday and Wednesday. For reasons already mentioned, the principal coal stocks were leaders in this movement and gained from about 3½ to 7 points. Some of the stocks with an international market were also prominent, and St. Paul, Louisville & Nashville and Wabash pfd. advanced from 2 to 3 points. The Southwestern stocks were strong on buying reported to be by inside interests and following the announcement of largely increased earnings of the Missouri Pacific for the fourth week of August. Flint & Pere Marquette advanced over 2 points on rumors of direct connection with other lines at Toledo and renewed talk of an alliance with the Hocking Valley. Louisville N. A. & Chicago pfd made a gain of 3 points on increased earnings and good prospects.

The industrial list was influenced more or less by the interest manifested in railroad stocks and other factors, generally to a higher level. American Tobacco sold at 96¼ on Tuesday, a gain of 4 points from the lowest price last week. Pacific Mail was at the highest point of the year on Thursday, when it sold at 33½. Tenn. Coal & Iron was nearly 3 points above the highest of the year on Thursday, selling at 43¼. Am. Sugar has fluctuated between 110⅞ and 114¾, closing at 112¾.

Under the influences of profit taking by local traders and some selling for foreign account, the market reacted on Thursday and closed on that day with prices averaging about one point below the closing prices of Wednesday, a part of which has been regained to-day.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every steam road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

For the month of August 62 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of August.	1895.	1894.	Increase.	Per Cent.
	$	$	$	
Gross earnings (62 roads)	30,884,955	30,420,426	464,529	1·53

It will be seen there is a gain on the roads reporting in the amount of $464,529, or 1·53 per cent.

The following will furnish a comparison of the weekly results for a series of weeks past.

Toledo & Ohio Cent..July	43,251	35,211	°19,674	°27,425

° Including other income received.

† These charges are simply for taxes and rentals of leased lines and do not include bond interest.

‡ Including $11,560 receipts from interest and dividends total net was $209,057.

STREET RAILWAYS AND TRACTION COMPANIES

We have been very successful in our efforts to secure monthly and weekly reports of the earnings of street railways, and the list of roads now furnishing such returns has become a very extended one. For this reason we have concluded to separate the street railways entirely from the steam roads and to bring them together under a distinct head. The following table shows the *gross* earnings for the latest period of all street railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.

Street Railway Net Earnings.—The following table gives the returns of street railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of August 24. The next will appear in the issue of September 21.

ANNUAL REPORTS.

Chicago Milwaukee & St. Paul Railway.

(Report for the year ending June 30, 1895.)

The remarks of President Miller will be found at length on another page, furnishing full particulars concerning the property and the year's operations.

The comparative tables of earnings, income account, etc., for four years have been compiled for the CHRONICLE as below. In 1893-94 and 1894-95 the results include the Milwaukee & Northern Railway, not included in the previous years.

OPERATIONS.

	1894-95.	1893-94.	1892-93.	1891-92.
Miles oper. June 30.	6,169	6,148	5,724	5,721

Wabash Railroad.

(Report for the year ending June 30, 1895.)

The annual report for the year ending June 30, 1895, has just been issued. The remarks of Mr. O. D. Ashley, the President, were given at length in last week's issue of the CHRONICLE.

The statistics, compiled in the usual complete form for the CHRONICLE, are as follows:

OPERATIONS AND FISCAL RESULTS.

	1894-95.	1893-94.	1892-93.	1891-92.
Average mileage	1,935	1,935	1,890	1,917
Equipment—

GENERAL INVESTMENT NEWS

American Bell Telephone.—In the Berliner patent suit Counsel Browne for the Government on Tuesday obtained permission from the United States Circuit Court at Boston to appeal the case to the United States Supreme Court. The first decision in this suit was in favor of the Government. The case was taken to the United States Circuit Court of Appeals, where the decision below was reversed.—V. 61, p. 26.

Central RR. & Banking Company of Georgia.—Savannah & Western RR.—The foreclosure sale of the Central RR. of Georgia has been set for Oct. 7 and of the Savannah & Western for Oct 6. A long list of securities, lease-hold rights, etc., held by the Central of Georgia, and by it pledged as security for floating debt, is advertised (see New York *Sun*) to be sold at auction on Sept. 18. This sale is a formal step in the reorganization, the funds to liquidate the floating liabilities having been provided by the plan. Another step in the reorganization will be taken on Sept. 25, when Samuel Spencer, as sole continuing receiver of the Richmond & Danville RR. Company, will sell at public auction all title under the claim of the Richmond & Danville against the Central Railroad & Banking Company, amounting to $1,213,405, alleged to be due for money advanced.—V. 61, p. 365.

Cleveland Akron & Columbus RR.—This road has gone into the control of Senator Calvin S. Brice, by purchase, it is said, of over ten thousand shares of stock controlled by Mr. Saul. Mr. Brice was then unanimously elected President of the new organization, and the Cleveland directors, who are friends of Mr Saul, resigned.—Vol. 60, p. 522.

Delaware Lackawanna & Western RR.—Earnings of the D. L. & W. leased lines in New York State for the 12 months ending June 30 have been reported as follows:

12 months end. June 30—	Gross earnings.	Net earnings.	Charges.	Balance, surplus
1894-95	$8,348,044	$4,315,219	$2,463,433	$1,886,786
1893-94	8,506,343	3,911,784	2,476,958	1,434,826

—V. 60, p. 835.

Georgia & Alabama—Savannah Americus & Montgomery Ry.—The chairman of the Savannah Americus & Montgomery Railway Reorganization Committee announces that the certificates representing the first mortgage bonds will be exchanged for the securities of the Georgia & Alabama Road, the successor of the S. A. & M., in October. All stock issued will be pooled in the form of a voting trust composed of seven members. Parties entitled to stock who object to this arrangement will be given unpooled stock. Holders of the certificates are entitled to subscribe at par and interest, to the extent of 50 per cent of holdings, to an issue of $1,675,000 first mortgage preference 5 per cent gold bonds of the new company, such subscribers to receive as a bonus 10 per cent in first mortgage consolidated 5 per cent bonds, 50 per cent in preferred and 100 per cent in common stock. Fully one-fourth of the certificate-holders have already, it is said, expressed their intention of subscribing to this issue. An arrangement has been effected with the holders of *Montgomery Terminal* Company bonds by which the new company will guarantee interest at 5 per cent per annum for five years.—V. 61, p. 196, 281

Georgia Southern & Florida Railway—Southern Railway.—In another column the Maryland Trust Company offers to the public $1,500,000 of the first mortgage five per cent fifty-year gold bonds of the Georgia Southern & Florida Railway Company. These bonds are a part of the total issue of $4,000,000 which was authorized under the plan of reorganization. The road is controlled by the Southern Railway Company, through ownership of stock, and it will run in connection with that system, which it joins at Macon, Ga., extending thence to Palatka, Fla., and embracing in all 285 miles of main line. The road is laid with 60-pound rails and is said to be in good physical condition. For the year ending June 30, 1895, the net earnings were $228,595, against fixed charges of $185,000 on $3,700,000 bonds outstanding. The connection with the Southern Railway, it is thought, will largely add to the earnings of the company.

An abstract of the mortgage securing the loan is given on a subsequent page of to-day's CHRONICLE.—V. 61, p. 113.

Kentucky Midland RR.—At Frankfort, Ky., September 2, this road was offered for sale in foreclosure at the upset price of $320,000. There was no bid and the road was not sold.—V. 60, p. 835.

New England RR.—New York & New England RR.—The receivers of the New York & New England at 12 o'clock midnight Aug. 31, in pursuance of the decrees of the United States Circuit Court, delivered possession of the property to the New England RR. Co., whose officers were mentioned in the CHRONICLE last week.—V. 61, p. 367.

New York Susquehanna & Western RR.—At the annual meeting on Thursday the following directors were elected, there being only one ticket presented: Amos L. Hopkins, Roswell Eldridge, Simon Borg, Henry Sanford, H. O. Armour, Henry B Plant, Thomas A McIntyre, Cornelius C. Cuyler, Garret A. Hobart, George W. Young, Cyrus J. Lawrence, W. L. Bull and Gustav Kissel. Of these the following were members of the old Board: Messrs. Borg, Armour, Sanford, Hobart and Eldridge.—V. 61, p. 240.

New York Lake Erie & Western RR.—The receivers report the earnings of this company for the quarter and the twelve months ending June 30 as follows:

	—3 mos. end. June 30.— 1895.	1894.	—12 mos. end. June 30.— 1894-5.	1893-4.

On June 30, 1895, loans and bills payable were $3,097,711, against $8,201,476 on Dec. 31, 1894; interest on funded debt *due*, $4 494,723, against $3,319,269; *accrued*, $900,443, against $900,443; rental of leased lines, $909,353, against $1,071,795 on Dec. 31, 1894. Cash in hands of receivers June 30, 1895, $673,919.—V. 61, p. 366.

Northern Pacific.—The petition of the Northern Pacific Company by Brayton Ives, its President, filed some weeks ago in the United States Circuit Court at Washington, asking that the order appointing Messrs. Oakes, Payne and Rouse receivers be vacated and set aside, came on for preliminary hearing before Judges Gilbert and Hanford at Seattle on August 22. The preliminary argument was confined solely to the question whether the Court should entertain the petition at all. No argument was had on the merits of the case and the receivers did not undertake to answer the charges against them.

On Monday, the 2d inst., a decision was handed down by Judges Hanford and Gilbert to the effect that the United States Circuit Court for the Eastern District of Wisconsin had jurisdiction of the bill for the foreclosure of the mortgage, and that the appointment of the receivers by Judge Jenkins was perfectly regular and valid.

The Court also sustains the validity of all the receivers' acts, and declares the issue of receivers' certificates valid. The contention of the receivers' counsel that the Wisconsin Court was the Court of primary jurisdiction, and that the motion for the removal of the receivers should be remitted on that account to that Court for decision, is, however, overruled. The Court holds that as no part of the railroad is now in the Eastern District of Wisconsin the rule of comity does not require it to send all matters to that Court. Judges Gilbert and Hanford conclude, therefore, to retain Mr. Ives's petition, and have required the receivers to answer the charges within thirty days.

The following is an extract from Judge Gilbert's decision:

It is strongly urged against the assumption of jurisdiction by this Court to entertain the motion that during the receivership receivers' certificates have been issued to a large amount, and that the same are now held by innocent purchasers, and that to deny the primary jurisdiction of the Court for the Eastern District of Wisconsin is to hold that these certificates were unlawfully issued.

We find no ground for such contention. If the receivers' certificates have been authorized by the Courts of the various districts in which the property in receivership is situated they are valid liens upon that property, irrespective of the question whether the Court for the Eastern District of Wisconsin had jurisdiction to order their issuance. If they have not been so authorized it is not perceived how the action of this Court can in any way affect the question of their validity.

It must be conceded in any view of the case that the receivers are at the present time, and have been since their appointment, the lawful appointees of all the Courts in the jurisdiction of which the property of the Northern Pacific Railroad is situated. They are the receivers of the railroad, and none of their acts, done within the scope of their authority and under the orders of the Courts which have control over said property, are invalid.

The order for the issuance of the receivers' certificates was signed by all the United States Court Judges having jurisdiction in Northern Pacific territory as follows: In Minnesota, April 15, in North Dakota, April 26; in Montana, April 26; in Idaho, May 8; in Washington, May 2, and in Oregon, May 2.—Vol. 61, p. 367.

Oregon Railway & Navigation.—The Wall Street *Journal* has obtained from a Berlin paper the following statement, which is believed to be correct, as it was given by months:

Year—	1894-95.	1893-94.	Changes.
Gross earnings.....	$5,027,332	$3,825,160	Inc. $1,202,172
Operating expenses.....	3,328,495	3,179,810	Inc. 148,685
Net earnings.....	$1,698,837	$645,350	Inc. $1,053,487

—At a meeting yesterday of the holders of certificates representing the consolidated bonds, at which over two-thirds of the bonds were represented, the plan of reorganization was unanimously approved.—V. 61, p. 325.

Oregon Short Line & Utah Northern Ry.—As to the *Utah Southern RR. General Mortgage* and the *Utah Southern RR. Extension First Mortgage* bonds, notice is given by the committee, consisting of Alexander H. Stevens, Chairman; Samuel Carr, Isaac H Bromley, Peter B. Wyckoff, with George S. Clay, Secretary, 195 Broadway, New York, that a meeting of the holders is to be held Tuesday, September 10, 1895, at 11 o'clock A. M., at the office of the receivers of the Union Pacific System, 36 Wall Street, New York, to take action with respect to the report of the committee appointed at the bondholders' meeting held July 11, 1895, which will then be presented. All holders of said bonds are requested to be present in person or by their representatives.—V. 61, p. 282.

Passaic & Newark Electric Traction.—This company has made a mortgage to the People's Bank & Trust Company of Passaic, as trustee, to secure bonds to the amount of $210,000

Reports and Documents.

DENVER & RIO GRANDE RAILROAD CO.

NINTH ANNUAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 1895.

To the Stockholders of the Denver & Rio Grande Railroad Company:

The income of your Company from all sources during the fiscal year ended June 30, 1895, including $14,600 00 received for interest, was $6,981,440 56, an increase of $445,096 98 compared with the previous year. The gross earnings from the operation of the railroad were $6,916,840 56, being an increase of $440,796 98. The working expenses were $3,991,211 91, an increase of $18,660 74; making the net earnings from traffic $2,925,628 65, being $422,136 24 more than for the previous year. The increase in earnings was 6·81 per cent, in expenses 0·47 per cent and in net earnings 16·86 per cent. The net earnings afforded a surplus of $52,690 35 after providing for interest on funded debt, taxes, insurance and all other charges against income. For detailed information, you are referred to the tables and statistics prepared by the Comptroller and the Auditor, and submitted herewith for your information.

Current liabilities were reduced during the year from $1,785,963 33 to $1,442,729 40, and on June 30 your current assets exceeded your current liabilities $1,992,670 67, which shows a gratifying improvement when compared with the excess of $1,479,104 79 on June 30, 1894.

On June 30, 1893, when the great financial and industrial crisis came upon us, the current liabilities of your Company were $1,868,873 89 and the excess of current assets was $1,351,229 31. Your Directors, therefore, call attention to the fact that during two years of business depression the liabilities of your Company have been reduced about $436,000 and the excess of assets has been increased more than $641,000 00, although a year ago the value of securities in the treasury and in the Special Renewal Fund were, for prudential reasons, reduced in the accounts to the extent of $151,379 74.

Your Company has in its treasury bonds and stocks aggregating at par $5,562,750 00, appearing on the books at $5,078,559 10, and in addition it has in its Special Renewal Fund cash and securities aggregating at par $588,941 71, carried on the books at $451,575 83, the total of all being at par $6,149,691 71 and on the books $2,126,135 48.

In the report submitted for the year ended June 30, 1893, your Directors stated that the value of equipment had been written down $895,870 78 and General Profit and Loss Account had been charged with that amount. It was then stated that it was prudent to still further reduce the book value of equipment, but your Directors refrained from acting upon the matter a year ago. It is now deemed wise to pursue this policy in making up the accounts for the year that has just closed, and $1,000,000 00 has therefore been taken from the value of Equipment and charged to General Profit and Loss Account. The accounts of your Company show, after doing this, a balance to credit of Profit and Loss of $2,130,192 67, being $137,538 00 more than the excess of current assets over current liabilities. If allowance is made for the reduction a year ago in the book value of securities, it will be seen that your Company has substantially an excess of current assets over current liabilities about equal on a conservative valuation to the amount at credit of Profit and Loss. Four years ago the *excess of current liabilities* over current assets was about $329,500 00. (See Fifth Annual Report.)

To guard against the possibility of the impression being entertained that the equipment has been allowed to deteriorate, and that the reduction in its book value has been made for this reason, your directors deem it well to state that on June 30, owing to continued light traffic, ninety four engines were out of service, of which number sixty nine were in first-class condition, having been repaired before being laid up.

During the last five years the amount of unpaid vouchers at the end of each fiscal year was as follows:

1891	$927,074 64
1892	572,331 31
1893	442,913 49
1894	297,951 19
1895	145,317 86

which shows that your company is now in the position of paying promptly each month the bills for labor and material incurred during the month preceding.

The damage done to the property of the company by the disastrous floods of June, 1894 adverted to in the last Annual Report, has been repaired at an expense of $96,659 36 all of which was charged to Operation Account, and two-thirds of which was expended during the fiscal year that has just closed. In addition to these extraordinary expenses, two wooden bridges were replaced with iron structures resting upon stone masonry: one of them on the Third Division over the Cimarron River has a span of 120 feet, with iron girder approaches 166 feet long, and the other over the Animas River on the Silverton Branch has a span 120 feet long. The cost of this work was also charged to Operation Account. In view of these expenditures it was deemed prudent to limit the rail renewals during the year, and therefore but 1,095 tons of 75-pound steel rails were laid. These were placed in your standard gauge main line, replacing 52-pound steel, which was transferred to other portions of the System. All expenses incident to laying the new rails, including their excess weight over the rails they replaced, were charged to Operation Account. Your standard gauge main line now has but twenty-five miles of 52-pound steel rail track, and contracts have been made for the early delivery of sufficient 75-pound rail to replace it.

In view of the business depression of the last two years it may be well to submit for your information the number of cross-ties used annually for four years, so that it may be seen that the economical administration of your affairs has not reduced the renewals to much less than normal requirements. For the fiscal year ended June 30, 1892, during which period a number of narrow-gauge ties in standard-gauge track were replaced with standard-gauge ties, 637,740 cross-ties were used; for June 30, 1893, 381,960; for June 30, 1894, 397,918, and for the fiscal year ended June 30, 1895, 446,517 cross ties were used. During the four years specified 1,864,135 ties were placed in track, being an average of about 466,000 per year.

The earnings of your Company upon traffic to and from the Rio Grande Southern Railroad during the fiscal year were $334,375 51 against $289,133 84 for the year ended June 30, 1894, and $517,455 81 for June 30, 1893. The gross earnings of the Rio Grande Southern for the last fiscal year were $402,798 11 and for the preceding year $329,550 69, being an increase of $73,247 42, or 22·23 per cent. The road consists of 161 miles of main line and 18 miles of branches between the City of Durango and Ridgway Station on your Ouray Branch, thus connecting in Southwestern Colorado the Third and Fourth Divisions of your System.

In their last Annual Report your Directors stated that owing to adverse business conditions and the resulting inability of the Rio Grande Southern Railroad Company to meet its obligations your President was appointed Receiver for the property. In view of the ownership by your Company of a large number of Rio Grande Southern First Mortgage Bonds and of the close traffic relations with that Company, it was thought best, after careful consideration of the subject by your Board, to lend to a moderate extent the credit of your Company to the Rio Grande Southern, to enable the Receiver to negotiate with all parties in interest a settlement of the Rio Grande Southern floating indebtedness, with a view to taking the property out of the hands of the Court in the near future. An arrangement was therefore made and approved by the Court, whereby your Company advanced to the Rio Grande Southern $169,830 10, and endorsed that Company's notes to the amount of $573,498 25, said notes being for one, two and three years in equal amounts, with interest at the rate of 6 per cent per annum to the secured and 4 per cent to the unsecured creditors. In consideration of this the Southern Company assigned to your Company $671,000 00 of its First Mortgage Bonds, which were held as collateral by the secured creditors and $197,000 00 of which were delivered to your Company when the cash advance hereinabove referred to was made. The remainder of the bonds will be surrendered from time to time as the notes mature. The general plan of settlement required in addition to the above the transfer to your Company, free of cost, by the Rio Grande Southern stockholders, of one-half the capital stock of their Company, which is $4,510,000 00, and by the bondholders the cancellation of all unpaid coupons, up to and including January 1, 1895, and the scaling down of the interest on the bonds from 5 per cent per annum to 3 per cent per annum for three years from the first of January, 1895, and 4 per cent thereafter during the life of the bonds. The transfer of the stock has been made and your Company has placed in the hands of a Trustee selected by it a majority of the capital stock of the Rio Grande Southern Company. Nearly all the bondholders have assented to the arrangement, and at the date of this report there are but $24,000 00 unassented bonds out of a total of $4,510,000 00. Your Company now owns a majority of both bonds and stock, and has been receiving upon the former 3 per cent per annum since January 1, 1895. The coupons of the Southern Company, due July 1, were promptly paid by the Receiver under sanction of the Court. The contract of settlement also provides that for three years your company shall have any surplus there may be from the earnings of the Southern Company after paying interest on its funded debt, taxes, insurance and similar legitimate charges against income.

Some time ago it was learned that the owners of the Santa Fe Southern Railroad, which extends from Espanola to Santa Fe, the capitol of the Territory of New Mexico, a distance of about 38 miles, were desirous of disposing of their property. As this piece of road is the only connection to and from Santa Fe for your Espanola Branch it was thought best to control it if practicable to do so at a reasonable cost. Steps have therefore been taken with this end in view and the Rio Grande & Santa Fe Railroad Company has been incorporated in New Mexico for the purpose. As the details of the matter are still unsettled, your Directors cannot state them definitely at this time. The transaction will involve but a small cash outlay. Nearly the entire cost of the road will be paid for with securities on hand and in lieu of which those of the Rio Grande & Santa Fe Company will be placed in the treasury of your Company.

In 1877 your Company entered into contract relations with the Denver Texas & Gulf Railroad Company, the Fort Worth & Denver City Railway Company and the Denver Texas & Fort Worth Railroad Company, these three companies being subsequently known as the Union Pacific Denver & Gulf

Railway Company. By the terms of the contract joint use of about 107 miles of your railway south of Pueblo was accorded, and half the traffic of the joint track was guaranteed to the companies named. Notice of termination of the contract was given by the Receiver of the Union Pacific Denver & Gulf Railway under authority of the Court and steps were taken to build an independent line. After protracted negotiations an arrangement was finally agreed upon whereby during the life of the receivership of the Union Pacific Denver & Gulf Railway about fifty-eight miles of your line from Walsenburg to Pueblo will continue to be used jointly on terms approximating per mile, annually, the amount that was paid under the original contract. The successor company to the Receiver will have the right to continue the new contract for a period of ten years after the expiration of the receivership if it desires to do so.

The opinion expressed by your Directors a year ago that there were evidences of improvement in business and that they would be able to submit to you more satisfactory results in future has been verified. The general strike of July, 1894 lessened to some extent the earnings of your System, but the effect of the labor troubles was very much modified by the loyalty of your employees generally, to whom and to the officers of the Company your Directors make their greatful acknowledgments.

By order of the Board of Directors.

E. T. JEFFERY,
President.

DENVER, Col., August 21, 1895.

CERTIFICATE OF STOCKHOLDERS' AUDITOR.

DENVER, COLO., August 20, 1895.

To the Stockholders of the Denver & Rio Grande RR. Co.:

GENTLEMEN—I have made the annual examination of the accounts of the Company, in conformity with the By-Laws, and have ascertained the correctness of the Balance Sheet for the year ended June 30, 1895.

I have investigated the books and accounts and vouchers relating thereto, and, in my opinion, the Balance Sheet is a full and fair Balance Sheet, and is properly drawn up so as to exhibit a true and correct view of the state of the Company's affairs.

I have had ready access to the books and accounts, and all explanations or information called for from officers has been freely given, and has been satisfactory.

Very respectfully yours, etc.,
CHARLES WHEELER,
Auditor for Stockholders.

REPORT OF THE COMPTROLLER.

THE DENVER & RIO GRANDE RR CO.,
NEW YORK, August 19, 1895.

MR E. T. JEFFERY, *President.*

DEAR SIR—I beg to present herewith my report of the Company's financial condition June 30, 1895, consisting of the adjustments made in the General Profit and Loss Account during the fiscal year then ended, together with Comparative Balance Sheet, Summary of its financial operations outside of its Income Account, based on such comparison, and Tabular Statement of Securities owned by the Company at that date, arranged in the order named.

Annexed hereto is the report of the Auditor, exhibiting in detail the Earnings and Expenses, and other statistical information, from the records of the Company, for the same period.

Very respectfully,
STEPHEN LITTLE,
Comptroller.

GENERAL PROFIT AND LOSS ACCOUNT.

(Adjustments therein June 30, 1894, to June 30, 1895.)

	Dr.	*Cr.*
By Balance Surplus June 30, 1894		$2,623,054 45
By Surplus for year ended June 30, 1895, as per Income Account (page 423)		528,690 35
To adjustments during the year to the debit of Profit and Loss direct	$21,983 94	
Less adjustments for same period to credit of Profit and Loss direct	432 81—	$21,551 13
To portion of value of Equipment written off, as per resolution of Board of Directors, July 16, 1895		1,000,000 00
To Balance		2,130,193 67
	$3,151,744 80	$3,151,744 80
By Balance at credit of Profit and Loss June 30, 1895, as per Comparative Balance Sheet		$2,130,193 67

SUMMARY OF FINANCIAL OPERATIONS

OF THE DENVER & RIO GRANDE RAILROAD COMPANY FROM JUNE 30, 1894, TO JUNE 30, 1895, OUTSIDE OF ITS INCOME ACCOUNT.

RESOURCES TO BE ACCOUNTED FOR THUS:

DECREASE OF ASSETS.

Equipment (see page 29 of report)	$1,004,182 35
Mule and Grading Outfit	3,000 00
Materials and Supplies	65,118 33
Bills Receivable	1,800 00
Individuals and Companies	21,966 70
Agents and Conductors	7,418 60
U. S. Government	597 62
Cash to be Invested (Special Renewal Fund)	3,742 34
Total Decrease of Assets	$1,107,825 94

INCREASE OF LIABILITIES.

Pay Checks, "Series A"	$3,628 49
Unclaimed Wages	2,175 58
Express Money Orders	7 60
First Mortgage Bonds, Coupons due and unpaid	1,505 00
First Con. Mort. Bonds, Coupons due and unpaid	1,4 0 00
Improvement Mort. Bonds, Coupons due and unpaid	2,000 00
Equipment Renewal Fund	30,792 15
Accrued Taxes	3,087 60
Total Increase of Liabilities	$45,556 42

INCREASE OF RENEWAL FUND.

By Balance at credit of Renewal Fund June 30, 1894	$437,646 85	
By Balance at credit of Renewal Fund June 30, 1895	451,575 38	
Increase for the Year		$13,928 53
Grand Total to be accounted for		$1,167,310 80

This sum is accounted for as follows:

INCREASE OF ASSETS.

Construction of Branches	$5,684 22
State and County Warrants	6,01 87
Cash	126,.84 50
Pueblo Union Depot Sinking Fund	800 00
Bonds and Stock of the Rio Grande Southern Railroad Co. acquired under agreement of February 27, 1895	169,8 0 10
Sinkers	1,1 6 82
Traffic Balances	1,250 28
D. & R. G. RR. Co. Improvement Mort. Bonds (Special Renewal Fund)	9,420 87
D. & R. G. RR. Co. First Cons. Mort. Bonds (Special Renewal Fund)	8 250 00
Total Increase of Assets	$325,650 76

DECREASE OF LIABILITIES.

Loans Payable	$50 000 00
Bills Payable	100,000 00
Vouchers	1,0 6 53
Pay Rolls	18,34 16
Traffic Balances	12,599 62
Car Service	9,967 81
Sundries	4,029 13
Accrued Rental of Leased Lines	1,126 50
Total Decrease of Liabilities	$348,790 35

DECREASE OF PROFIT AND LOSS.

(As per Comparative Balance Sheet, page 422)

By Balance at credit of Profit and Loss June 30, 1894	$2,623,054 45	
By Balance at credit of Profit and Loss June 30, 1895	2,130,193 67	
Decrease for the year		$492,860 78
Grand Total accounted for		$1,167,310 80

REPORT OF THE AUDITOR.

THE DENVER & RIO GRANDE RR CO.,
DENVER, COLORADO, August 14, 1895.

MR. STEPHEN LITTLE, *Comptroller*.

DEAR SIR:—I beg to transmit herewith the tabular statements showing the operations, financial and statistical, of the Company's lines for the fiscal year ended June 30, 1895.

Yours respectfully,
E. R. MURPHY, Auditor.

STATEMENT OF EARNINGS AND EXPENSES
FOR THE FISCAL YEAR ENDED JUNE 30, 1895,
Compared with Year Ended June 30, 1894.

Earnings—	1894-5.	1893-4.	*Inc. or Dec.*
Freight	$4,7 5,004 92	$4,5 2,162 55	I.$290,742 37
Passenger	1,183,270 9	1,175,184 50	I. 8,085 59
Express, Mail, Miscellaneous and Rents	913,665 45	771,696 53	I.141,968 92
Total Earnings	$6,916,840 56	$6,476,043 58	I.$440,796 98
Expenses—			
Maintenance of Way	$820,7 0 65	$846,958 63	D.$26,237 98
Main. of Structures	144,136 94	102,797 37	I.41,339 57
Main. of Equipment	398,410 15	384,421 10	I.14,889 05
Cond'cting Transp'tion	2,188,768 16	2,235,024 36	D 46,260 90
Express Expenses	175,623 43	151,786 37	I 23,837 06
General Expenses	265,657 28	252,563 34	I.11,093 94
Total Expenses	$3,991,211 91	$3,972,551 17	I.$18,660 74
Percentage of Operation	(57·70)	(61·34)	
Net Earnings	$2,925,628 65	$2,503,492 41	I.$122,136 24

This Company's Expense Accounts were changed on July 1, 1894, to conform to those of the Inter-State Commerce Commission Classification, necessitating the redistribution of the expenses by departments for the year 1893-94 for the purpose of comparison, the total, however, remaining the same.

INCOME ACCOUNT.

NEW YORK ONTARIO & WESTERN RAILWAY COMPANY.

SIXTEENTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1895.

NEW YORK, August 26th, 1895.

To the Stockholders:

At the suggestion of the New York Stock Exchange that Reports of Railway Companies should be issued before the annual meeting, your Board of Directors decided that the report of operations for each fiscal year should be placed before you prior to the date fixed for the subsequent annual meeting, and the report for the year ended June 30, 1895, is therefore sent you as soon after the closing of the accounts as possible.

The receipts and disbursements for the last fiscal year, compared with the receipts and disbursements of the preceding year, were as follows:

RECEIPTS.

	1895.	1894.
Passengers	$599,451 79	$679,149 14
Freight	2,908,034 89	2,997,011 22
Mails, Express, etc	122,931 82	124,841 21
Miscellaneous	38,694 68	41,118 06
Total	$3,669,113 18	$3,842,119 63

OPERATING EXPENSES.

	1895.	1894.
Conducting Transportation	$797,192 29	$810,185 48
Motive Power	781,686 28	832,455 21
Maintenance of Cars	241,360 86	229,856 89
Maintenance of Way	468,067 60	490,015 44
General Expenses	109,398 47	114,470 54
Miscellaneous Expenses	142,545 86	150,895 65
Total	$2,540,251 36	$2,627,879 21
Taxes	102,161 08	104,660 95
Total Operating Expenses and Taxes	$2,642,412 44	$2,732,540 16
Net Earnings	$1,026,700 74	$1,109,579 47
Interest, Rentals and Charges	700,317 93	690,012 89
Surplus	$326,382 81	$419,566 58

The receipts from local passengers were $547,108 91, compared with $557,870 08 in the preceding year; from through passengers and immigrants $52,342 88, compared with $121,279 06; and from mails and express $122,931 82 against $124,841 21. Freight traffic receipts for the last four years are classified as follows:

	1895.	1894.	1893	1892.
	$	$	$	$
Through Freight	303,584 34	226,291 55	347,246 26	355,299 89
Local Freight	641,541 96	662,807 39	688,571 81	671,595 23
Milk	381,681 30	354,037 94	347,359 54	302,695 85
Coal	1,581,227 29	1,753,874 34	1,436,539 53	1,126,456 77
Miscellaneous	38,694 68	41,118 06	36,595 20	35,827 88
Total	2,946,729 57	3,038,129 28	2,856,312 34	2,491,875 62

Following the usual form, a comparison of operations with those of previous years is submitted:

Year ending June 30	Earnings.	Operating Expenses and Taxes.	Net Revenue.	Charges.	Surplus.
	$	$	$	$	$
1890	2,209,146 01	1,768,042 43	432,403 58	285,961 67	146,441 91
1891	2,309,702 16	2,155,372 16	654,330 00	553,890 68	100,439 32
1892	3,205,117 80	2,461,156 39	804,281 50	397,262 22	207,019 28
1893	3,688,174 92	2,798,227 62	889,948 90	633,095 79	256,852 51
1894	3,842,119 63	2,732,540 16	1,109,579 47	690,012 89	419,566 58
1895	3,669,118 18	2,642,412 44	1,026,700 74	700,317 93	326,382 81

In connection with the foregoing revenue statement for six years, the following summary of passenger and freight traffic is presented:

	Passengers Carried	Carried One Mile.	Tons of Freight.	Carried One Mile.
1890	827,766	32,142,497	1,257,199	114,554,570
1891	1,085,215	36,011,439	1,737,959	194,897,759
1892	1,060,583	37,006,885	2,085,769	263,839,116
1893	1,057,815	40,366,702	2,291,430	294,656,533
1894	926,657	36,918,802	2,404,358	328,533,616
1895	825,883	29,035,710	2,340,157	359,358,052

It will be observed that local freight earnings were $841,-541 96, compared with $662,897 39, a decrease of $21,265 43; and that through freight receipts were $303,584 34, against $226,291 55, an increase of $77,292 79.

Local freight traffic as well as local passenger earnings have continued to feel the effect of the business depression which continued throughout the greater part of the fiscal year under consideration.

Since June 30th, 1890, when the Scranton Division was opened, the anthracite coal tonnage, including coal received at Sidney from the Delaware & Hudson Canal Company, has been:

	Tons.	Revenue.
Year ending June 30th, 1891	811,485	$782,211 29
" " 1892	1,120,416	1,126,456 77
" " 1893	1,392,325	1,436,539 53
" " 1894	1,642,063	1,753,874 34
" " 1895	1,715,991	1,581,227 29

As is well known, the coal traffic has been in an exceedingly demoralized and unsatisfactory condition throughout the year. The officers of your company have done what they could to resist the tendency toward overproduction and lower rates, but have been powerless to control the situation; consequently the earnings of your company were seriously depleted.

In connection with and for the accommodation of the coal business of the Delaware & Hudson Canal Company, a superior coal trestle has during the last year been built at Oswego. This structure will provide the most ample facilities for that company at Oswego, and it is expected that shipments from Sidney northward by the Delaware & Hudson Canal Company will in the future be very considerably increased.

Oswego is rapidly growing in favor as a shipping point to Canada and the West via the Lakes, as is indicated by the statistics contained in the report of the General Manager showing the anthracite tonnage handled there during several years past.

On and after January 1st, 1896, the rates of train mileage to be paid by the New York Ontario & Western Railway Company to the New York Central & Hudson River Railroad Company, lessee of the West Shore Railroad, for trackage rights south of Cornwall Landing, are, under the agreement dated January 18th, 1888, put upon a new basis, viz.: Instead of paying twenty cents per train mile for each passenger train consisting of eight cars or less, and thirty cents per train mile for each freight or mixed train consisting of forty cars or less, the Ontario Company is to pay:

First.—Such proportion of the expense of the maintenance of the road between Cornwall Landing and Weehawken and its appurtenances (exclusive of shops and engine houses) as its train mileage shall bear to the entire train mileage on said portion of the road.

Second.—The same proportion of the interest at the rate of four per cent per annum upon an amount which shall be ascertained by adding to the sum of two millions of dollars, the sums of money actually expended by the Central Company or the West Shore Company for necessary improvements subsequent to January 1, 1886.

Such sums for train mileage shall include all charges for use of the road and its appurtenances between Cornwall Landing and Weehawken, except a proportionate share of the expenses of the yards and station houses, agents and employees at Cornwall; to be determined as to yards by the number of cars using the yard and not going through, and as to the rest by the comparative number of passengers and tonnage of freight to and from that station. The Ontario Company has also to pay for water actually used for its engines at Weehawken and New Durham at the same rates paid by the Central Company.

In other words, instead of paying a fixed sum per train mile, the Ontario Company, after January 1 next, will pay its proportion of the cost of maintaining the line between Cornwall and Weehawken, and its proportion of the interest at the rate of four per cent annually upon two millions of dollars and such sums as have been actually expended for necessary improvements since January 1, 1886.

The Ontario Company's charge for trackage will be such proportion of the whole sum as its train mileage shall bear to the entire train mileage of West Shore and Ontario trains passing over that portion of the line between Cornwall Landing and Weehawken.

The question of rates on both through and local freight and passenger business is still an unsettled and disturbing factor. There is as yet no certainty that an advance in rates, to a reasonably profitable basis, can be arrived at or maintained, although strenuous efforts are being made to secure that result. The tendency of legislation and operations of combinations of shippers are still against any just or reasonable measures on the part of the railways for remunerative or stable rates. The law recently passed by the New York Legislature and approved by the Governor, obliging railway companies to issue thousand-mile tickets at two cents a mile, is legislation in the direction of lower passenger rates and opportunities for collusion between a certain class of the traveling public and the servants of corporations. Such legislation as this may be popular but it is not less wrong. The railways are not only obliged but they are willing to increase the facilities and comforts of the traveler; and while public demands in that respect have been more than met from year to year, the compensation of the companies for the service afforded has steadily declined.

In the Eighth Annual Report of the Inter-State Commerce Commission, page 52, the average receipts on passenger traffic for the years 1888 to 1894, inclusive, are stated to have been as follows:

1888,	Passenger Revenue per passenger per mile	2·349 cents
1889,	" " " " "	2·165 "
1890,	" " " " "	2·167 "
1891,	" " " " "	2·142 "
1892,	" " " " "	2·126 "
1893,	" " " " "	2·108 "
1894,	" " " " "	1·976 "

The report goes on to say that if the average receipts per mile per passenger for 1888 had been received on the volume of traffic carried from 1889 to 1893, the public would have paid $133,500,983 more for passenger transportation to the railroads of the United States than was paid. The steam railways have also to take into account the rapid extension of electric lines between all points where the volume of passenger business promises a fairly remunerative return; and the construction of such lines has not only deprived the steam railways of a large amount of local passenger business but has necessarily led to the reduction of all local passenger rates between such points.

That the same conditions exist as to freight rates is indicated by the report of the Inter-State Commerce Commission, dated December 1st, 1894. The average receipts per ton per mile on freight for the years 1888 to 1894, inclusive, are given below:

1888,	Freight Revenue per ton per mile	1·001 cents
1889,	" " " "	·922 "
1890,	" " " "	·941 "
1891,	" " " "	·895 "
1892,	" " " "	·898 "
1893,	" " " "	·878 "
1894,	" " " "	·866 "

The report also states: "Comparing the amounts received by the railways for transportation with amounts which they would have received on the volume of traffic carried from 1889 to 1893, if the average receipts per ton per mile for 1888 had been maintained during the subsequent five years, it appears that the public would, in such case, have paid for freight transported by rail $391,958,605 more than was paid."

That these reductions have been a public gain is a somewhat doubtful proposition, in view of the fact that in 1894 fully twenty-five per cent of the railway mileage of the United States was in the hands of receivers. Unreasonably low rates are in the end not an unmixed blessing or of permanent advantage to the people.

It is doubtful whether anything is to be expected from legislation, either State or National, but railway companies are now inclined to look to the State and Inter-State railroad Commissioners for protection from attacks by legislatures and combinations of shippers. It is doubtless unfortunate that the shares and bonds of our railways are not owned, as they are in most other countries, by their patrons. A large percentage of American railway investments are owned abroad or in a few financial centres at home, and there is little in common between the patron and the owner of securities of most of the American railroads. The result is a constant struggle on one side for rates which barely cover the cost of transportation and the loss on the other side of a reasonably fair return upon investments.

It is hoped that the experiences of the last four or five years will be followed by a healthy reaction, and that the public and the legislator will realize that general prosperity is, to some extent, dependent upon the prosperity of our railroads, so that ultimately there may be co-operation between the managers of the railways and the public, at least in the direction of reasonably fair and stable rates.

The Board has given much thought to the question of paying a small dividend on the common stock, in order to terminate the existing voting trust. This subject has been agitated by one or two American stockholders, and the president of your company, when in London, in March last, brought the matter to the attention of representatives there of a very large amount of capital stock.

So much has been printed and said on the subject that it seems proper with this report to present a statement showing how the trust originated and why it has been necessary to continue it for a time.

When the Oswego Midland Railroad was reorganized, and the New York Ontario & Western Railway Company formed, the Articles of Association of the latter company provided that:

"The holders of the Receiver's debt shall, for the principal and interest thereof, up to January 1st, 1879, take in exchange therefor the preferred stock of the New York Ontario & Western Railway Company, the whole issue of which is to be limited in amount to the sum of two million dollars, which preferred stock shall have a first lien on the net income of the railroad company, after paying operating expenses, including taxes, insurance, renewals and repairs, and the reservation of a reasonable working capital, not exceeding in amount the sum of $50,000, to the extent of six per cent per annum, from the net current earnings of each year.

"The Board of the successor company shall consist of thirteen directors, of whom the preferred stockholders are to elect eight and the common stockholders five, until such time as the company shall have earned and paid a dividend upon the common stock. Upon the happening of which event the directors shall be elected by a majority of both classes of stocks voting at any election."

In 1885 the financial affairs of the company were in extremis, and it was deeply involved in perplexing complications with the affairs of the North River Construction Company, the New York West Shore & Buffalo Railway Company and the West Shore & Ontario Terminal Company. A committee for the protection of holders of common stock was formed in London, with Mr. Joseph Price as Chairman and similar committees were organized in Amsterdam, New York and Philadelphia to co-operate with the London committee. The most important question then presented was the control of the New York Ontario & Western Railway by the holders of its common stock. The attention of these committees was first given to that subject, and with the co-operation of the officers and some of the directors of the company, and under advice of eminent counsel, including Messrs. Seward and Da Costa, Hon. Ashbel Green and B. F. Dunning, Esq., an Act was framed, designed to accomplish the desired object. The Act passed the Senate and Assembly, and after a prolonged hearing at Albany, was finally approved by the Hon. David B. Hill, at that time Governor of the State. The Act is as follows:

CHAPTER 421, LAWS OF 1885.

AN ACT to authorize the New York Ontario & Western Railway Company to exchange mortgage bonds for preferred stock, and to cancel such preferred stock.

Passed June 8, 1885; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The New York Ontario & Western Railway Company is hereby authorized to issue its bonds, secured by any mortgage upon the property and franchises of the company heretofore executed, or that may hereafter be executed by said company with the assent of a majority in interest of the stockholders of each class, in exchange for the preferred stock of said company; provided that such exchange and the issue of bonds therefor shall have been first authorized by a majority of the directors of said company, representing each class of stockholders, and that the rate at which such exchange shall be made shall not exceed one dollar of bonds for one dollar of stock at par.

SEC. 2. Whenever any such exchange shall be made, the stock for which the bonds shall be issued and exchanged shall be transferred to and registered upon the books of the company in the names of Thomas P. Fowler, Richard Irvin, Jr., Thomas Swinyard, Charles S. Whelen and William F. Dunning, as Trustees for the New York Ontario & Western Railway company, who shall hold the same until all the preferred stock shall be so exchanged and transferred; and until that time the trustees aforesaid, and their successors, shall be entitled to vote upon any preferred stock so exchanged and transferred at all elections for directors representing preferred stock, and at all meetings of stockholders; but such stock shall not have any right to dividends as preferred stock or any other preferential right except the right of voting, as aforesaid.

SEC. 3. In case any vacancy shall occur by death, resignation or otherwise, in the offices of said trustees the same shall be filled by the remaining trustees, who shall designate the successor or successors to the trustee or trustees whose office shall so have become vacant, by an instrument in writing, executed under their hands and seals, and acknowledged in the manner prescribed by statute to entitle a conveyance of real estate to be recorded, and filed with the secretary of said railway company.

SEC 4. When all such preferred stock shall have been transferred, the certificates thereof shall be surrendered by said trustees, or their successors, to the said railway company, and thereupon the said certificates and said stock shall be canceled and said stock shall not be re-issued; and upon the filing in the office of the Secretary of State of the State of New York, and of the clerk of the county in which the principal office of the said railway company is located, certificates setting forth such exchange, transfer and cancellation, signed by a majority of all the directors of said railway company, and verified under oath by its president or secretary, the capital stock of said railway company shall be thereupon deemed to have been and shall be thereby reduced to the extent of the amount of the said preferred stock so exchanged, transferred and canceled.

SEC. 5. This act shall take effect immediately.

Messrs. Thomas Swinyard and W. F. Dunning afterwards resigned as trustees, and Messrs Joseph Price and H. Pearson of London were elected by the remaining trustees as their successors.

The trustees, under the act in question, therefore represent and have always acted as trustees of the holders of common stock, and have continued for ten years past to elect directors solely in the interest of such common stock holders.

Had the preferred shares as exchanged for bonds been canceled and the voting power on the exchanged stock not been kept alive in the way provided by the Legislature, the owners of a small minority of preferred shares outstanding might still have continued to control the management of the Company, by electing eight of the thirteen directors.

The present position, therefore, is that the voting power will continue until,

1. All preferred stock outstanding is exchanged for bonds, or,

2. Until such time as a dividend on the common stock shall be earned and paid.

All of the preferred stock, with the exception of sixty shares, has been exchanged for bonds, under the act recited, and for these sixty shares, $6,000 of bonds were deposited by the railway company with the Farmers' Loan & Trust Company, for exchange, whenever the shares should be presented, and since that time the redemption price of the bonds, with accrued interest, has been paid in to the trustees, subject to the orders of the owners of the stock.

The transfer agent and officers of the company have endeavored to trace outstanding shares, and the number has been gradually reduced to the amount named; part of this amount is represented by fractional receipts issued for receivers' certificates, and many of these are likely to have been mislaid or destroyed. It is quite probable that the entire amount never can be brought in.

The alternative, and apparently most desirable method for disposing of the trust would be by the declaration and payment of a dividend upon the company's common stock

This proposal has, as stated, been presented to the representatives of a large majority of common stock held abroad, as well as to representatives of large interests at home; and after due deliberation they have advised that the voting trust as at present constituted was in no way detrimental to the company or objectionable to its stockholders generally, but, on the other hand, was, for the present, to some extent, a safeguard and protection to the owners of the company's bonds, as well as to the large majority of shareowners at home and abroad. The conclusions arrived at are embodied in the following statement, prepared at an informal conference, held last March, in the office of the English Association of American Bond and Shareholders, No. 5 Great Winchester Street, London, E. C.

"More than half of the shares of the company are owned abroad. Stockholders abroad are quite unconcerned about the voting trust and are indifferent in regard to terminating it. It is looked upon as a trust, originally created for the benefit of the common stockholders and continued for their protection. The question of paying dividends should rest wholly with the Board and the financial ability of the company to continue the payment of dividends is the only basis which would justify the company in declaring one The proposition to pay a small dividend with the sole object of terminating a voting trust, which very few shareholders object to, is looked upon as misleading and inexpedient."

Your directors and officers are, however, desirous of ending the trust at the earliest moment practicable, and as soon as the financial condition and surplus earnings of the company justify, in their judgment, the payment and continuation of an annual dividend on the common stock, the same will be declared without hesitation or unnecessary delay.

It must be conceded that the voting power has in no way been abused; nor has it been detrimental to the interests of the stockholders, who for the last ten years have continued to loyally support the present management.

Within the period named the earnings and traffic have been materially increased. Gross earnings from $1,688,093 95 in 1887 to $3,669,113 18 in 1895, or 117·35 per cent. Net earnings from $320,449 19 to $1,026,700 74, or 220·39 per cent, and surplus earnings from $66,697 75 to $326,382 81, or 389·35 per cent.

In 1887 the number of passengers carried one mile was 28,282,907; in 1895, 29,035,710; increase, 2·66 per cent. The tons of freight moved one mile in 1887 amounted to 63,486,586 tons and in 1895 to 359,358,052 tons; increase, 466·04 per cent. Within these eight years $11,142,794 51 have been economically and judiciously expended upon the property, from surplus earnings and proceeds of bonds, in the construction of the Scranton extension, additional terminals, new equipment, building of the Zig Zag Tunnel, improvement of grades and other additions and betterments; while renewals have included the replacement of old iron and light steel rails by heavier steel rails, reconstruction of bridges, and many improvements in other directions, providing enlarged facilities, and securing not only greater safety but decrease in cost of operation.

All capital expenditures and details of improvements have been fully set forth in the company's annual reports issued since 1888.

The credit of the company has also been advanced from a condition in which it was most difficult to sell a six-per-cent. bond at 85 to the present, which finds the company's four-per cent bonds having a ready sale in the open market at a price considerably above ninety.

In view of these results your Board of Directors feel that they are entitled to your confidence, and if such results during the period reviewed have been satisfactory to the stock and bondholders, it may with reason be asserted that the trust has, on the whole, been of much advantage to the property and a wise provision for its benefit and security.

The position of the company is now comparatively strong, and its future prospects, in the opinion of your Board of Directors, warrants the belief that the trust may be terminated at no distant day by the declaration of a dividend; but the directors believe that this question should be left to them, with the assurance on their part that at the earliest practicable moment they will take such action as will restore to stockholders of record the right to vote directly for the entire Board. This right exists now in reality, and the intervention of trustees is merely perfunctory so far as the annual

election of eight of the thirteen directors is concerned; but all voting trusts are recognized as objectionable, and this one should, in the opinion of the Board, be terminated when the purpose for which it was originally formed has been fully subserved.

The Board regrets to announce that since the close of the fiscal year the Company has lost, in the death of Colonel E. K. Sibley, one of its most efficient and faithful directors. Owing to the near approach of the annual election no action has been taken by the Board toward the election of a successor, but the name of Mr. C. Ledyard Blair, of Messrs. Blair & Co., New York, will be presented to the stockholders at the approaching meeting for election to the vacancy.

The employees of the company have, as in the past, continued faithful in the discharge of their duties, and your directors feel that their loyalty to the company should be acknowledged in this report.

By order of the Board,

THOMAS P. FOWLER, *President.*

CHICAGO MILWAUKEE & ST. PAUL RAILWAY COMPANY.

THIRTY-FIRST ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1895.

The President and Directors submit to the Stockholders the following report of the business and operations of the Company for the year ending June 30, 1895, and of the condition of its property and finances at the close of that year.

The operations for the year show the following result:

Gross earnings		$27,345,369 19
Operating expenses		17,043,758 09
Net earnings		$10,301,611 10
Income from other sources		134 6 7 04
Total		$10,436,263 14
Fixed charges—interest on bonds		7,629,377 07
Balance above fixed charges		$2,708,886 07

During the year two dividends aggregating seven per cent were paid on preferred stock and two dividends aggregating three per cent were paid on common stock—of which dividend No. 49, paid October 22, 1894—3½ per cent on preferred and 2 per cent on common stock—was from net earnings of the previous fiscal year ending June 30, 1894.

MILES OF TRACK.

The Company owns and operates 6,165 73 miles of railway as follows:

Main track owned solely by this Company	6,159 40	
Main track owned jointly with other Companies	9 33	
Total length of main track		6,168 73
Second and third tracks and connection tracks owned solely by this Company	211 58	
Second and third tracks and connection tracks owned jointly with other Companies	3 42	
Total length of second and third tracks and connections		215 00
Tracks owned by other Companies, but used by this Company under agreements		61 97
Yard tracks, sidings and spur tracks owned solely by this Company	1,356 09	
Yard tracks, sidings and spur tracks owned jointly with other Companies	38 33	
Total length of yard tracks, sidings and spur tracks		1,364 82
Total miles of track		7,810 02

The lines of road are located as follows:

In Illinois	318·08	miles.
Wisconsin	1,093 57	"
Iowa	1,553 87	"
Minnesota	1,139 00	"
North Dakota	118 21	"
South Dakota	1,101 06	"
Missouri	149 27	"
Michigan	152 68	"
Total length of main track	6,165 73	miles.

After the construction of the road from McGregor, Iowa, westward, the transfer of freight and passengers across the Mississippi between Prairie du Chien and McGregor was made, for a time, by steamboats owned and operated by John Lawler. Subsequently Mr. Lawler constructed a pontoon bridge across the river, under the charter of the Prairie du Chien & McGregor Railroad Company, and contracts were from time to time made with him for the transfer of all freight and passengers. At the expiration of the last contract, during the past year, the Prairie du Chien & McGregor Railroad with its franchises and property, including the pontoon bridge across the river, was purchased by this Company, for the sum of $90,000, and is now operated as part of the Prairie du Chien Division.

An extension of the Wisconsin Valley Division, from Minocqua, its former terminus, to Star Lake, a distance of 18·80 miles, has been completed at a cost of $183,626 73.

No other extension has been made.

ROLLING STOCK.

The amount of $54,905 12 has been expended during the past year for new rolling stock and appliances, of which amount $26,204 61 has been charged to the Rolling Stock Replacement Fund and $28,700 51 has been charged to Cost of Road and Equipment, as follows:

Charged to Rolling Stock Replacement Fund—		
100 flat cars	$25,203 66	
1 special flat car for heavy machinery	1,000 95	$26,204 61
Charged to cost of Road and Equipment—		
1 Class "C" Locomotive	$8,000 00	
Power Brakes, Automatic Couplers Steam-heat Equipment and other improvements	20,700 51	$28,700 51

COMPARATIVE SUMMARY OF OPERATION.

Gross Earnings.			
1894	$31,827,950 95		
1895	27,345,369 19	Decrease	$3,992,581 76
Operating Expenses			
1894	$20,114,231 65		
1895	17,043,758 09	Decrease	$3,070,579 56
Net Earnings.			
1894	$11,213,618 30		
1895	10,301,611 10	Decrease	$922,002 20
Tons of Freight Carried.			
1894	10,794,058		
1895	10,475,942	Decrease	318,116
Number of Passengers Carried.			
1894	7,921,882		
1895	7,235,299	Decrease	686,583
Miles Run by Revenue Trains.			
1894	21,705,624		
1895	19,380,472	Decrease	2,325,152
Mileage of Loaded Freight Cars.

1895	4,478 03	Decrease	$658 37
Operating Expenses Per Mile of Road.			
1894	$3,252 18		
1895	2,767 14	Decrease	$505 04
Net Earnings Per Mile of Road			
1894	$1,884 22		
1895	1,671 89	Decrease	$153 33
Average Miles of Road Operated During the Year.			
1894	6,147 08		
1895	6,159 35	Increase	12·27

GENERAL REMARKS.

The results from operation of your Company's lines, compared with the previous year, show a decrease of gross earnings, $3,992,581 76; decrease of expenses, $3,070,579 56, and decrease of net earnings, $922,002 20.

The earnings from freight traffic in the year ending June 30, 1894, were $21,550,686 79, and in the year ending June 30, 1895, $18,978,263 89—a decrease of $2,572,423 90, or 11·94 per cent. The principal decrease in tonnage was in the following commodities: Flour and Mill Feed, 35,385 tons; Wheat, 305,135 tons; Oats, 58,511 tons; Corn, 293,971 tons; Flax Seed, 42,956 tons; other grains, 16,598 tons; Hay, 52,471 tons; Lumber, 23,615 tons; Merchandise, 101,512 tons; Miscellaneous, 118,583 tons.

The number of tons of freight carried in 1894 was 10,794,058, and in 1895 10,475,942—a decrease of 318,116 tons, or 2·95 per cent; the number of tons of freight carried one mile in 1894 was 2,077,869,479, and in 1895, 1,765,245,552—a decrease of 312,623,927, or 15·05 cent; the revenue per ton per mile in 1894 was 1·037 cents, in 1895, 1·075 cents—an increase of ·038 cents or 3·66 per cent; the average miles each ton of freight was carried in 1894 was 192·50, and in 1895, 168·50—a reduction of 24 miles, or 12·47 per cent.

The tonnage of grain and its products, and other agricultural products, in 1894 was 3,432,317 tons; in 1895, 2,754,746 tons—a decrease of 19·74 per cent; the tonnage of all other commodities in 1894 was 7,311,741 tons; in 1895, 7,681,198 tons—an increase of 5·05 per cent.

The average rate per ton per mile received for freights, for a series of years past, has been as follows, viz :

Year.	Cts.	Year.	Cts.	Year.	Cts.
1866	3·76	1876	2·04	1886	1·17
1867	3·94	1877	2·08	1887	1·09
1868	3·49	1878	1·80	1888	1·006
1869	3·10	1879	1·72	1889	1·059
1870	2·82	1880	1·76	1890	0·995
1871	2·54	1881	1·70	1891	1·003
1872	2·43	1882	1·48	1892	1·026
1873	2·59	1883	1·39	1893	1·026
1874	2·88	1884	1·29	1894	1·037
1875	2·10	1885	1·28	1895	1·075

The principal causes of the large decrease in freight revenues during the past year have been the general commercial depression and the failure of crops in a considerable section of our territory which had heretofore produced a large volume of long-haul traffic. A loss in traffic receipts of perhaps $500,000 was caused by the strike which occurred in the month of July, reference to which was made in last report.

The earnings from passenger traffic in the year ending June 30, 1894, were $7,311,822 10, and in the year ending June 30, 1895, $5,852,781 16, a decrease of $1,459,040 94, or 19·95 per cent; the number of passengers carried in 1894 was 7,921,882 and in 1895 7,235,299, a decrease of 686,583, or 8·67 per cent; the number of passengers carried one mile in 1894 was 337,133,333 and in 1895 244,225,638, a decrease of 92,907,650, or 27 56 per cent; the revenue per passenger per mile in 1894 was 2·169 cents and in 1895 2·396 cents, an increase of ·227 cents per passenger per mile, or 10·47 per cent.

The expenses of operation for the year as compared with the previous year decreased $3,070,579 56.

In the expenditures pertaining to maintenance of property there was a decrease in the following items: Repairs of Track, $467,478 93; Renewal of Rails, $138,965 36; Renewal of Ties, $61,795 19; Repairs of Bridges, $37,662 69; Repairs of Fences, $6,819 90; Repairs of Buildings, $53,660 05; Repairs of Locomotives, $257,421 60; Repairs of Cars, $333,682 53.

The account of Repairs of Cars includes $176,145 56 for replacement. Of this sum there was actually expended $26,204 61, as shown on page 427; and the balance, $149,940 95, was carried to the credit of Rolling Stock Replacement Fund, which now amounts to $260,610 00, and is sufficient to replace the shortage in equipment shown on page 23 of pamphlet report. Although this amount has been charged to operating expenses, it has not been necessary to expend the fund thus created, because we have had sufficient rolling stock to handle our traffic during the period of depression. With an increase of traffic it will be necessary to use this fund in actual replacement of the shortage.

During the year there were constructed 46 iron bridges, aggregating 3,229 feet in length, replacing an equal number of wooden bridges; about five and nine-tenths miles of pile bridges were filled with earth—322 bridges being completely filled and 80 others reduced in length by filling—and 389 wooden culverts were replaced with iron. Such portion of the cost of this work as represents the excess over cost of renewal in the original form has been charged to improvement account, so that of the expenditures on bridges for the year $660,382 97 was charged to expense account and $245,871 43 to improvement account.

There are under construction 47 iron bridges, aggregating 3,848 feet in length, which will replace an equal number of wooden bridges, of which the majority are located on the Chicago & Council Bluffs Division in Illinois, the River and Kansas City Divisions

In the items which pertain to conducting transportation there was a decrease in expenses as follows: Station Service, $210,258 97; Conductors, Baggagemen and Brakemen, $200,411 85; Engineers, Firemen and Wipers, $214 999 94; Fuel, $463,078 86; Oil and Waste, $25,264 12; Total, $1,114,013 74.

The reduction in these items is principally due to decrease in tonnage and train service. The wages paid station and train men were the same as in the previous year. A minor part of the reduction in fuel expense is due to reduced cost of coal.

Liberal expenditures upon the property during recent years, the comparative cheapness of rails, ties and other material, and the reduced volume of traffic, made it possible to reduce maintenance and operation expenses in the year just closed. The physical condition of the property is excellent.

There are substantial reasons for believing that the period of depression which has prevailed for the past two years is passing away, and with a good crop—which present indications promise—we may expect better results the coming year.

At the close of the last fiscal year the share capital of the Company was—Preferred Stock, $25,978,900; Common Stock, $46,027,261. It has been increased during the year ending June 30th, 1895, by $183,000 of Preferred Stock issued in exchange for a like amount of convertible bonds canceled.

At the close of the last fiscal year the funded debt of the Company was $138,801,000. There has been added during the year $704,000 general mortgage four per cent bonds of the Company, for improvements and additions to the property, as specified in the statement on pages 25 and 26 of pamphlet report, and $218,200 for underlying bonds paid and canceled; and there has been deducted $183,000 for bonds retired by conversion into preferred stock, $218,200 for bonds paid and canceled, and $1,000 for a bond lost or destroyed—leaving the total funded debt at the close of the year ending June 30, 1895, $139,321,000.

At the close of the last fiscal year the amount of bonds in the treasury unsold or due from Trustees was $3,990,800. This amount has been increased $704,000 during the year, for improvements and additions to the property, and $221,200 representing bonds canceled by sinking funds, etc ; and there has been deducted $100,000 bonds sold to the Insurance Department of the Company, and $198,000 bonds canceled or set apart for sinking funds, so that there remain in the treasury or due from Trustees, June 30, 1895, bonds to the amount of $4,618,000.

The last annual report showed bills payable to the amount of $1,000,000. During the past year these have been paid off, and there are none now outstanding.

Insurance Department.—In the last annual report statement was made that the Insurance Department had a credit balance of $116,257 03 at the close of the fiscal year ending June 30, 1894. This amount included income received from the original guarantee fund, and was subject to claims in process of adjustment for losses prior to that date. After adjusting such claims the balance was $111,909 80. Of this amount $100,000 was transferred to the guarantee fund and invested in the purchase of $100,000 general mortgage bonds of this Company and $10,000 bonds of the Kan. City Belt Ry. Co., leaving a balance of $11,909 80 carried to the new account.

During the past year the result was as follows :

Amount of premiums received		$91,075 78
Income from investments		18,540 00
Total Receipts		$109,615 78
Losses paid	$28,452 29	
Expenses paid	4,265 17	
Losses not yet adjusted (estimated)	10,000 00	
Total Expenditures		42,717 46
Net Income for the year		$66,898 27
Balance of Income June 30, 1894		11,909 80
Losses unadjusted		10,000 00
Cash in Bank		$88,808 07

The Guarantee Fund is charged on the Insurance Department books at $400,000, and is invested in the following :

Chic. Mil. & St. P. Ry. Co. Consol. Bonds, par value.	$10,000 00
Ch. M.& St.P. Ry.Co So.Minn.Div. Bonds, par value	2,000 00
Ch. Mil. & St. P. Ry. Co. Gen. M. Bonds, par value	296,000 00
Dakota & Gr. So. Ry. Co. Gen. M. Bonds, par value	6,000 00
Kan. City Belt Ry. Co. First Mort. Bonds, par value	96,000 00
Total	$410,000 00

Since its organization on February 11, 1893, the revenue of the Insurance Department has exceeded its expenses and losses by $188,808 07, and the original fund of $300,000 has been increased to $410,000, par value of securities held, and there is cash on hand $88,808 07, against which there are possible claims for unadjusted fire losses not exceeding $10,000.

The Board have to place upon record a minute of the death, on the 13th day of November, 1894, of Mr. J. Hood wright, who had served as a Director since June 1, 1889. The rectitude of his character, and his faithful and intelligent fulfillment of his duties, rendered his services as Director most valuable to the Company.

The General Counsel of the Company, Mr. John W. Cary, who had been at the head of its Law Department for nearly thirty-two years, died on the 29th of March, 1895. By his death the Company has lost an able, experienced and trusted Counsellor.

For details of operation, reference is made to the statements of the General Auditor, appended hereto.

By order of the Board of Directors.

ROSWELL MILLER.
President.

August, 1895.

GEORGIA SOUTHERN & FLORIDA RAILWAY CO.—(SOUTHERN RAILWAY SYSTEM).

ABSTRACT OF FIRST MORTGAGE, DATED JUNE 1, 1895, SECURING 5 P. C. GOLD BONDS DUE JULY 1, 1945.

PARTIES.

The GEORGIA SOUTHERN & FLORIDA RAILWAY COMPANY of Georgia, party of the first part, and the MERCANTILE TRUST & DEPOSIT COMPANY OF BALTIMORE, Maryland, as trustee, party of the second part:

(FORM OF BOND.)

No..... UNITED STATES OF AMERICA. $1,000 00.

STATE OF GEORGIA.

FIRST MORTGAGE, FIVE PER CENT FIFTY YEAR GOLD BOND OF THE GEORGIA SOUTHERN & FLORIDA RAILWAY COMPANY.

The GEORGIA SOUTHERN & FLORIDA RAILWAY COMPANY, a corporation created under the laws of the State of Georgia and having its principal office in the City of Macon in the said State, hereby acknowledges itself indebted to the bearer, or, if registered, to the registered holder hereof, in the sum of one thousand dollars, which sum it hereby covenants and agrees to pay to the bearer or registered holder in gold coin of the United States of America, of the present standard of weight and fineness, on the first day of July in the year Nineteen Hundred and Forty five, with interest in the mean time at the rate of five per centum per annum, payable semi-annually in like gold coin on the presentation and surrender of the annexed coupons as they severally become due; and to pay the said principal and interest without any deduction for National, State or municipal taxes, at its agency in the City of New York, or, at the option of the holder, at the office of the Mercantile Trust & Deposit Company of Baltimore in the city of Baltimore.

If any semi-annual instalment of interest on this bond shall remain unpaid and in arrear for ninety days after the same shall have become due and been demanded, the principal of this bond may be declared due and payable in the manner and with the effect provided in the mortgage, or deed of trust, hereinafter mentioned.

This bond is one of a series of four thousand of the same date and tenor, numbered consecutively from One to Four Thousand, and amounting in the aggregate to four million dollars, which are all equally secured by a mortgage or deed of trust, dated June 1st, 1895, from the said Georgia Southern and Florida Railway Company to the Mercantile Trust & Deposit Company of Baltimore, as Trustee, covering all of the property and franchises, and also its income and earnings, to which mortgage reference is hereby made for a description of the property and franchises mortgaged and the nature and extent of the securities and rights of the holders of the said bonds and the terms and conditions on which said bonds are issued and secured.

The said mortgage provides that any of the bonds of this series may at any time, at the option of the holder, be registered as to principal upon books to be kept for the purpose at the office of the said Trustee, and after the fact of such registration has been endorsed hereon this bond shall be transferable only on the said books unless the last registration shall have been to bearer, when it shall again become transferable by delivery, subject to subsequent registration in like manner; but the coupons hereto annexed shall continue transferable by delivery, notwithstanding such registration.

This bond shall not become valid or obligatory for any purpose until authenticated by the certificate of the Mercantile Trust & Deposit Company of Baltimore hereon endorsed.

In testimony whereof the said Georgia Southern & Florida Railway Company has caused the said coupons to be authenticated by a *fac-simile* of the signature of its Treasurer, and these presents to be signed by its President and Secretary, and its corporate seal to be hereto affixed this first day of July in the year Eighteen Hundred and Ninety-five.

(COUPON.)

The GEORGIA SOUTHERN & FLORIDA RAILWAY COMPANY will pay to bearer at its Agency in the City of New York, or at the office of the Mercantile Trust & Deposit Company of Baltimore, in the City of Baltimore, Twenty five Dollars in U. S. Gold Coin on the first day of , being six months' interest on its First Mortgage Five Per Cent Fifty-Year Gold Bond, No. .....

Treasurer.

(The coupons are to be authenticated by a *fac-simile* of the signature of the Treasurer of the railway company.)

The better to identify the said bonds as those entitled to the security afforded by this instrument, each of them has endorsed upon it a certificate to be signed by the party of the second part by its President or Vice-President, as follows:

(TRUSTEE'S CERTIFICATE.)

The MERCANTILE TRUST & DEPOSIT COMPANY OF BALTIMORE hereby certifies that this bond is one of the series described in and intended to be secured by the within-mentioned mortgage.

MERCANTILE TRUST & DEPOSIT COMPANY OF BALTIMORE,

by President.

THESE BONDS AND, SUBJECT THERETO, $684,000 OF FIRST PREFERRED STOCK, SECURED BY THIS MORTGAGE.

Whereas, by the resolutions of the stockholders and directors it was provided that the prompt and punctual payment of the principal and interest represented by the said bonds and coupons should be secured by the execution of this mortgage;

And whereas it is also intended that the first preferred stock of the party of the first part, amounting to the sum of $684,000, should constitute a lien upon all of the said property, *second* only to the lien of the said bonds and coupons;

And whereas the party of the second part has consented to accept the trust hereby created, and such acceptance is to be signified by its certifying as aforesaid the bonds so intended to be secured;

PROPERTY CONVEYED.

Now therefore this instrument witnesseth that, in consideration of the premises, etc., the Railway Company hereby conveys to the trustee all and singular its property, as follows:

All its railroad, formerly owned by the Georgia Southern & Florida Railroad Company, extending from the City of Macon, Georgia, to the City of Palatka, Florida, a distance of about 280 miles.

Also all branches, rights of way, rails, bridges, stations, engine houses, machine shops, buildings, structures, fixtures, and improvements of every kind or nature whatsoever, and all other real estate now owned or that may hereafter be acquired for the use of the said railroad or in connection therewith. Together with all the rights, privileges and appurtenances thereunto belonging or in anywise appertaining; also all locomotives, tenders, cars, and other equipment; and all supplies of every kind whatsoever for constructing, equipping, operating or repairing the said railroad. Also all its rights, franchises, privileges and immunities, including the franchise to be a corporation and operate the said railroad, and all its income and profits, and all other property, real, personal or mixed, of every kind and nature whatsoever, now owned or that may hereafter be acquired.

To have and to hold the same unto the party of the second part, its successor and assigns, forever, *in trust, first*, for the equal and pro rata security of the several persons and corporations who may be holders of any of the said bonds, without any preference or priority of one bond over another by reason of priority in the time of issue or negotiation thereof or otherwise; and *then*, for the security, as hereinafter set forth, of the persons and corporations that may be holders of any of the shares of first preferred stock aforesaid.

RIGHT TO SELL WORN-OUT ROLLING STOCK, ETC.

Provided always, that until default shall be made in the performance of some covenant herein contained, the Railway Company shall be permitted to enjoy the property hereinbefore described, and with the written consent of the said trustee to dispose of such portions of the equipment, rolling stock, implements and fixtures as may be unfit for use, provided the same be first replaced by new of at least equal value, which shall then be subject, in the same manner and to the same extent, to the operation of this mortgage.

RIGHT TO BUILD EXTENSIONS AND TO BOND THEM AT $10,000 PER MILE FREE FROM LIEN HEREOF.

And provided also that until default as aforesaid, should the Railway Company construct or acquire any extension or

branch of its present railroad, such extension or branch not being a switch, turn-out, side track or substitute for any part of the existing railroad, then in payment therefor the Railway Company may issue its bonds to an amount not exceeding $10,000 for each mile so constructed or acquired, and secure the same by a mortgage that shall constitute a lien upon such extension or branch road, its buildings, depot grounds and terminals, prior to the lien hereby created, but not so as to affect in any manner the priority of the lien hereby created upon all the now existing property of the railway company.

COVENANTS TO PAY PRINCIPAL AND INTEREST IN GOLD TAX FREE.

And the Railway Company convenants as follows:

First—To pay unto the holders of the bonds and coupons secured hereby the principal and interest thereof in gold coin of the United States of America of the present standard of weight and fineness, when and as such principal and interest shall become due and payable, without any deduction for National, State or municipal taxes, which under any law, present or future, of the United States or of any State or municipality, the party of the first part may be required to pay.

TO MAKE DEEDS OF FURTHER ASSURANCE.

Second—To make all such further deeds and assurances of the property hereby conveyed as the said trustee may require, in order to vest in the said trustee all property of any kind hereafter acquired or owned by the party of the first part, its successors or assigns, for the benefit of the holders of the bonds and coupons.

TO PAY ALL TAXES, ASSESSMENTS, ETC.

Third—To pay all taxes, public dues, charges and assessments as the same shall become due and payable, and in case of default by the Railway Company in so doing, the Trustee may in its discretion pay the same, and the sums so paid with interest at the rate of 6 per centum per annum shall be a lien on the hereby mortgaged property, but no such payment by the Trustee shall be considered a waiver of the default, nor shall it affect the right of the said Trustee to declare the principal of the said bonds to be due by reason of such default.

TO KEEP PROPERTY IN GOOD CONDITION.

Fourth—To preserve the hereby mortgaged property in the same good order and condition in which it now exists, and not to do or permit any act of any nature whereby the lien of this mortgage could be impaired.

DEFAULT FOR NINETY DAYS—25 PER CENT OF BONDS MAY REQUIRE TRUSTEE TO ACT, BUT A MAJORITY MAY DIRECT OR COUNTERMAND SUCH ACTION.

Fifth—In case of default for 90 days to pay any instalment of interest on any of the said bonds, payment thereof having been demanded, or in any other covenant of this mortgage, after written notice thereof from the trustee or from the holder of any of the said bonds—then, at the option of the trustee, the principal of all the bonds hereby secured may be declared to be immediately due and payable; or without declaring the principal of the said bonds to be due, the said trustee may take possession of all and singular the property, hereby conveyed, in the manner hereinafter provided; or may apply to any Court of competent jurisdiction for the appointment of a Receiver to take possession of the property. And any such action the trustee may take of its own accord, if it sees fit, and shall be bound to take if requested in writing by the holders of 25 per cent in amount of all the said bonds then outstanding, upon the deposit of such bonds with it, and upon being indemnified against all liabilities which it may incur in the premises; but subject to the right of the holders of a *majority* in amount of the said bonds to direct or countermand such action, as hereinafter provided.

Sixth.—In case of such default, or should the principal of the said bonds in any other way become due and payable, and remain unpaid in whole or in part, after demand therefor, the said trustee may in its discretion, and shall on the written request of the holder or holders of 25 per cent in amount of all such bonds then outstanding, take with or without entry or foreclosure, actual possession of the said railroads, and all and singular the property, things and effects hereby conveyed, or intended so to be. And the said Trustee shall personally, or by its attorney, operate the same, and receive all the income and profits therefrom, until such time as the said bonds and coupons are fully paid or satisfied; and it shall apply the money so received, *first*, to the expenses of the trust hereby created, the management of the said railroads and their appurtenances, and in making such repairs thereof as may be needed to keep the same in good working order; *second*, to the payment of interest due upon the said bonds, with interest upon delayed interest, and afterwards to the payment of the principal of the said bonds.

Seventh.—The said trustee upon becoming entitled to take possession of the said property may in its discretion, and shall on the written request of the holder or holders of 25 per cent in amount of the said bonds then outstanding, or personally or by agent, or by proceedings in a Court of Equity, cause the said property hereby mortgaged to be sold to the highest bidder at public auction at the City of Macon, after first giving notice of sale, by advertisement, published once a week for the eight weeks next preceding the day of sale, in a newspaper published in the said City of Macon, and also in a newspaper published in the City of Baltimore. And at such sale, the said property shall be sold as an entirety, (unless the holders of a majority in amount of the said bonds shall in writing otherwise request, in which case the said trustee may sell the same in parcels.)

MANNER IN WHICH PROCEEDS OF FORECLOSURE SALE SHALL BE APPLIED.

Eighth.—So long as the said railroad and appurtenances are actually in operation, under the management of the said trustee, or of a receiver, the net income shall be applied to the payment of interest on the said bonds in preference to principal, as hereinbefore set out in Article Sixth, but in case of a sale of the said property the proceeds, together with any income in the hands of the trustee or receiver, shall be applied as follows: 1st. To the payment of all expenses attending such sale, or in the fulfilment of any other duty hereunder; and, 2d, to the payment of the whole amount of principal and interest, with interest upon delayed interest, which shall then be unpaid and owing upon the said bonds or any of them outstanding, whether the said principal by the terms of the said bonds be then payable or yet to become payable. But in case of a deficiency, the said bonds shall be paid ratably, without any preference of interest over principal, and without any interest upon delayed interest. Provided, however, no coupon belonging to any of the said bonds which in any way on or after maturity may have been transferred or pledged separate and apart from its bond, shall be entitled to any payment until the principal of all the bonds hereby secured and of all the matured coupons not so transferred or pledged shall have been paid in full; and 3d, any surplus remaining after payment in full of all the said bonds and coupons shall be applied to the redemption, equally and *pro rata*, of such of the said shares of *first preferred stock* as may then be outstanding; and, 4th, any surplus still remaining after all of the said first preferred stock shall have been redeemed at par shall be paid over to the railway company, its successors or assigns.

FORECLOSURE SALE—FORMATION OF NEW COMPANY.

Ninth.—At any sale of the property the holders of the bonds hereby secured shall have the right to purchase upon equal terms with other persons; and it shall be the duty of the said trustee, if so required in writing by the holders of at least 75 per cent in amount of the said bonds then outstanding, to make such purchase on behalf of all the bondholders at a price not to exceed the whole amount of principal and interest due and accruing upon the said bonds and coupons, together with the expense of the proceedings and sale. At any such sale any of the bonds and coupons hereby secured shall be receivable as cash for the amount that would be payable thereon out of the proceeds of such sale.

Tenth.—In case of the purchase of the property on behalf of the holders of the said bonds, the said trustee shall organize a corporation to own the said property for the benefit of such holders in proportion to their respective interests in the said bonds and coupons, unless the holders of a majority in value of the said bonds shall otherwise direct, in which case the property shall be conveyed to such persons or corporation as may be designated by a majority in value of such holders, provided that such conveyance shall be made upon such terms as will in the judgment of the trustee secure to each and every such holder his just proportion of interest in the property aforesaid.

TRUSTEE MAY SEEK ANY RELIEF ALLOWED BY LAW, ETC.

Eleventh.—The trustee is authorized to take any other proceeding authorized by law to sell said property or to apply to the courts for any other relief usual in such proceedings.

Twelfth.—Upon the commencement of proceedings to enforce the rights of the bondholders after default as aforesaid the Trustee shall be entitled to the appointment of a receiver of the property and of the profits thereof, and, except as in this instrument otherwise expressly provided, no remedy hereby reserved is intended to be exclusive of any other remedy; but each such remedy is intended to be in addition to every other remedy provided by any law.

Thirteenth.—It is expressly agreed, however, that no act or default of the Railway Company shall have the effect of maturing any of the said bonds, unless with the consent of the said trustee, or of the holders of at least 25 per cent in amount of the said bonds then outstanding. But should the said trustee or a receiver take possession of the property, after the payment of all costs, expenses and interest as provided in Article Sixth of this instrument, from the surplus of the income in any year the said trustee may pay over to the holders of the first preferred stock a dividend not to exceed 5 per centum per annum; and any surplus of income thereafter may be paid over to the Railway Company, or may be held by the said trustee as additional security for the said bonds and coupons and after these for the said first preferred stock.

Fourteenth—Upon the payment of the principal and interest of all the bonds hereby secured, and the redemption of all the said shares of first preferred stock, the estate and property hereby granted to the Trustee shall cease.

Fifteenth.—The party of the second part shall not as trustee or otherwise be under obligation to do or to refrain from doing any act or thing upon the request of any person claiming to be a bondholder until such supposed holder shall produce the said bonds and deposit the same with the trustee, and guarantee and indemnify it against all costs.

Sixteenth—All actions for the purpose of enforcing any of the remedies hereby granted shall be instituted by the said trustee and the duty of the trustee to take any action is hereby declared to be subject to the power of the holders of a majority in amount of the said bonds to direct and control the same or to order the enforcement of some more effective remedy hereunder.

TRUSTEES.

Under no circumstances shall any bondholders have the right to institute any action under this instrument, except in the case of a refusal or failure on the part of the trustee to perform some duty imposed upon it by the terms of this agreement; but the trustee hereunder may at any time be removed, and a new trustee or trustees be appointed by an instrument in writing, executed by the holders of 75 per cent of the said bonds then outstanding.

In case the trustee shall at any time resign or in any way become incapable of executing the trust, it shall be the duty of the Railway Company to fill such vacancy within thirty days thereafter, and on their failure so to do, any Court of competent jurisdiction may, on the petition of the holders of 25 per cent in value of the said bonds then outstanding appoint a trustee or trustees to fill such vacancy.

The Trustee shall be responsible for reasonable diligence only in the performance of this trust, and shall not in any case be responsible for the act or default of any agent, attorney or employee selected with reasonable care or discretion.

The said Trustee may at any time release from the lien of this mortgage any land, machinery or other property which may be no longer necessary or useful for the purposes of the party of the first part, provided such property be first replaced by other property of at least equal value, and subject in the same manner and to the same extent to the lien of of this mortgage.

REGISTRATION.

Any of the bonds may at any time at the option of the owner, and upon payment to the trustee of one dollar for each bond, be registered as to the principal in a book kept for the purpose by the trustee, such registration to be certified on the back of the bond. Every bond so registered shall be transferable only upon the said book, unless the last registration shall have been to bearer, in which case it shall again become transferable by delivery. Each of the said bonds shall continue subject to successive registrations and transfers to bearer in the same way at the option of the owner; and no registration shall affect the negotiability of the coupons thereto attached, but under all circumstances the said coupons shall be transferable by delivery merely.

Peoria Decatur & Evansville RR.—The stockholders' committee announces to holders of certificates for stock deposited with the Knickerbocker Trust Company under the plan of August 30, 1894, that their stock is now subject to their order. The stock was to be released on Sept. 1 in case the committee did not receive the support necessary to enforce any plan of reorganization. The committee declares that it is very desirable that the stock should be held together, for thus only can it be made effective in any new reorganization. Deposits of second mortgage bonds with the New York Security & Trust Company are now subject to a penalty of 1 per cent. The second mortgage bondholders' committee is preparing a reorganization plan, under which, it is said, the stock will be assessed between 5 and 10 per cent.—V. 61, p. 367.

Philadelphia & Reading RR.—Judge Dallas, Tuesday, extended until September 15 the time for filing the answer of the Philadelphia & Reading Railroad Company to the bill of complaint of the Pennsylvania Company for Insurances on Lives and Granting Annuities for the foreclosure of the general mortgage. The answer filed Tuesday by what is known as "The Junior Securities Protective Committee" contends that the Court has no jurisdiction of the bill for foreclosure. It is also disputed that the Reading receivers were unable out of the assets in their possession to make payment of interest on the general mortgage bonds.—V. 61, p. 367.

Philadelphia Reading & New England RR.—The receiver reports the following earnings for the year ending June 30, 1895, and we have prepared the comparative figures for the previous year. No interest was paid on the funded debt in either year, the charges including rentals, taxes, etc., and interest on loans.

Year ending June 30.	Gross earnings.	Net earnings.	Charges.	Balance.
1894-95	$724,114	$201,861	$198,144	sur $33,717
1893-94	779,576	12,688	137,636	def. 124,948

On June 30, 1895, the receiver reported loans and bills payable $350,000, open accounts payable (contracted prior to receivership) $411,846, open accounts receivable were $86,468. —V. 61, p. 241.

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE since the last edition of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

St. Louis Alton & Terre Haute RR.—The fiscal year of this company ends Dec. 31, but results of operations for the 12 months to June 30, 1895 are reported as follows:

12 months to June 30.	Gross earnings.	Net earnings.	Taxes & rentals.	Bal. net revenue.	Other receipts.
1894-5	$1,350,055	$615,506	$413,309	$202,197	$6,800
1893-4	1,385,045	576,767	432,732	144,035	.....

—V. 61, p. 365.

Sioux City Terminal RR. & Warehouse.—At Sioux City, Ia., Aug 29, Judge Shiras of the Federal Court held that the bonds of this company are valid and ordered foreclosure. The Trust Company of North America (Philadelphia) is trustee under the mortgage, which is for $1,250,000.

Union Elevated RR.—Metropolitan West Side Elevated RR.—Chicago & South Side Rapid Transit RR.—Lake Street Elevated RR.—A sufficient number of property owners are reported to have given their consent to the construction of the Union Elevated RR., which is to bring the several elevated railroads in Chicago to the business centre of the city. The route of the loop will be on Fifth Avenue from Lake to Harrison Street, thence east on Harrison to Wabash Avenue, thence north on Wabash Avenue to Lake Street again. The Union Elevated RR. Co. was incorporated Nov. 22, 1894, with authorized capital of $5,000,000, and its road, which will be 3¼ miles in length, will be used by the four elevated railroad companies, viz., Chicago & South Side Rapid Transit Company, Lake Street Elevated RR. Co., Northwestern Elevated RR. Co. and the Metropolitan Elevated RR. Co. It is feared that injunctions may delay construction.—Vol. 61, p. 27, 69, 280.

Union Pacific RR.—Holders of Union Pacific *five per cent collateral trust* gold bonds have their attention called by the Amsterdam Committee to the advisability of depositing their bonds in view of the contemplated institution of foreclosure proceedings.

On the *equipment bonds* the Court has authorized the receiver to pay the arrears of principal and interest in accordance with the recommendation of the Master in Chancery (see V. 61, p. 283).—V. 61, p. 377.

United States Cordage.—The reorganization committee has issued a call for the fourth instalment of the assessment on the several classes of stock. This instalment is payable on or before September 13 at the Manhattan Trust Company, New York. It is expected that the reorganization will be completed within sixty days. It is thought that Mr. D. P. Travers will be the President of the reorganized company.—V. 61, p. 328

United States Book.—The bondholders' committee, of which John Kean, Jr., is Chairman and Jennings S. Cox Secretary, office No. 2 Nassau Street, New York, gives notice that more than four-fifths of all the outstanding mortgage bonds have been deposited, in accordance with the terms of the agreement dated June 13, 1894, and that the committee has declared said agreement operative. The committee extended the time for the deposit of bonds until the 5th day of September, 1895, after which date no bonds will be received except upon the payment of penalty.—V. 60, p 303.

Union Traction (Philadelphia).—The Philadelphia, People's and Electric Traction companies, which will shortly be operated in one system by the new Union Traction Company, have filed at Harrisburg their reports for the year ending June 30, 1895. These show gross earnings from passengers, &c., as follows:

Philadelphia	$5,459,868
Electric	2,112,279
People's	1,647,776
Totals	$9,219,923
Other receipts	254,656
Total receipts	$9,474,579

A large expansion in earnings is expected to result from the union of the three companies. See statement in V. 61, p. 288.

Waco & Northwestern Ry.—At Waco, Tex., September 3, this railway was sold in foreclosure and purchased by Wilbur F. Boyle, of the firm of Boyle, Priest & Lehman, St. Louis, for $1,505,000. The land grant of 230,000 acres is included in the purchase.—V. 60, p. 1151.

West Jersey RR.—This company has declared a dividend of 3½ per cent, payable in scrip on Sept. 16. The scrip will be paid in cash, or can be converted into the stock of the company on or before October 16 next. A loan of $1,000,000 matures Jan. 1, 1896, for which there is a sinking fund that on Jan. 1, 1895, amounted to $983,600. The company, it is said, also desires to retire bonds of its subsidiary companies amounting to $263,000, and therefore gives to its shareholders this option of taking stock for the dividend in place of cash. —V. 61, p. 28.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, September 6, 1895.

General business keeps gaining in volume, and in exceptional cases considerable animation has of late been shown. Phenomenally large dealings in refined sugar have taken place during the week, and additional liberal operations are reported in iron and metals at advancing prices. Export demand for breadstuffs has been checked slightly by reports of better prospects for foreign yield. An increasing movement of wheat at the Northwest is reported, but in central latitudes the deliveries are slow and largely absorbed by millers. The corn crop is considered nearly out of danger and a large yield practically assured. Cotton continues to attract investing demand, but speculation in other staple commodities is slow and careful.

The following is a comparative statement of stocks of leading articles of merchandise at dates given:

	Aug. 1, 1895.	Sept. 1, 1895.	Sept. 1, 1894
Pork.....bbls.	10,188	11,608	5,942

Rice, E. I.....bags.	50,800	34,500	18,000
Rice, domestic.....bbls.	600	750	600
Linseed.....bags.	None.	None.	None.
Saltpetre.....bags.	2,600	3,100	9,000
Jute butts.....bales.	2,300	2,300	None.
Manila hemp.....bales.	13,202	10,267	6,364
Sisal hemp.....bales.	8,928	6,328	12,905
Flour.....bbls. and sacks.	132,700	140,100	167,700

For lard on the spot demand was slow early in the week and prices declined, but subsequently there was an improvement in the export demand and prices more than recovered the loss, closing steady at 6·30c. for prime Western, 6·12½c. for prime City and 6 70c. for refined for the Continent. The speculation in the local market for lard futures was at a standstill, but the close was higher on the more active business in the spot market, closing steady.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September.....c.	6·30	....	6·25	6·17	6·25	6·30

Pork has been in active export demand, but at lower prices, closing at $10 25@$10 75 for mess. Cut meats have been quiet, and prices have declined slightly. Tallow has been quiet, closing easy at 4⅛@4¼c. Cottonseed oil has been in better demand, closing steady at 26¾c. for prime yellow and 25¾@26c. for off-grade yellow. Butter has been steady for fancy. Cheese has been quiet and easy. Fresh eggs have been steady for choice.

Coffee has met with indifferent demand and under more liberal offerings prices eased off somewhat. Rio quoted at 15¾@16c. for No. 7; good Cucuta 19c. and standard Java 27 @27½c. Contracts for future delivery have again been liquidated with some freedom at receding cost, the market closing about steady.

The following were the final asking prices:

Sept.....14·70c.	Dec.....14·45c.	March.....14·05c.	
Oct.....14·75c.	Jan.....14·25c.	April.....13·95c.	
Nov.....14·50c.	Feb.....14·15c.	May.....13·80c.	

Raw sugars sold with greater freedom and have stiffened in value for all grades. Centrifugal quoted at 3¼c. for 96-deg. test and muscovado at 3c. for 89-deg. test. Refined sugars sold upon an immense scale, making one of the largest single week's trading on record, and prices are firmer; granulated quoted at 4 7-16c.

Kentucky tobacco has sold slowly but prices have held steady; sales 150 hhds., principally for export. Seed leaf tobacco has been less active but prices have ruled steady; sales for the week were 1,340 cases, as follows: 700 cases 1894 crop, New England Havana seed, 15@20c.; 140 cases 1894 crop, New England seed leaf, 17@20c.; 100 cases 1893 crop, New England Havana seed, 9@12c.; 50 cases 1892 crop, New England Havana seed, 30@38c.; 200 cases 1894 crop, Pennsylvania seed leaf, private terms, and 150 cases 1894 crop, Flats, 10@13c.; also 900 bales Havana, 85c.@$1 05, and 225 bales Sumatra, 80c.@$2 85 in bond.

The speculative dealings in the market for Straits tin have been moderately active and prices have advanced in response to stronger advices from abroad, closing firm at 14·40@14·45c. Ingot copper has been unchanged, closing firm at 12·25c. for Lake. Lead has weakened a trifle, and the close was easy at 3·40@3·45c. for domestic. Spelter has also declined, and the close was quiet at 4·15c. for domestic. Pig iron has been moderately active and firm, closing at $11 50@$14 for domestic.

Refined petroleum has been quiet but steady, closing at 7·10c. in bbls., 4·60c. in bulk and 7·50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have advanced, closing at 1·25½c. bid. Spirits turpentine has been dull but steady at 27½@28c. Rosins have been dull, closing at $1 47½@$1 50 for common to good strained. Wool has been fairly active and steady. Hops have been dull and easy.

COTTON.

FRIDAY NIGHT, September 6, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 15,093 bales, against 6,808 bales last week and 2,715 bales the previous week, making the total receipts since the 1st of Sept., 1895, 13,802 bales, against 38,396 bales for the same period of 1894, showing an decrease since Sep. 1, 1895, of 24,594 bales.

* Including Port Royal.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Lambert & Barrows, Produce Exchange Building.

Sept. 6 at—	ON SHIPBOARD, NOT CLEARED—FOR					Leaving Stock.

Speculation in cotton for future delivery at this market has continued active. Fluctuations in price were numerous and acute, but at the full average cost ruling regular operators have felt unwilling to invest, and the outside trading public in many cases manifested a disposition to secure profits on previous deals. On Saturday, in consequence of disappointing advices from Liverpool and an effort to sell out considerable "long" cotton, prices fell away 14@16 points, closing easy. Monday (Labor Day) was observed as a close holiday. Tuesday morning brought strong accounts from abroad and a great many unpropitious crop advices from the South, which together served to stimulate a quick general demand and ran up prices 24@27 points, the buoyancy being particularly noticeable in late options. Wednesday's market was quite irregular, but in the main a weak tone developed, under considerable selling for European account and liquidation by a previously prominent bull operator, with prices making 11 points net loss. Yesterday liquidation of "long" contracts continued, symptoms of a growing movement at the ports increasing, the desire to sell, and there was further loss of 5@9 points. To-day the tone has been quite feverish, but prices in the main better on further poor crop rumors. Cotton on the spot selling slowly; middling uplands 8¼c.

The total sales for forward delivery for the week are 1,147,400 bales. For immediate delivery the total sales foot up this week 3,918 bales, including — for export, 1,918 for consumption — for speculation and 1,100 on contract. The following are the official quotations for each day of the past week—August 31 to September 6.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1⅛ on	Good Ordinary	c. 1⅛ off.
Middling Fair	⅞ on.	Good Middling Tinged	Even.
Strict Good Middling	½ on.	Strict Middling Stained	7/32 off.
Good Middling	6/16 on.	Middling Stained	7/16 off.
Strict Low Middling	3/16 off.	Strict Low Middling Stained	29/32 off.
Low Middling	7/16 off.	Low Middling Stained	1⅛ off.
Strict Good Ordinary	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7 1/16	Holiday.	7 3/16	7 3/16	7 3/16	7 3/16

☞ The imports into Continental ports the past week have been 9,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 375,661 bales as compared with the same date of 1894, an *increase* of 135,011 bales over the corresponding date of 1893 and a decrease of 293,406 bales from 1892.

At the Interior Towns the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to September 6, 1895. Receipts. This week.	Since Sept. 1, '95.	Shipm'ts This week.	Stock Sept. 6	Movement to September 7, 1894. Receipts. This week.	Since Sept. 1, '94.	Shipm'ts This week.	Stock Sept. 7.

Total, 31 towns.....	23,830	21,959	22,720	35,892	35,754	35,754	37,203	55,913

* Louisville figures "net" in both years.
† Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* [illegible] the week 1,110 bales and are now 20,021 bales *less* [illegible] same period last year. The receipts at all the towns [illegible]en 11,924 bales *less* than same week last year and since [illegible]e 13,795 bales *less* than for same time in 1894.

Quotations for Middling Cotton at Other Markets.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Sept. 6.	Closing quotations for middling cotton on—

Receipts from the Plantations.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns		
	1895.	1894.	1895.	1895.	1894.	1895.	1895.	1894.	1895.
Aug. 2.....	10,713	3,944	1,760	91,651	62,859	47,202	4,576	868	.....
" 9.....	9,243	5,732	2,137	84,667	59,935	43,742	2,259	2,808	.....
" 16.	12,248	7,213	1,749	79,179	56,939	41,714	6,760	4,217	.....
" 23	12,434	14,122	2,715	76,824	55,819	35,157	10,079	13,002	.. ..
" 30 ...	17,634	25,173	6,803	74,501	56,366	34,782	15,311	25,720	6,428
Sept. 6. ..	28,117	38,396	15 093	79,928	55 913	35 892	33,544	36,974	16,203

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 16,994 bales; in 1894 were 36,974 bales; in 1893 were 34,930 bales.

2.—That although the receipts at the outports the past week were 15,093 bales, the actual movement from plantations was only 16,203 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 36,974 bales and for 1893 they were 33,544 bales.

Overland Movement for the Week and since Sept. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Sept. 6 and since Sept. 1 in the last two years are as follows:

September 6.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1
Shipped—				
Via St. Louis.....	.....	858	.....	4,397
Via Cairo.....	.....	146	.....	92
Via Hannibal.....	.....	.....	.....	.....
Via Evansville.....	.....	.....	.....	.....
Via Louisville.....	.....	890	.....	368
Via Cincinnati.....	.....	247	.....	124
Via other routes, &c.....	.....	176	.....	217
Total gross overland.....	.....	2,317	.....	5,198
Deduct shipments—				
Overland to N. Y., Boston, &c..	.....	403	.....	810
Between interior towns.....	.....	.....	.....	3
Inland, &c., from South.....	.....	635	.....	348
Total to be deducted.....	.....	1,038	.....	981
Leaving total net overland*..	.....	1,279	.....	4,217

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 1,279 bales, against 4,217 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 2,938 bales.

In Sight and Spinners' Takings.	1895		1894	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Sept. 6.....	.....	13,802	.....	38,396
Net overland to Sept. 6	.....	1,279	.....	4,217
Southern consumption to Sept. 6.	.....	18,000	.....	15,000
Total marketed	.....	33,081	.....	57,613
Interior stocks in excess.....	.....	1,110	.....	11,422
Came into sight during week.	.....	.....	.....	.....
Total in sight Sept. 6.....	.....	34,191	.....	56,191
North'n spinners tak'gs to Sept. 6.	.....	8,272	.....	12,367

* Decrease during week. † Less than September 1.

It will be seen by the above that there has come into sight during the week 34,191 bales, against 56,191 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 22,000 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening from the South are less favorable. Rain has fallen in almost all sections during the week, but in general the precipitation has not been excessive. Worms and shedding are claimed to have done much injury to the crop in Texas, and in portions of Alabama, Mississippi, Tennessee and Arkansas damage is reported to have resulted from similar causes as well as from an excess or deficiency of moisture. Picking is now progressing well at many points.

Galveston, Texas.—It is claimed that much damage has been done by boll worms, sharpshooters and shedding all over the State. Reliable reports from all parts of Southwest Texas say that the Mexican weevil is doing great injury, and that during the last ten days it has extended as far east as Fort Bend County. Cotton is shedding badly, and conservative people now estimate the decrease in yield from last year at fully 50 per cent in Southwest, South and South Central Texas. Worms are doing much damage in North and Central Texas, and farmers are unable to obtain suitable poison to kill them. There is no Paris green in the State, though the demand for it is very great. It has rained on two days of the week, the precipitation reaching forty-five hundredths of an inch. The thermometer has averaged 84, the highest being 87 and the lowest 80. August rainfall four inches and fifty-one hundredths.

Palestine, Texas.—It has rained on two days during the week, to the extent of fifty-four hundredths of an inch. The thermometer has averaged 81, ranging from 68 to 94. During the month of August the precipitation reached three inches and thirty-seven hundredths.

Huntsville, Texas.—There has been no rain during the week. The thermometer has ranged from 70 to 94, averaging 82. During the month of August rainfall eighty-nine hundredths of an inch.

Dallas, Texas.—We have had rain on four days of the week, the precipitation reaching one inch and fifty-four hundredths. Average thermometer 82, highest 96 and lowest 68. Rainfall for August one inch and fifty-four hundredths.

San Antonio, Texas.—There has been rain on three days during the week, the rainfall being two inches and one hundredth. The thermometer has averaged 82, the highest being 96 and the lowest 68. During the month of August the rainfall reached one inch and ninety hundredths.

Luling, Texas.—It has rained on one day of the week, the precipitation being seventy-four hundredths of an inch. The thermometer has averaged 84, ranging from 72 to 96. During the month of August the rainfall reached two inches and thirty-one hundredths.

Columbia, Texas.—Rain has fallen on two days of the week, the rainfall reaching one inch and six hundredths. The thermometer has ranged from 70 to 92, averaging 81. During the month of August the rainfall reached four inches and sixty-three hundredths.

Brenham, Texas.—We have had rain on one day during the week, the precipitation reaching four hundredths of an inch. The thermometer has averaged 85, the highest being 98 and the lowest 72. August rainfall eighty-eight hundredths of an inch.

Belton, Texas.—Rain has fallen on one day during the week to the extent of thirty-three hundredths of an inch. The thermometer has averaged 82, ranging from 70 to 94. Rainfall for the month seventy-six hundredths of an inch.

Cuero, Texas.—We have had rain on three days during the week, the rainfall reaching twenty-five hundredths of an inch. Average thermometer 86, highest 98, lowest 74. August rainfall twenty-two hundredths of an inch.

Fort Worth, Texas.—We have had rain on three days of the week, the rainfall reaching eighty hundredths of an inch. The thermometer has ranged from 67 to 96, averaging 84. August rainfall fifty-four hundredths of an inch.

Weatherford, Texas.—We have had rain on two days of the week, the rainfall reaching seven hundredths of an inch. Average thermometer 81, highest 96 and lowest 66. During the month of August the rainfall reached four inches and forty-three hundredths.

New Orleans, Louisiana.—There has been rain on two days during the week and the rainfall reached twenty-eight hundredths of an inch. The thermometer has averaged 84. During August rain fell to the extent of six inches and twenty hundredths.

Shreveport, Louisiana.—There has been rain on three days of the week, the precipitation reaching twelve hundredths of an inch. The thermometer has averaged 82, ranging from 69 to 95. August rainfall one inch and forty-eight hundredths.

Columbus, Mississippi.—Picking has commenced in earnest. Rain has fallen on four days during the week to the extent of forty-four hundredths of an inch. The thermometer has ranged from 66 to 101, averaging 83. During the month of August rainfall seven inches and twenty-seven hundredths.

Leland, Mississippi.—We have had rain during the week to the extent of fifteen hundredths of an inch. Average thermometer 78, highest 90, lowest 68. August rainfall three inches and seventy-four hundredths.

Vicksburg, Mississippi.—There has been rain on two days this week, the precipitation being one inch and five hundredths. Average thermometer 81, highest 92 and lowest 71.

Little Rock, Arkansas.—Rain has fallen on one day of the week, to the extent of fifty-nine hundredths of an inch. The thermometer has averaged 82, the highest being 94 and the lowest 70. August rainfall three inches and ninety-six hundredths.

Helena, Arkansas.—Cotton is not improving. Rain has fallen on four days of the week, heavily on one, to the extent of two inches and twenty-five hundredths. The thermometer has ranged from 68 to 90, averaging 80. During the month of August the rainfall was three inches and thirty-four hundredths.

Memphis, Tennessee.—We have had light rain on three days of the week, but now the weather is clear. The condition of cotton has deteriorated as a result of drought, rust and shedding Now opening rapidly. The rainfall reached forty-nine hundredths of an inch. Average thermometer 77·6 highest 89·9 and lowest 67. During the month of August the rainfall reached sixty-four hundredths of an inch, on six days.

Nashville, Tennessee.—The week's rainfall has been one inch and seven hundredths. The thermometer has averaged 76, the highest being 88 and the lowest 63. August rainfall one inch and forty hundredths.

Mobile, Alabama.—Crop reports are unfavorable, worms, rust and shedding being complained of. There has been rain on five days during the week, the precipitation being forty-seven hundredths of an inch. The thermometer has averaged 82, ranging from 76 to 92. Month's rainfall eight inches and sixty-nine hundredths.

Montgomery, Alabama.—The cotton crop is much less promising than a month ago. Worms, rust and continued rains have done much injury. The damage is variously estimated at from twenty-five to thirty-three per cent. Boll worms are stripping cotton badly now. The corn crop is excellent. We have had rain on four days during the week, to the extent of eighty-nine hundredths of an inch. The thermometer has ranged from 74 to 89, averaging 81. August rainfall four inches and fifty hundredths.

Selma, Alabama.—We have had rain on four days of the week, the rainfall reaching forty-one hundredths of an inch. The thermometer has ranged from 67 to 89, averaging 78.

Madison, Florida.—Complaint of shedding and that plants are dying is quite general. It has rained on four days of the week, the precipitation reaching three inches and ten hundredths. The thermometer has averaged 81, the highest being 90 and the lowest 69.

Columbus, Georgia.—There has been rain on four days during the week, to the extent of one inch and thirty-four hundredths. The thermometer has averaged 80, ranging from 70 to 89. August rainfall five inches and fifty-four hundredths.

Savannah, Georgia.—There has been rain on five days of the past week, the rainfall being fifty six hundredths of an inch. The thermometer has ranged from 68 to 95, averaging 80. August rainfall nine inches and sixty-eight hundredths.

Augusta, Georgia.—Dry weather has prevailed all the week. Average thermomer 86, highest 92 and lowest 67. Rainfall for August eight inches and forty-five hundredths.

Albany, Georgia.—The crop will be very short. Rust, shedding and too much rain are complained of. There has been rain on three days of the week, the precipitation being two inches and fifty hundredths. The thermometer has averaged 78, the highest being 90 and the lowest 73.

Charleston, South Carolina.—We have had rain on six days of the week, to the extent of one inch and fifty-five hundredths of an inch. The thermometer has averaged 80, ranging from 70 to 91. August rainfall five inches and eight hundredths.

Stateburg, South Carolina.—There has been only a trace of rain on one day of the week. The thermometer has ranged from 64 to 89, averaging 77·4. August rainfall four inches and seventy-seven hundredths.

Greenwood, South Carolina.—Conditions have been favorable for cotton the past week, but the yield will be less than last year. Drought forced maturity and the opening is premature. Average thermometer 76, highest 89 and lowest 69.

Wilson, North Carolina.—There has been rain on one day of the week to the extent of fifty-six hundredths of an inch. The thermometer has averaged 75, the highest being 94 and the lowest 54.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock September 5, 1895, and September 6, 1894.

JUTE BUTTS, BAGGING, &c.—The demand for jute bagging has been only moderate during the week under review. Prices continue 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts are in light request on the spot at 1⅛c. for paper quality, 1½c. for mixing, and bagging quality nominal in the absence of stock.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 4,241 bales.

	Total bales.

BREADSTUFFS.

FRIDAY, September 6, 1895.

It has been a quiet week in the market for wheat flour. Buyers, owing to a further decline in the price of the grain, have been very indifferent operators and values have been weak. For rye flour there has been a quiet market and prices have made a slight further decline. The choice grades of corn meal have sold moderately well, but at slightly lower prices. To-day the market for wheat flour was dull and easy.

There has been little animation to the speculative dealings in the market for wheat futures, and prices have declined under a heavy movement of the spring-wheat crop, dull and depressed foreign advices, slowness of the "cash" demand and absence of speculative interest. In the spot market business has been quiet and prices have declined with futures. Yesterday sales were made of No. 1 Northern at 5/8c. over December, f. o. b. afloat; No. 1 hard spring at 4c. over September, f. o. b. afloat, and No. 1 Manitoba at 8c. over September, f. o. b. afloat. To-day the market was weaker, in response to easier foreign advices and a continued heavy crop movement at the Northwest. The spot market was dull. The only sale reported was No. 2 hard winter at 61¾c. f. o. b afloat; No. 2 red winter was quoted at 1¼c. over September, f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery	65 7/8	Holiday.	64 5/8	63 3/8	63 7/8	63 1/8

December delivery	68 1/4		66 7/8	65 3/8	66	65 1/8
May delivery	72 3/8		71 1/8	69 3/8	69 3/4	69

There has been a fairly active speculation in the market for Indian corn futures, but at declining prices, due to general selling prompted by a large crop being practically

assured, as the plant is now too far matured to be seriously damaged by unfavorable weather conditions. In the spot market shippers have been fairly active buyers, but at lower prices. The sales yesterday included No. 2 mixed at 38¾c. in elevator, 1¼c. over September f. o. b. afloat and 1¾c. over September f. o. b. afloat. During early 'Change the market was firmer on buying by "shorts" to cover, but subsequently nearly all of the improvement was lost. The spot market was quiet. The sales included No. 2 mixed at 2c. over September f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	41⅛	Holiday	40⅛	39	38⅞	38¾

December delivery ....c.	37⅛		....	35⅝	....	35⅝
May delivery .....c.	37⅛		36	35⅛	35¼	35⅛

Oats for future delivery have been quiet and prices have made fractional declines in sympathy with the weakness of corn and wheat. In the spot market business has been fairly active but at irregular prices; the white grades have advanced owing to scarcity, but the mixed grades have declined with futures. The sales yesterday included No. 2 mixed at 23½@24c. in elevator and No. 2 white at 27½c. in elevator. To-day the market was steadier. The spot market was steady. The sales included No. 2 mixed at 23½c. in elevator and No. 2 white at 27¾c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., September 6, 1895.

The market for staple cottons has again shown extraordinary strength during the past week, in face of a demand which has been less persistent and smaller in volume than the preceding week. The holiday on Monday last had some share in producing quieter conditions, but probably the most effective factor has been the increased difficulty which buyers find in doing business for either immediate or future delivery. According to the general tenor of reports made by sellers the staple goods market has rarely been in such a condition as at present. Unsold supplies are little better than nominal. Production for this month and next, at least, largely sold ahead, and raw material is advancing out of all proportion to the rise in cotton goods. Mills short of cotton, and with existing contracts at prices much below the current bases, are in a very trying position. Some have withdrawn their goods for the present, so far as taking further orders for future delivery is concerned, and if reports from the South are correct a number of manufacturers will find it difficult to keep running until the nearly supplies of cotton are available for use. In other directions cotton fabrics have shown no material alteration on the week. In the woolen goods departments dulness has been the prevailing feature in men's-wear goods, dress goods selling fairly well. A good jobbing business has again been reported here and elsewhere.

WOOLEN GOODS.—There is little new to report this week of men's-wear woolens and worsteds. The demand has been slow and individual orders generally small for both staple lines and fancies. Low-grade cheviots and cassimeres are generally well sold and steady in price, but the market for medium qualities is still irregular and in favor of buyers, with the general conditions very unsatisfactory. Staple and fine worsteds are steady. There has been a dull trade in satinets and cotton warp cassimeres, without material change in prices. Cloakings are selling relatively well in both staple and fancy varieties, but overcoatings are dull and featureless. Flannels very firm, with fair re-orders; blankets and carpets quiet, but prices well maintained. In dress goods staples are doing better comparatively than fancies, but prices of both are firm in reputable makes.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 2 were 3,225 packages, valued at $141,293, their destination being to the points specified in the table below:

NEW YORK TO SEPT. 2.	1895. Week.	1895. Since Jan. 1.	1894. Week.	1894. Since Jan. 1.
Great Britain	240	3,618	51	4,208
Other European	14	1,908	54	2,236
China	100	38,421	656	66,266

Central America	163	7,818	388	5,954
South America	2,143	41,170	650	32,919
Other Countries	92	5,262	58	2,531
Total	3,225	137,956	2,285	153,536
China, via Vancouver*	.....	16,975	.....	18,388
Total	3,225	154,931	2,285	171,924

* From New England mill points direct.

The value of the New York exports for the year has been $6,168,424 in 1895 against $7,997,974 in 1894.

Brown sheetings and drills may be quoted ⅛c. to ¼c. up on the week in many directions, although the quoted advances have again been few in number. Sellers are in some instances putting prices up to stave off orders more than in the hope of realizing the advances at the moment. Other sellers have withdrawn lines entirely for the time being. Brown and colored ducks and brown osnaburgs are also moving against buyers. The demand for bleached cottons, while not large, is sufficient to keep the market well cleaned up in all popular makes, and prices are hardening. Low-grade bleached and kid-finished cambrics are supported by the strength of the print cloth market. Wide sheetings are occasionally 1c. to 2½c. per yard dearer, but not moving readily. No change in cotton flannels or blankets. Denims have advanced all round ⅛c. to ½c. per yard, owing more to the higher price of cotton than extended demand. Advances of ⅛c. are also occasionally reported in cheviots, plaids, stripes and cottonades. Fancy calicoes are selling well. Stocks are light and prices very firm. Wide specialties also in request, and satines advanced 5 per cent in some makes. Ginghams slow in dress styles and irregular in prices in grades over 4c. Staples firm but quiet. Print cloths have been in request at 3 1-16c. for contracts, with sellers in different. Wide goods strong and 1-16c. to ⅛c. higher on the week.

Stock of Print Cloths—	1895. Aug. 31.	1894. Sept. 1.	1893. Sept. 2.
At Providence, 64 squares	103,000	179,000	173,000
At Fall River, 64 squares	18,000	361,000	480,000
At Fall River, 60-61 sizes	60,000	186,000	
Total stock (pieces)	181,000	726,000	653,000

FOREIGN DRY GOODS.—There has been a fair reorder business in fall lines of dress goods, silks and ribbons, with orders for next spring more noticeable. Linens are steady, with fair sales, as are hosiery and underwear. Laces dull throughout.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending September 5, and since January 1, 1895, and for the corresponding periods of last year are as follows:

State and City Department.

TERMS OF SUBSCRIPTION.

The Investors' Supplement will be furnished *without extra charge* to every annual subscriber of the Commercial and Financial Chronicle.

The State and City Supplement will also be furnished *without extra charge* to every subscriber of the Chronicle.

The Street Railway Supplement will likewise be furnished *without extra charge* to every subscriber of the Chronicle.

The Quotation Supplement, issued monthly, will also be furnished *without extra charge* to every subscriber of the Chronicle.

TERMS for the Chronicle with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the State and City Supplement. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the State and City Supplement to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Altoona, Pa.—Proposals will be received until September 10, 1895, by John A. Canan, Chairman of Finance Committee, for the purchase of $280,000 of 4 per cent improvement bonds. The securities will be dated July 1, 1895, and interest will be payable semi-annually in gold coin on January 1 and July 1.

Avon, N. Y.—Proposals will be received until September 9 for the purchase of $10,000 of bonds. The securities will bear interest at the rate of 4 per cent and will run 20 years.

Bay City, Mich.—Four per cent water-works bonds to the amount of $20,000 have been authorized.

Bayfield County, Wis.—An election will soon be held to vote on issuing $240,000 of bonds in aid of the Washburn Bayfield & Iron River Railroad.

Bond Hill, Ohio—Proposals will be received until September 28, 1895, by W. H. Brickel, Jr., village clerk, for the purchase of $17,000 of 5 per cent water bonds. The securities will be dated September 1, 1895, interest will be payable semi-annually and the principal will mature September 1, 1920.

Bowie, Texas.—It is reported that this city will issue water-works bonds to the amount of $9,000.

Bristol County, Mass.—Proposals will be received until September 5, 1895, by Edward Mott, Chairman of the County Commissioners, for the purchase of a 4 per cent note for $15,000, dated September 6, 1895, and payable in three years, and a 4 per cent note for $10,000, dated September 6, 1895, and payable in four years. Interest on both loans is payable semi-annually.

Charleston, W. Va.—Proposals will be received until September 26, 1895, by the Finance Committee of the Common Council, for the purchase of $25,000 of 6 per cent hospital bonds. The securities will be dated September 26, 1895, interest will be payable annually, and the principal will mature in 20 years, both principal and interest to be payable at the Chase National Bank, New York.

The city's bonded debt, including this issue, will be $126,000; floating debt (estimated), $14,000; cash on hand, $14,846. The assessed valuation for 1894 was $3,950,680; estimated actual value, $12,000,000. The estimated population is 15,000.

Cohoes, N. Y.—On September 8, 1895, the city of Cohoes sold at public auction $70,000 of 4 per cent bonds to Messrs. Roberts Brothers, of New York, at 109 66 1-16. Representatives from twenty banking houses were present. The securities are dated September 8, 1895, interest will be payable annually on December 15 at the Central Trust Company of New York, and the principal will mature at the rate of $5,000 yearly from December 15, 1915, to December 15, 1928.

Colorado Springs, Colo.—A call has been made for the payment of water-works extension bonds of Colorado Springs numbered from 81 to 105, inclusive. The securities are dated January 1, 1891, and mature January 1, 1896, with an option of call after January 1, 1893.

A call has also been made for the payment of water-works refunding bonds numbered from 17 to 40, inclusive. These bonds are dated July 15, 1886, and optional after July 15, 1891.

All of the above-mentioned securities will be paid upon presentation at the Chemical Bank of New York, the First National Bank of Colorado Springs, or at the office of the City Treasurer. Interest will cease September 15, 1895.

Columbus, Ind.—This city will issue $15,000 of bonds for water-works extensions.

Coopersville, Mich.—A vote recently taken on issuing $9,500 of water-works bonds resulted in the defeat of the proposition.

Denver, Col.—Proposals will be received until September 9, 1895, by the Board of Public Works of the City of Denver for the purchase of $2,000 of Downing Avenue Sanitary Sewer District No. 4 bonds. The securities are dated August 1, 1895, bear interest at the rate of 6 per cent, and are payable on or before August 1, 1903.

Duluth, Minn.—It is reported that a vote will be taken September 24 on issuing $1,836,000 of bonds for the construction or purchase of water-works. If it is decided to purchase the works, additional bonds to the amount of $850,000 will be issued for improvements and extensions.

Eaton Rapids, Mich.—Electric-light bonds of Eaton Rapids, to the amount of $8,000 were voted August 19. A vote was also taken at the same time on issuing $27,000 of water-works bonds, but this proposition was defeated.

Elmira, N. Y.—Proposals will be received until September 9, 1895, by Frederick Collin, Mayor, for the purchase of $190,000 of coupon or registered bridge and city hall bonds. Interest at "the lowest rate" will be payable semi-annually and the principal will mature at the rate of $30,000 each year from 1923 to 1927, inclusive, and $10,000 in 1928.

Evanston, Ohio.—Proposals will be received until October 5, 1895, by William H. Krapp, Village Clerk, for the purchase of two $500 6 per cent light bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually, and the principal will mature in 10 years, both principal and interest to be payable at the Atlas National Bank, Cincinnati, O.

Farley, Iowa.—The people of Farley have voted in favor of constructing water-works at an estimated cost of $7,000, for which amount bonds will probably be issued.

Far Rockaway, N. Y.—The citizens of Far Rockaway will vote September 9 on constructing a sewer estimated to cost $75,000, for which bonds are proposed. Should the proposition carry, $40,000 of the amount will be issued at first.

The bonded debt of the village is at present $16,000, payable at the rate of $1,000 yearly from September 7, 1895, to September 7, 1898; floating debt, $1,422 50.

Fern Bank, Ohio—Proposals will be received until September 18, 1895, by Horace W. Woodruff, village clerk, for the purchase of $645 39 of 5 per cent Locust Row sidewalk bonds. The securities are dated July 29, 1895, interest will be payable annually, and the principal will mature at the rate of $64 53 yearly in from one to nine years and $64 62 in ten years from date.

Franklin, Ky.—Water-works bonds of Franklin to the amount of $22,000 have been voted.

Grant City, Mo.—The people of this municipality have voted to construct water-works, for which purpose bonds will probably be issued.

Ironton, Ohio.—On August 27, 1895, the city of Ironton sold $30,000 of 5 per cent street improvement refunding bonds to W. J. Hayes & Sons for $32,775. The securities are dated September 1, 1895, interest will be payable semi-annually in New York and the principal will mature in 20 years. Fourteen bids were received for the loan as follows:

	Amount bid.
W. J. Hayes & Sons, Cleveland, O.	$33,775
Blair & Co., New York	32,130
Farson, Leach & Co., Chicago	31,989
Mason, Lewis & Co., Chicago	31,800
Deitz, Dennison & Prior, Cleveland, O.	31,579
Seasongood & Mayer, Cincinnati, O.	31,507

	Amount bid.
Rudolph Kleybolte & Co., Cincinnati, O	$31,350
Lamprecht Bros. Co., Cleveland, O	31,351
F. M. McKay, Chicago	30,963
C. H. White & Co., New York	30,900
S. A. Kean, Chicago	30,600
J. W. Longstreet & Co., Boston	30,112
First National Bank, Ironton	30,075
Second National Bank, Ironton	30,000

Kings County, N. Y.—It is reported that bonds to the amount of $600,000 have been authorized by the Board of Supervisors.

Lawrence County, Ind.—It is reported that this county has sold $40,000 of funding bonds to N. W. Harris & Co. The loan bears interest at the rate of 5 per cent and runs 20 years.

Lawrenceville, Ills.—The people of this city have voted in favor of water-works, for which bonds will probably be issued.

Lorain, Ohio.—George Hall, Village Recorder, reports to the CHRONICLE that bids received on August 31 for the purchase of $25,000 of Black River improvement bonds and $25,000 of water-works extension bonds were all rejected and that the securities will be re-advertised. The improvement bonds are dated September 15, 1894, and mature at the rate of $5,000 each year, commencing September 15, 1924, and the water-works extension bonds are dated August 24, 1895, and mature August 24, 1915. Interest on both loans at the rate of 5 per cent is payable semi-annually. The bonds are payable at the Chase National Bank, New York.

Marshfield, Ore.—School bonds to the amount of $15,000 have recently been sold.

Minneapolis, Minn.—Proposals will be received until Sept. 24, 1895, by Charles F. Haney, City Clerk, for the purchase of $100,000 of 4 per cent city bonds. The securities are to be dated July 1, 1895, interest will be payable semi annually and the principal will mature July 1, 1925. Both principal and interest will be payable at the State Fiscal Agency, New York. Bidders must satisfy themselves as to the legality of the issue before bidding and the successful bidder must take the bonds within three days from the confirmation of the award by the City Council.

Mount Sterling, Ohio.—On September 2, 1895, the village of Mount Sterling sold $10,000 of 6 per cent water-works bonds and $6,000 of 6 per cent electric-light bonds to W. J. Hayes & Sons for a premium of $1,200. The securities are dated September 2, 1895, interest will be payable semi-annually on March 1 and September 1, the water-works bonds to mature at the rate of $500 yearly from September 1, 1900, to September 1, 1909, and then at the rate of $500 semi-annually from March 1, 1910, to September 1, 1914, and the electric-light bonds at the rate of $500 annually from September 1, 1903, to September 1, 1914. Fourteen bids were received for the loans as follows:

	Premium.
James W. Longstreet & Co	$102.87 and int.
First National Bank, Niles, Ohio, for water-works bonds	170.00
First National Bank, Niles, Ohio, for electric-light bonds	104.00
M. H. Dodge, Cleveland	375.00 and int.
E. D. Sheppard & Co	979.00 and int.
N. W. Harris & Co., for water works bonds	751.00
N. W. Harris & Co., for electric light bonds	540.00
Commercial Inv. Co., Denver, Col., for water-works bonds	681.00
Commercial Inv. Co., Denver, Col., for electric-light bonds	540.00
Seasongood & Mayer	881.00
Dietz, Denison & Prior	375.00
W. C. Spaulding & Co., Cleveland	604.50
Farson, Leach & Co	648.00
Rudolph Kleybolte & Co	103 90 and int.
W. J. Hayes & Sons	1,200.00
Spitzer & Co	170·50 and int.
The Lamprecht Bros. Co	542·65

Mount Vernon, N. Y.—On September 3, 1895, the city of Mount Vernon sold $50,000 of 5 per cent tax relief bonds dated September 1, 1895, and payable September 1, 1898, to Messrs. Benwell & Everitt, of New York, at 103·73, and $50,000 of 4 per cent highway improvement bonds dated February 1, 1895, and payable at the rate of $10,000 yearly from February 1, 1932, to February 1, 1936, to Messrs. Roberts & Co. of New York, at 110·61. Interest on the securities is payable semi-annually, both principal and interest to be payable at the office of the City Treasurer. The tax relief bonds will be delivered to the purchasers September 16, 1895, and the highway improvement bonds September 10, 1895. A list of the bids received for the loans is as follows:

North Olean, N. Y.—This village will sell at auction September 19, 1895, $20,000 of 4 per cent water-works bonds. The securities will be dated October 1, 1895, interest will be payable annually at the Exchange Bank, Olean, and the principal will mature at the rate of $1,000 yearly from October 1, 1896, to October 1, 1915.

The village has at present no debt of any kind. Its assessed valuation for 1894 was $775,000; real valuation about $2,000,000. The population at present, according to local figures, is 1,400.

Oxford, Ohio.—A vote taken August 26 on issuing $25,000 of water-works bonds resulted in favor of the proposition by a vote of 368 to 88. The bonds will bear interest at the rate of 4½ per cent, payable semi-annually, and will mature at the rate of $1,000 yearly, commencing 20 years from date.

Pueblo County School District No. 1, Col.—Proposals will be received until October 10, 1895, by John C. Latshaw, Secretary of Board of Education, for the purchase of $176,000 of 4½ per cent refunding bonds. The securities will run 20 years, with an option of call after 10 years.

Rankin, Pa.—An election held August 27 to vote on issuing $50,000 of sewer bonds resulted in the defeat of the proposition by a vote of 60 to 50.

Rockland County, N. Y.—It is reported that this county has sold $10,000 of 5 per cent bonds maturing March 1, 1902.

Savannah, Ga.—Bonds to the amount of $500,000 have been recommended for public improvements.

Shawnee County, Kan.—Four per cent Court-House bonds of Shawnee County, to the amount of $25,000, have been sold. The securities are payable in 1924.

Turtle Creek, Pa.—On August 30, 1895, this borough sold $50,000 of 4½ per cent coupon bonds to the Lamprecht Bros. Company of Cleveland for $50,537 50. Three other bids were received from Pittsburg firms as follows: W. R. Thompson & Co., $50,275; Robinson Bros., $50,111; William B. Bell & Co., $50,000.

West Cape May, N. J.—William G. Blattner, Borough Clerk, reports to the CHRONICLE that an election recently held on issuing $13,000 of improvement bonds resulted in the defeat of the proposition by a majority of 18 votes.

Willimantic, Conn.—Proposals will be received until Sept. 19, 1895, by George M. Harrington, Mayor, for the purchase of $100,000 of 4 per cent coupon bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925, with an option of call after October 1, 1910.

Winton Place, Ohio.—Proposals will be received until September 30, 1895, by R B Poage, Village Clerk, for the purchase of $12,000 of 5 per cent town hall refunding bonds. The securities will be dated October 2, 1895, interest will be payable semi-annually and the principal will mature in 30 years with an option of call after 20 years, both principal and interest to be payable at the Fifth National Bank, Cincinnati, O.

Youngstown, Ohio.—Proposals will be received until Sept. 23, 1895, by J. Howard Edwards, City Clerk, for the purchase of $5,000 of 5 per cent sidewalk bonds. Interest will be payable semi-annually and the principal will mature at the rate of $1,000 yearly from Sept. 1, 1897, to Sept. 1, 1901, both principal and interest to be payable at the office of the City Treasurer. Purchasers must be prepared to take the bonds not later than Sept. 25, 1895.

Zanesville, Ohio.—Five per cent street paving bonds of Zanesville to the amount of $7,600 were sold on August 31 to Farson, Leach & Co. for a premium of $95.

do	4	J & J	July 1, 1920	65,000

TAX FREE.—All bonds are exempt from taxation.

INTEREST is payable by the Western National Bank of Philadelphia.

TOTAL DEBT.—The city's net debt on April 1, 1895, was $990,800; in 1892 it was $1,020,031; in 1891 it was $1,032,837; in 1890 it was $979,404.

The sinking fund receives yearly appropriations sufficient to pay interest on the city's debt and 5 per cent of the principal.

CITY PROPERTY.—The city owns a water works and other available assets amounting to about $1,610,000.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Years.	Total Assessed Valuation.	Rate of Tax per $1,000.
1894	$22,500,000	$18 33
1890	20,412,135	.....
1885	21,290,240	.....
1880	5,384,029	.....

The city's tax rate for 1895 is $8 25 per $1,000.

POPULATION.—In 1890 population was 39,385; in 1880 it was 30,762; in 1870 it was 23,104. The population at present, according to local estimate, is over 54,000.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

WILLIAM B. DANA COMPANY, Publishers,
Pine Street, Corner of Pearl Street,
POST OFFICE BOX 958. **NEW YORK.**

—On page 463 will be found the detailed returns, by States of all the national banks, under the Comptroller's call of July 11, 1895, kindly furnished us by the Comptroller. The returns for May 7, 1895, were published in the CHRONICLE of June 29, 1895, page 1149.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, September 14, have been $1,091,087,492, against $945,777,270 last week and $874,401,418 the corresponding week of last year.

CLEARINGS. *Returns by Telegraph.*	*Week Ending September 14.* 1895.	1894.	*Per Cent.*
New York	$477,601,028	$377,091,237	+25·5
Boston	74,071,016	65,356,600	+13·2
Philadelphia	57,719,219	51,424,165	+12·2

Chicago	70,442,532	70,347,779	+ 0·1
St. Louis	21,471,135	19,732,161	+ 8·8
New Orleans	5,356,579	5,224,521	+ 2·1
Seven cities, 5 days	$711,981,042	$599,120,374	+18·8
Other cities, 5 days	126,714,206	121,014,792	+ 4·7
Total all cities, 5 days	$838,695,248	$720,141,166	+16·5
All cities, 1 day	167,462,294	152,260,252	+ 9·7
Total all cities for week	$1,091,087,542	$872,401,418	+14·7

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 7, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of forty-five and three-quarter million dollars, but at New York alone the gain is over twenty six millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 17 per cent. Compared with the week of 1893 the current returns record an excess of 29·9 per cent and the loss from 1892 is 4·2 per cent. Outside of New York the gain over 1894 is 1·5 per cent. The excess over 1893 reaches 21·6 per cent, but making comparison with 1892 the decrease is seen to be 7·5 per cent

Clearings at—	*Week ending September 7.* 1895.	1894.	1895. *P. Cent.*	1893.	1892.

THE FINANCIAL SITUATION.

There have been quite a number of favorable incidents the past week. The Agricultural Department at Washington has issued its monthly report on the condition of the crops, and it fully confirms, as we show below, the early promise of an unprecedentedly large yield of corn and a very heavy yield of spring wheat and oats. This excellent crop situation, we need hardly say, is of the utmost importance in its bearing on the future of business, and it ensures a continuance of trade activity so far as such activity is dependent on this one factor. In the iron and steel trades, there has been an advance of $4 a ton in the price of steel rails, and the "Iron Age's" monthly record of the furnaces in blast shows that the United States is now producing more iron than ever before and also more than any other country.

As regards the financial markets, the export movement of gold continues, and the shipments this week have been exceptionally large, reaching over $7,000,000. A feature of this week's outflow has been the resumption of shipments by Messrs. Lazard Freres, a house who have made no consignments of the metal since last January, and who are supposed to have been put under obligations by the Syndicate at the time of the last bond purchase not to ship. The firm engaged $2,500,000 gold yesterday for export to-day, and their action gave rise to reports that the Syndicate compact had been broken. But it is understood that the firm is acting with the full consent of the other members of the Syndicate, and that it had pressing engagements which could not be filled except by the shipment of gold. The Syndicate deposited $3,000,000 gold at the Sub-Treasury in New York on Wednesday in exchange for legal tenders, but the large further gold exports have kept the Treasury reserve below the 100-million mark. Yesterday the Hanover National Bank, of this city, also turned over half a million dollars gold to the Treasury, the American Exchange National Bank turned over $200,000 and the Bank of Commerce $200,000. Rumors of another bond issue by the Government have again been current, but it is thought that with both the Syndicate and the banks ready to protect the reserve, the necessity for such a step can be avoided.

The stock market has been weak and has lost its buoyant tone as a result of these large gold exports and the rumored bond issue. But this weakness and decline, strange as it may seem, is considered an encouraging feature. There has been during the last few months a very great advance in the prices of securities, and it is felt that with foreign exchange rates so high this is not the time to encourage a speculation either in stocks or in commodities—high prices of commodities tending to retard the export movement of merchandise while stimulating the import movement, and high prices of securities leading to a return of many of such securities to this country by European holders in order to realize the profits afforded by the advance. There have been some quite considerable shipments of securities from the other side during recent weeks, prompted by this desire to turn profits into cash, and there can be no doubt that at the present juncture such a movement increases the difficulty of maintaining the gold reserve.

The crop report of the Agricultural Bureau at Washington, referred to above, points to a crop of corn of between 2,300 and 2,500 million bushels. The crop last year was only 1,212 million bushels, so the increase will be at least a thousand million bushels. In both 1893 and 1892 the yield was only a little in excess of 1,600 million bushels. The largest previous crop was that of 1889, when the product was estimated at 2,112 million bushels. As expected, continued dry weather has somewhat impaired the prospects in one or two States, and this has lowered the general average of condition a few points, leaving it, however, still exceptionally high. The reduction has been from 102·5 August 1 to 96·4 September 1. On September 1 last year the average was reported at only 63·4, in 1893 76·7, in 1892 79·6. Bearing in mind that at the same time the acreage is larger the present year, it will be understood why the indications point to such a very large yield. The State which has suffered the severest impairment of its outlook is Nebraska. There the average has been reduced to 56, but even this is a vast improvement over a year ago, when the average was but 15. For Missouri the average is given as 111, for Illinois 97, for Iowa 96, for Kansas and Indiana each 86 and for Ohio 83. In the Southern States the averages generally are very high—Texas 107, Tennessee 105, Kentucky 106. The following furnishes a comparison of the condition figures of the leading States for each of the last three months for three years.

CONDITION OF CORN.

States.	1895.			1894.			1893.		
	Sept. 1.	Aug. 1.	July 1.	Sept. 1.	Aug. 1.	July 1.	Sept. 1.	Aug. 1.	July 1.

As regards the other crops, the yield of cotton will undoubtedly be short, and the condition is placed at only 70·8, against 85·9 last year. The general average of wheat (winter and spring) on account of the poor harvest of winter wheat, is given as only 75·4, against 83·7 last year, but as against only 74 the year before. The condition of oats is reported at 86, of rye 83·7, of barley 87·6, of buckwheat 87·5, of potatoes 90·8. We annex a summary of this year's results in comparison with those of previous years.

September 1.	1895.	1894.	1893.	1892.	1891.	1890.	1889.
Corn	96·4	63·4	76·7	79·6	91·1	70·1	90·9
Wheat	75·4	83·7	74·0	85·3	96·9	75·5	87·5
Rye	83·7	86·9	82·0	88·5	95·1	85·4	91·6
Oats	86·0	77·8	74·9	78·9	90·7	64·4	90·0

Potatoes	90·8	62·4	71·8	74·8	94·8	65·7	81·7
Cotton	70·8	85·9	73·4	76·8	82·7	85·5	86·6
Tobacco	.. .	74·5	72·3	79·9	87·4	82·4	76·2
Buckwheat	87·5	69 2	77·5	89·0	96·6	90·5	92·1
Rice	....	89·4	....	....	....	....	....

Based on the foregoing figures, the product of oats is estimated at about 730 million bushels and the yield of wheat at about 400 million bushels. Last year's wheat crop was reported 460 million bushels and that of 1893 396 million bushels. The production of oats was 662 million bushels in 1894, 638 million bushels in

1893, 661 million bushels in 1892 and 738 million bushels in 1891.

The activity and buoyancy in the iron trade continues, and, as noted above, there has been this week an advance of $4 00 a ton in the price of steel rails, the quotation now being $28 00 a ton at the mills in Pennsylvania, against $24 00. The advance has been forced by the great rise in the price of the raw materials. It will be remembered that in June steel rails were marked up from $22 00 to $24 00. The monthly statement of the "Iron Age" shows that during August there was a further large addition to the number and production of the pig iron furnaces in blast; there are now 215 active furnaces, against only 200 in August, and the weekly product is 194,029 tons against 180,525 tons. Since the 1st of May—that is during the last four months—the weekly product has been increased from 156,554 tons to 194,029 tons. In September last year the product was only 151,113 tons per week and in 1893 only 83,434 tons. Never before in our history has the output reached so large a figure. The "Age" states that though the weekly product is close to the 200,000-ton mark, it is still increasing, and yet makers seem unable to keep up with the demand in certain branches. This view is fully borne out by the constant drawing down of stocks in face of this great increase in the product. For September 1 this total of these stocks, sold and unsold, is only 447,711 tons, against 511,781 tons August 1, 549,068 tons July 1, 648,132 tons June 1 and 780,729 tons May 1.

The record of fast time made by the English railways last month and noted by us at the time has this week been surpassed by the New York Central Railroad. After the appearance of our remarks in the issue of August 24th word came of still greater speed than that commented on, and it appears that in the contest between the two English railways the London & Northwestern finally carried off the honors, making 540 miles in 512 minutes, or, deducting time lost in stopping, 540 miles in 505 minutes. In this country the New York Central has thus far had the distinction of running the fastest train, its Empire State Express making the distance between New York and Buffalo, 440 miles, in 8¼ hours, or 520 minutes. On Wednesday of this week a special train was run with the view to seeing whether this time could not be materially reduced. The train made the run to East Buffalo, 436½ miles, in 411 minutes and 6 seconds, or deducting stops, which consumed 4 minutes, in 407 minutes and 6 seconds. This latter is at the rate of 64·348 miles per hour. The London & Northwestern or West Coast train in running 540 miles in 505 minutes averaged 64·158 miles per hour. The difference in favor of the New York Central, it will be seen, is very slight, but the event is interesting as showing that in this country on our best lines we can make quite as good time as the English roads, which for solidity are unexcelled in the world. A point in favor of the Central is that its train was very much heavier than the English train, weighing 380 tons, whereas the West Coast train seems to have weighed hardly half as much as this. It is further to be stated that the physical characteristics of the New York Central line make its record particularly noteworthy, there being no less than 515 curves in the 440 miles between New York and Buffalo.

The demand for money from the extreme Northwest for grain purposes continues, and generally speaking currency is moving more freely to all points in the West and South. On call, as represented by bankers' balances, money up to yesterday loaned generally at the Stock Exchange at 1 per cent, though in some cases where the amount required was small and in others where the security was not altogether satisfactory 1½ per cent was demanded. Yesterday on the large gold exports there was a spurt to 3 per cent, but the close was at 1½ per cent. Banks and trust companies quote 1 per cent as the minimum and few obtain any higher rate. The demand for time loans running to the end of the year remains light and the offerings are liberal, while for longer dates the supply is small, the demand is better and rates are firmly held. Quotations are 1½ per cent for thirty days, 2 for sixty days, 2½ for ninety days to four months and 3@3½ for five to seven months on good marketable collateral. Nearly all the large banks are out of the market for commercial paper and they are meeting the requirements of their correspondents at near-by points and at other places in the interior. Were there a good demand, such as is usual at this season, rates would be higher. As it is they are firmly held and there is a good assortment of names. Quotations are 3½@4 per cent for sixty to ninety day endorsed bills receivable, 4@4½ for four months' commission house, 4½@5 for prime four months', 4¾@5¼ for prime six months' and 5½@7 for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London ⅝ of 1 per cent. The open market rate at Paris is 1⅝ and at Berlin and Frankfort it is 2⅝ per cent. According to our special cable from London the Bank of England gained £286,967 bullion during the week and held at the close of the week £41,899,616. Our correspondent further advises us that the gain was the result of the purchase of £358,000 gold in the open market, the export of £412,000 (£200,000 to the Cape, £100,000 to Egypt, £62,000 to Brazil and £50,000 to other South American points) and the shipment of £159,000 to the interior of Great Britain.

The foreign exchange market has been dull, steady and almost destitute of new feature this week. The demand has been comparatively light because many remitters have been holding off in the hope and expectation of lower rates. About the only supply has come from gold shipments, but the bills drawn against these have been chiefly cables and very few demand drafts have made their appearance against gold exports. Bankers this week advanced their bid quotations for cotton futures, and some few of these for October were sold at 4 88 and some for November and December at 4 87½ and 4 87½; but the figures are regarded as too high by the majority of the bankers and as they are unable to loan the proceeds of bills drawn against these futures at satisfactory rates, they prefer to wait for spot or near bills. The market opened steady on Monday with rates for actual business in sterling 4 89@4 89½ for sixty days; 4 90@4 90½ for sight and 4 90½@4 90½ for cable transfers. There were offerings of the latter during the day against the engagement of $1,000,000 gold by W. H. Crossman & Bro. for shipment to Europe on the following day and also against a consignment of $100,000 by Nesslage & Fuller, but none appeared against an intended shipment of $150,000 by Oelrichs & Co. The tone of the

market was entirely unchanged on the following day and then the gold engagement for Wednesday was $150,000 by Nesslage & Fuller. There was also a shipment of $150,000 bullion by Handy & Harman. On Wednesday the market was quoted as a shade easier in tone, though no change was made in rates for actual business. The engagements of gold on that day for shipment on Thursday were $1,000,000 by W. H. Crossman & Bro., against which cables were drawn, and $100,000 by Nesslage & Fuller. On Thursday there were offerings of bills in fairly large amounts by bankers who, it was inferred, would ship gold on Saturday; but the market absorbed the offerings without materially yielding, and it was quoted as steady at the close. There was a fractional decline in francs, marks and guilders, but otherwise quotations were unchanged. Some demand was noticed to remit for stocks sold for European account, and there was also an inquiry to cover bills sold in July. Yesterday there were large engagements of gold for shipment to-day. Lazard Freres will send $2,500,000, and this shipment has been referred to above; W. H. Crossman & Bro. will ship $1,000,000; Hoskier, Wood & Co., $500,000; Hard & Rand, $200,000; Nesslage & Fuller, $100,000, and Handy & Harman, $250,000. This makes the exports to-day $4,550,000, and for the week, $7,100,000. Under the pressure of bills against these gold shipments, the exchange market closed weak yesterday afternoon, and rates for actual business were marked down one quarter of a cent per pound. The Syndicate deposited $3,000,000 gold at the New York Sub-Treasury on Wednesday in exchange for legal tenders, and yesterday the Hanover National Bank deposited $500,000, the Bank of Commerce $200,000 and the American Exchange National Bank $200,000. The National Park Bank deposited $1,500,000 some days ago and the Chase National Bank $500,000, but we are not informed as to what disposition was made of these latter amounts. The following table shows the daily posted rates for exchange by leading drawers.

		Fri., Sept. 6.	Mon., Sept. 9.	Tues., Sept. 10.	Wed., Sept. 11.	Thurs., Sept. 12.	Fri., Sept. 13.

The market closed weak on Friday at 4 89@4 90 for sixty days and 4 90@4 91 for sight. Rates for actual business in sterling were 4 88¾@4 89 for long, 4 89¾@4 90 for short and 4 90@4 90¼ for cable transfers. Prime commercial bills were 4 88¼@4 88½ and documentary 4 87¾@4 88.

The Illinois Central has a very good statement of gross and net earnings for the month of July, the gain in the gross being $296,538 and in the net $177,808. The Philadelphia & Erie and some other roads also have good returns for the same month. The following furnishes a comparison of the July results for four years of a number of roads.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending Sept 13, 1895.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	2,431,000	$3,922,000	Loss. $1,491,000
Gold	400,000	450,000	Loss. 50,000
Total gold and legal tenders	$2,831,000	$4,372,000	Loss $1,541,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending Sept. 13, 1895.	Into Banks.	Out of Banks.	Net Change in Bank Holdings
Banks' interior movement, as above	$2,831,000	$4,372,000	Loss $1,541,000
Sub Treas. oper. and gold expts.	19,000,000	25,600,000	Loss. 6,600,000
Total gold and legal tenders	$21,831,000	$29,972,000	Loss. 8,141,000

The following table indicates the amount of bullion in the principal European banks this week and at the corresponding date last year.

Bank of	September 12, 1895.			September 13, 1894.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

THE TRUNK LINE AGREEMENT FOR MAINTAINING RATES.

Next week the presidents of the great east-and-west trunk lines occupying the territory between the Mississippi River and the Atlantic Ocean meet to take action on the new agreement which has been formulated for the purpose of establishing and maintaining rates. We hazard nothing in saying that no more important matter has ever come up for the consideration of the managers of these lines.

Our readers are familiar with the causes and conditions which have led up to the present situation. For a number of years rates on the trunk lines have been becoming more and more unsatisfactory. Both secret and open cuts in established tariffs have been of frequent occurrence. Time and again the demoralization has become so great that only by the calling

together in conference of the highest officials of the roads, and the renewal at such conferences of old pledges, has utter collapse been avoided. After each such attempt it seemed as if at last a cure had been effected, but the experience has in every instance been the same. There would be improvement for a time, only to be followed after a longer or a shorter interval by a relapse into the old state of things again. The Trunk Line Association and the Central Traffic Association have been useful in their way, but both together have been powerless to prevent recurring periods of great demoralization in rates. Various plans and devices have been tried to correct the trouble, but without avail. The most that can be said is that there has at no time been an actual war, and yet as far as the rates realized are concerned there might as well have been a war, because the roads could hardly have received much lower compensation in any event.

In the early part of the present year the trunk lines were confronted by the usual situation in this regard, only somewhat aggravated. Rates were completely unsettled, and established tariffs were being cut in every direction. At the same time there was a small grain tonnage on account of last season's poor crops and a small tonnage in merchandise and general freight on account of the depression in business. Under the circumstances it was recognized that the call to action was very urgent, and hence a more than ordinarily determined effort was made to devise a remedy. A tonnage pool was formed with a money forfeit attached to it, and it was provided that the roads running out of Chicago should pay $2 a ton for all freight carried by them in excess of their allotted percentages, and that this should then go to the weaker lines. This was in March. Whether it was because some of the presidents had serious doubts as to the legality of this proposal or whether it was because the arrangement was inherently defective, the scheme seems to have proved unworkable, and it was not long before chaos again prevailed, with the result that last June the presidents once more found themselves obliged to take the matter into their own hands.

The agreement now to be passed upon is the outgrowth of this meeting last June. The meeting, as will be remembered, was held on the 27th of that month, and one of the results was the adoption of a resolution to restore rates on the 8th of July, which was done, and to maintain them absolutely after that date. At the same time another resolution was passed providing for the formation of a new association or agreement, and for the appointment of a committee for that purpose, this committee to consist of the presidents of the lines between the Mississippi and the seaboard north of the Ohio River, sixteen in number. Mr. Depew of the New York Central was appointed Chairman of the Committee, but having planned to go to Europe he found he could not take charge, and Mr. Ingalls of the Cleveland Cincinnati Chicago & St. Louis was elected in his place. The result of the Committee's labor is an elaborate plan for the control and maintenance of rates. The plan was ready for submission to the presidents last month, but on account of the absence of so many of them on their vacations action on the matter was postponed until the present month.

The plan has not yet been published, so it is not possible to speak definitely with regard to its details. But there is no concealment as to its purpose, which is that the railways themselves give up the rate-making power and leave it to nine men to be selected by the various systems; that all solicitors be turned over to this body, and that the same body be also given control of the fast freight lines. These nine men are to see that each road gets its proper share of the tonnage. The plan is to remain in force for five years and is understood to provide for a clearing house and for the appointment of three arbitrators, to whom all questions in dispute are to be referred for final settlement.

From this outline of its general features it is evident that the contemplated arrangement is more comprehensive and more far-reaching than any that has previously been adopted. At the same time it seems better calculated than any previous scheme for attaining the object sought. The placing of the rate-making power in the hands of a central body composed of the representatives of the various roads, instead of its exercise by any one road independently, is of course absolutely essential to the success of such a scheme. And the function is really the same as that which the existing traffic associations have always possessed and sought to exercise, differing only in the way the rate-making body is constituted and the degree of authority conferred upon it. The striking feature in the present scheme is that it brings the soliciting agents under the direction of the same board. This is a most excellent provision. It makes the control of rates effective. Previous schemes have failed because of the lack of some such provision. With dozens of soliciting agents, each a law unto himself, and each bent on securing traffic for his own road at whatever cost, and by fair means or foul, it is obvious that the task of maintaining the established tariffs has been well nigh impossible. By dispensing with these agents, or at least by making them amenable to the central body, that disturbing element will be removed and the situation entirely changed.

Not a few competent railroad men have long contended that the sovereign remedy for the recurring rate troubles is the abolition of the separate agencies of the different roads and the creation of joint agencies, and we are glad to see this feature incorporated in the present scheme. Not only is the provision desirable as removing one of the most serious obstacles at present in the way of the maintenance of rates, but it has the further advantage of effecting a very great saving in expenses. The soliciting agencies are costly and are maintained at a great annual outlay. Moreover, they seem to us to involve a totally unnecessary burden. It is difficult to conceive of what use separate solicitors are in the case of the trunk lines. If the roads were new and the public were not thoroughly acquainted with their location, character and advantages, the soliciting and contracting agents might be serviceable in bringing their respective lines to public notice. As it is, the roads are not new and shippers know all about them, and as the maintenance of separate solicitors operates to pit one line against another, the natural and constant result is to lead to the seeking of business by illegitimate and unfair means.

Thus the soliciting agencies are doubly objectionable in perpetuating at once a serious evil and an unnecessary expense—in making it difficult to maintain remunerative rates and in involving a heavy annual drain by reason of their cost. It will be a welcome time for the railroads when they are relegated to limbo, though it is well to understand that an order of such long standing cannot be eradicated in a day, nor eradicated at all except by tremendous effort. Of course we are

not arguing in favor of the merging of the identity of the different roads, and such a policy we know is not contemplated. It will always be possible to employ perfectly legitimate methods to advance and keep distinct the interests of each road—by advertising for instance, by maintaining information bureaus and the like; but the soliciting agent, with his costly and vicious methods of securing and influencing business, in our estimation belongs to a past era, and the sooner he is got rid of the better it will be for the roads. The abolition of the fast freight lines, if accomplished, would be in harmony with the same general policy. They, too, are costly, and throw obstacles in the way of the maintenance of tariff schedules.

From what has been said it becomes clear that the proposed arrangement is far in advance of any previously contemplated. A further important consideration is as to whether it can in any way be regarded as antagonistic to public interests. Of course railroad managers are too enlightened and know too well the force of public opinion to undertake any step that would be adverse to the general community. And ordinarily that phase of the matter might be dismissed with this remark. But as the proposed plan has already been attacked in certain quarters it may be well to devote a little time to the point in question. Senator Chandler of New Hampshire has made himself particularly conspicuous in seeking to create a feeling of hostility to the plan, he having written a letter to the Inter State Commerce Commission, asking them to interfere to prevent the carrying out of the scheme. We have yet to meet any one who believes this letter was prompted by disinterested motives. Still it is desirable that the public should not be misled by false statements and fallacious reasoning.

Efforts have been made to create the impression that the plan is nothing more nor less than a gigantic trust. As a matter of fact it lacks all the elements of a trust. It simply provides for the regulation of rates and the control of the means to that end, and all non-competitive business is excluded from its operation. It can not even be called a pool, for we are reliably informed that though it is made the duty of the joint board to see that each road gets an equitable share of the joint traffic, it does not provide for either a division of tonnage or of revenues. And such a provision is not absolutely necessary, for the same end might be attained by varying the differentials between the stronger and the weaker lines. The Act to Regulate Commerce, as is well known, forbids pooling, and it must be assumed that the new plan is not vulnerable on that point, since some of the best lawyers in the country have declared it legal, and since furthermore those managers who so strongly opposed the tonnage pool of last March, because of its supposed illegality, accept the present scheme without reservation and are willing to give it their unqualified adhesion.

As shown above, there is nothing unusual in the provision placing the rate-making power in the hands of a joint body. That power is now exercised by the various traffic associations, and such bodies exist mainly for that purpose. In truth, it would be impossible for a road in these days to act independently in fixing a schedule of rates. The railway mileage of the country is so large and there are so many points of contact and intersection, and withal the work of framing a tariff schedule is so difficult and intricate, that it is out of the question for the roads to act separately, and hence collective action must be substituted for individual action. Traffic associations are a recognition of and the outgrowth of this necessity. The new plan is simply a futher step in the process, with a view to giving effect and enforcing the rates fixed in the way agreed upon.

But it may be urged that as in this instance the rate-making body is endowed with largely increased powers, the temptation to mark up rates is greatly enhanced, and that this involves a real danger to the interests of the patrons of the roads. A moment's consideration will show that there are effective restraints upon unwise action on the part of the controlling board. If they should attempt unduly to advance rates on through or competitive rates, the immediate effect must be to drive business to the circuitous routes outside of trunk-line territory, for in that case the margin would be large enough to permit of the use as well as the formation of such routes. Or suppose that the board should undertake to enforce rates that are open to the objection that they are not just or reasonable, in that case the Inter-State Commerce Law comes into play, and the Commission has power enough to compel the withdrawal of such rates. We mention these suppositious cases simply to show how little ground there is for any of the objections urged against the scheme. As a matter of fact, there is no intention whatever to raise the quoted rates but simply to maintain them on a firm and rigid basis instead of allowing deviations from the established figures. By saving the amounts granted in cuts and rebates to special shippers, it will be possible to add a great many million dollars to the revenues of the roads.

This latter statement makes it evident that the new agreement, so far from being prejudicial or involving dangers to the public, will really be to their benefit and advantage. It will give first of all stable rates, an element of the highest importance to merchants and shippers, as in reckoning the freight charges they will not have to allow for a variable factor. At the same time there will be the assurance of absolute equality of treatment as between different shippers. The preferences and allowances now made to favored patrons will be done away with. In this sense the scheme will help to carry out the purpose and intent of the Inter-State law, instead of being antagonistic to it.

As the arrangement is thus seen to be wholly free from objection and in every way meritorious, it is to be hoped that the presidents will give it their speedy approval and allow it to be carried into execution. The railroads certainly have everything to gain from its adoption, as it will mean the saving of many millions of revenue which under a continuation of the old conditions would be sacrificed. Of course we may expect that the soliciting agents who fear the loss of their lucrative positions, and the favored shippers who have grown rich out of the unlawful allowances accorded them, will continue to protest vigorously and loudly against the scheme; but the public will know how much importance to attach to utterances coming from such a source.

In its general effects the new plan will hardly be second in importance to good crops and business revival as a factor in advancing the future of the roads. At the same time it will allow the roads to avail of the benefits to result from these favoring factors in the general situation. Moreover, in bringing the properties nearer to an assured basis of prosperity, and placing a larger amount of revenues at their disposal, the agreement will give a further stimulus to business revival.

NEW YORK PENNSYLVANIA & OHIO REORGANIZATION.

One of the best features of the Erie reorganization plan is that in providing for the incorporation of the New York Pennsylvania & Ohio in the new consolidated system at a greatly reduced capitalization, this old water-logged piece of property, with its mountain of securities and unfortunate history and experiences, finally becomes a thing of the past. We referred to that feature in reviewing the Erie plan a few weeks ago, but since then the Voting Trustees of the Pennsylvania & Ohio in London have made public the terms upon which the new securities allotted to the Pennsylvania & Ohio under the plan are to be exchanged for the existing securities, and it is interesting to see how drastic has been the method of procedure.

If the Erie itself has had a checkered and varied career, the record of the Pennsylvania & Ohio has been even more unfortunate. It was successor in 1880 to the old Atlantic & Great Western, whose entire existence was marked by disaster. The lines embraced in the property have been leased almost times without number to the Erie, and the lease has been as frequently broken, or modified, or altered, owing to changes in the fortunes and in the management of the lessee or the lessor company. The chief distinction of the Atlantic & Great Western, before its foreclosure, was its enormous capitalization, and this distinction the new company, the Pennsylvania & Ohio, unfortunately retained, and in fact made still more striking and conspicuous through a method of financiering which operated steadily to increase the burden of debt at a time when the property was unable to earn a return on the existing indebtedness.

The company started with a very choice assortment of mortgages—a first mortgage, a second mortgage and a third mortgage, all for large amounts. The securities then, as now, were held almost entirely abroad. In those days the investor on the other side had not yet learned so much wisdom as he has since acquired, and no doubt there was something alluring to him in the thought that he was to have a security bearing the title of a mortgage bond. But preceding these mortgages there were $8,000,000 of Prior Lien bonds, with a first claim upon revenues, and as it turned out the call for this yearly interest and for the rentals of the leased lines took up nearly the whole of the annual income, leaving only enough for an occasional small payment on the so-called first mortgage bonds, and absolutely nothing at any time for either the seconds or the thirds. Yet almost to the last many of the holders have held to the hope that these worthless bits of paper would some day become valuable.

While the company was able to give the first mortgage holders very little cash, the practice was kept up of making good any deficiency of interest—and by the way, this interest was fixed at the tempting rate of 7 per cent per annum—by the issue of deferred interest warrants which were then capitalized in bonds of the same issue, thus all the time increasing the aggregate amount of the bonds. The extent to which this policy was carried will be seen when we say that while to-day the issue of the first mortgage stands roughly at $72,000,000, in 1880 when the mortgage was made the amount was only $35,000,000. The company has had a very good management in recent years, but with the operating control of the road in the hands of the lessee, and with these constant additions to the amount of securities, it has been impossible to give to the company any assured financial basis or standing. The management was further hampered by the fact that the property was greatly in need of new capital for additions and improvements, and there was no feasible way of providing it.

In addition to the $72,000,000 of 1st mortgage bonds there are $13,680,000 of 2d mortgage bonds, $29,000,000 of 3d mortgage bonds, $10,000,000 of preferred stock and $35,000,000 of common stock, making a grand aggregate of about $160,000,000. If now to this we add the $8,000,000 of Pennsylvania & Ohio Prior Lien bonds and $2,000,000 more for car trusts, we find the total capitalization to be not less than $170,000,000. This represents only 431 miles of road; the system comprises 600 miles, but 169 miles are leased and are covered by separate securities. On the 431 miles the capitalization is thus nearly $400,000 per mile for merely a single-track road.

It is pleasing to think that under the new condition of things an end has been finally put to this method of financiering. We stated in our Erie article of August 31 that the terms allowed the Pennsylvania & Ohio were very liberal. It appears that nearly the whole of the securities allotted to the company will go to the first mortgage bondholders, and thus these rare remarkably well. They will get $14,400,000 of Erie Prior Lien bonds, $7,960,000 of first preferred stock, $1,368,000 of second preferred stock and $10,800,000 of common stock, in place of the existing 72 millions of bonds. The amounts are sufficient to give each holder 20 per cent of Prior Lien bonds, 10 per cent of first preferred stock and about 15 per cent in other securities. But even then the capitalization is reduced over one half, the $72,000,000 of bonds being replaced by only $34,528,000 of new securities. As for the $42,680,000 of second and third mortgage bonds and the $45,000,000 of stock, only $6,186,000 of Erie common stock is allowed for the whole lot, and to get this the holders must pay in each case $12 per share on the new stock. In the case of the second mortgage bonds $20 of stock is given for $100 of bonds, in the case of the third mortgage $10 for $100, in the case of the preferred stock $3 for $100 and in the case of the common stock not more than $1 for $100. In this last instance but $350,000 of new stock is issued in exchange for the $35,000,000 of old stock, and then only on payment of the assessment. The following is a brief tabulation showing the old and the new capitalization. We do not include in the statement the $8,000,000 of Pennsylvania & Ohio Prior Lien bonds which remain on the property.

OLD SECURITIES.		NEW SECURITIES.		
		$14,400,000	Erie prior lien bonds.	
		7,960,000	" 1st pref. stock.	
1st mortgage bonds..	$72,000,000	1,368,000	" 2d pref. stock

Thus against nearly 160 millions of existing securities, there will be only 40¾ millions of new securities of all kinds. Instances where capitalization is reduced under reorganization are so rare that this particularly striking instance deserves to be prominently recorded; we have shown, however, that the circumstances in the present case are entirely exceptional.

RAILROAD GROSS EARNINGS FOR AUGUST.

Disappointment will no doubt be felt over the fact that our statement of railroad gross earnings for August shows only a moderate improvement instead of a very large improvement. Our compilation covers 134 roads operating over a hundred thousand miles of line, and the aggregate increase on the whole mileage reaches only $720,516, or less than 2 per cent—only 1·63 per cent. It is admitted on every side that general business was very active during August, and hence the fact that this should not be reflected in the returns of earnings may seem strange to many, the more so as in the month preceding (July) the gain had been as much as $5,357,586, or 15·97 per cent.

But the exhibit for July was entirely exceptional, and furnished no criterion as to the result for future months. We were comparing with the period of great railroad strike in 1894, when business on some of the roads was brought almost to a standstill and when the losses as a consequence were tremendous, our table at that time showing a falling off of nearly 8 million dollars. For August the comparison is on a totally different basis. Instead of comparing with a heavy loss in 1894, we are comparing with a total that had shown a gain. The gain was small, but was very noteworthy as it was made in face of large losses in passenger earnings by many roads on account of the absence of the Fair travel, which had so heavily swelled passenger revenues in 1893. The following will show the August results for a series of years past.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding	
August.	*Miles.*	*Miles.*	$	$	$
1891 (143 roads).....	91,038	88,551	43,025,879	40,132,937	Inc. 2,892,942

But what has been said furnishes only a partial explanation of the small increase the present year. The truth is, on account of the peculiar conditions existing in 1894 a number of roads did a larger business in August of that year than in the corresponding period of any previous year. This is particularly true of the bituminous coal-carrying roads in various parts of the country. Because of the long strike of the miners, and the further interruption caused by the railway strike in July, stocks of coal nearly everywhere were almost exhausted, and coal was consequently being mined at a tremendous rate. We may mention among other roads that were favored in this way the Columbus Hocking Valley & Toledo and the Lake Erie & Western, which then both reported the largest August earnings on record. The strike in July also had the effect last year of crowding much general business into August, which except for the strike would have been done in the first-mentioned month.

In a few instances, too, traffic and earnings have been reduced by strikes the present year. Thus the Duluth South Shore & Atlantic has suffered by reason of the strike at the ore regions in the Northwest, and the Norfolk & Western is still contending with a strike of its coal miners, that road having last year been about the only large one which escaped being involved in the general strike at the coal mines.

But perhaps the most potent cause of all for small earnings the present year has been the poor winter-wheat crop and the consequently great contraction in the winter-wheat movement. Our table embraces large numbers of roads which were affected in that way. To give an idea of the importance of that factor we need only say that at the Western primary markets the receipts of wheat for the five weeks ending August 31 the present year were less than 14½ million bushels, whereas last year in the same weeks they reached 29½ million bushels. Here, then, there is a loss of 15 million bushels roughly, equal to 450,000 tons of freight. This remark does not apply to some of the spring wheat points included in these totals. The spring-wheat crop is a magnificent one and in some districts the crop has begun to move very early, besides inducing the marketing of supplies left over from the old crop. In illustration, it deserves to be noted that at Minneapolis there has been an increase in the wheat receipts of over a quarter of a million bushels.

In the case of corn the receipts have been larger than in 1894, the bright prospects for the new crop having led farmers to release their hold on old supplies and send them forward. At the Western markets the deliveries of that cereal in the five weeks of 1895 were 10,864,421 bushels, against only 7,331,986 bushels last year. But the increase here is small alongside the very heavy loss in wheat, and furthermore there was a large falling off in the movement of oats and of barley. Taking wheat, corn, oats, barley and rye together the Western receipts the present year foot up 38,094,868 bushels, against 53,585,740 bushels in 1894, and besides this there was a falling off of about half a million barrels in the deliveries of flour. The following furnishes the details of the grain movement for the five weeks and the year to date.

RECEIPTS OF FLOUR AND GRAIN FOR FIVE WEEKS ENDING AUGUST 31 AND SINCE JANUARY 1.

A large part of the whole loss of course, as usual fell on Chicago, and at that point the receipts for the even month in 1895 were only 15,804,-

636 bushels, against 23,826,965 bushels in 1894. At the same time there was a great contraction in the live-stock movement. This is shown by the receipt of only 379,229 hogs the present year in August, against 624,371 hogs in 1894. Last year the scarcity and high price of feed, with the poor crops, caused farmers to send their stock to market rather than attempt to hold it over the winter.

RECEIPTS AT CHICAGO DURING AUGUST AND SINCE JANUARY 1.

In the South there was a loss on the cotton movement, though it is proper to say that the movement is never large at this season of the year. At the Southern outports the receipts were 14,187 bales in August 1895, against 42,796 bales in August 1894.

Altogether it will be seen there have been numerous causes and circumstances preventing that gain in earnings which otherwise must have resulted. Among the larger losses in earnings, the Atchison reports $138,888 decrease, the Rock Island $91,066 decrease, the Columbus Hocking Valley & Toledo $53,201 decrease, the Texas & Pacific $77,512, the Chesapeake & Ohio $77,486, the Norfolk & Western $74,259, the Duluth South Shore & Atlantic $66,046, the Toledo & Ohio Central $59,499, the Chicago & Eastern Illinois $42,029 and the Lake Erie & Western $34,793. These are all roads which have suffered by reason of one or the other of the causes enumerated. On the other hand, the effects of business revival, and of the freer movement of spring wheat and corn and of the excellent outlook for both these crops, are reflected in the gain of $187,277 by the New York Central, of $169,908 by the St. Paul, of $125,501 by the Mexican Central, of $106,773 by the Missouri Pacific, of $75,590 by the Burlington Cedar Rapids & Northern, of $73,997 by the Big Four, of $72,861 by the Great Northern, of $46,037 by the Grand Trunk of Canada, of $46,011 by the Wabash, &c.

PRINCIPAL CHANGES IN GROSS EARNINGS IN AUGUST.

Increases.		Decreases.	
New York Central	$187,277	Atch. T. & S. Fe (3 roads)	$138,888
Chic. Mil. & St. Paul	169,908	Chic. Rock Isl. & Pac.	91,066

Chic. St. P. & Pac. (3 roads)*	42,000		
Chic. Chicago Southwest.	41,250		
Mo. Kansas & Texas	41,262	Total (representing 12 roads)	$744,779
Peo. & Easter (3 roads)	38,033		
Chic. Great Western	36,721		
Rio Grande Western	36,450		
Southern Railway	31,625		
Total (representing 25 roads)	$1,213,873		

* Three weeks only.

The trunk lines, as represented by the limited number of roads making returns thus early in the month (the Pennsylvania, the Baltimore & Ohio, the Erie and several others being missing), show moderate but quite general gains; the Baltimore & Ohio Southwestern is an exception and has a small loss, doubtless owing to the small winter-wheat movement.

‡ For five weeks ended August 31.
† Includes Rome Watertown & Ogdensburg for all the years.
* Figures for last week not reported: taken same as last year.

The other roads in the Middle and Middle Western States show collectively somewhat smaller earnings for 1895 than for 1894, and there are about as many of them with losses as there are with gains—this following both from the falling off in the coal traffic and the contraction in the wheat movement.

a Figures given for one week only to complete the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.
b Includes Peoria & Pekin Union & Illinois Midland for all the years.

In the Northwest such prominent companies as the St. Paul, the Burlington Cedar Rapids & Northern, the Chicago Great Western, the Minneapolis & St. Louis, the St. Paul & Duluth and the Wisconsin Central, besides a few minor roads, report gains, while the Rock Island, the Iowa Central, the Duluth South Shore & Atlantic and one other are the only ones having losses.

a Includes the Kansas City Clinton & Springfield and the Current River for all the years except 1895.
b Colorado Midland excluded for all the years.
c Figures here for 1895 and 1891 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

What is true of the other groups is true also of the Southern group; considerable irregularity distinguishes the results. However only 10 roads have losses while 18 have gains.

J., Chesapeake & Ohio, Chicago Burlington & Quincy, Chicago Gas, Chicago Milwaukee & St. Paul common, Chicago & North Western common, Chicago Rock Island & Pacific, Delaware & Hudson, Delaware Lackawanna & Western, Distilling & Cattle Feeding, General Electric, Lake Shore & Michigan Southern, Louisville & Nashville, Manhattan, Missouri Kansas & Texas preferred, Missouri Pacific, New York Central, New York Lake Erie & Western, New York & New England, New York Ontario & Western, Northern Pacific preferred, National Lead common, Philadelphia & Reading, Southern Railway common and preferred, Texas & Pacific, Union Pacific, United States Cordage common and preferred, United States Leather common and preferred, Wabash common and preferred and Western Union.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Aug. 31, 1895.

There is still a good deal of uneasiness in political circles, especially respecting Armenia and the Balkan Peninsula. The British Government is urging Turkey very strongly to introduce reforms, but France and Russia are holding back, and it is announced that the Sultan has complained to France and Russia of the discourteous manner in which the United Kingdom is acting. It seems clear, too, that Prince Ferdinand of Bulgaria is losing authority, and there are rumors that he will before very long be got rid of. The condition of Servia likewise is critical. Military preparations all over Europe are therefore being pushed forward eagerly; and it is significant that one of the first acts of Lord Salisbury's Government is the announcement that the change in the military administration of this country proposed by the Rosebery Cabinet is to be carried out. The immediate object of course is to increase the efficiency of the army; but one of the consequences will be the termination of the direct royal authority over the army.

Hitherto the real administration of the army was conducted through the Commander-in-Chief, who was the nominee of the Crown, and was indeed a cousin of the Queen. The title of Commander-in-Chief is to be retained; but Lord Wolseley is only to hold office for five years, and he is to be merely the chief adviser of the Secretary of State, though of course he is officially charged with maintaining the discipline of the army. Thus the army is brought immediately under the supervision of the Secretary of State; and the House of Commons, not the Crown, is to be the real authority in future.

But while there is much uneasiness in political circles at home here and upon the Continent the commercial and financial community refuse to believe that anything serious will happen. They are satisfied that peace will be maintained and therefore they pay very little attention to what is going on. Money remains exceedingly easy; gold is pouring into the Bank of England in enormous amounts; trade is improving at home and abroad. The wool trade is particularly active, and there are signs of recovery in various directions. The news from the United States is encouraging and so likewise is that from Argentina. The wine industry in Argentina is especially making great progress. An arrangement has at last been arrived at which pacifies the Brazilian province of Rio Grande do Sul and a general amnesty has been granted.

The India Council continues to sell its drafts very successfully. On Wednesday it offered for tender 50 lakhs, and the applications were for about eight times as much. The whole amount was disposed of at a somewhat higher price than the week before. Trade is very slack in India and money is abundant and cheap. It is understood, therefore, that the real demand is for China and Japan. Of the Chinese loan recently raised in Paris about 8 millions sterling has now been remitted to London to the credit of the Japanese Government, and Japan is drawing upon this amount partly to defray the expenses of the operations in Formosa and partly to carry out public works at home. At the same time Japan is buying ships and munitions of war largely. Since the termination of the war between China and Japan both countries have been buying opium, cotton yarn and other goods on a very large scale in India, and the remittances on account of Japan are being made chiefly by the purchase of Council bills to pay for those purchases in India. There has also been a good demand for silver for both China and Japan, and during the past two or three days for India likewise.

In the month of June a bankers' conference representing all the Australian banks was held in the Colonies and among other things it recommended that representations should be made to the several Colonial governments to take over the right of note issue and to establish a uniform banking law. The Premier of New South Wales on Tuesday last announced in the Legislative Assembly that his Government had decided to take control of the note issue, and that it was in communication with the other Colonial governments with the object of arriving at some decision respecting uniform banking legislation. It is generally believed in London that strong fears are entertained by the governments and the banks that before long there will be a run upon the institutions, and the proposed reform is intended to reassure the public by means of a government guarantee of the notes.

Business here continues wonderfully active for the time of year. Especially the investment in South African land, gold and diamond shares is on an extraordinary scale. The Continent is buying as actively as ever, and so are home investors. There is a good investment likewise in British railway stocks. The railway traffic returns of late have been improving very satisfactorily, and evidence is accumulating that trade in every direction is growing better. There is a stronger demand for American securities this week.

It is now believed here that the shipments of gold from New York will cease for the remainder of this year; and as Congress will not assemble until December the general feeling is that there will be a period of quiet and of recovery for at least three months. The larger operators, therefore, are buying on a more considerable scale than for a length of time past. The general public, it is true, is not doing very much; but the feeling in the Stock Exchange is that if prices rise the public will by-and-by gain courage, and that business therefore will extend. Whether this be so or not, there is no question that the dealings this week are much larger than they have been for a long time past. And it is certain that if there were reasonable hopes that Congress would adopt a wise currency policy, the investment here in American securities would be on a most unusual scale of magnitude. But the fear respecting possible action in Congress is deterring cautious people.

The Continental bourses, too, are firm; even Italian and Spanish stocks are well supported. It is certain that the expenditure in Cuba is much greater than Spain can defray, and therefore, unless a foreign loan can be raised, there are grave fears that the long-expected crisis will occur. The way in which Spanish securities are supported in Paris, however, is giving hope that the great Paris bankers are contemplating a loan.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

BONDS HELD BY NATIONAL BANKS.—The following interesting statement, furnished by the Comptroller of the Currency, shows the amount of each class of bon is held against national bank circulation and to secure public moneys in national bank depositaries on August 31.

Description of Bonds.	U. S. Bonds Held Aug. 31, 1895, to Secure—		
	Public Deposits in Banks	Bank Circulation	Total Held
Currency 6s, Pac. RR...	$1,182,000	$12,068,000	$13,250,000
5 per cents, 1894.....	725,000	13,466,850	14,191,850
per cts., funded 1907...	11,843,000	149,466,350	161,309,350
er cents, 1895.....	575,000	11,825,500	12,400,500
cts., funded 1891..	1,023,000	22,590,350	23,623,350
Total.	$15,328,000	$209,447,550	$224,775,550

CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO SEPTEMBER 1.—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes August 1, together with the amounts outstanding September 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to September 1.

National Bank Notes—		
Amount outstanding August 1, 1895.....		$211,281,908
Amount issued during August.....	$1,768,725	
Amount retired during August.....	801,460	967,265
Amount outstanding Sept. 1, 1895*...		$212,249,173
Legal Tender Notes—		
Amount on deposit to redeem national bank notes Aug. 1, 1895.		$24,704,475
Amount deposited during August	$355,815	
Am t reissued and bank notes retired in Aug.	801,460	445,645
Amount on deposit to redeem national bank notes September 1, 1895		$24,258,830

*Circulation of National Gold Banks, not included in above, $90,027

According to the above the amount of legal tenders on deposit September 1 with the Treasurer of the United States to redeem national bank notes was $24,258,830. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	May 1.	June	July. 1.	August 1.	Sept. 1.
	$	$	$	$	$
Insolvent bks	1,021,52[illegible]	949,924	1,017,913	962,710	934,280
Liquidating bks	5,172,[illegible]	5,264,715	5,169,660	5,185,669	5,083,115
Reducing under act of 1874*	20,900,718	20,203,809	19,351,027	18,556,096	18,241,435
Total.	27,094,5[illegible]	26,418,45[illegible]	25,[illegible]38,600	24,704,475	24,258,830

* Act of June 20, 1874, and July 12, 1882.

—Messrs. J. P. Morgan & Co., as depositaries of the preferred and common stock of the New York Lake Erie & Western Railroad Co., under the reorganization plan of Aug. 20, 1895, remind holders of such securities that in order to obtain the reduction of $4 per share from the assessment on preferred stock and $6 per share on the assessment of common stock, both prefered and common stock, as above, must be deposited with them by Sept. 20 and $2 per share on preferred stock and $3 per share on common stock on account of the assessment must be paid on or before that date. Stock not so deposited or on which such instalment shall not be paid by that date must pay the full assessment of $12 per share on preferred stock and $18 per share on common stock without deduction and no excuses can be accepted for delay.

The Mineral Industry, Its Statistics, Technology and Trade to the end of 1894. Scientific Publishing Co. N. Y. and London: Every one interested in knowing the very latest and best methods in use for mining, extracting and refining the useful minerals and metals, and the amounts and values of each produced and consumed in every part of the world, can find the information here. To the engineer, the chemist, the metallurgist, the buyer, the seller of minerals and metals, the investor in mineral property, and to the legislator, who should know the resources and conditions of production in every country to legislate wisely for his own, this work is indispensable.

—Attention is called to the announcement in our advertising columns by Mr. Jacob Rubino that he is prepared to exchange to the extent of $300,000 the Louisville & Nashville ten-forty bonds, called for redemption February 1st, by giving therefor the South & North Alabama consol. 5 per cent bonds due 1936. A bonus of $30 a bond will be paid. The South & North Alabama bonds are guaranteed principal and interest by the Louisville & Nashville, and a glance at the map will show the importance of the road to that system, it being the portion of the main line running from Decatur to Montgomery, Ala.

Foreign Trade of New York—Monthly Statement.—In addition to the preceding tables, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports of merchandise.

—The Continental National Bank of Helena, Mont., offers in our advertising columns $300,000 of its capital stock at par, through Mr. George W. Griffith, No. 11 Pine Street, New York. This bank is being organized with $500,000 capital. The President, Dr. C. K. Cole, and the Cashier, A. B. Clements, have been in the banking business in Montana for years, and the Vice-President, Frank Baird, was formerly Cashier of the Helena National Bank. Mr. Griffith will send prospectus and full information on application.

—Regarding the Tradesmen's National Bank, the officers state that the large amount which they crossed off of surplus on the 29th of March, 1895, has not yet come back to them except in a very small part, but does promise large return the next six months, because of the items now in course of collection; but even with those matters counted out they call attention to the fact that their statement shows a very large and decided gain, and that their present surplus and undivided profits are over $71,409.

—The attention of investors is called to the offering by the Maryland Trust Company, Baltimore, of the first mortgage 5 per cent 50-year gold bonds of the Georgia Southern & Florida RR. The road was recently acquired by the Southern Railway Co. Full particulars will be found in our advertising columns, and in the last issue of the Chronicle, page 429, an abstract of the mortgage was published.

WALL STREET, FRIDAY, SEPT. 13, 1895.—5 P. M.

The Money Market and Financial Situation.—There has been a feeling quite general among conservative financiers that the recent advance in the bond and stock markets was not warranted by the prevailing conditions and prospects. That this feeling has become more widespread is shown by the course of business in Wall Street, and especially at the Stock Exchange, during the week now closing.

The condition of the foreign exchange market and of the Government gold reserve continues to be prominent features of interest in financial circles. The fact that rates of exchange remain high and that the balance of gold in the Treasury has been below $100,000,000 during the greater part of the week, notwithstanding a deposit of $4,000,000 by the Bond Syndicate, has had the effect to induce caution on the part of investors and speculators.

The probability of another Government bond issue has been discussed, and the market for United States bonds has been weak, and quotations are lower, especially for the new fours.

The money market continues easy, with rates and conditions practically unchanged.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1 to 3 per cent. To-day rates on call was 1 to 3 per cent. Prime commercial paper is quoted at 3½ to 4½ per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £2,6,307, and the percentage of reserve to liabilities was 50.28 against 49.59 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 18,134,000 francs in gold and 4,649,000 francs in silver.

The New York City Clearing House banks in their statement of Sept. 7 showed a decrease in the reserve held of $8,871,800 and a surplus over the required reserve of $34,846,775, against $39,749,925 the previous week.

Foreign Exchange.—The market for foreign bills of exchange has ruled weak and firm through the week. There are few commercial bills offered, and the demand is chiefly met with drawings against gold shipments. Exports of gold for the week amount to $7,165,000, of which $6,570,000 goes out to-morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 85@4 89; demand, 4 89½@4 90; cables, 4 90@4 90½.

Posted rates of leading bankers are as follows:

September 13.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 89@4 90	4 90@4 91
Prime commercial	4 85@4 85½	.....
Documentary commercial	4 84@4 85	.....
Paris bankers' (francs)	5 16¼@5 15¾	5 15¾@5 15⅝
Amsterdam (guilders) bankers	40@40⅛	40@40⅛
Frankfort or Bremen (reichsmarks) bankers	95⅝@95¾	95⅝@95¾

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛ premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 00 premium; commercial $1 25 premium; Chicago, 60c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been weak and quotations for some issues have declined. Sales at the Board include $55,000 4s, coup., 1925, at 121½ to 123 and $17,000 5s, coup., at 115½ to 116. Following are closing quotations:

State and Railroad Bonds.—Sales of State bonds at the Board include $20,000 Virginia fund debt 2-3s of 1991 at 63½ to 63⅝; $20,000 Virginia 6s deferred trust rects., stamped, at 6; $17,000 Penn settlement 3s at 90½ and $7,000 Louisiana con. 4s at 98.

The railroad bond market has been weak and the volume of business restricted. The activity has been confined chiefly to the speculative bonds, which in most cases have declined in price. There has been very little news affecting any particular issue of bonds, and the general movement has been in sympathy with the market for all classes of speculative securities. The Government crop report was not as good as the previous one issued, and may have been a factor in the decline of the Atchisons, Mo. Kan & Texas 2nds and Tex & Pac. bonds, which averages over 2 points. Other active issues in which the decline is less conspicuous include Ches & Ohio gen. 4½s, Chic. & N. P. 1st rects., Colorado Midland 4s, Louisville N. A. & Chic., No Pacifics, Readings, Southern Ry., U. S. Cordage and Lex. Ave & P. F. bonds. Of the few bonds which are fractionally higher than last week may be mentioned Or. Short Line 6s trust cert., which have advanced 1 point.

Railroad and Miscellaneous Stocks.—The stock market has been weak under the conditions which have prevailed and prices in the railroad list are generally lower. The grangers, which have been most conspicuous in the recent advance, have naturally been most affected by the later depression. In most cases the lowest prices were reached to-day, when St. Paul sold at 73¾, Burlington & Quincy at 84¼ and Rock Island at 77½, an average decline of nearly 5 points. The decline in the coal stocks was more unequal, being for Central of N. J. 4 to 110, for Lackawanna & Western 4¾ to 163½, and for Reading 2½ to 18⅝; but these stocks rallied on the announcement that the prices for anthracite coal had been reduced in some cases.

Southwestern shares have been active and participated in the general movement. Mo. Pac., which sold at 42½ on Monday, dropped to 37 to-day, and Mo. Kan & Texas pref. has lost 7¾ points to-day when it sold at 47¼. Among the most conspicuous on the list was Southern Railway pfd., which sold at 42¾ on Monday and at 48 on Thursday. Manhattan Elevated is one of the few stocks which have been strong, selling on Thursday at 113¾ against 112½ last week and closing to-day at 110⅝ (ex. div.).

Of the industrial list, Am. Sugar and Tenn. Coal & Iron have been the active features. The former has fluctuated between 113¾, at which it sold on Monday, and 104¾ (ex. div.) to-day, and the latter, which closed last week at 43¼, sold up to 46⅝, on Tuesday, declined to 42¼ on Wednesday and closes at 42. American Tobacco has been relatively steady and firm. General Electric reached the highest price on Monday at which it has sold since August of last year, and Pacific Mail on the same day at 34⅜ was higher than it has been since 1892. U. S. Leather shares have been weak, the pfd. selling at 84¼ on Wednesday and closing at 84¾, against 88 last week.

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page.

Roads	Latest Gross Earnings. Week or Mo	1895.	1894.	Jan. 1 to Latest Date. 1895.	1894.

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of August 24, 1895. The next will appear in the issue of September 21, 1895.

STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

* Road in process of reconstruction.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of August 24. The next will appear in the issue of September 21.

Iowa Central Railway Company.

(Report for the year ending June 30, 1895.)

The annual report contains no remarks by President Russell Sage, but has the following statement made by the General Manager:

General business.—The conditions surrounding the operation of the property during the past year have been unusual. In July, 1894, we were confronted with the great strike of that year, and while our own employees remained faithful to their trust, yet, owing to the general "tie up" on other lines our business was very much impaired during the first month of the fiscal year. Then came the almost unprecedented drouth in Iowa, Nebraska and other Western and Northwestern States, cutting down not only our local business, but taking from us a large tonnage that otherwise would have been given us by our connections. This situation, together with the dull times, following national legislation on the tariff and other important questions, rendered it impossible to make a showing at all favorable in comparison with that which might have been made had conditions been normal. Passenger earnings show an increase of $4,114.

Physical condition.—The physical condition of the property has been well maintained. Equipment has been fully kept up, and repairs to track, bridges and fences have been carefully looked after. During the year 135,141 ties have been put in track, 12,640 yards burned ballast and 7,890 yards of gravel ballast have been put in, 27,098 fence posts have been set in the ground, and 11½ miles of new 60 pound steel rails have been laid.

Prospects, etc.—While our relations with the Chicago trunk lines are most amicable, yet so far nothing has been accomplished in the way of changing the divisions of rates referred to in the report of 1894, although we are hopeful of bringing about a more just arrangement than now prevails. In the meantime we are educating our shippers to route their business to and via Peoria that we may enjoy the long haul.

With the fine crop prospects now before us, not only in Iowa, but other Western and Northwestern States, a splendid showing should be made during the current year, and much more satisfactory results obtained not only in earnings, but also in betterments and a general improvement of the property.

Statistics.—Statistics of earnings, expenses, charges, &c., have been compiled for the CHRONICLE as follows.

OPERATIONS AND FISCAL RESULTS.

Fitchburg Railroad.

(Report for the year ending June 30, 1895.)

The report of President H. S. Marcy says:

The improvement of business in the year covered by this report has enabled this company to show a substantial increase in gross revenue. At the same time, with the continuance of economical methods of operation, the condition of the property has been maintained by charging to operating expenses large sums for renewals of equipment and a considerable sum for the building of new stations and other purposes.

During the year there have been purchased or constructed 10 heavy locomotives and 13 passenger coaches, and provision has been made in the charge to expenses to replace 150 freight cars that have been destroyed or worn out with cars of 30-ton capacity; 492 freight cars have been equipped with vertical plane couplers and 241 with air brakes, and 4,675 tons of 76 lb. steel rails and 266 412 ties were used in repairs.

The work of replacing light bridges and reinforcing others so as to carry heavy rolling stock, which has been in progress for several years and has called for a very large expenditure, has been completed, and heavy locomotives of 40 per cent greater capacity are now in use on the Western Division. The saving in working expenses resulting from this is large and will be continuous. The elimination of grade crossings has been continued. The work at South Keene, begun in the previous year, has been completed, one crossing at Athol has been finished, while work on two more at that point has been begun, and proceedings have been instituted which will result in the abolition of four others.

The branch railroad from Brookline to Milford, N. H., was completed and opened for business on November 15, 1894, and on June 5, 1895, the consolidation of the Fitchburg Railroad with the three roads comprising the Milford Branch, authorized at the last annual meeting, became effective.

In September last the Boston Hoosac Tunnel & Western Railway five per cent debentures outstanding were called in and paid for with the proceeds of a issue of this company's 4 per cent bonds for the same amount, as authorized by stockholders' vote of September 28, 1892. The cost of this exchange, in the discount allowed on the new 4 per cent bonds and expenses, amounted to ⅜ of 1 per cent, which has been included in the interest charges for the year, but the saving in rate of interest made thereby is 1 per cent, or more than $13,000 annually.

The only expenditures charged to construction account during the year (including Vermont & Massachusetts RR. improvements) have been as follows: Separation of grades and eliminating crossings, $34 493; real estate, $17,294; storehouse at Hoosac Tunnel docks, $23,097; new side tracks, $353; completion of Milford branch, $6,366; total, $81,603.

The comparative statement for four years compiled for the CHRONICLE is given below:

OPERATIONS AND FISCAL RESULTS.

Toledo & Ohio Central Railway.

(Report for the year ending June 30, 1895.)

The pamphlet report has not yet been issued, but from the *Toledo Blade* the proceedings of the annual meeting are obtained:

"Throughout the year, notwithstanding the financial depression, the preferred stock has paid quarterly dividends of 1¼ per cent. The physical condition of the road has been more than kept up to what it was at this time last year. In addition to a number of general improvements all along the line, the company has completed new terminal facilities at Columbus. This new line touches many important industries which it is expected will bring a large tonnage not heretofore reached.

The company is so much encouraged by the prospect for the coming year that plans are now being made for a new passenger depot at Columbus, and a number of other important improvements are under consideration. An excellent site has been purchased for the depot on the west side of the Capital City, giving ample room for the erection of a large building and the laying of side tracks. This building will be of brick, two stories in height, the first story to be used as a passenger depot and the second for offices.

Below is a brief summary of the operations for the fiscal year ending June 30, 1895, compared with 1894:

	1895.	1894.
Gross earnings	$1,993,990	$1,660,734
Operating expenses	1,298,406	1,132,815
Income from operating	$695,584	$527,919
Other income	9,421	11,899
Total	$615,005	$539,818
Fixes charges and taxes	424,165	367,379
Net income	$190,740	$172,439

Increase in earnings was: Passenger, 12·97 per cent; freight, 15·30 per cent.

	1895.	1894.
Tons moved	2,210,507	1,950,013
Rate per ton per mile in cents	563	642
Earnings per train mile	$1 4103	$1 4071
Number of passengers carried	564,180	525,003
Rate per mile in cents	1,921	2,202
Rate per train mile in cents	54,608	57,445

The following directors were re elected: Stevenson Burke and R. W. Hickox, of Cleveland, and J. M. Ferris, of Toledo. The board as now constituted consists of the above and C. J. Canda, Thomas C. Platt, C. Ledyard Blair and J. S. Stanton, of New York; Charles G. Hickox, of Cleveland, and A. W. Scott, of Toledo.—V. 60, p. 481.

Ogdensburg & Lake Champlain Railroad.

(Report for the year ending June 30, 1895.)

Earnings for the late fiscal year compare with previous years as follows:

Hestonville Mantua & Fairmount Passenger Railway.

(Report for the year ending June 30, 1895.)

The report of this company to the State of Pennsylvania shows the following:

	1895.	1894.		1895.	1894.
Gross receipts	$373,680	$342,684	Interest	$41,720	$34,947
Operating exps.	268,566	212,494	Dividends	16,017	None.
			Taxes	24,113	.....
Net earns.	$105,134	$80,190			

Included in operating expenses in the year 1894-95 were $6,529 for maintenance of road-bed and railway and $12,651 for repairs of cars. The passengers carried in 1894-95 numbered 7,560,094, contrasting with 6,043,230 in 1893-94.

GENERAL BALANCE SHEET JUNE 30, 1895.

Assets.		*Liabilities.*	
Construction	$1,279,437	Capital stock	$833,781
Equipment	43,262	Bonds	1,250,000
Real estate	43,250	Ground rents and mortgages	30,523
Sundry accounts	16,859	Profit and loss	65,647
Cash	13,098		
Total	$2,179,456	Total	$2,179,456

Cars owned, 141, all operated by electricity; length of road owned, 17·83 miles; leased and operated 6·25; total, 24·08; value of real estate, exclusive of road-bed, $437,250.—V. 60, p. 925.

Electric Traction Company (Philadelphia).

(For the year ending June 30, 1895.)

From the report furnished the State authorities at Harrisburg the following data are obtained:

	1895.	1894.
Receipts from passengers	$2,112,480	$1,773,679
Other income	39,573	126,927
Total income	$2,151,853	$1,900,606
Cost of maintenance and operation	1,241,544	.....
Miscellaneous	25,037	.....
Fixed charges and rentals	924,670	.....
Balance, deficit	39,439	.....

The item "cost of maintenance and operation" includes:

Repairs of road-bed and railway	$14,899
Taxes on gross receipts, capital stock and licenses	178,947
Motive power	278,349
Maintenance of cars, motors, etc.	66,639
General expenses (office salaries, insurance, etc.)	95,729
Conducting transportation (conductors, motormen and drivers)	607,453
Total	$1,241,593

GENERAL BALANCE SHEET JUNE 30, 1895.

Assets.		*Liabilities.*	
Construction	$6,798,872	Capital	$7,619,988
Demand loan	5,000	Bonds of leased roads	301,110
Investment	985,150	Sundry accounts payable, not yet due	103,499

Total	$8,070,211	Total	$8,070,211

Cars propelled by electricity, 550, by horses, 3. Length of road owned and leased, 130 miles.—V. 61, p. 197.

People's Traction Company—People's Passenger Railway (Philadelphia).

(For year ending June 30, 1895.)

From the report to the Secretary of Internal Affairs at Harrisburg the following facts are obtained concerning the People's Passenger Railway, which is controlled by the People's Traction Company:

	1895.	1894.	1893.
Receipts from passengers	$1,317,773	$1,311,127	$1,167,160
Receipts from other sources	12,340	20,574	6,213
Total receipts	$1,330,113	$1,331,701	$1,173,373

The payments for the last fiscal year aggregate $1,331,101, as shown below. This sum includes dividends aggregating $267,200. Deducting the total payments from the gross earnings leaves a net cost for the year of $277,475.

PAYMENTS YEAR ENDING JUNE 30, 1895.

Motive power	$	Miscellaneous	$41,971
		Total	$1,300,406

The item of maintenance and operation here given as $ [illegible]

Repairs of road-bed and railway	$	Motive power and repairs	$
		Total	$

GENERAL BALANCE SHEET JUNE 30, 1895.

Total	$	Total	$

The [illegible] road [illegible] miles; [illegible] miles; [illegible] miles;

the Stock Exchange, is in favor of compelling corporations, the securities of which are listed upon the Stock Exchange, to furnish adequate periodical reports of their operations; but in the case of the American Sugar Refining Company efforts to compel the filing of such statements are handicapped by the fact that the shares of the company are not regularly listed, dealings in them being in the Unlisted Department, and their admission to that department was not at the request of the company nor of its officers, but upon the motion of members of the Exchange who began to deal in Sugar Refining, literally in the Street, when the company was first organized.—V. 60, p. 605.

Arkansas & Choctaw RR.—Articles of incorporation of this company were filed with the State authorities at Little Rock Wednesday. The authorized capital stock is $1,500,000. It is intended to be built from Little Rock, connecting with the Little Rock & Memphis, to a junction with the Choctaw Oklahoma & Gulf Railroad, affording the latter line a direct outlet East.—V. 61, p. 98.

Atchison System—St. Louis & San Francisco Ry.—Coupons due May 1, 1895, from Series "A, B and C" bonds, are advertised to be paid on and after Sept. 17 at office of the receivers, Equitable Building, New York.

In the United States Circuit Court Judge Caldwell has authorized the receivers to expend $300,000 to extend the tracks from Grand Avenue to Twenty-third Street, St Louis. The petition filed in court recites that the Frisco Company is paying the Missouri Pacific Railway Co. $210,000 a year to get into the Union Station from Grand Avenue, a burden which it regards as unreasonably heavy. This arrangement is on the point of expiring, and the receivers believe it best that the company should have its own independent line into the city. The receivers figure that when the line is finished they can operate it at a yearly charge of $97,000, including 6 per cent on the cost ($300,000). The Mercantile Trust Company and all the parties in interest approved the application.—V. 61, p. 151.

Atlantic & North Carolina RR.—The directors have decided not to pay the usual annual dividend due this month, but to use the net earnings of the road for betterments.

Called Bonds.—The following bonds have been called for payment:

NORTHERN PACIFIC.—Thirty-eight Missouri division bonds of $500 each will be paid on presentation at the Farmers' Loan & Trust Company, interest ceasing Nov. 1. The numbers will be found in last week's CHRONICLE in the advertising columns.

PANAMA.—One hundred-and-two 6 per cent sinking fund subsidy bonds have been drawn for payment.

PHILADELPHIA & READING.—Twenty bonds of 1883 (L. S. N. RR. & C. C.) have been drawn for payment.—V. 61, p. 151, 324.

Calumet Electric Street Ry.—This Chicago company has secured control of the Englewood & Chicago Electric Ry. Co. and the two roads will hereafter be operated under the management of the former. It is understood that included in the lease is a provision for the guaranty of the Englewood Company's bonds.

Central RR. & Banking Co. of Georgia—Savannah & Western RR.—The foreclosure sale of the Savannah & Western will take place at Birmingham, Ala., on October 5.—V. 61, p. 420.

Chattanooga Rome & Columbus—A bondholders' agreement is being prepared and deposits of bonds will shortly be asked at the office of Simon Borg & Co. It is proposed to reorganize as an independent company.—V. 61, p. 195.

Chicago Peoria & St. Louis RR.—The foreclosure sale has been postponed from Sept. 14 until Sept. 21. Prospective purchasers asked for the postponement.—V. 61, p. 365.

Chicago & South Side Rapid Transit RR.—At Chicago, Sept. 3, at a meeting of the stockholders of this company the following reorganization committee was appointed: John J. Mitchell, President of the Illinois Trust & Savings Bank; Col. A. F. Walcott of New York, and H. M. Bigelow, of Boston On Oct. 1 six months' default will have elapsed and foreclosure suits may be brought. This the stockholders wish to avert. The Committee of stockholders appointed September 3 has sent out a circular asking the stockholders to sign a paper "concurring in the action of the stockholders in appointing John J. Mitchell, A. F. Walcott and H. M. Bigelow a committee representing the stockholders to meet the bondholders, and, if possible, agree upon some plan of reorganization." John J. Mitchell is President of the Illinois Trust & Savings Bank, Chicago, Ill.—V. 61, p. 481.

Cincinnati & Green River RR.—This Kentucky road, 12 miles in length, is advertised for sale at auction Sept. 23, under decree of the Casey Circuit Court.

Columbus Huntington & Guyandotte RR.—The stockholders have authorized first mortgage bonds not to exceed $25,000 per mile, to be used in the construction and equipment of this road, which will extend up the Guyandotte River Valley from Huntington, on the Ohio River, giving an outlet to market for coal and timber. W. G. Dacey, No. 40 Wall Street, New York, and Mr. J. T. Caldwell, of Huntington, W. Va., are interested in the enterprise.

Columbus Southern RR.—Mr. T. E. Blanchard, of Columbus, Ga., was last week appointed permanent receiver of this road by the United States Circuit Court at Atlanta. He has been in charge of the property as temporary receiver for some weeks.

An intervention was filed in behalf of Ladenburg, Thalman & Co. and Simon Borg & Co. who own nearly half of the bonds, questioning the validity of coupons on $546,000 bonds recently sold by the Chattahoochee Brick Company to the Southern Railway. It is intimated that the Plant system will be a bidder for the property.—V. 61, p. 195.

Connecticut River RR.—Boston & Maine RR.—Connecticut River stockholders will be asked on Sept. 18 to approve an amendment of the lease to the Boston & Maine, to define more clearly the relation of the lessor's stockholders to the lessee and simplify the payment of rental, so that the B. & M. will guarantee 10 per cent on all outstanding stock instead of the $129,000 to the railroad company, and shall hereafter mail dividends direct to stockholders.—V. 61, p. 321.

Dallas Belt & Terminal Ry.—The St. Louis Trust Co., it is reported, will act as trustee for a $750,000 bond issue made to secure construction of the Dallas Belt & Terminal line. Construction work has begun. W. G. Connor is President.

Davenport & Rock Island Street Ry—Tri-City Ry.—The Tri-City Railway Co. has been incorporated under the laws of Iowa, with a capital stock of $600,000, to purchase, as per reorganization plan, the property of the Davenport & Rock Island Street Ry. Co., subject to the mortgage securing the $630,000 of bonds which have been issued, and the payment of the floating debt of over $400,000. Any stockholder of the old company may subscribe for stock of the new company, in proportion to the amount of his stock in the old company, up to the 16th of September, 1895, to be paid for at par.—V. 61, p. 324.

Deer Creek & Susquehanna RR.—A bill for foreclosure sale of this property has been filed by the Mercantile Trust & Deposit Company of Baltimore. The railroad was begun, but was never completed, and a mortgage given to the trust company for $300,000 is in default.

Denison & Northern RR.—Application was filed Sept 7 in the United States Court at Ardmore, I. T., asking for the appointment of a receiver for this railroad.—V. 60, p. 928.

Denver City Cable Ry.—At Denver, Col., Sept. 10, the property of this company was sold under foreclosure to G. E. Taintor, of New York, for $500,000 in the interests of the bondholders. The company will be reorganized as per plan in our STREET RAILWAY SUPPLEMENT.—V. 61, p. 324.

Detroit & Mackinac RR.—It is expected that Messrs. Heinemann & Co. of London will offer at par $900,000 4 per cent first lien gold bonds of the Detroit & Mackinac RR. Co.—V. 61, p. 281.

Eastern Trunk Lines.—Trunk Line Commissioner T. F Goddard has issued a call for a meeting of the Trunk Line Presidents and the executive officers of the principal Western connecting roads, to be held in New York City September 20, to act on the proposed agreement for the maintenance of passenger and freight rates. See editorial on another page.

Erie & Central New York RR.—This company has made a mortgage to the Hamilton Trust Company of Brooklyn, as trustee, to secure $800,000 of 6 per cent 20-year bonds, which it proposes to issue for the construction of its road. Under its charter it is permitted to build from Syracuse via Cortland to Deposit, about 100 miles. The officers and directors are: President, Wayland D. Tisdale; Secretary, H. M. Kellogg; Treasurer, James S. Squires. Directors, C. W. Stoker, Harrison Wells, D. F. Wallace, George C. Hubbard, Theo. Wickwire, George H Holmes and Frank H. Cobb.

Florida East Coast Ry—Jacksonville St. Augustine & Indian River Ry.—The name of the Jacksonville St. Augustine & Indian River Railway has been changed to Florida East Coast Railway to conform to the popular name "East Coast Line" by which the road has been known for several years. When the extension now under construction south from Lake Worth to Miami on Biscayne Bay, 70 miles, is completed, as it is expected to be, about January 1, 1896, the total mileage owned will be 415 miles, the main line from Jacksonville to Miami being 369 miles in length From Miami steamers may run to Florida Keys and Key West. Mr. H. M. Flagler is the President and principal owner.—V. 61, p. 112

Florida Midland RR.—At a meeting of the bondholders this week the following committee was appointed to formulate a plan of reorganization and to draft a petition to the Court to postpone indefinitely the sale of the road: Hon. Levi Wallace, F. S. Mackenzie, F. C. Bill, O. W. Mead, C. W. Morris. There were $100,000 of the bonds represented at the meeting.

Galesburg Etherly & Eastern RR.—A foreclosure suit has been filed against this road, which extends from Wataga to Etherly, Ill., a distance of 12 miles.

Galveston La Porte & Houston RR.—This road has made application for authority to make an additional issue of $700,000 bonds. The road has the right to issue $28,000 bonds per mile. Construction is progressing steadily.—V. 61, p. 68.

Georgia & Alabama Ry.—Savannah Americus & Montgomery Ry.—The reorganization committee of the Savannah Americus & Montgomery Railway have unanimously adopted a plan of reorganization of which the following is a condensed statement:

To carry out this plan an underwriting syndicate has been formed, which has guaranteed the raising of $1,675,000, which is deemed sufficient to retire all claims against the company, extend the road from Lyons to Savannah, 75 miles (making a total of 340 miles owned) and provide a considerable amount for the improvement of the existing property. The Georgia & Alabama Railway will issue the following new securities:

First mortgage preference 50-year gold 5 per cent bonds (redeemable after 5 years at 105 and interest), at the rate of $16,500 per mile. Total issue limited to.....	$4,000,000
Of which amount now issued	2,210,000
To be issued at same rate under stringent mortgage requirements to acquire additional connected and completed mileage	1,790,000
First mortgage consolidated 5 per cent 50-year gold bonds, at the rate of $16,500 per mile, $6,000 per mile of which shall be held by the trustee to retire preference bonds, Total issue limited to	10,000,000
Of which to be held by trustee to retire first mortgage preference bonds (as above) per mile	4,000,000
Amount now issued (240,000 per mile)	3,060,000
Reserved to be issued under the same stringent provisions as the preference bonds	2,940,000
Preferred 4 per cent non-cumulative stock	3,400,000
Common stock	5,100,000

Exchange of securities.—If the company decides to build the proposed line from Lyon to Meridian, 58 miles (it is being part of the proposed 75 miles extension to Savannah), each $1,000 Savannah Americus & Montgomery first mortgage bond deposited under the plan will receive:

In new consols $500; preferred stock $750; common stock $500.

If the company decides *not* to build said 58 miles, each of said bonds will receive:

In profe rred 5s $50; new consols $700; preferred stock $650; common stock $500.

And in the meantime until the new company shall decide whether or not to build said 58 miles each bond will receive:

In new consols $700; preferred stock $650; common stock $500.

The car trust debt, aggregating, with interest to maturity, $530,000, was arranged during the receivership for payments of about $4,000 monthly, and for the present will be allowed to remain in that shape.

Montgomery terminals.—The interest on the $400,000 bonds issued by the Montgomery Terminal Co. is to be guaranteed by the new company to the extent of 5 per centum for five years from Oct. 1, 1895, by endorsement on the ten coupons, and during the said five years the new company shall pay the taxes and insurance on the Montgomery Terminal property and keep it in reasonable repair. The new company shall have the option to redeem said bonds at any interest period in said five years, and a sum sufficient for the arrangement for the payment of interest on the bonds for the life of the bonds on the same terms. For further particulars see last week's CHRONICLE, p. 420.

Glen Haven RR.—This road was sold under foreclosure Sept. 10 to Frank P. Crouch and Chauncey C. Wadsworth for $22,022. Electric power will be substituted for steam.

Green Bay Winona & St. Paul RR.—*Plan of reorganization*, dated Sept. 11.—The committee of *income bondholders* and *stockholders*, composed of John I. Waterbury (chairman), Mayer Lehman, Edwin S. Hoey and H. Tuckerman, announce that they have entered into a tentative agreement with Mark Tully (chairman) and William J. Hurst and C. Hayward Blair, a committee of the *consolidated bondholders*, under the terms of which the first and the consolidated mortgages are to be immediately foreclosed and the property bought in for transfer to a new company, which shall issue the following securities:

Common stock, entitled to dividends after 3½ per cent has been paid on Class "A" debentures, to receive not before	$2,500,000
Class "A" non-cumulative income debentures, entitled to 5% per cent interest if earned and then 5 per cent of 2½ per cent dividends on stock, after pro rata with Class "B" 5 per cent bonds and stock	600,000
Class "B" non cumulative income debentures, entitled to all earnings for distribution to stock after the payment of 5 per cent on Class "A" debentures and on the stock	7,000,000

The said debentures and stock shall provide that no mortgage shall at any time be placed upon the said railroad, its assets and property, nor shall the same be leased or sold without the consent of the holders of 75 per cent of the capital stock of the new company at any time outstanding, and in case of any future sale or mortgaging of the property the proceeds of such sale or mortgage (after payment of all liens and charges upon the property, be first first applied to and among the holders of Class "A" debentures, and the stock be paid, and any surplus remaining after payment of the face value of Class "A" debentures and the par of said stock, shall be distributed pro rata to and among the holders of Class "B" debentures.

Exchange of securities.—The present securities will be exchanged as follows on payment of cash assessment:

Holders of	*Pay per cent*	*Share*	*And will receive— "A" Debens.*	*"B" Debens.*
1st mortgage $1,000 bond	None	$1,000	.....	.....
Consol. bond $1,000 5 cent	None	1,000	.....	.....
Income $1,000 bond	$10	.....	$40	$600
Pref. stock, each $10,000	450	.....	450	5,000
Common stock, each $10,000	450	.....	450	4,500

The proceeds of the assessment will be applied in discharging prior liens, court costs, expenses of foreclosure, organization of the new company and to secure needed equipment and appliances, and for the betterments of the property; any shortage to be placed in the treasury of the company and to be used only for its benefit.

Before this plan becomes operative the assent of 75 per cent of the securities represented by the committee is required, though the committee reserves the right to declare the same operative if assented to by a smaller amount.

The stockholders' and income bondholders' committee, of which Mr. Waterbury is Chairman, states that an underwriting syndicate has been formed who will take over all the debentures of both classes not subscribed for in excess of above amount. Security holders failing to become parties to the plan within thirty days from date will fail to obtain any rights thereto.

In view of the fact that the holders of the consolidated bonds have agreed to accept stock in lieu of their mortgage lien on the property, after a careful examination of the properties, and in view of the fact that there will be no fixed charge on the property ahead of Class "A" debentures, the committee earnestly recommends the plan for acceptance. Securities may be deposited and assessments paid up to and including the 25th day of September, 1895, at the office of Manhattan Trust Company, New York City. All assessments heretofore paid under the terms of the protective agreement will be credited to such security holders who participate in this plan. Scrip will be issued for fractional lots.

See further particulars in advertisement on another page. —V. 61, p. 366.

Kansas City Gas.—A press dispatch from Kansas City, Mo. August 30, says that this company has been incorporated for fifty years to succeed the Kansas City Gas Light & Coke Company. The capital stock is $2,500,000, paid up in full; par value of shares, $100. Of this, $1,000,000 is preferred and $1,500,000 common stock. The directors are: Lewis C. Lillis, of Philadelphia, who holds all the preferred and 14,970 shares of the common stock, and George S. Philler, of Philadelphia, and John C. Gage, Edward L. Martin, M. J. Payne, James T. Holmes and Charles E. Small, of Kansas City, each of whom owns five shares of common stock.

Kewaunee Lake Superior & Southern Ry.—At Madison, Wis., Sept. 6 articles of organization were filed by this company to construct a road from Superior, Douglas County, south to Prentice, Price County, and from Superior southeasterly to Trevins, Buffalo County, a total distance of 280 miles. The capital stock authorized is $4,200,000. The directors are Robert Lenox Belknap; Henry Stanton and Jacob Halsted, New York; E. S. Kennedy, Rowland J. Wemys, West Suerior.

Kinderhook & Hudson RR.—It is reported that the stockholders of this company have determined to surrender control of the road to the bondholders in order to avoid foreclosure sale under the decree entered not long ago in the Supreme Court. The stockholders' committee consists of John J. Gallogly, Albany; Edwin Burns, New York; R. H. Huntington, Watertown; S. R. Ramey and W. H. Taylor, Hudson; H. C. Hotchkiss, Syracuse.

Knoxville Cumberland Gap & Louisville RR.—At Knoxville, Tenn., September 2, this road was sold by a special master of the United States Court and bid in by F. W. Whittridge, representing the bondholders, for $500,000.—V. 60, p. 1145.

Lehigh Valley Railway of New York.—This company comprises the Lehigh Valley RR. lines in New York, 283 miles. Earnings for the quarter and nine months ending June 30 have been reported as follows:

3 months end. June 30—	*Gross earnings.*	*Net earnings*	*Interest, taxes, etc.*	*Balance, surplus.*
1895	$453,120	$249,980	$170,952	$69,917
1894	1,028,842	305,008	209,864	95,143
9 months—				
1894-95	$2,993,509	$944,383	$577,294	$367,089
1893-94	2,473,184	670,744	547,364	123,380

—V. 60, p. 929.

Louisville Evansville & St. Louis Consol RR.—The petition filed in February last asking the displacement of receivers E. O. Hopkins and James H. Wilson on the ground of mismanagement has been denied by Judge Woods at Indianapolis.—V. 61, p. 366.

Lynchburg & Durham—Norfolk & Western.—The *Railroad Gazette* publishes the following facts regarding the Lynchburg & Durham, which were obtained from the Court records:

The road continues to be operated by the Norfolk & Western receivers, with the consent of the Pennsylvania Construction Company, of Philadelphia, which controls a majority of the stock of the L. & D. The gross earnings of the road were as follows: 1894, $135,165; 1893, $143,471; 1892, $50,022; net, respectively, $28,104, $19,864, $6,129. The interest liability of the Norfolk & Western on account of the Lynchburg & Durham, by the lease, is $73,500 a year, taking no account of the bonds held by the company itself, to the amount of $482,000. The interest due on July 1, 1895, was defaulted on.—V. 61, p. 240.

Macon & Northern Ry.—Central RR. & Banking Co. of Ga.—As stated on page 396 of the CHRONICLE for Aug. 31 the reorganized Central of Georgia is to pay for the Macon & Northern $840,000 first mortgage divisional bonds, $300,000 first preference incomes and $774,000 second preference incomes, the preference incomes being part of the Central of Georgia new issues. The divisional bonds are to be 5 per cents, secured by a first mortgage, for $840,000 on the Macon & Northern Ry. While they will not be guaranteed they will be a first lien at only $8,000 per mile on the 106 miles between Athens and Macon. The agreement of purchase contains the following:

The purchasers, however, expressly reserve the right to pay at the time the securities are delivered $80,000 in cash in place of $160,000 of said first preference income bonds and $67,500 in cash in lieu of $270,000 of said second preference income bonds.—V. 61, pp. 366, 420.

Missouri Kansas & Texas.—This company has formally acquired from the St. Louis & Kansas City the 35 miles of road now in course of construction from Holden, Mo. (the present terminus of the Paola branch of the M. K. & T.), to Greenridge on the main line. The lease to the Missouri Pacific of the road from Paola to Holden has been canceled and the M. K. & T. will shortly have a through line from Kansas City to St. Louis.—V. 61, p. 118.

Metropolitan Street Ry. (New York)—Underground Trolley.—The success of the underground trolley on the Lenox Avenue line has decided the directors of the Metropolitan Traction Company to equip its Twenty-third Street line with the same system. The New York *Sun* on Tuesday had the following:

Director John D. Crimmins said yesterday that the saving in operating expenses of the underground trolley system is 4 cents per car mile as compared with the cable traction and 8 cents per car mile as compared with horse service. He said that he expected that all the lines of the Metropolitan Traction Company would be equipped with electricity within the next five years.

The power for the Twenty-third Street line will be furnished from the power house on Twenty fifth Street. It has been decided to equip the Ninth Avenue line next with electricity. The Traction Company has now in use between 5,000 and 6,000 horses.—V. 61, p. 325.

Michigan Peninsular Car Co.—This company, whose annual meeting will be held October 1, has sent to the stockholders a circular stating that the earnings for the year ending Augus 31 have been sufficient to pay interest, and may possibly leave a small surplus for the year. The company has orders on hand sufficient to ensure the continuance of work to October 1, and additional orders are hoped for.—V. 60, p. 1009.

Nashville Chattanooga & St. Louis RR.—The annual meeting of this company was held at Nashville on Wednesday. The old board of directors was re-elected and the same executive officers were re urned. The annual report has not yet come to hand.—V. 60, p 802.

Newark Gas Companies.—The Newark Gas Light Company and the Citizens' Gas Light Company, which have been working in harmony ever since the Citizens' Company was organized, have been consolidated into a new company known as the Newark Gas Company, with a capitalization of $5,000,000, consisting of $4,000.000 bonds, secured by a mortgage on the entire plant, and $1,000.000 stock which is to be preferred, with cumulative interest if any additional stock is issued. The old companies were capitalized at $1,000,000 each, and in the consolidation the Newark Gas Light stock is exchanged for $2,500,000 bonds, while the Citizens' stock receives the remaining $1,500,000 bonds and the entire issue of $1,000,000 stock. Of the new company the President is John L Blake, of Orange; Vice-President, Stephen H. Codic', of Newark; Secretary, Clarence L Nelson; Treasurer, Robert B Hathorn; Trustees on behalf of the bondholders, Eugene Vanderpool, Marcus L. Ward and Andrew Kirkpatrick.

New England RR.—This company's new mortgage for $17,500,000, provided for by the reorganization plan of the New York & New England RR, was filed for record this week, the Manhattan Trust Company of New York being the mortgage trustee.—V. 61, p. 420.

New York Lake Erie & Western RR.—The Governing Committee of the Stock Exchange has empowered the Committee on Stock List to admit to the list the engraved reorganization certificates representing the preferred and common stock of this company deposited in this city or London whenever official notice shall have been received that a majority of each class of stock has been deposited.

The sale in foreclosure under the second consolidated mortgage has been fixed for November 9 —V. 61, p. 420.

New London Northern RR.—Earnings for the quarter and the six months ending June 30 have been reported as follows:

3 mos. end. June 30—	Gross earnings.	Net earnings.	Other Income.	Interest, taxes, etc.	Balance surplus.
1895.	$159,775	$56,328	$11,638	$50,394	$17,572
1894.	152,527	57,654	11,880	51,800	17,734
6 months—					
1894-95.	$301,129	$105.779	$11,638	$100,884	$16,533
1893-94.	290,074	110,175	11,880	101,816	20,239

New York Pennsylvania & Ohio RR.—New York Lake Erie & Western RR.—At a meeting of the holders of first mortgage bonds of the New York Pennsylvania & Ohio, held Sept. 6 in London, it was voted to authorize foreclosure proceedings and to accept the proposition contained in the Erie reorganization plan published in the CHRONICLE of August 31.

Terms Offered.—At the meeting the voting trustees advised the bondholders that in accordance with the plan of rearrangement of December 10, 1894, the prior lien mortgage was successfully renewed for forty years at 4½ per cent interest, in lieu of 6 per cent, effecting a saving of $120,000 a year, and that more than $70,300,000 of the first mortgage bonds out of a total of $71,800,000 have assented to and been deposited under the said plan. The trustees, however, forebore to declare that plan effective, owing to the failure of the Erie reorganization plan then pending, and the probability of a foreclosure on that road. They have now obtained from the Erie reorganization committee the following terms:

Rental till Jan., 1896.—1st. The recognition of the rental overdue under the old lease up to 1st July, 1894, and its payment partly in cash and partly in new Erie 1st preference 4 per cent non-cumulative stock; certain acceptances given by the Erie Company on account of rental, which were discounted and the proceeds distributed among the first mortgage bondholders on account of interest in 1893, being first paid thereout. The rental from 1st July, 1894, to 1st January, 1896, at the rate of $1,500,000 a year, to be paid in cash.

Prior lien bonds, rentals, etc., to be assumed.—2d. The assumption by the Erie Company of the prior lien indebtedness, the equipment trusts, the Cleveland & Mahoning rental and all other rentals, charges and obligations at present existing prior to the New York Pennsylvania & Ohio first mortgage bonds.

Exchange of securities. 3d The exchange of the old stock and bonds not assumed for new securities of the Erie Company at about the following rate; assessments are to be paid by all except the old first mortgage bonds of $12 in cash for each $100 of new stock received. No fractional amounts of Erie securities will be issued.

—Old securities.— In amounts of	Paying Assessm't.	—Are to be exchanged for— Prior Lien 4s.	1st Pref. Stock.	2d Pref. Stock.	Com. Stock
1st mortgage $5,000	None.	$1,000	$500	$100*	$750*
2d mortgage $500	$12 00	.....	.....	.....	100
3d mortgage $1,000	12 00	.....	.....	.....	100
Pref. stock $5,000	12 00	.....	.....	.....	100
Com stock $10,000	12 00	.....	.....	.....	100

*The amount of 2d preference and common stock given to the first mortgage bonds, it is thought, may not exceed $750 in all, instead of $850, as here given.

Trust created.—In order to obviate as regards the first mortgage bonds the practical difficulty which would arise in carrying out these terms from the fact that there are a great number of bondholders whose holdings are not $5,000 or some multiple thereof, and who would only be entitled to fractional certificates of new Erie securities, which it will not be practicable to give them, it is proposed to form a trust on the lines of the present Atlantic First Leased Lines Rental Trust, in order to receive the interest and dividends accruing on the Erie securities and to distribute them ratably among the N. Y. P. & O. first mortgage bondholders. Each holder of N.Y. P. & O. first mortgage bonds will be entitled to trust securities to the amount of 80 per cent of the face value of his present holding, one half in 4 per cent debentures and one half in stock. The debenture interest will be fully secured by the interest received on the Erie prior lien bonds, and there will be at once a surplus from this source alone equal to the payment of a dividend of 1¼ per cent on the stock, to be increased hereafter by the dividend paid on the Erie first preference stock and the sale and re-investment of the balance of the junior securities should such be found desirable; and it is estimated that the dividend on this trust stock will eventually exceed four per cent. A Stock Exchange quotation for these trust securities will be applied for in due course.

Such holders, however, of N. Y. P. & O. first mortgage bonds as may wish to withdraw their proportion of Erie securities will be at liberty to do so in sums or multiples of $5,000, provided they notify their intention and re-deposit their certificates on or before December 31st, 1895, but the trustees cannot issue any fractional certificates of Erie securities.

The amount of ten shillings per cent paid or to be paid on the deferred warrants will be brought into the general account of the Trustees, and applied to the purposes of the reorganization as now proposed.

Junior securities.—Notice is given to all securities disturbed, except the first mortgage bonds, by Fred. W. Smith, Secretary London Agency, that the acceptance of this offer must be made by presenting the bonds or stock for stamping, and by paying $3 on account of the above assessment for each new Erie share to be received, the balance being payable after the foreclosure and sale of the New York Pennsylvania & Ohio road and the delivery of the new securities This offer may be withdrawn at any time as regards persons who have not then accepted it.—V. 60, p. 968; V. 61, p. 420.

Northwestern Elevated Ry. (Chicago).—A second instalment of 10 per cent has been called on the recently-authorized issue of $3,000,000 Columbia Construction Company stock. The Construction Company is building the Fifth Avenue line of the elevated loop, the ordinance of which was secured in the name of the Northwestern Elevated Company.—V. 61, p. 325.

Old Colony RR.—New York New Haven & Hartford RR.—At the annual meeting of the Old Colony RR. Co. Sept. 24, 1895, the stockholders will vote on a proposition to authorize the directors to issue $3,000,000 bonds.—V. 60, p. 1146; V. 61, p. 240.

Oregon Railway & Navigation.—The Bay State Trust Company has begun an action in the United States District Court, at Spokane, to foreclose a mortgage of $4,616,400 against the Washington & Idaho Railroad Company. This mortgage secures bonds deposited as collateral for the Oregon Railway & Navigation Company's collateral trust bonds, and the foreclosure suit is in accordance with the reorganization plan in V. 61, p. 325.—V. 61, p. 420.

Pennsylvania RR.—The Philadelphia *Press* says it is understood that the directors will this fall authorize an issue of at least $5,000,000 new stock for improvements. President Roberts says that at the directors' meeting this week no reference was made to a stock allotment.—V. 61, p. 196.

Pennsylvania Steel.—The following is published regarding this company, whose consolidated bonds are now being offered. See advertisement on another page.

The Pennsylvania Steel Company's six per cent coupon thirty-year consolidated gold bonds are secured by a mortgage upon the plants of the Pennsylvania Steel Company at Steelton, Pa., and the Maryland Steel Company at Sparrow Point, Maryland, and by the deposit of $697,500 of the $1,500,000 capital stock of the Juragua Iron Company. The Pennsylvania Steel Company is capitalized as follows: First mortgage divisional lien 5s, $3,000,000; consolidated six per cent mortgage issued ($700,000 additional bonds are held in the company's treasury), $3,300,000; preferred seven per cent stock (par $100), $1,500,000; common stock (par $100, full paid), $4,750,000; total, $12,550,000. The company owns eight blast furnaces, with an annual capacity of 558,000 tons pig iron; a rail mill, capacity 450,000 tons, and for 165,000 tons boiler steel, beams and other products, and a ship-building and a bridge building plant. The average annual net earnings of the company's works at Harrisburg alone, from 1880 to 1894, inclusive, were over $728,306 and over 227 per cent was paid in dividends during the same period.—V. 61, p. 326.

Peoria Decatur & Evansville Ry.—The stockholders of this company are invited by circular to send proxies for the election of directors, which takes place Oct. 1, to Work, Strong & Co, Kummer & Becker and W. H. Goadby & Co. In view of the foreclosure proceedings under the second mortgage, it is deemed advisable that the three directors to be chosen shall be in sympathy with the effort of the second mortgage bondholders' committee to secure for the stockholders equitable and advantageous reorganization terms.—V. 61, p. 431.

Pueblo City Railway—Pueblo Electric Street Railway.—The Pueblo City Railway was sold in foreclosure Aug. 31 to Albert E. Pattison for $400,000. The new company will be known as the Pueblo Electric Street Railway The officers are: S. Greene, President; H. E. Chubbuck, Vice-President, General Manager and Assistant Treasurer, and Irving Hale, Secretary and Treasurer.—V. 61, p. 197.

Richmond Traction Co.—This company, which proposes to build an electric road in Richmond, Va., had all of its capital stock, $300,000, taken almost as soon as offered. The company has organized by electing Mr. John Skelton Williams, of Richmond, as President.

Standard Telephone.—Regarding the present status of this enterprise in Baltimore and Washington, the Baltimore *American* says:

A meeting of the board of directors of the Standard Telephone Company of Washington and Baltimore City was held at the general office of the company on Thursday for the purpose of completing arrangements looking to the building, equipment and operation of its lines in

this city. Mr Allan F. Nye, General Manager of the company, and General James S. Clarkson, a director, of New York City, were present. The meeting was private, but one of the directors stated at its conclusion that the affairs of the company were in a entirely satisfactory condition and that within a few weeks he could assure the public that the telephones of the company would be offered throughout the city. The instruments used by the Standard Telephone Company are for long-distance, as well as for local use. August 30 the first wire of the company was strung between the Equitable Building and the business office of the *American*, and is now in operation. The company is well under way in New York and Philadelphia, and is nearing completion between those cities, Baltimore, Washington, Richmond and Norfolk. The company is giving every evidence that it is not to be a paper concern.—V. 60, p. 1060.

Susquehanna & Tidewater Canal.—This canal, which runs from Wrightsville to Havre de Grace, Md., together with the dam across the Susquehanna River at Columbia, was offered at trustee's sale in York, Pa., September 5, to satisfy a claim for $1 000 000 held by the State of Maryland. The property was run up to $25,000, and withdrawn to be sold on October 5.

Texas Louisiana & Eastern Ry.—The sale of this railway for $1 01,000 to W. A. Kincaid, trustee, has been confirmed. It is proposed to extend the line from its present eastern terminus to Beaumont.—V. 60, p. 1010.

Toledo St. Louis & Kansas City RR.—At Toledo, Ohio, Sept. 11, the stockholders made a number of changes in the directory. John P. Morris of New York, was elected to succeed F. L. Ross. David Robinson, Jr., Toledo's street railway magnate, takes the place of W. Howard Gilder, and A. L. Mills, Toledo, was elected to succeed S. R. Callaway. The new directory is as follows: R. G. Ingersoll, John P. Morris, J. O. Osgood, J. L. Ludlaw, S. H. Kneeland, S. J. Scott, New York; Charles Miller, Franklin, Pa.; F. J. Sawyer, Buffalo N. Y.; S. K. Wilson, Trenton, N. J.; M. L. Crowell, F. L. Geddes, A. L. Mills, David Robinson, Toledo. No changes were made in the list of officers.

Secretary Otto T. Bannard, of the first mortgage bondholders' committee, announces that nearly $8,000,000 of the total issue of $9,000,000 first mortgage bonds have been deposited, and that any bonds not deposited in accordance with the agreement, with the Continental Trust Co. on or before Oct. 10 will only be received upon payment of a penalty of $30 per bond.—V. 60, p. 393.

Union Gas—Consolidation of Brooklyn Gas Companies.—At Albany, Sept. 8, was incorporated the Union Gas Company, with authorized capital of $15,000,000, to supply gas and electricity. The company is organized to bring under one control the gas companies of Brooklyn, as proposed last spring. The directors are: George W. Young of the United States Mortgage Company, Grant B. Schley of Moore & Schley, N. Y.; John T. Mills, Jr., cashier of the Chase National Bank, N. Y.; Hamilton H. Durand of New York, Watson B. Dickerman of Dominick & Dickerman, Charles E. Ball, Brooklyn, an employee of Moore & Schley, and George R. Turnbull, Vice-President of the New York Guaranty & Indemnity Company. The officers are George W. Young, President; John T. Mills, Jr., Vice-President, and Charles F. Ball, of Brooklyn, Secretary. Moore & Schley gave out the following:

The Brooklyn Union Gas Company has been incorporated preliminary to negotiating with the stockholders of the Brooklyn companies for a consolidation or consolidation, in several of which this firm is interested. We shall probably offer the shareholders of the old companies a certain number of shares of stock in the new company for their holdings in the old. We hope to have them all in the new company.

The control of six out of the seven local gas companies is said to be held by a syndicate represented by Moore & Schley. These companies are the Brooklyn Gaslight Company, the Fulton-Municipal, Citizens' Gaslight Company, People's Gaslight Company, Williamsburg Gaslight Company and the Metropolitan Gaslight Company. The only other gas company in Brooklyn is the Nassau, and of that company's capital stock of $1,250,000, the syndicate is reported to control $500,000, and to have also an understanding with President Leggett, the controlling stockholder, by which it will be enabled to acquire a controlling interest in the company. In the consolidation Mr. Addicks is said to have been outgeneraled. The move in Brooklyn has set on foot rumors that a like consolidation may be attempted in New York.

Union Pacific System—Omaha & Republican Valley Railway.—Foreclosure suits have been brought by the American Loan & Trust Co., the mortgage trustee under the Omaha & Republican Valley consolidated and extension mortgages. The mortgages of extension bonds ($1,246,000) and $526,000 of the $3,136,000 bonds issued are held by J. P. Morgan & Co. for the collateral trust gold notes of 1893 and $1,809,000 are held by the New England Trust Co. under the 5 per cent trust of 1883. The earnings of the O. & R. V. on its 142 miles were: In year 1894 gross, $887,079; net over operating expenses, $16,947; in 1893 gross, $1,249,146; deficit from operating, $32,759; in 1892 gross $1,472,905; net, $12,379; interest charge about $349,000.—V. 61, p. 431.

Union Traction Co., Philadelphia.—This company was chartered Sept. 13 and will carry out the consolidation of street railway interests as proposed.—V. 61, p. 431.

Valley Ry. of Ohio—Baltimore & Ohio RR.—The Valley Railway was sold in foreclosure Tuesday to Alexander Shaw and Thomas M. Koon, representing the reorganization committee under the Baltimore & Ohio agreement, for $3,070,000, and will be reorganized per plan in CHRONICLE, V. 60, p. 437; V. 61, p. 70. Brown Brothers have purchased the proposed new issue of $6,000,000 five per cent bonds.—V. 61, p. 241.

Reports and Documents.

COLORADO FUEL & IRON COMPANY.

THIRD ANNUAL REPORT—FOR THE YEAR ENDING JUNE 30, 1895.

To the Stockholders of the Colorado Fuel & Iron Company:

I submit herewith a report of the business of your Company for the year ending June 30th, 1895.

The Company has earned all of its fixed charges, including Bond Interest, Taxes and Sinking Funds, the full dividend of 8 per cent on its its $2,000,000 Preferred Stock, and a surplus of $4,874 32. This result has been accomplished in spite of serious drawbacks. The great railroad strike which began June 29th, 1894, and terminated July 11th, 1894, completely paralyzed business while it lasted, and its effects were felt throughout the month of July, the operations of that month resulting in a net loss of $5,158 77. While the miners' strike was practically ended prior to June 30th, 1894, its effects were felt during July and August, some of the principal mines not resuming operations until July 23d.

The almost complete failure of the corn crop in Nebraska and Kansas resulted in decreasing our sales of coal to the railroads operating in those States, as well as our commercial business, owing to the economies necessarily practiced by the farmers and others dependent on the corn crop for their living.

The general business depression continued throughout most of the business year. The revival in the iron business toward the close of the year is not reflected in the earnings, as prices were not generally advanced before June 30th, 1895.

The favorable conditions were, the activity in gold mining and prospecting in Colorado and adjacent States and Territories and an increased production of iron products made possible by reduced costs, which enabled us to reach new markets.

EARNINGS AND EXPENSES.

The net earnings for the year were $804,229 92, an increase of $143,464 53 over the preceding year; $30,892 70 of this increase was earned by the Fuel Department and $103,107 52 by the Iron Department. The increased earnings of the Fuel Department were made in spite of a reduction in sales of 10,022 tons of coal and 13,998 tons of coke, and in comparing the earnings of this year with last, $27,330 86 should be added, that amount having been deducted from this year's earnings and credited to the Strike Fund, as explained in the preceding annual report. A portion of the increase is due to a careful inventory and adjustment of supply accounts, not in reality, earned during the year, but the net result shows a substantial increase of earnings on a reduced tonnage and is due mainly to reductions in cost of production.

The increased earnings of the Iron Department are due to a substantial increase in the production and sales of all the products of the department and reductions in costs; the increased sales were made mainly in new territory and at low competitive prices.

General Expenses show an increase of $37,123 99, of which $20,111 05 was in salaries and other management expenses; it was found to be impossible to maintain the reduction in these expenses made during the prior year 1893 94. The increase for Personal Injury and Fire Insurance funds is due to a change in method of meeting those expenses. Instead of charging the actual expenditures, a fixed amount of $250 and $500, respectively, is charged monthly for the Insurance and Personal Injury funds; these funds are charged with the actual expenditures and the balances are carried forward to meet future contingencies; the actual expenditures during the current year were $2,167 25, leaving a balance to the credit of these funds of $6,832 75.

PRODUCTION AND DISPOSITION OF PRODUCTS.

FUEL DEPARTMENT.

The production of coal increased 141,649 tons and of coke 65,993 tons over the preceding year; all of this increase, and more, was used by the Company, mainly at the steel works, and was charged out of cost.

IRON DEPARTMENT.

The principal items of increase in this department were:

Pig Iron	37,857 tons.
Steel Rails	25,398 tons.
Spikes	28,238 kegs.
Merchant Iron	5,477 tons.
Angle Bars	3,869 tons.
Iron Ore	103,140 tons.

INCOME ACCOUNT.

The net earnings carried to the credit of Income Account were $678 450 95, an increase over the preceding year of $116,841,54. The surplus over fixed charges and interest on floating debt amounts to $256 914 82, against which has been charged $92,040 50 for Sinking Funds for Coal and Iron mined during the year, leaving a net surplus of $164,874 32, which would be sufficient to provide for a dividend of 8 per cent on the Preferred Stock and leave a balance of $4 874 32. As no dividend has yet been declared on Preferred Stock, the net surplus has been carried forward, making the balance of Income Account $242,931 03, or a little more than sufficient for the cumulative dividends due on Preferred Stock to June 30, 1895, being 12 per cent, or one year and six months' dividend.

INVESTMENTS.

Real Estate.—Under the terms of the mortgage securing the issue of $6,000,000 General Mortgage Bonds, a Sinking Fund of two cents per ton on coal and five cents per ton on iron ore mined is provided for, which fund can at the option of the Company be invested in coal and iron lands to take the place of lands worked out. This fund for the year ending June 30th, 1894, amounted to $26,360 44; of this amount $25,880 00 was invested in the purchase of 478 acres of coal land in Huerfano County, Colorado, adjacent to the Company's mine at Rouse.

There was expended on account of incumbrances on real real estate:

Grand River Coal & Coke Company's bonds purchased for Sinking Fund	$8,000 00
Mitchell Coal & Land Company, deferred payment on lands.	1,000 00

The title to the lands occupied by the Company's coke ovens at Cardiff has been in dispute for several years; title has finally been secured by the payment of $2,000 00.

The total charged to Real Estate for the year amounts to	$36,537 46
The account has been credited with the amount deducted from earnings on account of coal and iron ore mined	34,682 08
Leaving the net increase	1,855 38

Equipment Accounts.—The net expenditures on account of Equipment Accounts during the year were as follows:

Fuel Department		$25,967 48
Iron Department		51,744 57
Miscellaneous (sales in excess of expenditures)	$134 15	
		$77,577 90
Deduct Sinking Funds deducted from Earnings and credited to Equipment Accounts		57,358 42
Leaving net Expenditures		$20,219 48

The principal items of expenditures in the Fuel Department were for completing new mine at Ruby, additional mules, pit cars and iron tracking at all mines; track scales at Coal Creek mine, coal washing machinery at Sopris and drainage system at Rouse.

The expenditures in the Iron Department were principally for doubling the capacity of the Merchant Mill, additional blowing plant at Converting Works, improvements in Rail and Blooming Mills, increasing capacity of Pipe Foundry, increased Water Supply and additional Railway Tracks.

BONDED INDEBTEDNESS.

During the year the bonded indebtedness of the Company has been reduced $52,000 00 by the purchase of fifty-two Colorado Coal & Iron Company bonds for the sinking fund.

GENERAL MORTGAGE BONDS.

Since the close of the business year the Company has effected a sale of $2,000,000 00 of its General Mortgage Bonds.

FINANCIAL CONDITION.

The "Cash Liabilities" of the Company have increased during the year $15,925 07, and the "Cash and Convertible Assets" have increased $179,703 46, principally in customers' accounts, manufactured stocks and supplies.

The sale of General Mortgage Bonds above referred to is not shown on the Auditor's report, as the bonds were not delivered and paid for until August 1st, 1895. Since that date all Bond Loans and other floating debt, including Preferred Stock Dividend Scrip, have been paid, and the Company is now in excellent financial condition.

DIVIDENDS.

As already stated, the Preferred Stock Dividend for the year, and all arrears of preferred dividends have been earned; the improved financial condition of the Company will enable it to resume the payment of Preferred Stock Dividends at an early date, but in view of the greatly increased iron business and consequent necessity for enlargements and improvements at the Steel Works, and the amount of cash capital which will be required to carry the increased stocks of manufactured materials and supplies and customers' accounts, the Board of Directors have deemed it prudent to postpone the declaration of a dividend until it can be determined what amount will be absorbed for the requirements above referred to, but it is confidently believed that future dividends will be regularly paid and that the arrears of Preferred Stock Dividends, now amounting to 12 per cent, will also be paid during the coming year.

FUTURE PROSPECTS.

In considering the prospects for the coming year, the changes which have already occurred in the condi ions which existed last year should be taken into account.

The earnings of last year having been sufficient to meet all fixed charges and Preferred Stock Dividend, any improvement for the coming year will be applicable to dividends on Common Stock.

The earnings of last year were made in eleven months; the operations for July having resulted in a loss, owing to the Railroad and Miners' Strike. There is every reason to expect immunity from strikes during the coming year.

The corn crop, which last year was a complete failure, is now practically assured, and promises to be the largest ever known. This changed condition should result in a very great increase in our coal tonnage, both to the Railroads and Commercial Trade.

Last year the demand for coke was not sufficient to keep all of our ovens in operation; at the present time every oven is fired, and the prospects are favorable for the remainder of the year, which would result in an increased production of about 150,000 tons.

The greatest improvement in earnings will probably be made in the Iron Department. Last year the prevailing prices for all Iron products were the lowest ever known. The price of Steel Rails was not advanced until June 20th, so that no rails were made last year at the advanced price. The prices for Merchant Mill products did not begin to improve until May, 1895, but little advantage was gained from this improvement last year, owing to the low-priced orders previously taken. At the present time the price of Steel Rails has advanced $2 00 per ton, and of Merchant Mill products from $4 00 to $8 00 per ton. A portion of this advance will be lost on account of advances in wages and cost of Scrap Iron, but as the Company produces its own supply of Coal, Coke, Iron Ore and Pig Iron, it will not have to pay any advance on those supplies.

The increased demand for Iron products did not commence until the latter part of the last business year, so that none of the departments were operated to their full capacity. At the present time the demand for the products of the Merchant Mill is far in excess of our capacity, although it has recently been doubled. Last year's production was only 14,000 tons; our present capacity is 35,000 tons, which will be increased to 50,000 tons by contemplated improvements.

We produced last year 59,550 tons of steel rails. The capacity of our mill is 100,000 tons, and the probabilities are that we shall have a demand for the full amount. The sales of Steel Rails in the United States during the first half of 1895 were greater than during the entire year 1894, and this improvement bids fair to continue.

The enormous corn crop will justify the "Granger" railroads in making needed renewals of their tracks, which have been postponed during the panic years, and the railroads now in the hands of Receivers are providing in their plans of reorganization for large purchases of rails.

Taking the conditions as they now exist, and without considering any further advance in prices, or increased output, it is safe to assume that our earnings for the coming year will show an increase of from $300,000 00 to $400,000 00. Any further increase in prices or output will further increase our profits.

It seems probable that in the near future the profits of the Iron department will be commensurate with the large Capital, nearly $3,000,000 00, we have invested in this branch of our business.

We can produce Iron and Steel at prices which are attracting the attention of Eastern Manufacturers to the advisability of establishing plants in Colorado to supply the Western trade. The Griffin Car Wheel Company is already building a large car wheel plant, and other plants for the manufacture of Wrought Iron Pipe and Steel Wire Nails, Etc., will probably be commenced at an early date. These manufacturing establishments will depend upon us for their supplies of Iron, Steel and Fuel.

By order of the Board of Directors.

J. C. OSGOOD,
President.

Denver, Colorado, August 15, 1895.

☞ See Income account and Balance sheet on page 466.

Washington Alexandria & Mt. Vernon Electric Railway.—This company is reported to have negotiated the sale of $750,000 bonds to complete its road to Washington.

Washington County RR. (Maine.)—The President of this company is reported to have signed a contract for the construction of the road to begin Oct. 1.—V. 61, p. 283.

Western Union Telegraph.—The *estimated* revenue for the quarter ending September 30, 1895, compared with *actual* results in 1894, have been reported as follows:

3 *months.* end. Sept. 30.	*Net revenue.*	*Interest & sink fund.*	*Dividend.*	*Balance, surplus.*
1895 (estimated)	$1,850,000	$243,500	$1,191,945	$414,555
1894 (actual)	1,813,563	242,806	1,191,922	378,835

Total surplus September 30, 1895 (estimated), $7,862,031, against $7,386,468 in 1894.

Directors have declared the regular 1¼ per cent dividend, payable October 15.

The actual figures for the year ending June 30, 1895, show a surplus of $399,818 over charges and dividends. The estimated surplus (see statement in V. 60, p. 1060) was $417,111.—V. 60, p. 1060.

—A very suggestive list of five per cent bonds in the seventies, which are paying their interest, is advertised in our columns this week by F. J. Lisman. The long list of inactive issues, with prices affixed, advertised by the same broker in last week's CHRONICLE, is worth the attention of bond buyers. Mr. Lisman invites bids on any of the bonds offered.

—Dick Bros. & Co., Philadelphia, offer for sale the Pennsylvania Steel Co. 6 per cent 30-year consolidated gold bonds. These bonds are secured by a mortgage upon the plants of the Pennsylvania Steel Company at Steelton, Pa., and the Maryland Steel Company at Sparrow Point, Md., and by the deposit of $697,500 of the $1,500,000 capital stock of the Juragua Iron Company. The company owns eight blast furnaces, with an annual capacity of 558,000 tons pig iron; a rail mill, capacity 480,000 tons and for 165,000 tons boiler steel, beams and other products, and a ship-building and a bridge-building plant. The average annual net earnings of the company's works at Harrisburg alone, from 1880 to 1892 inclusive, the circular states, was over $738,306. The interest charge is $348,000; see the advertisement in another column.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, September 13, 1895.

The movement of general merchandise is slowly increasing and conditions of trade are promising. Buyers still manifest a disinclination to incur extensive obligations, but in handling staple commodities are much more disposed to anticipate apparent natural wants than at the commencement of the year. Values have been well supported as a rule, and a noteworthy feature of the week is an advance of $4 per ton in the cost of steel rails. Speculation in leading commodities has somewhat moderated. In matter of crop prospects current local sentiment still favors moderate estimates for cotton yield, the outlook for grain is thought to have considerably improved, and a large crop of corn is looked upon as settled. The movement of wheat toward market centres is gradually increasing, which serves to depress values slightly, but the ruling cost appears attractive for export demand. Cured meats are dull and lower under expectation of a plentiful supply of fat swine.

The demand for lard on the spot has been quiet and prices have declined, though during the latter part of the week part of the loss was recovered, closing steady at 6·25c. for prime Western 6·05c. for prime City and 6·65c. for refined for the Continent. There has been no speculative dealings in the market for lard futures and prices have been weaker with corn, closing steady.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs	Fri.
October.....c.	...	....	....	6·10	6·25	6·27
January.....c.	....	...	....	....	6·17	6·20

There has been an active demand for pork, principally from the West Indies, and prices have been steady, closing at $10 25@$10 75 for mess, $11 50@$13 50 for short clear and $12@$13 for family. Cutmeats have sold slowly and the close was easy at 6½@7c. for pickled bellies 12@10 lbs. average, 5@5¾c. for pickled shoulders and 9@9¼c. for pickled hams. Beef has been moderately active, closing at $7 50@$8 for extra mess, $8 50@$9 for packet, $9@$12 for family and $15@$16 50 for extra India mess. Beef hams have declined, closing at $15. Tallow has been steady, closing at 4¼c. Oleo stearine has been quiet, closing at 6c. Lard stearine has declined, closing at 7½@7¾c. Cotton seed oil has been in increased demand and steady, closing at 26½@27c. for prime yellow and 26@26¼c. for off-grade yellow. Butter has been fairly active and firm for choice grades, closing at 18@20½c. for creamery. Cheese has been in slow demand and easy, closing at 5½@9¼c. for State factory, full cream. Fresh eggs have been steady for fancy, closing at 15½@16c. for choice Western.

Coffee has sold with greater freedom, a further reduction in cost attracting orders from roasters, but regular trade demand continues slow. Rio quoted at 15½c. for No. 7, good Cucuta 16c. and standard Java 27@27½c. Contracts for future delivery were unsettled, but after working off somewhat prices stiffened again on demand to cover, closing, however, a trifle lame.

The following were the final asking prices:

Sept.....14·75c.	Dec.....14·05c.	March.....13·95c.
Oct.....14·55c.	Jan.....14·00c.	April.....13·85c.
Nov.....14·10c.	Feb.....14·10c.	May.....13·70c.

Raw sugars were firmly held and about all the immediately available supply found sale at full former rates. Centrifugal quoted at 3½c. for 96-deg. test and Muscovado at 3c. for 89-deg. test. Refiners have quieted down again, buyers depending upon deliveries on previous contracts, but tone of market firm; granulated quoted at 4 7-16c. Teas easy.

For Kentucky tobacco there has been a quiet market but prices have held steady. For seed leaf tobacco there was a fairly good inquiry and prices showed firmness; sales for the week were 2,800 cases, as follows: 750 cases 1894 crop, New England Havana, 15@20c.; 600 cases 1894 crop, New England seed leaf, 17@23c.; 150 cases 1893 crop, New England Havana, 9@12c.; 300 cases 1894 crop, Pennsylvania Havana, private terms; 125 cases 1893 crop, Pennsylvania Havana, 11@12c.; 150 cases 1893 crop, Pennsylvania seed, 8@10c.; 180 cases 1894 crop, Pennsylvania seed, 11@13c.; 100 cases 1892 crop, Pennsylvania seed, private terms; 150 cases 1894 crop, Ohio, 10@12c.; 250 cases 1893 crop, Wisconsin Havana, 7@9c.; 100 cases 1892 crop, Wisconsin Havana, 9@10c., and 100 cases 1893 crop, Zimmer's, 11½@13½c.; also 1,250 bales Havana, 67c. @$1 10, and 250 bales Sumatra, 82½c.@$2 85 in bond.

The trading in the market for Straits tin has been moderately active and prices have continued to advance, closing strong at 14 75c. Ingot copper has sold fairly well at full values, closing firm at 12 25c. for Lake. Lead has further declined, closing quiet at 3 97½@4 00c. for domestic. Spelter has been steadier, but the close was quiet at 4 17½@4 20c. for domestic. Pig iron has been in moderate demand and steady, closing at $13 50@$14 for domestic.

Refined petroleum has been fairly active and firm, closing at 7 10c. in bbls., 4 65c. in bulk and 7 50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have declined, closing at 1 04c. bid. Spirits turpentine has been quiet and slightly easier, closing at 27½@27¾c. Rosins have been dull, closing at $1 47½@$1 52½ for common and good strained. Wool has been less active but firmly held. Hops have sold slowly and prices have been weak.

COTTON.

FRIDAY NIGHT, September 13, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 47,539 bales, against 15,093 bales last week and 6,803 bales the previous week, making the total receipts since the 1st of Sept., 1895, 61,341 bales, against 127,280 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 65,939 bales.

Total 1893	19,872	7,483	13,811	5,066	46,232	234,787

Speculation in cotton for future delivery at this market has been irregular. Early in the week demand was liberal at advancing cost, but a subsequent effort to realize profits eased off prices. Regular operators have been disposed to sell and the outside trading element favors investment. Saturday's deal was small but upon a firm basis, stimulated by our weekly crop condition report, prices advancing 7 points net. During Monday cost advanced 15@16 points and lost 4 points, and on Tuesday morning 8 points additional shrinkage took place, but upon receipt of report from Agricultural Bureau showing 7 1-10 decrease in condition of crop during August, a quick advance of 18 points from the lowest took place on covering and investing demand, but before the close the gain was reduced to 5 points net. During Wednesday and Thursday about ¼c. decline took place, in consequence of Europe refusing to stimulate on the Bureau report, and a large number of "long" engagements were liquidated. To-day the tone has stiffened on some covering of short engagements, and about 8 points advance secured, but new investment small. Cotton on the spot quiet, closing at 8¼c. for middling uplands.

The total sales for forward delivery for the week are 1,263,700 bales. For immediate delivery the total sales foot up this week 2,959 bales, including — for export, 2,059 for consumption — for speculation and 900 on contract. The following are the official quotations for each day of the past week—September 7 to September 13.

Rates on and off middling, as established Nov. 22, 1895, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1¼	on.	Good Ordinary	c. 1⅛	off.
Middling Fair	⅞	on.	Good Middling Tinged	Even.	
Strict Good Middling	½	on.	Strict Middling Stained	7/32	off.
Good Middling	5/16	on.	Middling Stained	7/16	off.
Strict Low Middling	3/16	off.	Strict Low Mid. Stained	29/32	off.
Low Middling	7/16	off.	Low Middling Stained	1⅜	off.
Strict Good Ordinary	13/16	off.			

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7⅛	7¼	7¼	7 13/16	7 1/16	7⅛
Low Middling	7 13/16	7 15/16	7 15/16	7⅞	7¾	7 13/16
Middling	8¼	8⅜	8⅜	8 5/16	8 3/16	8¼
Good Middling	8 9/16	8 11/16	8 11/16	8 5/8	8 1/2	8 9/16
Middling Fair	9⅛	9¼	9¼	9 3/16	9 1/16	9⅛
GULF.	**Sat.**	**Mon**	**Tues**	**Wed**	**Th.**	**Fri**
Good Ordinary	7⅜	7½	7½	7 11/16	7 5/16	7⅜
Low Middling	8 1/16	8⅜	8 3/16	8⅛	8	8 1/16
Middling	8⅛	8⅝	8⅝	8 9/16	8 7/16	8½
Good Middling	8 13/16	8 15/16	8 15/16	8⅞	8¾	8 13/16
Middling Fair	9⅜	9½	9½	9 7/16	9 5/16	9⅜
STAINED.	**Sat.**	**Mon**	**Tues**	**Wed**	**Th.**	**Fri**

☞ The imports into Continental ports the past week have been 11,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 364,766 bales as compared with the same date of 1894, an *increase* of 124,634 bales over the corresponding date of 1893 and a decrease of 304,363 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to September 13, 1895. Receipts		Shipments		Stock	Movement to September 14, 1894. Receipts		Shipments		Stock

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 7,386 bales and are now 28,555 bales *less* than at same period last year. The receipts at all the towns have been 22,423 bales *less* than the same week last year and since Sept. 1 are 46,388 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Sept. 13	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	*Receipts at the Ports.*			*Stk at Interior Towns.*			*Rec'pts from Plant'ns*		
	1895.	1894.	1893.	1895.	1894.	1893.	1895.	1894.	1893.
Aug. 9....	9,243	5,732	2,137	84,667	89,435	48,742	2,259	2,808	.....
" 16.	12,548	7,213	1,749	79,179	86,959	41,714	6,760	4,217	.....
" 23 ...	19,444	14,122	3,775	74,824	85,519	35,157	10,759	13,092	.....
" 30 ..	17,531	25,113	6,803	74,501	56,396	34,782	15,311	25,720	6,428
Sept. 6.	28,117	38,396	13,003	79,925	55,913	35,892	33,544	36,974	16,203
" 13	53,703	65,984	47,539	84,871	66,830	43,275	58,646	96,801	54,922

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 71,916 bales; in 1894 were 133,775 bales; in 1893 were 93,576 bales.

2.—That although the receipts at the outports the past week were 47,539 bales, the actual movement from plantations was only 54,922 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 96,801 bales and for 1893 they were 58,646 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Sept. 13 and since Sept. 1 in the last two years are as follows:

September 13.	1895.		1894	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept 1.*
Shipped—				
Via St. Louis.....	1,115	1,973	4,950	9,347
Via Cairo	103	249	816	908
Via Hannibal	.....	.....	.....	.....
Via Evansville.....	.....	.....	.....	.....
Via Louisville	24	914	243	611
Via Cincinnati.....	172	369	651	775
Via other routes, &c.....	920	1,096	397	614
Total gross overland.....	2,284	4,601	7,057	12,255
Deduct shipments—				
Overland to N. Y., Boston, &c..	1,516	1,919	331	961
Between interior towns.....	.....	.....	2	4
Inland, &c., from South.....	606	1,241	868	1,216
Total to be deducted	2,122	3,160	1,201	2,182
Leaving total net overland*..	162	1,441	5,856	10,073

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 162 bales, against 5,856 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 8,632 bales.

In Sight and Spinners' Takings.	1895		1894	
	Week.	*Since Sept. 1.*	*Week.*	*Since Sept. 1.*
Receipts at ports to Sept. 13.....	47,539	61,341	88,984	127,280
Net overland to Sept. 13	162	1,441	5,856	10,073
Southern consumption to Sept. 13	16,000	36,000	17,000	32,000
Total marketed	63,701	98,782	111,740	169,353
Interior stocks in excess.....	7,383	10,575	10,917	9,495
Came into sight during week.	73,084	...	122,657	
Total in sight Sept. 13.....	.....	109,357	.....	178,848
North'n spinners tak'gs to Sept. 13	8,537	16,909	31,280	43,647

It will be seen by the above that there has come into sight during the week 73,084 bales, against 122,657 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 69,491 bales.

Weather Reports by Telegraph.—Advices to us by telegraph from the South this evening indicate that in general cotton is opening rapidly, as a result of the hot and comparatively dry weather that has prevailed in most localities. Picking is therefore making good progress as a rule. Unfavorable conditions have, it is claimed, caused further deterioration in some districts. Our advices from Texas denote that the plant is shedding badly and that worms are prevalent.

Galveston, Texas.—It is claimed quite generally that the Texas crop has met with disaster. The conditions have certainly been unfavorable. The hot weather has caused cotton to open rapidly and the plant is shedding badly. Southwest Texas, East Texas and the Coast districts combined, it is asserted, will hardly make half of last year's crop, while the output in other parts of the State and in the Indian Territory it is expected will fall short fully 40 per cent. Worms, the Mexican weevil and the long drouth have all contributed to bring this about. Worms are all over the State and Territory, and farmers are still without proper poisons to kill them. There has been rain on two days during the week, to the extent of fifty-two hundredths of an inch. The thermometer has ranged from 73 to 90, averaging 82.

Palestine, Texas.—There has been no rain during the week. Average thermometer 86, highest 100 and lowest 72.

Huntsville, Texas.—It has been dry all the week. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Dallas, Texas.—We have had rain on two days of the week, the rainfall reaching two inches and sixty-eight hundredths. The thermometer has averaged 83, ranging from 68 to 98.

San Antonio, Texas.—Dry weather has prevailed all the week. The thermometer has ranged from 72 to 98, averaging 85.

Luling, Texas.—The weather has been dry the past week. Average thermometer 85, highest 98 and lowest 72.

Columbia, Texas.—Rain has fallen on one day of the past week, the precipitation being twelve hundredths of an inch. The thermometer has averaged 80, the highest being 92 and the lowest 68.

Cuero, Texas.—There has been only a trace of rain during the week. The thermometer has averaged 83 and ranged from 70 to 96.

Brenham, Texas.—There has been rain on one day of the week, but too light to measure. The thermometer has ranged from 72 to 98, averaging 85.

Belton, Texas.—We have had dry weather all the week. Average thermometer 84, highest 99 and lowest 69.

Fort Worth, Texas.—The week's rainfall has been fifty hundredths of an inch, on one day. The thermometer has averaged 84, the highest being 98 and the lowest 69.

Weatherford, Texas.—We have had rain on one day of the past week, the precipitation reaching thirty-four hundredths of an inch. The thermometer has averaged 84, ranging from 70 to 98.

New Orleans, Louisiana.—There has been rain on three days during the week, the precipitation being seventeen hundredths of an inch. The thermometer has averaged 84.

Shreveport, Louisiana.—We have had a trace of rain on one day of the past week. Average thermometer 84, highest 98, lowest 71.

Columbus, Mississippi.—There has been rain on two days during the week, the precipitation being thirty-six hundredths of an inch. The thermometer has averaged 83, the highest being 101 and the lowest 68.

Leland, Mississippi.—Dry weather has prevailed all the week. Thermometer has ranged from 68 to 96, averaging 81·3.

Vicksburg, Mississippi.—There has been rain one day this week, the precipitation being one hundredth of an inch. Average thermometer 82·9, highest 94 and lowest 71.

Meridian, Mississippi.—The weather has been dry and hot all the week and cotton is opening rapidly. Picking makes good progress. The crop is estimated to be one-third less than last year. Rust and boll worms are complained of in a number of localities. Average thermometer 82, highest 96, lowest 68.

Little Rock, Arkansas.—There has been no rain all the week. The thermometer has averaged 83, the highest being 96 and the lowest 70.

Helena, Arkansas.—The weather has been hot and dry all the week, with the exception of one light sprinkle. Cotton is opening fast, but no improvement in the condition of the plant is to be reported. The rainfall reached eight hundredths of an inch. The thermometer has averaged 81, the highest being 93 and the lowest 70.

Memphis, Tennessee.—With the exception of a shower on Saturday last the weather has been hot and dry all the week. The conditions continue unfavorable and cotton is deteriorating. The week's precipitation has been one hundredth of an inch. The thermometer has averaged 82, ranging from 65·6 to 94·9.

Nashville, Tennessee.—The thermometer has ranged from 62 to 94, averaging 78·5.

Mobile, Alabama.—Crop reports are gloomy. There are complaints of worms, rust and shedding. Picking is general. We have had rain on one day of the week, the precipitation reaching fifty-seven hundredths of an inch. Average thermometer 83, highest 93, lowest 71.

Montgomery, Alabama.—No apparent change for the better in the crop is to be reported. The plant is yielding very poorly. It has rained on one day during the week, with rainfall to the extent of four hundredths of an inch, but the remainder of the week has been hot and dry. The thermometer has averaged 81, the highest being 91 and the lowest 71.

Selma, Alabama.—We have had rain on two days during the week, to the extent of fifteen hundredths of an inch. The thermometer has averaged 80, ranging from 69 to 90.

Madison, Florida.—Picking is progressing slowly. It has rained on three days of the week, the precipitation reaching seventy hundredths of an inch. The thermometer has ranged from 69 to 91, averaging 82.

Columbus, Georgia.—We have had no rain during the week. Average thermometer 81, highest 90, lowest 70.

Savannah, Georgia.—It has rained on five days of the week, the rainfall reaching two inches and two hundredths. The thermometer has averaged 79, the highest being 90 and the lowest 72.

Augusta, Georgia.—We have had rain on five days of the week, to the extent of one inch and ninety-eight hundredths. The thermometer has averaged 79, ranging from 68 to 92.

Albany, Georgia.—Rain has fallen during the week, the rainfall reaching seventy-four hundredths of an inch. The thermometer has ranged from 73 to 85, averaging 80·8.

Charleston, South Carolina.—It has rained on five days of the week, the rainfall being six inches and twenty-six hundredths. Average thermometer 78, highest 85, lowest 72.

Stateburg, South Carolina.—There has been light rain on two days of the week, the precipitation being ten hundredths of an inch. Moisture has been very unequally distributed, the showers being heavy in places near by. The thermometer has averaged 78·3, the highest being 89 and the lowest 67.

Greenwood, South Carolina.—Cotton is opening rapidly. The weather has been warm and dry, with the exception of light rain on one day of the week, the rainfall reaching eight hundredths of an inch. The thermometer has ranged from 69 to 91, averaging 80.

Wilson, North Carolina.—There has been rain on three days of the week, to the extent of eighty-nine hundredths of an inch. The thermometer has averaged 80, the highest being 90 and the lowest 70.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock September 12, 1895, and September 13, 1894.

		Sept. 12, '95.	*Sept. 13, '94.*
		Feet.	*Feet.*
New Orleans	Above zero of gauge.	4·0	3·3
Memphis	Above zero of gauge.	4·6	1·2

* Below zero of gauge.

India Cotton Movement From All Ports.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Sept. 12.

Bombay Receipts and Shipments for Four Years.

Year	*Shipments this week.* Great Brit'n.	Contin't.	Total.	*Shipments since Sept. 1* Great Britain.	Contin't.	Total.	*Receipts* This Week.	Since Sept. 1.
1895	.....	2,000	2,000	.....	4,000	4,000	9,000	15,000
1894	.....	1,000	1,000	.....	5,000	5,000	3,000	7,000
1893	1,000	4,000	5,000	1,000	11,000	12,000	6,000	9,000
1892	.....	3,000	3,000	.....	3,000	3,000	2,000	4,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 6,000 bales and an *increase* in shipments of 1,000 bales, and the shipments since Sept. 1 show a *decrease* of 1,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week. Great Britain.	Contin't.	Total.	*Shipments since Sept. 1.* Great Britain.	Contin't.	Total.

Alexandria Receipts and Shipments.—Through arrangements we have made with Messrs. Davies, Benachi & Co. of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following

are the receipts and shipments for the past week and for the corresponding week of the previous two years,

Alexandria, Egypt, September 11	1895.	1894	1893.
Receipts (cantars*)—			
This week	11,000	4,000	1,000
Since Sept. 1	15,000	29,000	1,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week	Since Sept 1
Exports (bales)—						
To Liverpool	.....	.....	4,000	5,000	.....	2,000
To Continent†	2,000	3,000	6,000	11,000	2,000	6,000
Total Europe	2,000	3,000	10,000	16,000	2,000	8,000

* A cantar is 98 pounds.
† Of which to America in 1895, 100 bales; in 1894, —— bales; in 1893, —— bales.

This statement shows that the receipts for the week ending Sept. 11 were 6,000 cantars and the shipments to all Europe 1,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is dull for yarns and quiet for shirtings. The market does not respond to the movement in Liverpool. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.			1894.		
	32s Cop Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds	32s Cop Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (September 13) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Sept. 13	1895		1894		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894
Savannah	121	144	737	805	442	1,519
Charleston	17	18	3	5	19	444
Florida, &c.	.....	.....	.....	.....	81	37
Total	138	162	740	870	542	2,000

The exports for the week ending this evening reach a total of — bales, of which bales — were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 25 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Sept 13.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n	France &c.	Total.	Great Brit'n	France &c.	Total.	Week	Since Sept. 1
Savannah	.....	.....	.....	.....	.....	.....	25	25
Charl'st'n, &c	.....	.....	.....	.....	.....	.....	.....	.....
Florida, &c	.....	.....	.....	.....	.....	.....	.....	.....
New York	.....	.....	.....	.....	.....	.....	.....	.....
Boston	.....	.....	.....	.....	.....	.....	.....	.....
Baltimore	.....	.....	.....	.....	.....	.....	.....	.....
Total	.....	.....	.....	.....	.....	.....	2	25
Total 1894	24	.....	24	24	.....	24	134	1 4

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Sept. 13 at Savannah, for Floridas, all nominal. Charleston, Carolinas, all nominal.

NEW COTTON MILL IN RHODE ISLAND.—The Messrs. Goddard Bros., of the Lonsdale Company and Ann & Hope Mill of Lonsdale, Rhode Island, will, it is reported, build a new cotton mill in Lonsdale. It is said that the new mill will be one of the largest in New England.

JUTE BUTTS, BAGGING, &c.—Jute bagging has been in rather light demand during the week under review, but quotations are unchanged at 4¾c. for 1¾ lbs., 4½c. for 2 lbs and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4½c. for 1¾ lbs., 4⅝c. for 2 lbs and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts have been quiet on the spot at 1⅞c. for paper quality, 1¾c. for mixing, and bagging quality nominal.

THE AGRICULTURAL DEPARTMENT'S REPORT FOR SEPTEMBER.—The Agricultural Department's report on cotton for September 1 is given below:

The September cotton report of the Department of Agriculture shows a decline from the August condition of the crop, which was 77·9, to 70·8 per cent, a decline of 7·1 points. This makes the lowest September condition of the plant since 1881, when it was reported at 70 per cent. The next lowest since 1881 was the condition of 1893, when it stood for the same month at 73·4.

Cotton suffered severely during the month of August from the drouth which characterized the early part of the month and the excessive rain which succeeded it. The presence of boll worms has worked great injury and the crop has been injured by shedding and rust. The causes mentioned by Texas correspondents for the deterioration in the State are as follows: Drouth, hot weather, floods, boll worms, sharp shooters, Mexican weevils, caterpillars, army worms and weeds.

There is striking unanimity in the pessimistic tone adopted by correspondents throughout all of the cotton-raising States.

The State averages are as follows: Virginia 84, North Carolina 79, South Carolina 81, Georgia 81, Florida 79, Alabama 74, Mississippi 77, Louisiana 75, Texas 56, Arkansas 79, Tennessee 76, Kentucky 85.

That the reader may have for comparison the condition, according to the Agricultural Department, for September 1 of previous years, we give the following, collated from its reports:

States.	1895.	1894.	1893.	1892.	1891.	1890.	1889.	1888.	1887.	1886.	1885.	1884.

Average	81·0	82·3	77·9	70·8	88·3	89·6	91·8	85·9

AMOUNT IN SIGHT.—Supplementary to our Annual Cotton Crop Reports, and at the request of a number of readers, we give below a table showing the amount of cotton which came into sight during each month of the cotton season 1894-95. For purposes of comparison similar results for the three preceding years are appended.

Amount As	1894-95	1893-94	1892-93.	1891-92.
September	663,703	511,273	522,552	826,932
October	2,214,130	1,637,555	1,446,067	2,026,205
November	2,167,667	1,704,638	1,467,066	1,927,880
December	1,799,288	1,615,691	1,290,705	1,622,475
January	973,749	755,931	556,371	752,027
February	579,062	355,477	412,604	759,012
March	505,749	287,113	296,429	444,016
April	334,071	233,911	195,615	266,354
May	146,254	142,975	148,561	192,629
June	70,493	77,492	85,155	106,702
July	58,962	63,042	75 250	69,285
August	59,487	86,867	82,671	54,692
Additions*	150,431	61 301	126 075	498
Total crop	9,292 766	7,527,211	6,717,142	9,038,707

* "Additions" include all corrections in port receipts and overland made at the close of the season, as well as the excess in Southern consumption, as shown by the actual results. This total is increased or decreased by interior town stocks. In the season just closed there was a reduction in interior stocks from the total of September 1, 1894, and the same is true of 1893-94 and 1892-93, while in 1891-92 the increase in stocks was sufficient to counterbalance other corrections.

EUROPEAN COTTON CONSUMPTION TO SEPTEMBER 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to September 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

October 1 to September 1.	Great Britain.	Continent.	Total.
For 1894-95.			
Takings by spinners...bales	3,098,000	4,265,000	7,363,000
Average weight of bales..lbs.	503	478	488·5
Takings in pounds	1,558,294,000	2,038,570,000	3,596,864,000
For 1893-94.			
Takings by spinners...bales	3,106,000	4,047,000	7,153,000
Average weight of bales..lbs.	479	459	467·6
Takings in pounds	1,487,855,000	1,857,373,000	3,345,228,000

According to the above, the average weight of the deliveries in Great Britain is 503 pounds per bale this season, against 479 pounds during the same time last season. The Continental deliveries average 478 pounds against 459 pounds last year, and for the whole of Europe the deliveries average 488·5 pounds per bale against 467·6 pounds last season. Our

dispatch also gives the full movement for this year and last year in bales of 400 pounds.

Oct. 1 to Sept. 1. Bales of 400 lbs. each, 000s omitted.	1894-95. Great Britain.	Continent.	Total.	1893-94. Great Britain.	Continent.	Total

In July.....	82,0	98,0	180,0	80,0	93,0	173,0
In August	*82,0	98.0	180,0	*80.0	93 0	173,0

* The average weekly consumption is as given by Mr. Ellison, deduction from month's total being made on account of holiday.

The foregoing shows that the weekly consumption is now 180,000 bales of 400 pounds each, against 173,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have decreased 173,000 bales during the month and are now 275,000 bales greater than at the same date last year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 9,300 bales.

	Total bales.

BREADSTUFFS.

FRIDAY, September 13, 1895.

The market for wheat flour has been very unsatisfactory from sellers' point of view. Buyers, owing to a further decline in the price of the grain, have moved slowly and quoted values have been lowered about 5 to 10 cents per bbl. City mills have sold slowly, but prices have been steadily maintained. There has been a quiet market for rye flour, but no changes have been made in quoted values. There have been some offerings of buckwheat flour but demand was slow and the market was weak. Only a small business has been transacted in corn meal, though prices have held fairly steady. To-day the market for wheat flour was quiet and unchanged.

There has been a continued absence of speculative interest in the market for wheat futures, and this, with an enormous movement of the crop at the Northwest and dull and weaker European advices, caused a steady decline in values until the close of business yesterday when a prediction of a falling off in the movement of the spring-wheat crop, due to the low prices now ruling, stimulated a demand from "shorts" to cover contracts, and prices made fractional advances. In the spot market exporters have been slightly better buyers, but at lower prices. The sales yesterday included No. 1 hard spring on the basis of 1⅛@1⅛c. over Dec. f. o. b. afloat for new. To-day the market was fairly active and prices advanced in response to stronger foreign advices accompanied by buying orders and on a brisk demand from "shorts" to cover contracts. The spot market was moderately active, shippers having been buyers. The sales were principally No. 1 hard spring at 1⅛c. over Dec. f. o. b. afloat for new. No 2 red winter was quoted at ⅜@1c. under Dec. f. o. b. afloat.

The speculative dealings in the market for Indian corn futures have been quiet and prices have further declined under continued favorable crop prospects at the West and in sympathy with the weakness of wheat. In the spot market shippers have been moderate buyers, but prices have declined with futures. The sales yesterday included No. 2 mixed at 2c. over Sept. f. o. b afloat and yellow at 38½c. in elevator. To-day the market was moderately active and higher on a demand from "shorts" to cover contracts, stimulated by the advance in wheat. In the spot market shippers were moderate buyers. The sales included No. 2 mixed at 37½c. in elevator, 38½c. delivered and 2c. over Sept. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

Oats for future delivery have been dull, and the distant deliveries have weakened slightly under prospects that the yield from the present cut-look will be large. In the spot market business has been quiet, but white grades have advanced, owing to scarcity. The sales included No. 2 mixed at 25¼c. in elevator and No. 2 white at 28c. in elevator. To-day the market was firmer, in sympathy with the improvement in wheat and corn. The spot market was also higher but quiet. The sales included No. 2 mixed at 24c. in elevator and No. 2 white at 28½c. in elevator.

AGRICULTURAL DEPARTMENT'S REPORT.—The Agricultural Department's report on the cereal crops was issued on September 10, and is given below:

The September report of the Statistician of the Department of Agriculture shows a decline in the condition of corn to 96·4 from 102·5 in the month of August, being a falling off of 6·1 points.

The prospects of the corn crop have suffered from drought during the month of August in the surplus-producing States of Ohio, Indiana, Illinois, Iowa and in a portion of Nebraska. Reports from Indiana, Iowa and Ohio indicate that though there have been rains during the latter part of the month they have been generally too late to be of great benefit. Drought has also injured the crop in the Eastern States, New York, New Jersey, Pennsylvania and Maryland. Much more encouraging reports come from the South, which indicate that in that section the crop will be larger than ever before produced. Too much rain is noted in certain sections of South Carolina, Alabama and Mississippi, and drought seems to have unfavorably affected certain localities in Texas. Reports, however, from this section are generally favorable.

The averages in the principal States are: Kentucky 106, Ohio 83, Michigan 85, Indiana 86, Illinois 97, Iowa 96, Missouri 111, Kansas 86.

The general condition of wheat, considering both winter and spring varieties, when harvested, was 75·4, against 83·7 last year and 74·4 in 1893.

The reported condition for the principal wheat States are as follows: Ohio 64, Michigan 70, Indiana 53, Illinois 9, Wisconsin 85, Minnesota 107, Iowa 107, Missouri 75, Kansas 40, Nebraska 74, North Dakota 105, South Dakota 74, California 75, Oregon 93, Washington 79.

Condition of oats when harvested was 86, rye 93·7, barley 87·6, buckwheat 87·5, potatoes 90·8.

EXPORTS OF BREADSTUFFS, PROVISIONS, COTTON AND PETROLEUM.—The exports of these articles during the month of August, and the eight months, for the past three years have been as follows:

Exports from C. S.	1895. August.	1895. 8 Months.	1894. August.	1894. 8 Months	1893. August.	1893. 8 Months.

NOTE.—All the above figures are based on the monthly preliminary returns issued by the Bureau of Statistics, and cover about 98 per cent of the total exports of breadstuffs, oil and provisions, and nearly 100 per cent of cotton.

The movement of breadstuffs to market as indicated in the statements below is furnished to us by the Statistician of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Sept. 7, 1895, and since August 1, for each of the last three years:

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., September 13, 1895.

The yacht races held since last report have interfered considerably with business on the spot, as they have drawn a very considerable number of buyers from the market from time to time. This has been less significant, however, than some falling off in the orders coming to hand through the mails. Reports for the past few days have indicated a lull in distribution from a number of Western points, and local jobbers have been quieter also, conditions which the re-order demand has more or less reflected at first hands. Other than the foregoing, however, there has been no change. A quieter interval has no effect on the general tone of the market, nor does it impose any check upon the upward tendency of prices, a number of advances again being reported this week in staple cottons, and occasionally in other goods closely allied to print cloths, the latter having gained a further 1-16c. per yard. Sellers of brown and bleached cottons are still as a rule heavily sold ahead and very reserved, particularly in some coarse-yarn Southern makes of the former. The woolen goods departments have generally been in an uninteresting condition.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 9 were 2,257 packages, valued at $83,803, their destination being to the points specified in the table below:

NEW YORK TO SEPT. 9.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.
Great Britain	5	3,623	93	4,301
Other European	6	1,914	15	2,251
China	522	38,943	290	66,556

Total	2,257	140,213	4,251	157,787
China, via Vancouver*	.....	16,975	.....	18,388
Total	2,257	157,188	4,251	176,175

* From New England mill points direct.

The value of the New York exports for the year has been $6,252,227 in 1895 against $8,189,754 in 1894.

The most important feature in connection with bleached cottons has been the advance in Lonsdale and Fruit of the Loom, 4-4 bleached, to 8c., a point which buyers have been expecting them to reach—and rest at—for some time. Even at the advance, however, agents are not pushing for business. Other advances in bleached goods are reported following the above. Narrow and low grades are strong in sympathy with print cloths. The higher market for gray goods is also responsible for an upward tendency in silesias, percalines and other linings. Business in brown sheetings, drills, ducks and osnaburgs is still restricted by the reserve of sellers and the upward tendency of prices. Denims are firm at recent advances, but quiet. There is a fair business in ticks, with an upward tendency in leading makes. Cheviots, plaids, cottonades, checks and stripes are quiet but firm. There have been no further changes in wide sheetings. Cotton flannels and blankets are scarce and against buyers. The demand for fancy calicoes has been on a quieter scale, with prices quite firm. Staples and solids are occasionally against buyers. Other regular prints are unaltered. Satines frequently ¼c up. Staple ginghams are firm but dull and dress gingham dull and irregular. Print cloths have advanced 1-16c. to 3⅛c. for extras, spots and contracts, with sellers reserved.

Stock of Print Cloths—	1895. Sept. 7.	1894 Sept. 8.	1893. Sept. 9
At Providence, 64 squares	108,000	134,000	176,000
At Fall River, 64 squares	23,000	288,000	452,000
At Fall River, odd sizes	69,000	164,000	
Total stock (pieces)	200,000	586,000	623,000

WOOLEN GOODS.—The business in men's-wear woolens and worsteds has again been unimportant in most quarters, orders seldom rising above few piece lots for low medium or fine grade goods. Price conditions are without material alteration. In medium grade fancy worsteds, cheviots and cassimeres irregularity still prevails with agents often, but indifferently, sold on their season's production. New heavy weights are occasionally shown to early buyers. Business in overcoatings continues indifferent and there is less doing in cloakings. Cotton-warp cassimeres, satinets and doeskin jeans continue dull. There is no change in flannels, blankets or carpets. Fair re-orders are recorded for dress goods, with more attention paid to fancies. An occasional line of spring styles has been opened with fair results at slightly advanced prices.

FOREIGN DRY GOODS.—Seasonable business has been on a moderate scale, with dress goods, silks and ribbons firm in desirable lines. Dress goods for spring are more generally offered and good orders are being taken, chiefly in lustre effects.

Importations and Warehouse Withdrawals of Dry Goods

The importations and warehouse withdrawals of dry goods at this port for the week ending September 12, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time		$3 50	Three Months	(13 times)	$25 00
One Month	(4 times)	11 00	Six Months	(26 times)	43 00
Two Months	(8 times)	18 00	Twelve Months	(52 times)	80 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopedia of information respecting Municipal Debts.

MUNICIPAL BOND SALES IN AUGUST.

Our record of bond sales reported by municipalities in the month of August shows a total of $8,087,431. This sum is to be compared with $7,525,260 reported in August of last year, $2,734,713 reported in August, 1893, and $4,108,491 reported in August, 1892. The total for last month shows a considerable falling off when compared with the returns for June and July, which footed up to more than fifteen millions each, or with the May sales amounting to eleven millions.

The aggregate of the sales for which no price was reported was exceptionally heavy last month, as it included the $3,000,000 of Kansas City water bonds which were issued to the National Water Works Company in exchange for its plant.

In the following table we give the prices which were paid for July loans to the amount of $3,056,431, issued by 36 municipalities. The aggregate of sales for which no price was reported is $5,031,000 and the total sales for the month $8,087,431. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

440	Zanesville, Ohio.	5		7,600	101·25
	Total (36 municipalities)			$3,056,431	
	Aggregate of sales for which no price has been reported (from 21 municipalities)			5,031,000	
	Total sales for August			$8,087,431	

In the CHRONICLE of August 10, vol. 61, page 249, a list of July bond sales amounting to $15,289,660 will be found. Since the publication of that statement we have received the following reports of sales in that month.

ADDITIONAL JULY BOND SALES.

Page.	Location.	Rate.	Maturity.	Amount.	Award.
250	Hillsborough Co., N. H.	4	Sept. 1, 1910	$35,000	101·0517
252	Williamsburg S. D., Pa.	4	1900 1924	50,000	104·5

These additional loans will make the total sales reported in July foot up $15,374,660.

Nebraska Irrigation District Law.—It was reported last week that Judge Neville in the District Court of Keith County, Neb., held that the district irrigation law passed at the last session of the Legislature was constitutional. This opinion was given in the case of the Alfalfa Irrigation District to support the decision that the district was legally organized and its bonds regular and valid. The case will be immediately docketed in the United States Supreme Court and the Court asked to give it precedence, as provided in the law.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

Akron, Ohio.—Bonds to the amount of $83,000 have recently been awarded to Messrs. Dietz, Denison & Prior. Sixteen other bids were received for the securities.

It is reported that $88,000 of sewer and street improvement bonds of Akron have been sold to Messrs. Deitz, Denison & Prior. The bonds bear interest at the rate of 5 per cent.

Alliance, Ohio.—Five per cent sewer and refunding bonds to the amount of $24,500 have been sold to Dietz, Denison & Prior.

Altoona, Pa.—It is reported that on September 2, 1895, the City of Altoona sold $250,000 of 4 per cent 10-30 year improvement bonds to E. H. Rollins & Sons at 101⅝. The securities are dated July 1, 1895, and interest is payable semi-annually in gold coin on January 1 and July 1.

Arizona.—On August 26, 1895, the State of Arizona sold $305,000 of 5 per cent 20-50-year funding bonds to W. J. Hayes & Sons at 103¼ and accrued interest. Interest on the loan is payable semi-annually in gold coin, on January 15 and July 15, at New York.

Avon, N. Y.—On September 9, 1895, the village of Avon sold $40,000 of 4 per cent 20 year sewer bonds to Isaac W. Sherrill, of Poughkeepsie, at 102·05. A list of the bids received is given below:

	Bid.
Isaac W. Sherrill, Poughkeepsie, N. Y.	102·05
Storrs & Smith, New York	102·05
Walter Stanton & Co., New York	101·59
Benwell & Everitt, New York	101·38
Street, Wykes & Co., New York	101·03
Farson, Leach & Co., New York	100·71
Daniel Moran & Co., New York	100·698
S. W. Harris & Co., New York	100·67
James W. Longstreet & Co., Boston, Mass.	100·07

Ballard School District No. 50, King County, Wash.—A list of the bids received on September 2, 1895, for the purchase of $18,000 of school district funding bonds is given below.

	Premium.
Morris & Whitehead, for 6 per cent bonds	$555 00
Wm. D. Perkins & Co., for 6 per cent bonds	101 02
Farson, Leach & Co., for 6 per cent bonds	300 00
Seymour, Barto & Co., for 6 per cent bonds	355 00
German-American Inv. & Guar. Co., for 6 per cent bonds	55 00
De Van & Co., Los Angeles, Cal., for 6 per cent bonds	260 00

The First National Bank of Niles, Ohio, also bid par for 6 per cent bonds.

The securities are to be dated October 1, 1895; interest will be payable semi-annually, and the principal will mature September 30, 1915, both principal and interest to be payable at the County Treasurer's office or at the State's Fiscal Agency, New York, at the option of the purchaser. The bonds will be ready for delivery October 1, 1895.

Bay City, Mich.—It is reported that this city has sold $20,000 of 4 per cent refunding water-works bonds to E. H. Rollins & Sons at 104·17. The loan will run 25 years.

Cambridge, Mass.—On September 7, 1895, the City of Cambridge sold $200,000 of 4 per cent water-loan bonds, dated August 1, 1894, and payable August 1, 1915, to Blake Bros. & Co. at 109·556, and $100,000 of 4 per cent park-loan bonds, dated August 1, 1895, and payable August 1, 1935, to Spencer Trask & Co at 114·38. Interest on both bonds is payable semi-annually.

A list of the bids received for the loans is as follows:

Charles County, Md.—Suit has been brought to restrain the County Commissioners of Charles County from issuing $20,000 of 5 per cent court house bonds which were offered for sale on the 13th of last month.

Charleston, S. C.—City Treasurer J. O. Lea will receive bids until September 20 for $90,000 of 5 per cent city bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925. The bonds will be of the denomination of $500 each.

Further particulars regarding this offering will be found in the Treasurer's official advertisement elsewhere in this Department.

Cleveland, Ohio.—It is reported that $100,000 of 20-year sewer bonds, $60,000 of 14-year water bonds and $40,000 of 11-year fire department bonds of Cleveland have recently been sold to W. J. Hayes & Sons. Each of the loans bears interest at the rate of 5 per cent.

Dallas, Tex.—The Mayor of this city has negotiated a loan of $40,000 to pay off the floating indebtedness.

Dearborn County, Ind.—Five per cent 20-year refunding bonds to the amount of $30,000 have been sold to Dietz, Denison & Prior.

District of Columbia.—Proposals will be received by the United States Treasurer until Sept. 17 for the purchase of $27,000 of 3·65 per cent registered bonds of the District of Columbia. The securities will bear interest from August 1, 1895.

Elmira, N. Y.—On Sept. 9, 1895, the city of Elmira sold $190,000 of bridge and city hall bonds. Interest will be payable semi-annually and the principal will mature at the rate of $30,000 each year from 1922 to 1927, inclusive, and $10,000 in 1928. The bids received for the loan were as follows:

	Bid.
E. B. Sheppard, for 4 per cent bonds	103·766
R. L. Day & Co, for 4 per cent bonds	109·559
S. A. Kean, for 4 per cent bonds	101·
Daniel A. Moran & Co., for 3½ per cent bonds	100·698
Storrs & Smith, for 3½ per cent bonds	101·11
Bunnell & Elliott, for 3½ per cent bonds	100·3-16
C. H. White & Co., for 4 per cent bonds	107·25
Roberts & Co., for 3·65 per cent bonds	101·25
Roberts & Co., for 4 per cent bonds	107 58
Frederic Taylor & Co, for 4 per cent bonds	107·27
Spencer Trask & Co., for 3·65 per cent bonds	101·76
Whann & Schlesinger, for 4 per cent bonds	108·2
W. I. Quintard, for 4 per cent bonds	109·03
Edward C Jones Co., for 4 per cent bonds	107·373
Farson, Leach & Co., for 3½ per cent bonds	101·559
W. R. Curtis, Germania & American Investment Co., for 4 per cent bonds	109·17
Isaac W. Sherrill, for 4 per cent bonds	103·23
N. W. Harris & Co., for 3½ per cent bonds	100·7817
N. W. Harris & Co., for 4 per cent bonds	109·12
W. E. R. Smith, for 3½ per cent bonds	100·965
Street, Wykes & Co., for 4 per cent bonds	108·65
W. J. Hayes Sons, for 4 per cent bonds	108·18
Walter Stanton & Co, for 4 per cent bonds	109·24

Far Rockaway, N. Y.—A vote taken Sept. 9 on issuing bonds for the construction of a sewer, estimated to cost $75,000, resulted in favor of the proposition. The votes cast were 95 for and 31 against the issue. Forty thousand dollars of the amount will be disposed of at first. The bonded debt of the village is at present $16,000, payable at the rate of $4,000 yearly from Sept. 7, 1895, to Sept. 7, 1898; floating debt, $1,422 50.

Franklin, Minn.—Water-works bonds of this municipality to the amount of $4,000, offered for sale August 16, have not yet been disposed of. Peter E. Wicken, Recorder, reports to the CHRONICLE that the securities are still on sale.

Hempstead, N. Y.—Proposals will be received until to-day for the purchase of $42,000 of 4 per cent gold bonds.

Kasson, Minn.—On Sept. 6, 1895, the village of Kasson sold $6,000 of 5 per cent bonds to the State Savings Bank, St. Paul, for a premium of $50. The bonds become due in nine years, with an option of call in three years. Four other bids were received as follows: The National Bank of Kasson bid par for 5 per cent bonds, Jefferson & Kasson of St. Paul offered a premium of $100 for 6 per cent bonds, Lamprecht Bros. Co. bid for 6 per cent bonds, they to furnish blank forms; S. A. Kean bid par for 6 per cent bonds.

Lewiston School District No. 1, Mont.—On August 24, 1895, this district sold $12,000 of 6 per cent 10-20-year school bonds to W. J. Hayes & Sons at 102·33. Three other bids were received as follows:

	Bid.
Farson, Leach & Co	100·20
S. A. Kean	99 00
H. B. Palmer, Helena, Mont.	100 90

Liberty, N. Y.—An election held Sept. 7 on issuing $10,000 of water-works bonds resulted in favor of the proposition.

Logansport, Ind.—It is reported that the city of Logansport is arranging to issue 4 per cent refunding bonds for the purpose of taking up $235,000 of securities now bearing 5 per cent. The bonds to be refunded comprise $75,000 of water-works debt and $165,000 voted as a subsidy to the Logansport Crawfordsville & Southwestern Railroad Co.

Melrose, Mass.—This town will borrow $3,000 for highway and town-hall repairs and $20,000 for building the new central fire station.

New York City.—Proposals will be received until September 24, 1895, by Ashbel P. Fitch, Comptroller, for the purchase of $3,345,589 70 of gold bonds and stock of the City of York as follows:

LOANS—	When Due.
CONSOLIDATED STOCK—	
3s, M&N, $1,376,181 32	Nov. 1, 1920
3s, M&N, $150,700	Nov. 1, 1914
DOCK BONDS—	
3s, M&N, $500,000	Nov. 1, 1925
POLICE DEPARTMENT BONDS—	
3s, M&N, $549 65	Nov. 1, 1925
SANITARY IMPROVEMENT SCHOOL HOUSE BONDS—	
3s, M&N, $84,959 84	Nov. 1, 1914
SCHOOL HOUSE BONDS—	
3s, M&N, $183,198 89	Nov. 1, 1914
WATER MAIN STOCK—	
3s, M&N, $250,000	Nov. 1, 1914

The securities are exempt from city and county tax but not from State taxation.

Revenue bonds to the amount of $198,000 have been authorized by the Board of Estimate and Apportionment to make up the deficiency in the Street Cleaning Commissioner's appropriation.

Oakland, Cal.—Proposals will be received until Sept. 19, 1895, by the City Clerk, for the purchase of $140,000 of 4 per cent refunding bonds. The securities will be dated Sept. 25, 1895, interest will be payable annually on Sept. 25 at the office of the City Treasurer, and the principal will mature at the rate of $3,500 annually for 40 years. The amount of principal and interest due each year will be added to the tax rate and collected with the taxes.

The city's total indebtedness, including this issue, is $644,000. Its assessed valuation for 1895 is $46,500,000; actual valuation, $63,500,000. The population at present, according to local figures, is 60,000.

Rockford, Mich.—J. M. Spore, Village Clerk, reports to the CHRONICLE that $10,000 of water-works bonds, voted August 19, will be offered for sale some time in October. The bonds will be issued in denominations of $1,000 each, and one bond will be payable each year, beginning seven years from date. The rate of interest, which will be payable semi-annually, has not as yet been fixed. The securities were authorized by a vote of 170 for and 29 against the proposition.

Saline County, Mo.—A call has been made for the payment of Salt Pond township funding bonds of Saline County, numbered from one to six, inclusive. They will be paid on presentation at the Third National Bank, St. Louis, Mo., on or before September 15, 1895, at which time interest will cease.

Savannah, Ga.—In reply to our inquiry concerning the report that $500,000 of bonds had been recommended for public improvements, City Treasurer C. S. Hardee writes the CHRONICLE that the State laws regarding municipal debt limitation will prevent the city from issuing any additional bonds until those at present outstanding have matured.

South Omaha School District, Neb.—An election which took place in this district September 3 on issuing $40,000 of bonds resulted in the defeat of the proposition.

Taunton, Mass.—It is reported that on September 11, 1895, the city of Taunton sold $7,125 of 10-year sewer bonds at 103·577; $7,000 of 20-year sewer bonds at 106·527 and $6,000 of 10-year bridge bonds at 103·547. They were all awarded to R. L. Day & Co. The securities are dated June 1, 1895, and interest at the rate of 4 per cent is payable semi-annually in June and December, at the Atlas National Bank, or at the office of the City Treasurer. Payment of principal and interest is secured by sinking fund.

Vancouver, Wash.—On September 2, 1895, the city of Vancouver sold $20,000 of 6 per cent funding bonds, $10,000 maturing in 10 years and $10,000 in 20 years, to Morris & Whitehead of Portland, Ore., for a premium of $425, the firm to furnish the blank bonds. The securities are to be dated September 15, 1895. Other bidders were Seymour, Barto & Co., Tacoma, Wash., offering par for 20-year bonds; Devan & Co., Los Angeles, offering a premium of $302 for 20-year bonds, and Mason, Lewis & Co., Chicago, offering a premium of $627 for 20-year bonds.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

POST OFFICE BOX 958. **NEW YORK.**

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, September 21, have been $1,067,231,889, against $1,014,699,251 last week and $881,945,388 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending September 21. 1895.	1894.	Per Cent.
New York	$513,350,536	$403,870,586	+27·3
Boston	77,654,921	63,941,146	+21·5
Philadelphia	57,412,751	53,502,028	+ 7·2
Baltimore	11,797,837	11,921,505	- 1·0
Chicago	74,458,340	69,998,154	+ 6·4
St. Louis	20,488,540	17,466,595	+16·8
New Orleans	6,879,928	5,537,548	+24·3
Seven cities, 5 days	$764,277,923	$625,099,171	+21·9
Other cities, 5 days	130,413,200	113,976,624	+ 8·7
Total all cities, 5 days	$894,720,814	$743,075,795	+19·7
All cities, 1 day	172,511,372	138,269,123	+27·0
Total all cities for week	$1,067,231,889	$881,945,988	+20·5

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 14, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of sixty-nine million dollars, but at New York alone the gain is nearly thirty-three millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 16·4 per cent. Compared with the week of 1893 the current returns record an excess of 27·1 per cent and the loss from 1892 is 13·6 per cent. Outside of New York the gain over 1894 is 7·3 per cent. The excess over 1893 reaches 24·4 per cent, but making comparison with 1892 the decrease is seen to be 10 per cent.

Clearings at—	Week ending September 14. 1895.	1894.	1895. P. Cent.	1893.	1892.

THE FINANCIAL SITUATION.

An easier and lower foreign exchange market and a decided increase in the calls for discounts at our Clearing House banks having most extensive Southern connections are the features of the week. They indicate one and the same fact: they give notice that the cotton crop has at length begun to move, that foreign exchange is in process of being made freely, and that we are nearing the end of this period of gold exports. These exports, as we have often said, have no significance whatever as evidence of disturbed credit. The people who have been so sensitive about the movement have failed to study the real situation. Not for years has cotton been so backward as this year. Look at the table in our annual cotton crop report (Sept. 7) of the new crop marketed up to Sept. 1; also look at our summary (in our usual cotton report) of cotton coming in sight week by week. Notice what a contrast with former years each exhibit of the early movement of the staple presents. These are tell-tales; they stamp this season as phenomenal for the backwardness of the staple. With then cotton (usually such a large and productive resource for future and spot bills in August and thereafter) hitherto not in a condition to be marketed; with a dearth of breadstuffs for export, due to last year's crop failure and this year's short yield of winter wheat, and with general trade developing so rapidly that imports of merchandise are increasing materially, approximating the normal figures of prosperous years, what event could be more natural or more certain than gold exports? But when cotton begins to move freely all this will be changed; remember, too, that cotton is now nearly 2 cents a pound higher than it was last year; it always makes exchange fast—it will make it faster this season.

The gossip about another bond sale by the Government which has been so uninterrupted and has assumed such a confident air within the last two or three weeks has been further stimulated this week by the presence in New York again of Mr. William E. Curtis, Assistant Secretary of the Treasury, and especially by a consultation in the Sub-Treasury building, at which Mr. Curtis, Mr. Bacon of J. P. Morgan & Co., and Mr. Jordan, Assistant Treasurer, were present. No conclusion by outsiders on being informed of such a meeting could be easier reached, and as for that none would be more readily believed by a credulous public, than that the consultation indicated just what the gossips claimed. Yet strange to say the subject of another bond sale which has so engrossed the Street was as remote from the actual topics of conversation as any Government interest could be. Indeed we can state positively that the matters under discussion on that occasion had no relation to Government issues, either past, present or future.

What a thoroughly unreasonable fabrication all the rumors about a new bond sale have proved to be! So far as we can learn we cannot discover that any of the parties to the last negotiation have suggested the idea or have thought it desirable. Surely no one has ever seen evidence of a hysterical nature about the President; and those who know his views best are positive in their assertion that he has never considered the proposal, Secretary Carlisle also, we venture to say, is innocent of the thought of any such transaction. But aside from the individuals concerned, what is there to-day in the situation suggestive of such a need? Nothing at all, except so far as the opinion may have been prompted by the gold exports. That outflow we have seen has been necessary and natural, and bears no analogy to the movement early in the year. But what is much more important is that we are now facing not only different but most favorable conditions of our crops and of trade. Last February we had almost nothing to sell, with the prospect that for six months this little would be growing less. Now we have everything to sell, with the promise of a large increase in our exportable surpluses during future months. This means not only cotton but a large surplus of all crops and their products; it means minerals (see an article on that subject on a subsequent page) that are being mined in greater quantities than ever before; it likewise means increased supplies of almost all kinds of manufactured goods which we usually export. Moreover and besides these things our railroad and other securities, if gauged by their earning power, are daily becoming more valuable, whereas in February last this condition and this tendency were with reference both to commodities and securities in the opposite direction. Now in face of such facts as these, and especially in view of the improving value of railroad securities, would it not be most injudicious for the Government to make and ask the world to take some more Government bonds?

An excellent illustration of the change in the situation here noted is furnished by the weekly returns of earnings of the Chicago Milwaukee & St. Paul Railroad. Up to the beginning of the present fiscal year, on the 1st of July, this road showed large and constant decreases in its weekly reports. The falling off followed from the general business depression and from the poor harvests in the road's territory last year. Since the 1st of July a change has occurred in the character of these weekly reports, and now they quite regularly show gains. For the latest week—that is the second week of September—the gain is very noteworthy, amounting to $87,896, or over 13 per cent. Of course this increase comes after a decrease both last year and the year before, but it is a striking and significant fact that taking that week as a basis earnings now are close to the largest ever made in the company's history. To indicate just how the results compare for a series of years, we furnish the following brief summary for the first and second weeks of September. It is proper to say that for the earlier years we have added on the earnings of the Milwaukee & Northern, so as to make the basis of comparison the same for all the years.

1st w'k Sept	675,023	661,102	617,715	725,240	716,905	624,329
2d w'k Sept..	737,358	649,462	668,828	746,316	746,492	657,759

Hence it will be seen that for the latest week the earnings come within $9,000 of the exceptionally large totals of 1892 and 1891. In other words, gross earnings at $737,000 for the second week in 1895 compare with earnings of $746,000 in 1892 and 1891, barring which years the present total is the heaviest on record. The fact that thus early in the new crop season the returns should make such very favorable comparisons with the best of previous years is both encouraging and significant. Of course, St. Paul is favored in being situated in the spring-wheat territory, where the new crop has already begun to move. But that furnishes only a partial explanation of the present excellent earnings. The truth is, there has been a great revival of business all

over the Western country, in part as the result of the good crops, in part as the result of the general recuperation of trade in all portions of the United States, and this is giving the transportation lines an increased tonnage in merchandise and general freight.

In the anthracite coal trade, also, there are indications now of a change for the better in the situation. This trade has been the last to fall in line with the general improvement. For many weeks every one has been waiting for an announcement of an agreement among the producing companies to signalize a great advance in the selling price of anthracite. So far as the public is informed the relations of the companies remain the same as before, but an advance in prices has come in a perfectly natural way. It has been felt all along that it was folly to continue to sell coal at the low figures ruling, and as a matter of fact some of the companies had stopped seeking new business at those figures, merely supplying and protecting their old patrons. It appears that all that was necessary to bring about a change was for one company to announce an advance, and all the other companies were willing to follow in its footsteps. Something like this has happened twice recently, 25 cents per ton being added to the price each time. The result is that the companies are not taking orders now at less than $3 25 per ton for stove coal, while in July sales were made at $2 75 per ton. There have also been advances by the retail dealers, and likewise advances to the line trade at Philadelphia. There have been reports furthermore that some of the companies had decided to advance tolls on coal. Altogether, the outlook appears to be better than it has been for a long time past.

We may note, too, that the revival of business activity is working to the advantage of some of the bituminous coal roads. Many of these have been obliged to carry coal at unprecedentedly low figures. In reviewing the report of the Chesapeake & Ohio recently we pointed out that that road had been able to realize an average of less than 3 mills per ton per mile in the late fiscal year on its tide-water coal and an average of less than 4 mills on its coal shipments to other points. The company has now made a move to secure more remunerative rates, and at a meeting of the directors this week President Ingalls was authorized, in view of the improvement in trade along the line of the road, to advance all the coal rates. The extraordinary activity in the iron trade is another circumstance that will operate to the advantage of a great many roads. The effect of the changed situation upon the fortunes of some of the iron companies is well indicated by the report of the Tennessee Coal & Iron Co. for August, showing net the present year for that month of $107,923 against only $36,700 last year.

Among the features of the week have been a rise followed by a decline in the rates for money on call, the former due to special influences and the latter to liberal offerings by trust companies and other lenders. Last week's bank statement showed a loss of $9,436,300 cash, following $3,831,800 in the week before, and making $13,258,100 for the two weeks, the result of the movement of currency to the interior and also of the shipments of gold to Europe. The surplus reserve of the banks was last week reduced by $8,161,525 and the week before by $4,303,150, making for the two weeks $12,464,675, and carrying the surplus down to $26,685,250. The statement was made on declining averages, the greater part of the currency shipped to the West and of the gold sent to Europe having been withdrawn toward the end of the week. The movement of currency to the interior this week has been large.

The heavy loss of reserve reported by the banks on Saturday last naturally influenced the market for money on Monday and a further influence was exerted by the calling in of about $4,000,000 loans by one of the banks in connection with a reorganization scheme in which one of its large depositors was interested. During the day the rate on call was advanced to 3 per cent, but the bulk of the business was done at 2½ per cent. On the following day the high rate brought in a better supply of money and the rate fell to 2 per cent, and on Wednesday there were liberal offerings by large trust companies, railroad companies and other lenders, which caused a further fall to 1½ per cent, the business on that day and on Thursday being chiefly at 1½ per cent. Yesterday the rate was 1½@2 per cent. The average of loans on bankers' balances for the week has not been above 2 per cent. Banks and trust companies on Monday marked up their loans to 2½ per cent as the minimum and many of them felt quite encouraged at the outlook, but when the large trust companies and other institutions made such liberal offerings on Wednesday rates at the banks fell off to 1½ per cent as the minimum and there was a feeling of disappointment. It is believed, however, that money will react as the result of decreased bank reserves and that at least 2 per cent may speedily be established as the minimum on call. The activity of money early in the week caused lenders on time to hold their rates more firmly and quotations were advanced to 2 per cent for thirty days, 3 per cent for sixty to ninety days, 3½ per cent for four and 4 per cent for five to six months, but the demand was light, and later in the week offerings were made at concessions; sixty to ninety day money was quoted at 3 per cent and five to seven months loans at 3½@4. Banks having large correspondence with institutions in the interior report a more general inquiry for re-discounts not only from all the grain-producing States, but from the cotton States also. This inquiry for re-discounts will largely account for the increase in loans by the banks from $513,532,500 for the week ending August 24 to $522,698,900 last week. The local supply of commercial paper is not large, indicating small borrowings by merchants, and the demand is somewhat restricted by the absence from the market of the large banks which are meeting the requirements of their correspondents. At the same time brokers report a good business at full rates and quotations are 4 per cent for sixty to ninety-day bills receivable, 4½@5 per cent for four months' commission house and prime four months' single names, 4½@5½ per cent for prime six months and 5½@7 for good four to six months' single names.

There were no important features in the European financial situation this week. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 11 16 of 1 per cent. The open market rate at Paris is 1⅞ per cent, and at Berlin and Frankfort it is 2⅞@2¾ per cent; the advance in Germany was due to preparations for the quarterly settlements. According to our special London cable the Bank of England gained £974,420 bullion during

the week and held at the close of the week £42,874,036. Our correspondent further advises us that the gain was the result of the import of £1,220,000 (of which £1,090,000 were from the United States, £96,000 from Australia, £21,000 from China, £6,000 from the Continent and £7,000 bar gold bought), the receipt of £89,000 from the interior of Great Britain, and the export of £335,000, of which £215,000 were to the Cape, £100,000 to Egypt and £20,000 to Malta.

The foreign exchange market has been lower this week, influenced by greater activity in money and by a light demand, but rates show only fractional declines and bankers report that the supply of bills on the market is increasing only slowly. There have been some offerings of spot cotton bills at 4 88, which is a little lower than the same kind of bills were offered last week, but even this price is regarded as too high considering the fact that cotton ought to move more freely by the end of the month at least. Some grain bills have been offered from Chicago for December and early months next year and small amounts of these have been bought, but as a rule commercial futures are held at comparatively high figures. The demand has been light, partly for the reason that remitters have held off in expectation of lower prices but mainly because the most urgent inquiry from bankers was met last week by the shipments of gold. The market opened easy on Monday and the Bank of British North America, Heidelbach, Ickelheimer & Co., Lazard Freres and the Merchant's Bank of Canada reduced their posted rates to 4 89½ for sixty days and 4 90½ for sight, while rates for actual business in sterling opened one quarter of a cent lower compared with Friday, at 4 88½@4 88¾ for long, 4 89½@4 89¾ for short and 4 89¾@4 90 for cable transfers. There was a withdrawal of $850,000 gold from the Treasury by W. H. Crossman & Bro., and of $150,000 by H. J. Baker & Bro., dealers in chemicals, for shipment on the following day. On Tuesday the market was again easy, and rates for actual business in sterling were further reduced one-quarter of a cent. The withdrawals of gold for shipment on the following day were small, amounting to $250,000 by Hoskier, Wood & Co. Handy & Harman announced that they would send $150,000, the proceeds of smelters' bullion. The market was dull and steady on Wednesday, and rates for actual business were unchanged. There was a withdrawal of $150,000 gold by Oelrichs & Co. for shipment on the following day, and Handy & Harman prepared to send $100,000, the proceeds of smelters' bullion. On Thursday the market was again quoted dull and steady until the afternoon, when the tone was somewhat affected by a reduction in rates by Brown Bros. to 4 88½ for sixty days and 4 89½ for sight, and by Lazard Freres to 4 89 for long and 4 90 for short, but there was no change in rates for actual business, and at the close some of the bankers reported the market firm and quite bare of all kinds of bills, which fact they had discovered on attempting to make purchases. Yesterday Baring, Magoun & Co., Heidelbach, Ickelheimer & Co. and the Canadian Bank of Commerce all reduced their posted rates to 4 89 for sixty days and 4 90 for sight. The tone of the market at the close was steady, with no new features. The only engagement of gold was $150,000 by a firm of jewellers for shipment to-day. This makes the total gold exports for the week $1,800,000. The following table shows the daily posted rates of exchange by leading drawers.

* Excess of imports.

In the last table gold and silver in ore for 1894 and 1895 are given under the heads respectively of gold and silver; for the other years both kinds are included in the merchandise figures.

We give to-day on another page our review of the net earnings of United States railroads for the month of July. The figures make of course a favorable comparison with a year ago. We also have a few early returns for the month of August. The Baltimore & Ohio for that month reports $45,102 decrease in gross, $38,619 decrease in net; the Pittsburg Cincinnati Chicago & St. Louis, one of the lines in the Pennsylvania RR. system, $97,465 increase in gross, $81,848 increase in net; the Nashville Chattanooga & St. Louis, $17,152 increase in gross, $2,584 increase in net; and the San

Francisco & North Pacific, $2,644 decrease in gross, $5,760 decrease in net.

OUR MINERAL PRODUCTIONS AND BUSINESS ACTIVITY.

The great activity which is characterizing the iron trade at present in all its branches gives much interest to a statement of the mineral products of the United States for a series of years just issued by the United States Geological Survey. The statement is also suggestive of the important part played by our mineral industries in the manufacturing activity and growth of the country. How many persons have any idea of the magnitude of the yearly output of the mines, quarries, &c., of the United States? Our attention is so constantly fixed upon the crops as an influence affecting business that we are apt to lose sight of the presence and potency of this other agency in the country's welfare.

Of course no competent critic would contend that the crops are not an element of very great moment in our industrial affairs. Whether the harvest of our leading productions—grain, cotton, &c.,—is to be good or bad, and whether the prices realized by the farmer and planter in selling them are to be satisfactory or the reverse, are matters whose far-reaching influence it would be difficult to exaggerate. Upon the outcome depends for one thing the purchasing power of the producing classes, constituting a large portion of the community, and for another thing the traffic and revenues of our transportation lines. In this latter particular the effect of a favorable or an unfavorable result is certain to be very pronounced, for these transportation lines exist as agencies both for distributing the products of the agricultural classes and the supplies needed by them. Hence it is not unlikely to happen that the agricultural tonnage and the general merchandise tonnage will contract or expand simultaneously. In determining too, in large measure, the size of our exports and the course of foreign exchange, upon which hinges the question of gold imports or exports, the agricultural situation is a matter of great consequence.

But while conceding to the crops a position of the highest importance, it is no less true that our mineral productions likewise occupy a very prominent place in the country's activities—a much more prominent place than the public at large is inclined to think they have. In fact, it may be affirmed that they occupy a position not greatly subordinate to the crops themselves. In the term mineral productions is included those two indispensables of modern civilization, iron and coal, and to say this is equivalent to saying that the mineral products lie at the very basis of the country's manufacturing growth and development. As the output of minerals is not subject to meteorological influences in the sense that the crops are, the totals obviously do not fluctuate as widely as those of the crops. In times of general business prosperity the tendency is upward, and the aggregates generally keep rising higher and higher; on the other hand, in times of business depression the tendency is as a rule towards lower totals, with a resulting reaction from the previous highest figures. It is this absence of violent fluctuations that doubtless explains the lack of interest and lack of knowledge regarding the importance and extent of the mineral industries.

These reflections seem pertinent in view of the results disclosed by the tabulations referred to above. The figures cover the calendar year 1894 and are issued, we believe, earlier than those for any preceding year—thanks to the industry and assiduity of Prof. David T. Day, the compiler, and of Charles D. Walcott, the Director of the Geological Survey. The year 1894, we all know, was a period of very great depression in business, and yet even for such a year, when aside from the falling off in the demand for minerals the value of the product was further diminished by the decline in prices—even for that year the aggregate value of the mineral products, according to the compilation named, was no less than 527 million dollars. In one sense such a large total should not seem surprising, for the United States is one of the foremost manufacturing nations of the world—in some branches it surpasses all other nations—and the iron, the copper, the lead, the building stone, etc., and the coal, furnish the materials out of which or with the aid of which the manufactured products are made. There is this sharp distinction, however, between our manufacturing activity and that of the leading European countries—England for instance; their manufactures to a considerable extent are for the foreign markets, ours are almost entirely for the home trade, the wants of our large population being diversified and extensive.

We may contrast the total of the mineral products in 1894 at 527 million dollars with the estimated value of some of the leading crops in the same year. The Agricultural Bureau at Washington calculated the

value of the wheat crop on the farms in that year at only 226 million dollars and the value of the oats crop at 215 million dollars. Even the corn crop, which transcends in importance any single crop produced in this country, had an estimated value of only 554 million bushels, or but little more than the 527 million total of the mineral products. It will no doubt be said that we are comparing with a year of very poor crops, and that is so. But on account of the unfavorable character of the year the total of the mineral products also was a small one and was much below that of other recent years. In 1892, the year before the development of the panic, when the total was at its maximum, the value of the mineral output was over 648 million dollars.

In contrasting the mineral product, too, with the crops, one very important point of difference in favor of the former must not be overlooked. In the case of wheat or corn or oats comparatively little labor is required to convert the product into its final and finished form, ready for consumption. In the case of the minerals, however, the product is in its crude stage, and furnishes the raw material for countless articles and countless processes of manufacture in the carrying out of which large numbers of men and large expenditures of money are required. Thus by the time these minerals reach their final form of usefulness, their value has been enormously increased, and hence a total of 500 or 600 millions in this instance means a great deal more than a corresponding total in the case of the crops. As showing, too, how much larger the aggregate of the mineral output now is than a decade or more ago, notwithstanding the decrease during the last two years, we may note that the total at 527 million dollars for 1894 compares with only 409 million dollars for 1885 and with but 350 million dollars for 1880.

In studying the composition of the mineral totals, one is at once struck by the fact that the precious metals form a comparatively small proportion of the whole. The United States produced more gold in 1894 than for a great many years past, and yet the value of the gold product was only $39,500,000, out of a total mineral production of 527 million dollars. But chief interest will no doubt be felt in the silver figures. Here of course there has been a decline during the last two years, and the value of the product for 1894 is given as only 64 million dollars, against 77½ million dollars for 1893 and 82 million dollars for 1892. But in all these years the amounts are exaggerated. The Geological Survey in presenting the figures has followed the plan of the Director of the Mint and taken the silver at its *coining* value, not its bullion value. In this manner the silver is credited with a value of $1·2929 per ounce, whereas the average market value in the same year was less than half that figure—actually only about 59 cents. Computing the silver in the same way as the other mineral substances, coal, iron, copper, lead, etc., the value of the silver product for 1894 would stand at only about 29 million dollars, and the grand total of the mineral products, including silver, would be reduced to about 500 million dollars, so that the silver product would form, roughly, less than 6 per cent of the whole. In 1893 and 1892 the silver product was larger and the price of the metal was higher, but even in those years the proportion of the total held by silver was not much more than 8@9 per cent.

The two minerals which contribute the largest amounts to the totals are of course coal and iron, the one a non-metallic and the other a metallic substance. Coal counts for 186 million dollars in the results (including both bituminous and anthracite) and iron for 65 million dollars. An examination of this latter item serves to reveal at once the extent of last year's depression in the iron trade and the importance and far-reaching effects of the present recovery and activity in the trade. The 65 million dollars represents 6,657,388 gross tons of iron, thus valued at less than ten dollars per ton. In 1893 the product was 7,124,502 tons valued at $84,810,426, in 1892 9,157,000 tons valued at $131,161,039, in 1890 9,202,703 tons valued at $151,200,410. As against the 6⅔ million tons output for 1894 we are now producing at the rate of over 10 million tons a year, and prices are several dollars a ton higher than in the late year. With the present rate and present prices continued for a period of twelve months, it is safe to say the value of the product for that period would be a hundred million dollars larger than the value of the pig iron output for the late calendar year, and with such increase the total would be raised to 165 million dollars, or higher even than the 1890 total at 151 million dollars, the previous maximum. Of course it is among the possibilities that production may not be maintained on the present high basis, but considering that this is simply the increase in the pig metal—that this augmented demand for iron means a great expansion in the output of all the finished forms of iron and steel, in the manufacture of which the pig metal is used—considering this, nothing further is needed to show why the revival of activity in the iron and steel trades is proving such a powerful stimulus to general trade activity.

In the production of coal, too, the changed situation makes a very great difference. We have already stated that the aggregate value of the coal product for 1894 was 186 million dollars. But in 1893 the value was over 208 million dollars. It should be understood that these figures represent simply the value of the coal at the mines before any freight charges have been added. The product was 152,447,791 long tons in 1894 against 162,814,977 long tons in 1893. The revival in the iron trade will of course greatly increase the demand for coal and so will the revival of general business. Furthermore, it should be remembered that in 1894 the output was reduced by a general and prolonged strike of the miners in the bituminous regions, beginning in April and lasting in some cases until September. At present there are strikes in only one or two limited districts. The Geological Survey has made an estimate of the loss to the labor interests based upon the average number of employees and the average working time in 1894 compared with 1893, and this estimate shows one day's labor lost by 5,167,357 men, or 17,224 men thrown out of employment for a full year of 300 working days. With no general strike and production again up to the old basis, and even larger, labor will have this additional amount of employment. Another benefit will follow in some cases from the activity and improvement in trade; some of the railroads will insist on better freight rates for coal. The Chesapeake & Ohio, a very large carrier of coal, has the present week taken action to that effect.

When we look at the minerals of smaller consequence we observe generally the same conditions—that is, reduced values in 1894, both because of a smaller product and lower prices, while now we have an increased demand again and better prices. In the case of copper the exports are large, and the product

for 1894 was in excess of that of any previous year, reaching 360,844,218 pounds. But the value was only $33,141,142 against much larger totals in some of the previous years on a smaller production. It will be seen that this gives an average of only a little over 9 cents per pound for the copper. The price now is over 12 cents a pound. The value of the lead produced was $9,942,254 in 1894, against $11,839,590 in 1893, $13,892,320 in 1892 and $15,534,198 in 1891, the quantity produced being 159,331 tons, against 163,983 tons in 1893, 173,654 tons in 1892 and 178,554 tons in 1891. As the output of lead is in some measure dependent upon the output of silver, it is not possible to say what the course of the product of this metal will be in the immediate future; but the price is somewhat higher, the quotation here in New York now being 3½ cents per pound, against 3·20 cents a year ago. As showing the possibilities of increase in items not usually considered at all in speaking of the changes in the trade situation, we may cite the item of building stone. The product of this is given as $37,377,816 for 1894 and $33,885,573 for 1·93; in 1892 the total was $48,706,625, and in both 1891 and 1890 over 47 million dollars.

We shall not undertake to extend these comparisons any further. Obviously, when trade is reviving an improvement in one direction must bring improvement in other directions. The figures we have given prove how prominent is the part played by the mineral industries in the general result and the extent to which these industries must necessarily share in this improvement. Most significant of all, they show that important though the crops are, they are after all only one element in our industrial activity. At present we are doubly fortunate in having both good crops and active trade.

NASHVILLE CHATTANOOGA & ST. LOUIS.

Though not a large road, considerable interest is felt in the affairs of the Nashville Chattanooga & St. Louis, and its report therefore always attracts a good deal of attention. The property has a history extending back a great many years, and the road at one time figured very prominently in some of the most important railroad moves in the South. In recent years it has been under the domination of the Louisville & Nashville, but notwithstanding that fact it has never lost its identity. It has been managed as a separate property, and withal it has maintained a prosperous career, passing very creditably through the last two years of business depression.

For a poor period the showing for 1894-5 is very satisfactory. It may seem surprising to call the year unqualifiedly a poor one, seeing that the road is a Southern one and that last season's cotton crop in the South was the largest ever made. But in the case of the Nashville Chattanooga & St. Louis the cotton traffic is really of very small importance. The statistics show that the road did move more of that staple, but even after the increase the amount of the cotton freight was only 45,793 tons (this comparing with 30,370 tons in 1894), out of a total freight tonnage of 2,746,340 tons, the proportion of the whole thus being only 1·67 per cent. The grain tonnage is a much larger factor, the road having carried in 1894-5 256,450 tons, being 9·34 per cent of the whole tonnage; the flour tonnage amounted to 180,911 tons more, or 6·59 per cent, and the tonnage of other mill products to 59,904 tons, or 2·18 per cent.

It is however the traffic in minerals and manufactures upon which the road mainly depends, it traversing some of the most important mineral and manufacturing districts of the South. Coal is its largest single item of freight. Of this it carried 599,963 tons, forming 21·85 per cent of the whole. Of coke it carried 201,785 tons, of ores 212,279 tons, of phosphates, stone, sand, &c., 160,127 tons, of pig iron 104,637 tons, &c. The lumber traffic is also very important, the tonnage of forest products in the late year having been 287,012 tons, equal to 10·44 per cent. The fact that the road's traffic consists so largely of minerals and manufactures is of course an encouraging one in its bearing upon the immediate future of the property, especially in view of the great activity in the iron industry, (which is as striking a feature in the South as in other parts of the country,) and the general revival of manufacturing interests. The coal tonnage in the late year was larger than in either of the two previous years, but the coke tonnage and the ore tonnage were smaller, and the iron tonnage, though above that for 1893 4, was below that for 1892-3.

In the previous year the total freight tonnage had fallen from 2,851,196 tons to 2,380,043 tons. In the late year there was a recovery to 2,746,340 tons, leaving a decline from two years ago of only about 4 per cent. Yet this recovery in tonnage in 1894-5 brought with it no corresponding recovery in revenues, and hence gross earnings for 1894-5 are fully half a million dollars smaller than those for 1892-3. The figures for the last three years are $4,608,501 for 1894-5, $4,521,661 for 1893-4 and $5,131,779 for 1892-3. Passenger earnings, however, have declined during both years, and this will account in part for the unfavorable comparison of the gross receipts. For 1892-3 the passenger revenues were $1,199,339, for 1893-4 $1,027,326 and for 1894-5 only $965,434. In addition to this falling off in the passenger revenues, the management have had to contend with another unfavorable feature, namely a great decline in freight rates. We find that the average received per ton per mile in the late year was only 93 hundredths of a cent, against 1·05 cent in 1893-4 and 1·07 cent in 1892-3. Here then there has been a reduction in the average in a single year of over 11 per cent—certainly a very noteworty decline.

In face of the smaller passenger earnings and the decline in freight rates, the company is able to make a very good showing of net income for the year. The management in the previous year succeeded in cutting expenses down very heavily, and the most of this saving was maintained in the late year. Hence the net stands at $1,882,141 for 1895, against $1,850,482 for 1894 and $1,992,374 for 1893. The charges against the $1,882,141 net earnings in the late year were $952,645 for interest, $124,780 for taxes and $420,012 for rental to the Western & Atlantic, besides which $21,858 was spent for improvements, making altogether $1,519,295, deducting which there remains a surplus of $362,846 on the operations of the twelve months available for dividends. By adding the income ($18,424) from stocks and bonds held this is increased to $381,270, and thus the amount falls only a trifle short of equaling the $400,000 paid out in dividends during the year.

As regards the finances, the company purchased the Rome Railroad, and in making this and other payments increased the amount of its bills payable from $768,718 to $1,029,250. But including these bills payable the total of all current and interest liabilities is only $1,-

807,855, and against this there were June 30 1895 $1,074,901 of current assets ($590,450 being in actual cash), besides $1,680,637 of bonds and stocks held in the treasury. The company during the year issued $650,000 of Western & Atlantic income bonds, secured by the lease of the Western & Atlantic and by the $500,000 of State of Georgia bonds which the Nashville & Chattanooga had to deposit with the Treasurer of Georgia as security for the faithful performance of the lease. These $650,000 are included in the $1,680,637 of stocks and bonds reported held in the company's treasury.

RAILROAD GROSS AND NET EARNINGS FOR JULY.

That our statement of earnings for the month of July would show a very large gain in both gross and net has been from the first a foregone conclusion, and the early exhibit of gross, which we gave August 10, clearly foreshadowed such a result. The showing the present year is controlled by the character of the showing in 1894 and in previous years. In July 1894, it will be remembered, we had the great railroad strike, when during the early part of the month business on some roads was almost entirely suspended. But even in the years preceding the showing had been bad, 1893 having recorded a loss in both gross and net, and 1892 a loss in net with a small gain in gross. These facts made a large improvement certain, and furthermore there was this year an extra working day in the month, July 1895 having contained only four Sundays, whereas July 1894 had five.

At the same time, the conditions the present year, we need scarcely say, were by no means all favorable. While business revival proved of great advantage to the roads in the manufacturing districts, on the other hand Western roads nearly everywhere still suffered from the effects of last season's crop shortage and to some extent also from the current season's poor winter-wheat yield. One of the results was a great contraction in the wheat traffic, while the corn movement as a rule also compared unfavorably with a year ago. The cotton movement in the South, though never large at this season of the year, likewise fell short of last year's figures. Under the circumstances the very striking gains in gross and net which our tables now disclose must be accepted as reflecting a very satisfactory condition of things. In the gross the increase is found to be $7,238,794, or 15·12 per cent, in the net $3,106,541 or 23·53 per cent. The following furnishes a summary of the figures both for July and the seven months to the end of July. It will be observed that for this latter period the ratios of improvement are much smaller than for July, being only 5·09 per cent in gross and 11·24 per cent in net.

	July (138 roads.)			January 1 to July 31. (130 roads.)		
	1895.	1894.	Increase.	1895.	1894.	Increase.
	$	$	$	$	$	$
Gross earn's	55,118,279	47,879,485	7,238,794	351,899,487	334,843,967	17,055,520
Oper. exp...	38,511,418	34,679,165	4,132,253	250,691,372	243,858,151	6,833,221

We have referred above to the poor character of the returns last year and the year before. The following carries the comparisons back to 1890. It will be observed that in gross last year the loss was $8,460,517, following a loss of $2,895,329 in 1893, while in the net the loss was $2,563,446, following a decrease of $1,290,436 in 1893 and $783,315 in 1892.

As last year there were some very heavy losses by individual roads, so the present year there are some very considerable gains. As seems appropriate, the Pennsylvania heads the list with an increase in gross (Eastern and Western lines combined) of $1,286,416; the Southern Pacific has $1,050,278 increase in gross, the Atchison $611,412 increase, the St. Paul $510,014, the Wabash $310,421, the Reading with the Coal & Iron Company $300,867, the Illinois Central $296,538, &c., &c. In the net the Pennsylvania has $473,508 gain, the Southern Pacific $430,100, the St. Paul $358,823, the Union Pacific $241,981, the Wabash $200,877, the Atchison $177,905, the Illinois Central $177,808, the Denver & Rio Grande $158,852, &c., &c. The following is a full list of all the principal gains and also all the principal losses. We carry the amounts down to $30,000, and the losses above that limit comprise simply the Oregon Improvement, which has been doing poorly for some time, in the case of the gross, and that road with the Reading and the Chesapeake & Ohio in the case of the net. The loss on the Reading follows entirely from a very heavy increase in the expenses of the Coal & Iron Company.

† The net increased $151,015 on Eastern lines and $322,193 on Western lines.

When the roads are arranged in groups, every group shows an increase in gross, just as every group last year had recorded a loss. In the net there are two groups which instead of an increase have a decrease, both for comparatively small amounts. We refer to the Anthracite Coal group and the Eastern and Middle group. In the Anthracite group the poor result follows mainly from the heavy loss on the Coal & Iron Company; the Central of New Jersey and the New York Susquehanna

& Western both have gains. In the Eastern and Middle group the decrease is due to heavy expenditures by a few special roads, like the Northern Central, the Western New York & Pennsylvania, &c.

Last year we had several groups where nearly every road showed losses in both gross and net; the present year the Trunk Line group is distinguished for having every road record a gain. The percentage of increase in net for that group is 26 03 per cent, for the Middle Western group it is 36·59 per cent, for the Northwestern 30·01 per cent, for the Pacific 37·96 per cent, for the Southern 13·77 per cent, for the Mexican 21·95 per cent. For the Southwestern group the ratio of improvement in net is as much as 73·28 per cent, due to very heavy gains by the Atchison, the Denver & Rio Grande and the Union Pacific Denver & Gulf.

* For month only.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

We have received this week from the Collector of Customs at San Francisco the details of imports and exports of gold and silver through that port for the month of August, and they are presented below, together with the figures for the preceding months, thus completing the results for the eight months of the calendar year 1895. The imports of gold were somewhat greater than in July, the amount received reaching $90,485, of which $245 was in coin; and of silver there came in $86,879, of which $76,171 was bullion. There has been received during the eight months a total of $1,101,747 gold and $1,192,325 silver, which compares with $586,368 gold and $1,598,358 silver in 1894. The shipments of gold during August reached $62,869, almost entirely coin, and the exports of silver have been $248,349 coin and $325,000 bullion. For the eight months the exports of gold have been $291,399, against $585,703 in 1894, and $7,441,280 silver has been sent out, against $7,831,840 in 1894. The exhibit for August and the eight months is as follows:

The stocks cleared now are American Cotton Oil common, American Sugar common, American Tobacco common, Atchison, Central of N. J., Chesapeake & Ohio, Chicago Burlington & Quincy, Chicago Gas, Chicago Milwaukee & St. Paul common, Chicago & North Western common, Chicago Rock Island & Pacific, Delaware & Hudson, Delaware Lackawanna & Western, Distilling & Cattle Feeding, General Electric, Lake Shore & Michigan Southern, Louisville & Nashville, Manhattan, Missouri Kansas & Texas preferred, Missouri Pacific, New York Central, New York Lake Erie & Western, New York & New England, New York Ontario & Western, Northern Pacific preferred, National Lead common, Philadelphia & Reading, Southern Railway common and preferred, Texas & Pacific, Union Pacific, United States Cordage common and preferred, United States Leather common and preferred, Wabash common and preferred and Western Union.

Monetary and Commercial English News

[From our own correspondent.]

London, Saturday, Sept. 7, 1895

An attempt was made on Thursday to blow up part of the banking establishment of the Messrs. Rothschild in Paris, fortunately without effect; and the German Emperor has appealed for a second time to the people to support the Government in putting down the Socialists. The general public, however, pay no attention to these matters, believing that the several governments are strong enough to suppress all attempts at disturbance. Germany and Austria-Hungary are urging upon the Porte to yield to the representations of the United Kingdom, France and Russia in regard to Armenia, and it is reported that the Sultan is beginning to see that he must give way. Hopes are entertained, therefore, that a better state of things will soon be brought about in Southeastern Europe. In the Far East the Russian press is hopeful that Japan will accept a small indemnity for the retrocession of the Liao-tung peninsular and will almost immediately begin the evacuation.

At home politics are very quiet. The first session of the new Parliament came to an end on Thursday. No business was done except voting the requisite money, but the discussions that have taken place prove beyond doubt that there will be no material change in the essential principles of the country's policy either at home or abroad. This week, for example, the Indian Budget was discussed and the new Indian Secretary, who had strongly opposed the cotton duties when proposed, admitted that they must be retained for the present. Mr. Balfour, too, has practically confessed that nothing can be done in regard to bimetallism.

The Bank of England is growing stronger every day. The deposits are larger than ever before, and the stock of gold is being increased steadily. Rates in consequence are very low and will probably continue so for the remainder of the year, for though trade is improving the making of bills is slow as yet and prices have not risen sufficiently to affect the value of money.

The silver market is undoubtedly stronger. There is a very good demand for China and Japan. The Indian demand has eased off, but on the other hand India is importing a considerable amount of gold. In spite of the large imports of both gold and silver during the past few weeks, the India Council continues to sell its drafts very successfully. It disposed of the whole amount offered on Wednesday at 1s. 1 3/8d. per rupee, and it has since sold a fair amount by private contract. The demand, however, is chiefly for China and Japan.

The bringing out of the Bernato Bank at the beginning of the week caused a slight temporary set-back in the South African market and consequently in most other departments. The shares are of the nominal value of £1, but on the day of issue they were at one time run up as high as 4 1/8. It is said that Mr. Bernato looked with great disfavor upon the rash speculation that was got up and that in consequence of action taken by him there was a decline to about 3 1/2, and the general impression spread that the boom had come to an end for a time. But that view has not been taken by the Continent. On the contrary there has been enormous buying for France, Germany and Austria, and quotations are once more rising. New amalgamations of great importance are being announced day by day, new reorganizations are being effected, and new companies are being formed. It is likely, therefore, that the speculation will go on, but it is undoubtedly becoming dangerous. In the first place quotations are extravagantly high. In one instance the £1 shares are very nearly at 40; in another they are at 30; in a third at 24, and so on. But the most serious matter is the formation of so-called banks in large numbers which are really and truly nothing more than trusts.

In the American department there was a disposition early in the week to deal largely, but the continuance of gold shipments from New York caused apprehension amongst operators and therefore there is less doing than there was. Still, there is undoubtedly a better feeling The hope is entertained that the gold shipments will soon end and that there will be at all events two or three months of quiet. There is a fair amount of investment business going on, and there is a considerable speculation in Eries and Readings, especially in Reading first income bonds. Everything proves that if the currency question were settled there would be an enormous buying here of American stocks of all kinds. There is a steady rise going on in Argentine railway securities, and there is some business doing likewise in Brazilian and Chilian, though less in the latter.

In the Colonial department there is little doing. An announcement was made at the end of last week that the Bank of New Zealand found it necessary to write off £1,340,000, which makes another call necessary. Practically the interest of the shareholders is gone and the Bank becomes a Government concern. But the well-informed knew that the institution was in very serious difficulties and the announcement has had scarcely any effect upon markets.

The Continental bourses are firm, though there is little doing outside the South African department. The one exception during the week has been a considerable activity and marked rise in Spanish bonds in Paris, due mainly to covering

by "bears." There is a rumor that certain great banks in Paris have under consideration a proposal to lend a large sum to the Spanish Government, the Tobacco Monopoly being specially pledged. Good authorities, however, doubt very much whether the loan can be placed. At all events nothing is settled as yet, but the rumor that these banks were interesting themselves alarmed the "bears" and the stock has risen considerably. It is believed now that the covering is nearly completed. Some uneasiness is felt in Paris because of the difficulties of the Madagascar expedition and its great cost, and the best informed are rather looking for a decline in French rentes.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c. compared with the last three years:

	1895 Sept. 4.	1894. Sept 5.	1893. Sept. 6.	1892. Sept. 7.

Messrs. Pixley & Abell write as follows under date of Sept. 5.

Gold.—With the exception of some small orders for India all the arrivals have reached the Bank, and the total bought since our last is £717,000. A cargo has been sent to the Cape, net of £112,000 withdrawn. Arrivals: New York, £153,000; River Plate, £150,000; South Africa, £200,000; West Indies, £10,000. Total, £[illegible]5,000. Shipments: to Bombay, £10,[illegible].

Silver.—The market has again been very steady, inclined to weaken early in the week, it has since hardened, and closes at 30d. There has been a good demand for the East. Arrivals: New York, £159,000; West Indies, £[illegible],000; total, £182,000. Shipments: Bombay, £36,[illegible]; Hong Kong, £20,000. Shanghai, £109,000; Calcutta, £40,000. Total, £[illegible],000.

Mexican Dollars.—Some transactions have taken place in these coins at 29½d. and 29¾d., but there are now none on offer. Shipments: Penang, £5,000; Hong Kong, £20,139.

The quotations for bullion are reported as follows:

GOLD. London Standard.	Sept 5 s. d.	Aug 30 s. d.	SILVER. London Standard.	Sept 5. d.	Aug. 30 d.

Commercial and Miscellaneous News

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department:

NATIONAL BANKS ORGANIZED.

5,017.—The United States National Bank of Pittsburg. Capital, $200,000 William Pickeragill, Jr., President; C. F. Schaefer, Cashier.

CORPORATE EXISTENCE EXTENDED.

2,599.—The Citizens' National Bank of Keene, New Hampshire, until August 19, 1915.

2,297.—The Georgetown National Bank, Georgetown, Massachusetts, until September 2, 1915.

2,312.—The First National Bank of Webster, Massachusetts, until September 15, 1915.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods September 12 and for the week ending for general merchandise September 13; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK.

For Week.	1892.	1893.	1894.	1895.
Dry Goods....	$2,441,918	$2,054,534	$2,254,932	$3,112,187
Gen'l mer'dise.	6,[illegible],519	4,[illegible],100	6,836,090	7,607,325
Total.	$8,980,537	$7,052 634	$9,091,022	$10,719,812
Since Jan. 1				
Dry Goods.....	$91,034,422	$100,119,870	$60,732,795	$107,075,820
Gen'l mer'dise.	314,907,890	324,236,284	216,984,617	263,218,864
Total 37 weeks	$405 942,312	$424,355,160	$277,717,412	$370,294,684

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending September 17 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893.	1894.	1895
For the week..	$7,142,200	$8,0[illegible],246	$6,200,625	$6,275,503
Prev. reported	272,500,492	257,009,701	254,793,142	233,368,514
Total 37 weeks	$279,642,692	$265,105 937	$260,993,767	$239,644,017

The following table shows the exports and imports of specie at the port of New York for the week ending September 14 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK

Gold	Exports. Week.	Exports. Since Jan. 1.	Imports Week.	Imports Since Jan. 1.
Great Britain.....	$7,232,021	$37,054,703	$.....	$15,741,724
France	.....	13,182,073	.....	4,608,986
Germany	8,000	5,824,656	....	1,527,191

—The semi-annual statement of the Hong Kong & Shanghai Banking Corporation, covering the half-year ending 30th June, 1895, has been received. The net profits for that period, including $129,665 61 balance brought forward from last account, after paying all charges, deducting interest paid and due, and making provision for bad and doubtful accounts, amount to $1,?33,802 38. The directors recommend the transfer of $500,000 from the profit and loss account to credit of reserve fund, which fund will then stand at $5,500,000. After making this transfer and deducting remuneration to directors there remains for appropriation $1,?48,802 38, out of which the directors recommend a dividend of one pound and five shillings per share. The balance, $312,217 02, to be carried to new profit and loss account. The New York Agency of the Company is at 50 Wall Street.

—The New England Loan & Trust Company, 31 Nassau Street, New York, in a circular letter just issued, refer to the benefits to be derived from the large crops by the farmers throughout the field in which they make loans, and state that during the five years ending last January they had loaned over $6,100,000 on farms, and the property now owned as a result of these loans represents only $8,000; that they have redeemed a considerable amount of their debentures before maturity and will redeem an entire series on November 1st next, a year before it is due. Their intention is to pay all debentures before they mature under a provision permitting this. The semi-annual statement of this company will be found in the advertising department of our INVESTORS' SUPPLEMENT. The fifty-second consecutive quarterly dividend is advertised payable to-day.

WALL STREET, FRIDAY, SEPT. 20, 1895 —5 P. M.

The Money Market and Financial Situation.—The change in the condition of the foreign exchange market, to which reference is made on a previous page of this issue, is one of the important developments of the week affecting the market for railway and other securities, and the result is shown in a better demand and higher quotations.

Rumors are again current that the new Reading plan of reorganization will be announced during the current month. The anticipation of this and the advance already made in the prices of anthracite coal have had a favorable effect upon sentiment in investment circles as well as upon the shares of the coal-carrying roads.

It has been announced during the week that a controlling interest in the New York & New England Railroad is held by interests friendly to the New York New Haven & Hartford, and that the two systems will be managed in harmony.

Reports of railroad earnings for the second week in Sept., notably those of St. Paul, Mo. Pacific and the Wabash, show a very large increase in the volume of traffic over those roads. It is reported in Northwestern centres of trade that the movement of general merchandise is larger now than it has been at any time during the past three or four years.

The shipments of currency from this centre to the interior are increasing, and the money market is gradually assuming more normal conditions.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1½ to 3 per cent. To-day rates on call were 1½ to 2 per cent. Prime commercial paper is quoted at 4 to 5 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £974,450, and the percentage of reserve to liabilities was 60·13 against 60·28 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows a decrease of 7,675,000 francs in gold and 2,375,000 francs in silver.

The New York City Clearing House banks in their statement of Sept. 14 showed a decrease in the reserve held of $9,436,300 and a surplus over the required reserve of $26,685,250, against $34,846,775 the previous week.

Foreign Exchange.—There has been a marked change in the tone of the foreign exchange market during the week. Commercial offerings and bankers' bills have increased in sufficient volume to cause a decided weakness, and rates have declined. The shipments of gold during the week amounted to $1,800,000, of which $150,000 goes to morrow.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 88½@4 88¾; demand, 4 89¼@4 89½; cables, 4 89½@4 89¾.

Posted rates of leading bankers are as follows:

September 20.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88½@4 89	4 89¼@4 90
Prime commercial	4 87½@4 88	.....
Documentary commercial	4 87 @4 87½	.....
Paris bankers' (francs)	5 17½@5 17½	5 16¾@5 16¼
Amsterdam (guilders) bankers	40[illegible]@40¼	40[illegible]@40[illegible]
Frankfort or Bremen (reichsmarks) b'kers'	95[illegible]@95[illegible]	95[illegible]@95[illegible]

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛@1-10 premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 00 premium; commercial $1 50 premium; Chicago, 35c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Government bonds have been dull but firm. Sales at the Board include $21,000 4s, coup., 1907, at 112½ to 112¾ and $10,000 4s, reg., 1907, at 111¾.

Mex. Doubloons	15 50 @15 75	English silver	4 85 @ 4 92
Fine gold bars	par @¼ prem.	U. S. trade dollars	— 55 @ — 75

State and Railroad Bonds.—Sales of State bonds at the Board include $1,000 Tennessee settlement 3s at 90½; $10,000 Virginia 6s defd. trust receipts, stamped, at 61½; $10,000 Virginia fund. debt 2-3s of 1991 at 63 and $10,000 South Carolina 6s, non fundable, at 1¼.

The railroad bond market has been dull but strong, and in most cases prices have recovered from the decline noted last week. The Atchisons have been among the most active on the list and all the issues have advanced over 1 point. Phila. & Reading bonds have also been conspicuous for activity and strength, gaining an average of nearly 2 points on the prospect of better earnings and expectation of the new reorganization plan in the near future. Chic. & Erie 1sts have gained nearly 3 points, as progress is being made in the rehabilitation of the company. Or. Short Line & U. N. con. rects. are over 2 points higher. St. Louis Southwest. issues, Mo. Kan. & Tex. 2ds and Wis. Cent. 1st rects. have also made substantial gains. Oregon Imp. con. 5s have declined over 3 points on the report that default will occur Oct. 1st and that holders will be asked to fund a number of coupons.

Railroad and Miscellaneous Stocks.—The weakness of the stock market noticed in our last issue continued into the early part of this week, but in most cases a turning point was reached on Monday, since which there has been some recovery.

The coal stocks readily responded to the change in tone, stimulated by a more general advance in the price of anthracite coal, and have gained from about 2 to over 7 points. The leading grangers suffered a decline averaging about 2 points from our last quotations, which was followed by a substantial rally. St. Paul sold on Monday at 72¾, on Thursday at 75¼, closing at 76½. Rock Island, which sold above 84 since Sept. 1st, had declined to 75¾ on Monday, closing to-day at 78¼. There have been similar fluctuations in other stocks of this group, including Southwestern shares. Manhattan Elevated has fluctuated between 107½ and 111, closing at 110¾.

Of the industrial list American Tobacco has been prominent on the report of an agreement with its competitors, and advanced from 94½ on Monday to 102¾ on Thursday. It closes to-day at 100¼. American Sugar has gained 2⅜ points from the lowest price of the week, closing at 105⅝. Pacific Mail has been strong on the announcement of an agreement with the Panama Railroad Company for a division of territory, and advanced several points. National Lead was bid up on the declaration of a dividend.

Chicago Gas has gained about 5 points on heavy buying of the stock and a reported change in the control of the property. The advance in Distilling, General Electric and Tenn. Coal & Iron is from 1 to about 2 points.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending SEPTEMBER 20, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page

* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & South western.

a These figures include results on leased lines.

b Includes earnings from ferries, etc., not given separately. ‡ Mexican currency. c Includes only half of lines in which Union Pacific has a half interest.

Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of September our preliminary statement covers 48 roads, and shows 8·08 per cent gain in the aggregate over the same week last year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. *The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 510.*

a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.
d After deducting other expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in July was $74,772, against $62,538 last year, and for seven months to July 31 $506,249, against $497,284; after adding earnings received from Federal Government not from January 1 to July 31, 1895, was $560,340, against $554,983. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 50 cents in United States money—that is, all depreciation beyond 20 per cent has already been allowed for.
e Results of coal mining operations only.
f Mail for July, 1895, not paid until August, 1895.
g Including other income, the net from January 1 to August 31 was $185,882, against $290,964 for 1894, and from July 1 to August 31, $59,837, against $78,501.
* After deducting proportion due roads operated on a percentage basis and including results of operations of auxiliary companies, net in July, 1895, was $405,394, against $357,673 in 1894; for seven months ended July 31 $2,045,744, against $1,943,345, and for ten months from October 1 to July 31 $3,698,741, against $3,749,140.
† Includes only one-half of lines in which Union Pacific has a part interest. Figures are given exclusive of results on Oregon Railway & Navigation, Union Pacific Denver & Gulf, Fort Worth & Denver City, Leavenworth Topeka & Southwestern and Montana Union.
‡ May and June for 1895 estimated.
‖ Including income from ferries, &c.

‡ Including $6,860 receipts from interest and dividends total net was *209,057.
* After allowing for other income received.
† These charges are simply for taxes and rentals of leased lines and do not include bond interest.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

* Road in process of reconstruction.

† Weekly statements do not include amount received from trolley parties, which is kept separate until end of month.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

Louisville New Albany & Chicago Railway Company

(Report for the year ending June 30, 1895.)

The report of President Samuel Thomas says in part:

General Results.—The results for the year afford substantial reasons for satisfaction and encouragement. The last six months of 1894 was a period of great general depression, and the comparison with 1893 included four months during which the World's Fair was at the height of its success. The passenger earnings accordingly show a decrease of $338,649, which however was partly compensated by a gain in freight earnings of $287,161. The operating expenses were materially increased by the changing of the gauge on the 41 miles of the Switz City Branch and the re-laying of 75-pound rails for 41 miles on the Indianapolis Division. All the cost for this work was charged to operating expenses with the sole exception of the increased weight of the rail. Had this extraordinary expense not been incurred, the surplus for the year would probably have been double the amount shown.

The earnings for the first half of the present calendar year and for the period which has elapsed since the close of the fiscal year have shown constant improvement, and it is believed that the company will enjoy increasing advantage from the improved condition of the property.

The expenditure on maintenance of way is $32,000 less than the preceding year, although the property has been fully as well maintained. The expense for conducting transportation is $49,000 less, although a large increased tonnage has been carried.

Although the surplus over all charges is as yet moderate in amount, it is satisfactory to know that during the entire four years of the present management the company has never failed to earn a surplus, which promises henceforth to show marked increase.

Improvements.—The general office of the company in Chicago has been removed to the new freight and office building which was erected for the company by the Western Indiana Road, thereby effecting an important saving in rental and other expenses. The terminal facilities of the company in Chicago are now not excelled in convenience and location by any railway entering that city. The new shops which have been constructed at LaFayette, largely from subsidies by that community, are now substantially completed, and supply a requirement for want of which the company has suffered for many years. A purchase of 75-lb. steel rails has been made to complete the replacement of the 52-lb. rails still remaining for 49 miles on the Indianapolis Division. The entire change will be completed before winter. Ten steel bridges are being constructed to replace old Howe Truss structures, and this work now nearing completion will leave the entire permanent way in satisfactory and safe condition for the first time in the history of the company.

The management may now claim to have completed the programme which has been constantly followed from the beginning, namely, to convert the line from the obsolete standard of twenty years ago to the standard of modern requirement.

Equipment Mortgage.—As to the company's funding operations, the report says:

The improvements that have been in progress, together with deferred payments on equipment purchased, have made necessary at almost all times a floating debt. To discharge this floating debt authority was obtained from the stockholders for the creation of an equipment sinking fund 5 per cent mortgage, not to exceed $1,000,000, secured by first mortgage on the equipment heretofore purchased, costing $1,002,231, and by a general mortgage on the railway and other property of the company subject to existing liens; $700,000 of these bonds, together with 17,500 shares of preferred stock, were offered for subscription to the stockholders by circular of April 27, 1895. The portion of the securities thus offered which was not subscribed by the stockholders was taken at the same price by a syndicate, the only concession allowed to the syndicate being that payment for same was optional until Oct. 1. The large increase shown in the balance sheet in the amount due by individuals is due to the entry of the amount, about $350,000, remaining unpaid by the syndicate at that date, which, however, has since for the most part been paid by the syndicate in anticipation of their obligation maturing Oct. 1. The funds obtained by this operation have sufficed to discharge the floating obligations of the company, as appears by the balance sheet submitted.

Holders of equipment notes, amounting with interest to date of maturity to $150,848, declined to receive payment under discount. When, however, these notes shall have been paid off at maturity the company will become the owner of equipment costing $293,221, and will be entitled to receive against the same $291,000 of the equipment sinking fund bonds now in hands of the trustee.

Indiana & Illinois Southern.—The conversion of the Switz City branch to standard gauge has brought the company's line within a few miles of the Illinois coal field, through which extends an existing line known as the Indiana & Illinois Southern, from Switz City on the company's line to Effingham on the Vandalia route. This line is unfortunately at present in such dilapidated condition that an interchange of cars is not practicable, but it is hoped that its owners will be able to improve its condition so as to enable its safe operation, in which case the Monon will be able to inaugurate a large coal business with the mines only six miles from Switz City, and with St. Louis, with which the Monon Company already has a very considerable traffic.

Physical Condition, Etc.—The following table gives various statistics relating to track, equipment, train-loads, etc., for the fiscal years ending June 30.

Road—	1895.	1894
Main line and branches owned	510	510

—V. 60, p. 929.

Boston & Maine Railroad Company.

(Report for the year ending June 30, 1895.)

The report of President Lucius Tuttle says in part:

General Results.—Compared with the preceding fiscal year the revenues of your property have shown marked and satisfactory increases, notably during the last half of the period; and your directors have therefore resumed making sundry large improvements that had previously been suspended. The gross income increased $884,916 and charges to operating expenses increased $93,948. From the surplus of $1,379,081 dividends at the rate of six per cent were declared, and additions were made to the sinking funds (less bonds canceled) of $72,749, leaving a balance in excess of all charges of $72,243, which has been credited to the Profit and Loss account. The policy of making no present increase in the dividend rate, and of expending for necessary improvements all surplus earnings above six per cent upon the common and preferred stock, explains the large relative increase in the charges to operating expense. The operating expenses include the sum of $895,147 spent for purposes which are in the nature of permanent betterments to the property. [The items of which this sum is composed, as also other particulars from the report, were given in the advance statement on page 321 of the CHRONICLE for Aug. 24, which see.]

Concord & Montreal.—On the 29th of June, 1895, this company leased and entered into possession and operation of the road, franchises and property of the Concord & Montreal Railroad, but it was not practicable to include the accounts of that company for its fiscal year ending June 30 in this report. A copy of the indenture is given at the end of the pamphlet report.

The leasing of the Concord & Montreal Railroad adds 414 miles of road to the Boston & Maine system, giving it a total of 1,707 miles of operated road and 1,069 miles of controlled road; total, 2,776 miles.

Improvements, Etc.—Fifty-seven miles (6,749 tons) of new steel rails have been laid in the main tracks, 554,912 cross-ties, and 24,620 switch ties have been laid, and 10,104 rods of fence have been built. Five important steel bridges and one stone arch have been constructed, including the steel viaduct, 1,300 feet long, made necessary by the separation of grades at Chelsea Bridge in Boston. The Boston terminals have been completed. The main line from Boston to Beverly (17 miles of double track) is being ballasted, re-graded and re-laid with new rails and ties. For the separation of grades at crossings of highways, $373,581 has been expended during the year.

Compliance with the United States Statute requiring the equipment of all freight cars and engines used in inter-State traffic with automatic couplers and air brakes will make necessary an expenditure by this company during the next two years of about $1,000,000. The work of equipping our cars and engines is progressing favorably, and will be systematically continued with the expectation that its entire cost can be included monthly in the road's current operating expenses. Contracts were made during the year for new equipment to cost about $900,000. Under the contracts twelve locomotives and nine vestibule cars were delivered during the fiscal year.

Statistics.—The statistics of operations, financial results, etc., have been compiled for the CHRONICLE as follows:

OPERATIONS AND FISCAL RESULTS.

Old Colony Railway Company (New York New Haven & Hartford System.)

(Report for the year ending June 30, 1895.)

This company's road being operated under lease at a fixed rental by the New York New Haven & Hartford RR Co., the annual report of President Charles F. Choate contains no statement of earnings. The report, however, says:

Improvements, etc.—During the year 3,103 shares of the capital stock have been issued in exchange for 2,327 shares of the Old Colony Steamship Company. The improvements named in the last report have been continued, and the work of eliminating grade crossings has been vigorously prosecuted. The total amount expended for construction in the year, after deducting amounts received from the State and cities and towns on account of grade crossings, is $2,192,599, of which for land, $513,89[illegible]; for electrical equipment and second track on Nanta-ket Beach Branch, $280,645; removing grade crossings, $585,544; Boston & Providence RR. improvement account, including elevation of tracks, $776,481; miscellaneous, $36,078.

New Stock and Bonds.—The cost of this new construction has been paid in part by the sale of 6,000 shares of stock for $1,067,481, and $500,000 of bonds for $535,500. Bonds of the company due June 1, 1895, for $700,000, bearing 6 per cent interest, have been refunded at 4 per cent.

The large expenditures for the removal of grade crossings is still going on, and the directors believe that it will be best to meet it in part by the issue of bonds. Under previous votes of the stockholders, they are now authorized to issue bonds to the amount of $1,500,000, most of which will be required to meet maturing debts. In the ensuing year there will mature $1,100,000 of the 6 per cent bonds, and a mortgage note for $175,000, and they therefore ask for authority to issue additional bonds to an amount not exceeding $3,000,000. The cost of grade crossing changes already required will be large, and proceedings are now pending for many others. The dividends on stock and interest on bonds issued for this purpose will, under the lease, be paid by the lessee.

Toledo Peoria & Western Railway Company.

(Report for the year ending June 30, 1895.)

The report of President E. F. Leonard says in part:

General Remarks.—The decrease in express earnings is due to the fact that a former contract had expired and a new one had been made at a material reduction of rate of compensation. The expenditures on account of maintenance of way and structures have been larger than in any preceding year since the organization of the company in 1887. The chief items of expenditure showing increase have been for renewals of wooden bridges and trestles with permanent structures of stone or iron.

Funding of Coupons.—The proposition which was made to the bondholders September 10, 1894, to fund coupons maturing July 1, 1894, January 1, 1895, and July 1, 1895, has been accepted by nearly all holders. Since June 30, 1895, 22 bonds have come in, leaving 97 bonds which have not been presented. The entire floating debt of the company is now represented by the coupon scrip.

Voting Power.—Concerning the decision touching the voting power of the bonds, the report says:

The Supreme Court of Illinois has decided, in a suit entitled "Durkee vs. People *ex rel.* Askren" 155 Ill. p. 354, that the provisions of the bond and mortgage issued in pursuance of the contract between the Toledo Peoria & Western Railway Company and Messrs. Charles Moran and Thomas Denny, for the purchase of the railroad now owned by said company, which confer voting power upon the holders of the first mortgage bonds issued July 1, 1887, are void for the reason that they are in conflict with the constitution and laws of the State of Illinois, and that the by-laws of the company cannot confer upon bondholders the right to vote at meetings of stockholders.

Physical Condition Etc.—The following table gives various statistics relating to track, equipment, train-loads, etc., for the fiscal years ending June 30.

Road—	1895.	1894.
Main line and brchs. owned	230	230

V. 59, p. 601.

Toledo St. Louis & Kansas City Railroad.

(Report for year ending June 30, 1895.)

The report of Receiver R. B. F. Pierce shows the following: The road in operation consists of 450·72 miles of main track, running from Toledo to East St. Louis, all laid with 61½ pound steel rails, and 72 miles of sidings and spurs. This does not include the tracks of foreign companies over which passenger business is handled to and from the depots in St. Louis and in Toledo. The equipment includes 27 passenger cars, 2,639 freight cars, 88 locomotives and a miscellaneous equipment of 190 articles of rolling stock. Of the freight equipment 1,360 cars and 27 engines were bought on deferred payments at a cost of $1,076,601.

The earnings, expenses, etc., have been as follows:

Year ending June 30—	1895.	1894.	1893.
Earnings—	$	$	$
Freight earnings	1,416,486	1,175,720	1,772,128

Lands, shops, &c	152,519	Debentures bonds*	1,000,000
Debentures*	1,000,000	Int. on bonds (not due)	45,000
1st mort. unissued*	800,000	Notes payable (including equipm't notes)	938,859
Material and supplies	69,353	Scrip fund, etc	3,775
Cash & current assets	374,25	Current liabilities (including coupon int.)	1,669,832
Profit and loss	984,786		
Total	$30,512,516	Total	$30,512,516

* See other side of account. Of the debentures on June 30, 1894, only $76,000 were outstanding as collateral, the balance being held by the State Trust Co. The $400,000 of 1st mortgage bonds unissued were reserved for construction of a cut-off which has never been built. —V. 61, p. 473.

Alabama & Vicksburg Railway Co.

(Report for the year ending June 30, 1895.)

The report of President C. C. Harvey says in part:

Earnings, Etc.—The continued decrease in gross earnings is very disappointing. The gross earnings are less by $10,103 than in 1893-94. and by $137,063, or 19·79 per cent, than in 1891-92. This result is mainly owing to the low price of cotton for the past few years, which has seriously curtailed the resources of the Southern people, and partly to the general depression in business in the United States. There was an increase in cotton traffic of $13,014, but this was more than met by a decrease in lumber, coal, grain and provisions.

As to operating expenses and equipment the report says:

Maintenance of Way expenses include the following special expenditures: New steel bridge, with steel piers filled with concrete, across Big Black Creek in replacement of an old truss bridge (part cost), $41,151; new culverts, sidings and fencing, $16,669. The new bridge will permit the line of road being restored to a grade of one per cent, whereas the existing Howe truss bridge that was built in 1874 as a temporary work has, together with its approaches, grades varying from 2·6 to 3·13 per cent for a distance of 1,500 feet. During the year 12 miles of road were fully ballasted and 24 miles partly ballasted. The cost, $26,000, has been charged to net revenue account against the balance of net revenue brought forward from the previous year.

Twenty-three freight cars were equipped during the year with automatic couplers and air brakes; 167 cars are now equipped with automatic couplers and 166 with air brakes. It will be advisable to proceed more rapidly in equipping freight cars with air brakes and automatic couplers, in order to comply by Jan. 1, 1898, with the act of Congress approved March 2, 1893.

Physical Condition, etc.—Following are facts as to the character of the road, etc.:

Track, etc.—	1895.	1894.
Road owned....miles.	143	143
Of which 60-lb. steel	120	118

New Orleans & North Eastern Railroad Co.

(Report for the year ending June 30, 1895.)

President C. C. Harvey in his annual report says in part:

Earnings and Expenses.—The gross earnings for the year have been very disappointing. The decrease is $64,309, or 4·97 per cent, compared with the previous year, and the earnings are less by $191,302, or 13·46 per cent, than the earnings of two years ago. This result is mainly owing to the low price of cotton for the past few years, which has seriously curtailed the resources of the Southern people, and partly to the general depression of business. It was not considered to the best interest of the property to curtail expenses in Maintenance of Way and Maintenance of Cars.

As to maintenance, etc., expenses the report says:

Motive Power expenses include $24,000 to meet the monthly payments for four new engines purchased in the previous year on renewal account. Maintenance of Cars includes the cost of 30 freight cars of 60,000 lbs. capacity, with air brakes and automatic couplers, charged to operating expenses to take the place of a like number of cars of light capacity broken up; the cost of rebuilding 100 coal cars and 14 flat cars on regular trucks, of equipping 52 cars with air brakes and 50 cars with automatic couplers, etc., etc.

It will be advisable to proceed more rapidly in equipping freight cars with air-brakes and automatic couplers, in order to comply by Jan. 1, 1898, with the Act of Congress approved March 2nd, 1893.

The expenses of Maintenance of Way for the year include: Filling Lake Pontchartrain trestle, $15,016; ballasting, $5,872; widening embankments, $9,114; new sidings, $4,323; block signals, $4,851; for new and improved passenger station and offices at New Orleans in replacement of old building destroyed by fire, $11,052.

The work of filling the southern approach of Lake Pontchartrain trestle by dredge was completed in December last. The cost to date has been $244,124, charged to Maintenance of Way, part yearly, beginning in 1880-81.

The roadway, structures and equipment have been fully maintained during the past year and are in good condition.

Physical Condition, Etc.—The following table gives various statistics relating to track, equipment, train loads, etc. for the fiscal years ending June 30.

	1895.	1894.		1895.	1894.

—V. 59, p. 778.

Vicksburg Shreveport & Pacific Railroad Co.

(For the year ending June 30, 1895.)

The report of President C. C. Harvey says in part:

General Remarks.—Passenger earnings show a decrease of $6,544, or 4·64 per cent. Freight earnings show an increase of $85,619, or 11·14 per cent, which is entirely in cotton. The cotton crop along the line of road was much better than in the preceding year, but the continued low price realized for the product has greatly restricted general business. As to operating expenses and equipment the report says:

Maintenance of Way expenses include the following special expenditures. New deck span bridge over Tensas River in replacement of an old truss bridge (part cost), $5,626; filling trestles, $1,995; culverts, $3,662; ballasting 6 miles of road, $6,815; new fencing, $5,920. Maintenance of Cars includes the cost of 19 freight cars of 60,000 lb capacity, with air brakes and auto matic couplers, charged to operating expenses and credited to replacement fund to take the place of a like number of light capacity cars broken up. It also covers the cost of rebuilding 47 freight cars on repaired trucks, of 14 new roofs, and of equipping 65 cars with air brakes and 85 with automatic coupl'ers' 457 cars are now equipped with automatic couplers and 288 with air brakes. It will be necessary by Jan., 1898, to equip all freight cars with air brakes and automatic couplers in order to comply with the Act of Congress approved March 2, 1893.

Taxes.—In 1886 the State and local authorities of Louisiana agreed that the company should pay taxes on a low valuation for a period of ten years from 1884 inclusive in settlement of the company's claim that it was exempt from taxation for ten years. As the term of the compromise has expired an increased liability for taxes has been taken for the current year. The Board of Valuation valued the property at a very high figure, and the company has taken an appeal to the District Court of Ouachita.

Third Mortgage and Land Grant Bonds.—The net proceeds in cash for land sales have been insufficient to allow of a further payment of interest on these bonds. Holders, however, have, during the year, availed themselves of the option to use bonds instead of cash in the purchase of lands to the extent of $8,500 in bonds and $2,697 in coupons. To date $612,250 in bonds and $58,527 in coupons have been thus retired. The price at which the bonds may be used for the purchase of lands for the year commencing July 1, 1895, has been continued by your Board at 25 per cent of their face value.

Physical Condition, Etc.—The following table gives various statistics relating to track, equipment, train-loads, &c., for the fiscal years ending June 30:

	1895.	1894.		1895.	1894.
Road—			*Special statistics for two years*—		
Main lines & belts own'd	170½	170½	Earns p ton p.mile, cts.	2·01	2·48
Of which 60-lb. steel, miles	169	168	Earns. p pass. p m., cts.	2·66	2·67

—V. 59, p. 779.

Quincy Omaha & Kansas City Railway Company.

(Report for the year ending June 30, 1895.)

The trustees in possession, Theodore Gilman and Ward W. Jacobs, say in part in their report:

During the past year the physical condition of the road has been much improved. It is our intention to continue this work in the future and to endeavor, without large expense, to make a constant and gradual gain over the ordinary wear and tear. The subject of ballasting will receive careful attention. With the completion of the work now going on of laying the 250 gross tons of new rails, lately bought, there will be about 79 miles of steel rails in the main track out of a total of about 134 miles of track owned.

The floating debt of $60,000, as of July 1, 1894, has been reduced during the year until a balance of only $30,000 remained unpaid on June 30, 1895. It is confidently expected that this balance will be paid from current earnings by October 1. The coupons on the preferred bonds have been paid as they matured. [Since the annual report was issued the balance of the floating debt incurred in the purchase of 3,000 tons of steel rails has been paid, and net earnings can hereafter be applied towards the payment of interest on the non preferred bonds.]

"During the last half of the past year there has been an increase in the business of the road. The crop prospects in that part of Missouri contiguous to our road promise an abundant harvest and consequently a good fall and winter business, as the result of which the trustees expect that they will be able to accumulate funds which can be applied to the payment of interest on the non-preferred bonds during the coming year. If this expectation is realized the result should be very satisfactory to the bondholders while awaiting some change in the affairs of the road, which cannot long be delayed."

Earnings, expenses, etc., have been as follows:

EARNINGS, EXPENSES, ETC.

	1894-95.	1893-94.
Earnings -		
Passenger	$71,546	$70,439

GENERAL INVESTMENT NEWS

Reorganization Plans, etc.—The following is an index to all defaults, foreclosure sales, reorganization plans, the names of all reorganization committees, and all statements respecting the payment of overdue coupons, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Atchison System—Atlantic & Pacific RR.—*Frankfort Committee.*—At a meeting of the Frankfort and Amsterdam committees of Atlantic & Pacific bondholders Sept. 16 it was decided to act in harmony with the New York committee and renew the application for the appointment of a special receivership in November, unless in the meantime the committees' complaints shall be satisfactorily met. It was also decided, independently of this application, to press forward foreclosure proceedings in order to obtain possession of the line, and simultaneously take action with a view to establishing connections of the Atlantic & Pacific with other railway lines.—V. 61, p. 470.

Atchison System—St. Louis & San Francisco Railway.—*Coupon Notice.*—The receivers announce that the Union Trust Company will pay on October 1, 1895, the coupons due April 1, 1895, of the first mortgage 5 per cent trust bonds of 1887. The coupons due October 1 of the Fort Smith & Van Buren Bridge Company will be paid at No. 120 Broadway.—V. 61 p. 470.

Atchison Topeka & Santa Fe RR.—The reorganization is making rapid progress. Thursday was the last day for the payment without penalty of the final instalment of the assessment on the stock. Practically the whole amount had been paid by that time. Foreclosure sale has been ordered, but the date for it has not yet been fixed, so that some weeks will elapse before the new securities can be issued. It is the general impression that the new company will be in full control by the first of January or sooner. Receiver Joseph C. Wilson died this week, but the reorganization is so nearly completed that it is not thought likely that his place will be filled. Up to Thursday the securities deposited under the plan were as follows: Stock, $100,078,200 out of $102,000,000; general mortgage 4s, $127,795,500 out of $129,320,776; second mortgage As and old incomes, $78,421,500 out of $79,191,107; second mortgage Bs, $9,973,000 out of $10,000,000.—V. 61, p. 407.

Atchison Topeka & Santa Fe RR.—*Chicago Terminals*—Press dispatches from Chicago say that under the previous agreement with Gen. Torrence (see V. 61, p. 365) the Atchison reorganization committee has about completed arrangements for purchasing the Chicago terminal property, the title to which is now held in part by the Chicago Elevated Terminal Co. This terminal property, which is of great value, was transferred to the Chicago Terminal Co. under a contract, the terms of which were mentioned on page 151 of the CHRONICLE for July 27, 1895. One object of the transfer was to obtain the elevation of the tracks required by the city without expense to the Atchison. Circumstances have never favored the Chicago Terminal Co.'s enterprise, and the tracks have not been raised as intended. The adjustment with the Terminal Company is said to have been made on a mutually satisfactory basis, but it is unknown whether Gen. Torrence is to receive $1,000,000 as reported or a less sum.—V. 61, p. 470.

Atlantic Avenue RR. (of Brooklyn).—Earnings for the quarter and the 12 months ending June 30 have been reported as follows. The strike in January, 1895, caused a heavy loss of income:

3 months end. June 30.	*Gross earnings.*	*Net earnings.*	*Other income.*	*Interest, taxes, etc.*	*Balance.*
1895	$230,143	$18,833	$14,731	$76,679	def. $43,115
1894	241,484	90,352	8,222	71,222	sur. 27,352
12 months.					
1894-5	$854,206	$123,098	$69,615	$284,423	def. $91,710
1893-4	897,712	288,873	62,449	234,262	sur. 117,060

Loans and bills payable June 30, 1895, $261,368, against $135,000 on Dec. 31, 1894.

The Brooklyn Bath & West End RR., which is leased and operated by the Atlantic Avenue, showed a deficit under charges of $1,236 for the quarter ending June 30, 1895, against deficit of $2,039 for the 1894 quarter.—V. 60, p. 1144.

Birmingham Sheffield & Tennessee River RR.—*Foreclosure Sale.*—At Sheffield, Ala., on Sept. 16, this road was sold for $500,000 under foreclosure of the first mortgage to James G Leper of Philadelphia and J. Kennedy Tod of New York, representing the bondholders.—V. 61, p. 111.

Central RR. & Banking Co. of Georgia—*Sale of Collateral.*—The collateral pledged for the floating debt was sold Sept. 18 for $1,000,000 to representatives of the reorganization committee.—V. 61, p. 471.

Chicago & Jefferson Urban Transit—*Stock Assessment.*—The stockholders of this company, which is understood to be controlled by Mr. Yerkes, have been called upon to pay an assessment of $40 a share on all stock not full paid. The authorized capital is $2,000,000, of which $1,000,000 stock is outstanding, and to this last the assessment applies. The directors say they desire to build the road without issuing bonds.

Choctaw Oklahoma & Gulf RR—*Extension*—The extension, 121 miles in length, from Oklahoma City to South McAlister will be opened for traffic on or about Sept. 21.—V. 61, p. 68.

Citizens' Traction—Fort Pitt Street Ry (Pittsburg).—*Lease.*—The Citizens' Traction Co. has called a special meeting to vote upon a proposition to lease the road to the Fort Pitt Street Ry for 950 years at a guaranteed dividend of 6 per cent per annum. This is said to be one step in the proposed consolidation.—V. 61, p. 153.

Columbus Sandusky & Hocking Ry.—*Foreclosure Sale.*—Foreclosure sale of this road occurred on the 14th inst. at Bucyrus, Ohio. The bondholders' committee were opposed in the bidding by W. T. Watson, of Columbus, who raised the committee's bid of $1,500,000 to $4,000,000. The property

was finally knocked down to the committee at $4,100,000. On the following Monday W. E. Guerin, who conducted the bidding for the committee, filed a motion to set aside the sale on the ground that W. T. Watson was not a *bona fide* bidder. The Court sustained the motion and ordered a new sale, requiring the successful bidder to put up with the Master $500,000 bonds of the road or its equivalent. The sale is to be advertised for 30 days. The committee state that they represent 85 per cent of the bonds in the reorganization.—V. 61, p. 195

Galveston La Porte & Houston Ry.—*New Bonds*—Regarding the new bonds mentioned last week, the following is furnished the CHRONICLE by Mr. J. J. Arthur, Secretary to the Texas Railroad Commission:

Just a million of bonds in all has been approved and registered for the Galveston La Porte & Houston Ry., which is being completed between Houston and Galveston, about 56 miles. These bonds were registered as follows: $500,000 on July 6 and $500,000 on Sept. 3, both in pursuance of an authority issued by the Commission on March 13 last for said road to issue its bonds not to exceed $18,200 per mile.

When we consider that the cotton crop of Texas for year ending August 31 last was over three million bales, about half of which found its way through the port of Galveston, and that these are only two rail lines now in operation to Galveston, the importance of the third, the Galveston La Porte & Houston, will be admitted.—V. 61, p. 470.

Metropolitan RR. Co. (Washington)—*New Bonds.*—This company has sold the balance of the $1,870,000 loan, of which $700,000 was marketed late in 1894. The Ninth Street line was completed about the middle of August, and for the 20 days ending Sept. 12 the gross receipts of the company were $16,581 against $9,961 in 1894.—V. 61, p. 152.

National Lead—*Dividend*—This company has declared a dividend of one per cent on the common stock. The last previous dividend on this stock was one per cent, paid in December, 1894, three per cent in all being paid during 1894.—V. 60, p. 349.

New England RR.—New York New Haven & Hartford RR.—*Control of New England RR*—Mr. J. Pierpont Morgan on Thursday confirmed the report, which has been generally believed for some months past, that he holds control of the New England RR., formerly the New York & New England, having purchased the certificates representing the stock in the open market last spring. Mr. Morgan says he has offered the control of the road to the New York New Haven & Hartford at the price at which he bought it, and that he has no doubt the offer will be accepted.—V. 61, p. 420, 472

New York Lake Erie & Western RR.—*Listing.*—The New York Stock Exchange has listed J. P. Morgan & Co.'s receipts for deposits of Erie stocks on the assurance that a majority has been deposited. Yesterday was the last day for receiving assessments. It is said that there will be almost a unanimous payment by the shareholders. A majority of Erie stock is held abroad.—V. 61, p. 472.

New York & New England RR.—New England RR.—*Redemption of 1st Mortgage Bonds.*—Notice is given that on Oct. 1st, 1895 the certificates representing second mortgage bonds of the New York & New England RR. entitling the holders to receive par and interest for their bonds, will be redeemed, to wit, those issued by the Manhattan Trust Company at its office in New York City, and those issued by the Old Colony Trust Company at its office in Boston. No interest will be allowed after Oct. 1, 1895.—V. 61, p. 472.

New York New Haven & Hartford RR.—*New Director*—The directors have chosen Arthur D. Osborn, of New Haven, a director to succeed ex-Gov. Morris, deceased. Mr. Osborn is President of the Second National Bank.

Annual Meeting.—At the annual meeting of stockholders to be held Oct. 16 action will be taken upon the absorption of the Stonington Steamship line and a ratification of the General Assembly bill authorizing an increase of the steamboat company stock to $1,000,000, also the ratification of acts authorizing the absorption of the Union Wharf Company and the Tomlinson Bridge Company, whose stock was bought by the railroad recently. The President at this meeting will present his annual statement.—V. 61, p. 472.

North Carolina RR.—Southern Ry.—*Lease.*—The stockholders of the North Carolina Railroad, at a meeting in Greensboro, N. C., Sept. 17, unanimously ratified the lease of their road, made Aug. 16, for ninety years, to the Southern Railway Company.—V. 61, p. 325, 368

Northern Pacific RR.—Great Northern Ry.—*Injunction Suits*—At St. Paul, Sept. 14, Judge Sanborn denied the motion of Pearsall in the preliminary proceedings for an injunction to prevent the proposed agreement between the Northern Pacific and Great Northern companies. The case must, however, be heard on its merits.

On Sept. 17 Attorney General Childs, for the State of Minnesota, also brought suit to obtain an injunction against the deal on the ground that it is contrary to the laws of the State and would prevent competition.—V. 61, p. 367, 420, 470.

North & East River Ry. (New York)—*Foreclosure Sale*—The sale of this road is advertised for Oct. 10.

Old Colony RR.—New York New Haven & Hartford RR.—*New Stock*—R. L. Day & Co. will sell by auction at Boston on Wednesday, Sept. 25, at 11:30 A. M., by order of the directors, 6,000 shares of Old Colony RR. stock to provide funds for improvements.—V. 61, p. 472

Olympia Light & Power—*Foreclosure Suit*—The American Loan & Trust Co. as trustee of a mortgage for $250,000, under which $150,000 bonds have been sold, has brought suit for foreclosure, the Light & Power Company, which operates the street railway, etc., being unable to meet its interest.

Oregon Railway & Navigation.—*Plan Adopted*—At a meeting of the collateral trust mortgage bondholders on Monday the reorganization plan was adopted by a vote representing $4,337,000, out of a total of $5,182,000 bonds.

Foreclosure Sale.—The sale under the consolidated mortgage is advertised to take place October 8 in Portland, Ore. No upset price is named.

Sale of Trust Securities.—The auction sale of securities pledged for the collateral trust bonds, which has been twice adjourned, is now advertised for Sept. 26, 1895.—V. 61, p. 472.

Oregon Short Line & Utah Northern Ry.—*Foreclosure Suit.*—At Salt Lake City, Sept. 17, the attorney of the American Loan & Trust Company, as mortgage trustee, made application for foreclosure of the consolidated mortgage. Judge Riner ruled that the notice to the defendants was insufficient, and continued the matter until Sept. 27.—V. 61, p. 430.

Peoria Decatur & Evansville Ry.—*Stockholders' Committee.*—A protective committee of stockholders has been formed, consisting of Robert Maclay, President of the Knickerbocker Trust Company; George W. Quintard, Vice-President of the Eleventh Ward Bank; Edward V. Loew, President of the New York Real Estate Company; William F. Owens, of Beers & Owens, and Henry Aitken, of Elizabeth, N. J. Stockholders are invited to send proxies to the Knickerbocker Trust Company. Prompt action is required, as foreclosure is impending.—V. 61, p. 472.

Philadelphia & Erie RR.—*Minority Stockholders' Case*—Court No. 2 in Philadelphia on Thursday overruled the demurrer of the Pennsylvania RR. in the suit brought by Edward Wolf to secure an accounting, etc. The Court grants the Pennsylvania RR. Co. leave to answer the allegations.—V. 60, p. 390.

Philadelphia Gas.—*Dividend Deferred.*—The regular one per cent quarterly dividend is not to be paid at present. The directors say that the dividend is deferred because of the expenses, estimated at between $500,000 and $750,000, of building the new lines to the West Virginia gas fields, a distance of sixty-five miles.

Philadelphia & Reading RR.—*Answer in Foreclosure Suit.*—On September 15 the Philadelphia & Reading Railroad and Coal & Iron companies filed their answers to the suit in equity for the foreclosure of the Reading's general mortgage.

The answer makes the following admissions of formal matters:

The general mortgage bonds outstanding August 1, 1895, to $18,475,155 77, including $1,700,000 of said bonds pledged to secure the Car Trust, series Dof March 1, 1895. The income mortgage bonds outstanding were as follows: First preference, $3,319,400; second preference, $6,176,455 77; third preference, $2,978,716 54. The obligations of the companies issued in pursuance of orders of the Court, were as of August 1, 1895, $4,708,107, of which $1,938,842 were on account of the railroad company and $197,525 on account of the Coal & Iron Company.

The "floating debt" of the Railroad Company as of August 1, 1895, was $3,215,017, and of the Coal & Iron Company as of July 30, 1895, was $1,275,000. For this debt of the Railroad Company there are pledged various securities aggregating in value $3,155,000, and for the debt of the Coal & Iron Company securities of value at $1,764,000; other liabilities of the Railroad Company July 1, 1895 aggregated $3,[illegible]74, and for the Coal & Iron Company $7,800,641. In addition the Railroad Company has assumed notes of the Philadelphia Reading & New England RR. Company for $450,000

The answer denies that James Bell, or anybody for him, made any demand for payment of 418 general mortgage coupons of $20 each, falling due on July 1, 1893, denies that any such demand was made in writing, and denies that the written notice set out in the bill of complaint is a demand within the terms of Article 4 of the said mortgage.

In conclusion it is stated that "the defendants, however, aver that there are in the hands of their receivers certain unpledged assets of very considerable value, which may be applied to the payment of their liabilities. There are also large sums of money due the receivers from connecting railroad companies and various other debtors, a large part of which is collectible."

The bill of complaint is asked to be dismissed.

The answer describes the "other liabilities" as of July 1, 1895, as follows:

Car trust certificates	$2,372,000	Interest unpaid—	
Various old bonds, &c.	27,300	P. for to gen. mort...	$218,038
Deb. loan, 1881-1941	8,350,000	General mortgage...	4,467,594
Sink. fund loan, 1892-1902	1,931,010	Preferred bonds	141,704
Col. trust loan, 1892-1942	10,000,000	Interest accrued	463,693
Equipment notes	4,511,193	Current business debts	613,644
Wages	601,493	Connecting RR. cos...	239,159
Traffic and exp. vouch.	1,006,244	Taxes	44,000
Rentals	861,049	P. H. Prince & Co.	527,658
			$36,365,873

The Philadelphia & Reading Coal & Iron Company has outstanding:

Receivers' notes	$177,624	P. & R. RR. Co., account tolls, etc.	$1,870,703
Current business debts	191,899	Coal trust certificates	4,600,000
Freight and toll bills	256,823	Deb. bonds, 1872-1892	2,000
Coal purchases	152,079		$7,990,947
Wages and materials	6 5,792		
Uncollected interest	34,227		

—V. 61, p. 431, 470.

Pittsburg Street Railways—*Consolidation.*—It was reported this week that the details of the proposed Pittsburg consolidation were being arranged and that all the roads of Pittsburg and Allegheny except three would be brought under the control of the Consolidated Street Railway Co. Mr. Emmet C. Gibson, who is prominent in the negotiation, is quoted as

saying that "the deal is practically assured of consummation," but Mr. Elkins says a month may elapse before anything definite is decided.

Trunk Lines Meeting.—There was a full attendance of the presidents of the trunk lines and their principal Western connections yesterday to consider the report of the committee of sixteen presidents appointed June 27 last. The agreement heretofore considered was amended in several of its features and further referred to a committee of eight for revision and re-submission at another meeting of the presidents. It was also desired that the document be submitted to counsel and boards of directors of various companies in order to assure conformity with State and inter-State laws.

The sub-committee will meet to-day. The committee is constituted as follows: O. G. Murray, Vice-President Cleveland Cincinnati Chicago & St. Louis Ry.; E. B. Thomas, President Erie; Wm. Duncan, Vice-President B. & O. S W.; D. S. Gray, Pennsylvania Western lines; C. M. Hays, Vice-President Wabash; J. B. Garrett, Vice-President Lehigh Valley; L. J. Seargeant, General Manager Grand Trunk, and H. J. Hayden, Second Vice-President New York Central.

Union Pacific Ry.—*Payment of Coupons.*—Pursuant to Judge Sanborn's recent order, the Union Pacific receivers began paying on Thursday through the American Loan & Trust Co. of Boston, the overdue equipment trust bonds and coupons, series A, B and C, aggregating about $950,000, including 5 per cent interest on such overdue coupons and bonds from the dates when they respectively became due to date of payment.—V. 61, p. 473

Union Traction (Philadelphia)—*Officers, Etc*—On Tuesday this company, which is to absorb the Philadelphia, Electric and People's Traction companies, was formally organized. John Lowber Welsh, President of the People's Traction Company, was elected President of the new corporation, and Charles O. Kruger was chosen Secretary and Treasurer. The Board of Directors was elected as follows: P. A. B. Widener, W. L. Elkins, James McManes, Thomas Dolan and George D. Widener, of the Philadelphia Traction Co; J. Lowber Welsh, Wm. H. Shelmerdine and Caleb F. Fox, of the People's Traction Co., and J. J. Sullivan, Alexander M. Fox and Alfred Smith, of the Electric Traction Co. It was voted to increase the capital stock from $100,000, the sum named in the charter, to $30,000,000, as originally decided upon.—V. 61, p. 431.

United States Cordage—*Listing.*—The engraved Manhattan Trust Company certificates of deposit for $5,873,800 guaranteed stock, $7,418,300 preferred stock and $18,858,500 common stock were admitted to the list of the Stock Exchange on Thursday.—V. 61, p. 431.

West Chicago Street RR.—*New Bonds Authorized.*—The directors of this company have authorized an issue of $1,000,000 of 6 per cent debentures to pay for electrical construction. President Yerkes is quoted as saying:

Enough will be realized from this issue to about pay for the expenditures which have been made up to the present time. The work of electric construction will be completed in about two months. There will be some further indebtedness incurred in completing the work, but it will not be great, and it does not necessarily mean that there will be another issue of bonds. The company is making very satisfactory earnings. The last two months have been particularly satisfactory. The net earnings for August show an increase over August of last year of between $50,000 and $60,000. This is due chiefly to the electric equipment. The elevated roads, however, have interfered with us considerably. With a larger gross business than last year the operating expenses are now materially less than they were a year ago.—V. 60, p. 260.

Westchester Electric Ry. (New York)—Union Ry.—Earnings of the Westchester Electric for the quarter ending June 30 have been reported as follows. The road is 15½ miles long and is operated by the Union Railway of New York City:

3 mos. end. June 30.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance,
1895	$30,129	$10,616	$97	$7,391	sur. $3,322
1894	16,733	1,614	....	6,299	def. 4,685

There are $500,000 of Westchester Electric bonds and $500,000 of stock. Profit and loss deficit June 30, 1895, was $24,250.—V. 60, p. 838.

West End Street Ry (Boston).—*Earnings.*—The *Wall Street Journal* prints a monthly statement of earnings for this company for the years ending Sept. 30, 1894 and 1895 (September estimated). The total shows gross for the year 1894-95 $7,596,000, comparing with $6,720,000 in 1893-94, an increase of $876,000.—V. 60, p. 303.

Winona & Western Ry.—*Final Decree.*—Judge Caldwell has filed the final decree in the case of the Winona & Southwestern Railway Company, reorganized as the Winona & Western. Judge Caldwell orders that the owners of the bonds, coupons and certificates secured by the mortgage be paid a dividend of 16 2-10 per cent of the face value of their holdings and that a judgment be entered for the balance remaining due.—V. 59, p. 839.

Worcester Traction.—The Massachusetts State Railroad Commissioners have approved the lease of the North End Street Railroad to the Worcester Consolidated Street Railroad Company for ninety nine years. The terms of the lease are: First year, $7,250; second, $7,750, and every year thereafter until the expiration of the lease $8,000.—V. 59, p. 1142.

—The resumption of dividends by the Denver Consolidated Gas Company is interesting as showing the revival of business in Colorado. The last dividend was paid February 1894. The directors have just declared a dividend of 1 per cent, payable October 1 at the office of Maitland, Phelps & Co.

Reports and Documents.

NASHVILLE CHATTANOOGA & ST. LOUIS RAILWAY.

FORTY-FOURTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1895.

NASHVILLE, TENN., July 1, 1895.

To the Shareholders:

The Board of Directors of the Nashville Chattanooga & St. Louis Railway respectfully submit their Forty-fourth Annual Report for the fiscal year ending June 30, 1895.

LENGTH OF ROAD.

Main Line	320·21 miles
McMinnville	69·06 miles
Fayetteville & Columbia	86·47 miles
Huntsville & Gadsden	80·21 miles
Lebanon	29·21 miles
Tracy City	20·73 miles
Sequatchie Valley	66·49 miles
Centreville	61·88 miles
Shelbyville	8·01 miles
West Nashville	5·00 miles
Western & Atlantic Railroad (Leased)	136·82 miles
Rome Railroad	18·15 miles
Total	902·24 miles

The only change in mileage is the addition of the Rome Railroad, 18·15 miles, all the stock of which was purchased in October, 1894, and the earnings of that Road have been included since that date.

FINANCIAL.

There has been no change in the aggregate amount of the bonded debt, $14,923,000 00, since last report.

$20,000 00 of Tracy City Branch 6 per cent Bonds have been redeemed, and the same amount of First Consolidated five per cent Bonds issued in lieu.

The $162,000 of First Consolidated five per cent Bonds held in the Treasury as per last report have been sold, together with $20,000 00 issued in lieu of the same amount of Tracy City Branch six per cent Bonds redeemed.

GENERAL RESULTS.

GROSS EARNINGS.

Passenger	$965,434 63	
Freight	3,279,708 63	
Mail	145,512 89	
Express	61,905 10	
Rents	155,940 63	$4,608,501 88

OPERATING EXPENSES.

Maintenance of Way	$449,638 89	
Maintenance of Equipment	313,385 68	
Conducting Transportation	1,804,094 25	
General Expenses	159,241 12	2,726,359 94
Net Earnings		$1,882,141 94
Deducting charges against income:		
Interest	$952,645 00	
Taxes	124,780 17	
Improvements	21,858 56	
Rental Western Atlantic Railroad	420,012 00	1,519,295 73
Surplus		$362,846 21
To this should be added:		
Balance as per last report		33,872 08
Dividends from stocks and bonds		18,424 09
One hundred and eighty two First Consolidated Mort. Five Per Cent Bonds sold		182,000 00
Increase in liabilities		346,523 29
Total		$943,665 67
Which is accounted for:		
Dividends paid	$400,000 00	
Rome Railroad	204,757 69	
Increase in current assets	190,251 68	
Change of gauge and construction	118,211 14	
Tracy City Bonds	20,000 00	933,220 51
Balance		$10,445 16

COMPARISON.

The following statement shows operations of the road for year ending June 30, 1895, compared with previous year:

	—Year end. June 30, '95.—		—Year end June 30, '94.—	
	$	$	$	$
Gross Earnings	4,608,501 88		4,521,661 85	
Oper. Expenses	2,726,359 94		2,671,179 37	
Net Earnings		1,882,141 91		1,850,482 48
Interest	952,645 00		902,890 00	
Taxes	124,780 17		119 681 27	
Rental W. & A. RR	420,012 00		420,012 00	
Improvements	21,858 56	1,519,295 73	25,537 24	1,468,120 51
Surplus		362,846 21		382,361 97

Earnings and expenses per mile for four years have been:

	1891-92.	1892 93.	1893-94.	1894-95.
Gross Earnings	$6,609 00	$6,335 53	$5,109 22	$5,109 20
Operating Expenses	4,104 06	3,875 81	3,018 28	3,022 57
Net Earnings	$2,504 94	$2,459 72	$2,090 94	$2,086 63

Gross earnings per mile for the past ten years have been:

1885-86	$3,772 59
1886-87	4,623 74
1887-88	4,758 39
1888-89	5,077 17
1889-90	5,445 49
1890-91	6,048 01
1891-92	6,609 00
1892-93	6,335 53
1893-94	5,109 22
1894-95	5,109 20

The proportion of operating expenses to receipts for the same period was:

1885-86	60·40 per cent
1886-87	56 90 per cent
1887-88	57 25 per cent
1888-89	59·14 per cent
1889-90	60 7 per cent
1890-91	58·93 per cent
1891-92	62 09 per cent
1892-93	61 17 per cent
1893-94	59·09 per cent
1894-95	59·16 per cent

The train mileage for the year was:

Passenger	1,137,229
Freight	2,009,766
Mixed	394,777
Construction	65,164
Switching	687,325
Total	4,354,559

The earnings per train mile were:

Freight	$1 38
Passenger	95

EQUIPMENT.

ENGINES.

Two locomotives leased from the State of Georgia have been rebuilt and one purchased with the Rome Railroad; one W. & A. switch engine was sold; making the total equipment at this date 163, eighty-four of which were thoroughly overhauled during the year.

The engine mileage for the year was 4,354,559 miles, against 4,691,312 miles for the year preceding.

The cost per train mile has been:

	Cents.
For repairs	2 05
For engineers and firemen	6·98
For water supply	·96
For watching and wiping	·24
For stores	·57
For fuel	6 32
Total	16·72

CARS.

Passenger coaches	108	
Baggage cars	32	
Postal cars	10—	150
Freight equipment:		
Box cars	2,266	
Stock cars	104	
Coal cars	1,148	
Flat cars	532	
Coke cars	206	
Ore cars	50	
Caboose	160—	4,466
Other cars:		
Pay cars	1	
Wrecking cars	3	
Pile driver	1	
Cook cars	2	
Tool car	1—	8
Grand total		4,624

Sixty-one coaches, 20 baggage cars, 1 pay car and 1,471 freight cars received general repairs.

ROAD DEPARTMENT.

The total mileage, main and side track, of the Company is as follows:

	Main Line.	*Side Line.*
Mileage owned	765 42	141 25
Mileage leased	136 82	52 62
Total	902·24	193·87

The total mileage of steel and iron rails is shown in the tables below:

MILEAGE IN STEEL.

Division—	68 lbs.	60 lbs.	56 lbs.	56 lbs.	52 lbs.	40 lbs.	35 lbs.	Total
Chattanooga	96 13	1 21	48 51					145 85
Nashville	1 98		151 28		2·94			156 20
Western & Atlantic	75 36			61 18				136 54
Lebanon			29 21					29 21
Tennessee			11	22	1 69			34 91
McMinnville		6 61	18 10		31 69			56 40
Knoxville			1 42		94 20			95 62
Harriman & Middleton			52 35		2 86			55 21
Texas City	5 00		1 98		1 47			8 45
Appomattox Valley			72 18		25 36			97 54
Cumberland			1 61	12	1 61	21 01	9 60	45 41
West Nashville			3 90					3 90
Rome				18 15				18 15
Total	178·07	7 82	161 32	79·67	160·24	21 01	9 60	588·37

MILEAGE IN IRON.

Division—	56 lbs.	52 lbs.	50 lbs.	40 lbs.	Total
Nashville		11 98			11 98
Knoxville	6 68				6 68
McMinnville			12 98		12 98
Harriman & Columbia			2	01	3
Appomattox Valley	3 95	1 10			4 05
Cumberland		12 62		13 85	26 47
West Nashville	1 10				1 10
Total	10·73	25·68	13·28	13·86	63·87

ROADWAY.

There were 268,179 cross ties renewed, 22,784 feet of new side tracks constructed, and 5,115 cubic feet of ballast put in the track, and the entire line maintained in first-class order at a cost per mile of $495 60, or twelve cents per train mile.

BRIDGES AND TRESTLES.

One through plate girder, 40 feet 6 inches, has been put in place of the beam span of Bridge No. 101 on the W. & A. RR.

One combination span 109 feet long, reconstructed from the old Johnsonville spans taken out last year, has been erected in place of an oak piled trestle over Rock House Creek, on the Centreville Branch.

There has been 4,531 feet of trestle work filled in and 1,052 feet thrown out of use by cut-offs on the Centreville Branch, 374 feet of cedar pile trestle built and 9,464 lineal feet of cedar piles have been driven.

BRIDGEPORT ELEVATOR.

The old elevator at Bridgeport being too small to handle the increased corn and cotton traffic from the Tennessee River, a new one with a capacity of 1,500 sacks per hour has been constructed at a cost of $12,238 46.

TENNESSEE PHOSPHATE.

The phosphate mining in Hickman County bids fair to become a very important industry. There are now four companies engaged in mining and the output for the past year has been 44 933 tons. The question of building branches to these mines has been considered and various surveys made.

ROME RAILROAD.

In October last your Company purchased all the stock of the Rome Railroad, $250,000, at a cost of $186,015. It has since thoroughly rebuilt the track, taken up all the iron rail and put down 6 1 miles of steel. The cost of these improvements has been $18,742 69. This road extends from Rome, Ga., a distance of 18 15 miles to Kingston, and is a valuable connection of the Western & Atlantic Railroad.

WESTERN & ATLANTIC RAILROAD INCOME BONDS.

When your Company leased the Western & Atlantic Railroad from the State of Georgia on the 19th day of July, 1890, it was required to deposit $500,000 of the bonds of the State of Georgia with the Treasurer of said State as security for the faithful performance of the Lease Act. Your Company has also expended in the renewal and repairs of bridges, trestles, tracks, depots, etc., on that road, $670,774 40, for which it executed its notes. It was thought preferable to place this indebtedness in the form of an Income Bond; and at a called meeting of the Stockholders held on the 12th day of December, 1894, the following resolutions were adopted:

Resolved, By the Stockholders of the Nashville Chattanooga & St. Louis Railway that the President and Secretary of the Company are hereby authorized and directed to execute in its corporate name, and to issue, a series of coupon bonds, each for the sum of one thousand dollars ($1,000) bearing interest at the rate of five per cent per annum, payable semi-annually on the first days of January and July in each year, and to be designated "Western & Atlantic Railroad Income Bonds," to the amount in the aggregate of six hundred and fifty thousand dollars ($650,000), twenty-six (26) of said bonds to be due and payable on the first day of January, 1896, and in like manner twenty-six (26) of said bonds shall fall due and be payable on the first day of January in each year thereafter up to and including the year 1920, said bonds and coupons attached shall be made payable in the city of New York and in gold coin of the United States not inferior to the present standard.

Be it further resolved, That for the purpose of securing the payment of said bonds, the President and Secretary are authorized and directed to execute in its corporate name and on its behalf, and under its corporate seal, and to deliver to the Central Trust Company of New York, a mortgage or deed of trust, bearing date the first day of January, A. D. 1895, conveying by way of mortgage the net earnings and incomes of the Western & Atlantic Railroad, together with its entire leasehold interest in said road, as well as the five hundred thousand dollars ($500,000) of the bonds of the State of Georgia, deposited with the Treasurer of said State in pursuance of and subject to the terms and conditions of Section 5 and 6 *et seq.* of an Act of the General Assembly of the State of Georgia, approved November 12, 1890, entitled an "Act to provide for the lease of the Western & Atlantic Railroad, to define the rights, powers, liability and duty of the lessee, and for other purposes therewith connected," together with all and singular the property of every name and nature, real, personal, mixed, acquired and to be acquired, in possession or expectancy, including the corporate and other franchises of the Company, that the said Nashville Chattanooga & St. Louis Railway has acquired or will acquire under and by virtue of said lease, which will expire on the 27th day of December, 1919.

Be it further resolved, That the form of bond and mortgage now presented be and the same is hereby approved, with such changes or modifications, if any, as the Board of Directors may approve.

In pursuance of the authority conferred by the foregoing resolutions, $650,000 of Income Bonds have been prepared and executed and are now held in the Treasury. As soon as these bonds are sold, the proceeds will be applied towards the liquidation of the floating debt.

WESTERN & ATLANTIC RAILROAD.

The operations of the above railroad for the fiscal year ending June 30, 1895, were:

RECEIPTS.

The Board of Directors take pleasure in stating that the duties of the officers and employes have been efficiently and faithfully performed.

J. W. THOMAS,
President.

COMMERCIAL EPITOME.

FRIDAY NIGHT, September 20, 1895.

In the jobbing departments of trade there is a steady expansion of business, and also a perceptible increase in attention bestowed upon bulk parcels of staple merchandise at first hands. Good collections and close settlements of accounts are commonly reported, and country customers are commencing to accumulate new supplies for winter trade. There has been fair demand from exporters for breadstuffs, stimulated in part by stronger conditions prevailing in foreign markets. Crop indications have undergone no important change during the week, a light estimate for cotton continuing popular, corn appearing to realize all previous evidences of an abundant yield and an unusual liberal quantity of corn fodder is being secured. Autumn wheat-seeding has commenced and present indications point to an area equal to last year. The rice harvest, slightly delayed at outset by wet weather, is now progressing rapidly, and promises to realize previous indications of abundance. Speculation in leading staples has slightly increased.

For lard on the spot the demand has been limited, but prices have been without changes of importance, closing steady at 6·25c. for prime Western, 6c. for prime City and 6 60c. for refined for the Continent. There has been no speculation in the local market for lard futures and no important changes have been made in prices, closing slightly lower in sympathy with a decline in corn.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat	Mon.	Tues.	Wed	Thurs	Fri.
October.....c.	6·22	6·15	6·17	6·20	6·27	6·20
January.....c.	6·15	6·08	6·12	6·15	....	....

Pork has had a moderate call, but at lower prices, closing at $10 00@$10 25 for mess, $11 50@$13 50 for short clear and $12@$12 50 for family. Cut meats have been in increased demand and firmer, closing at 6¾@7¼c. for pickled bellies, 5½c. for pickled shoulders and 9@9½c. for pickled hams. Beef has been fairly active and firm, closing at $7 50@$8 for extra mess, $8 50@$9 for packet, $9@$12 for family and $16@$16 50 for extra India mess. Beef hams have been advanced, closing at $15 50. Tallow has been in moderate demand and steady, closing at 4¼c. Oleo-stearine has been without change, closing steady at 6c. Cotton-seed oil has been in limited demand and steady, closing at 26¾@27c. for prime yellow and 26@26½c. for off grade yellow. Butter has been in light supply for choice and firmer, closing at 18@21½c. for creamery. Cheese has been in fair demand and firm for fancy, closing at 5½@8¼c. for State factory, full cream. Fresh eggs have sold slowly and the close was easy at 16@16½c. for choice Western.

Coffee has shown an unsettled tone, but with general inclination in buyers' favor under influence of ample supplies in sight and some pressure to sell from primal markets. Rio quoted at 15¾c. for No. 7, good Cucuta 19c. and standard Java 27@27½c. Contracts for future delivery developed quite an irregular tone, but holders have shown some disposition to sell out. At the close covering on near months gives a little more tone. The following were the final asking prices:

Sept.....15·15c.	Dec.....14·70c.	March.....14·20c.	
Oct.....14 95c.	Jan.....14·50c.	April.....14·10c.	
Nov.....14·85c.	Feb.....14·35c.	May.....13·95c.	

Raw sugars have been sought after, the offerings were quite moderate and holders in some cases asking prices in excess of extreme bids obtainable. Centrifugal quoted at 3 5-16c. for 96-deg. test and muscovado at 3 1-16c. for 89-deg. test. Refined sugars more active and market higher, with production largely sold ahead; granulated quoted at 4½c. Teas steadier.

Kentucky tobacco has sold slowly, but prices have held steady. Seed leaf tobacco has been in fairly good demand at steady prices. The sales for the week were 3,155 cases as follows: 900 cases 1894 crop, New England Havana, 15@23½c.; 400 cases 1894 crop, New England seed leaf, 18@23c.; 125 cases 1893 crop, New England Havana seed, 8@12c.; 150 cases 1892 crop, New England Havana seed, 30@42½c.; 400 cases 1894 crop, Zimmers, 11@12c.; 100 cases 1893 crop, Zimmers, 11@12c.; 175 cases 1891 crop, Wisconsin Havana, p. t.; 160 cases 1892 crop, Wisconsin Havana, 9@14c.; 100 cases 1893 crop, Wisconsin Havana, 7@9c; 175 cases 1894 crop, Flats, 10@13c.; 150 cases 1894 crop, Pennsylvania seed leaf, 12@13c; 120 cases 1892 crop, Pennsylvania seed leaf, 9½@11c. and 200 cases 1892-93 crops Pennsylvania Havana, 10½@12½c.; also 1,800 bales Havana, 68c.@$1 10 and 300 bales Sumatra, 65c.@$2 85 in bond.

The speculative dealings in the market for Straits tin have been quiet and prices have declined in response to weaker foreign advices, closing steady at 14·30@14 35c. Ingot copper has been quiet and prices have weakened slightly, closing at 12@12 25c. for Lake. Lead has made a slight further decline but the close was steady at 3 85c. for domestic. Spelter has advanced and the close was firm at 4·25@4·30c. for domestic. Pig iron has been fairly active and firm, closing at $11 50@$14 for domestic.

Refined petroleum has been in fair demand and firm, closing at 7 10c. in bbls., 4·60c. in bulk and 7 50c. in cases; crude in bbls. has been nominal; naphtha, 9·25c. Crude certificates have declined, closing at 1·28½c. bid. Spirits turpentine has advanced, closing firm at 28@28½c. Rosins have weakened slightly, closing steady at $1 45@$1 50 for common to good strained. Wool has been in fair demand for foreign for reshipment at full prices; domestic firm but quiet. Hops have been dull and easy.

COTTON.

FRIDAY NIGHT, September 20, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 91,080 bales, against 47,589 bales last week and 15,093 bales the previous week, making the total receipts since the 1st of Sept., 1895, 152,421 bales, against 275,827 bales for the same period of 1894, showing a decrease since Sep. 1, 1895, of 123,406 bales.

Speculation in cotton for future delivery at this market has been in lessened volume. The tone was feverish, but general evidences appear to indicate that operators consider ruling prices a fair offset to estimated crop reduction and are becoming anxious in regard to probable attitude of consumers at home and abroad. During Saturday there were few buying orders and some pressure to sell from the South, creating a weak tone and a decline of 8 points net. On Monday the offering again came with some freedom and a great many engagements were sold out on stop-order limits, under which prices broke 14 points; but before the close some new investment demand developed and reduced the decline to 7 points net. During Tuesday there was irregularity, but final result was at a gain of 11@12 points, the advance stimulated in part by unfavorable crop accounts, and to some extent by reports of more interest shown by exporters and spinners. Wednesday, however, brought very few buying orders, and after a limited number of short contracts were covered prices closed 5 points net loss. Yesterday rumors of a forthcoming short crop estimate by prominent operators and reports of increased demand from exporters stimulated fresh demand and advanced prices 15@16 points net. To-day the turn is easier, with a few points lost under liquidation of long engagements. Cotton on the spot dull at 7⅛c. for middling uplands.

The total sales for forward delivery for the week are 1,309,600 bales. For immediate delivery the total sales foot up this week 4,061 bales, including 2,800 for export, 1,061 for consumption, — for speculation and 200 on contract. The following are the official quotations for each day of the past week—September 14 to September 20.

Fair	c. 1⅛ on	Good Ordinary.....	c. 1⅛ off
Middling Fair.....	7/8 on.	Good Middling Tinged ...	Even
Strict Good Middling.....	1/8 on.	Strict Middling Stained..	7/16 off.
Good Middling.....	5/16 on.	Middling Stained	7/16 off.
Strict Low Middling.....	3/16 off	Strict Low Mid. Stained..	25/32 off.
Low Middling	7/16 off.	Low Middling Stained....	1⅛ on
Strict Good Ordinary.....	13/16 off.		

On this basis the prices for a few of the grades would be as follows:

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Sept. 20), we add the item of exports from the United States, including in it the exports of Friday only.

	1895	1894	1893	1892
Stock at Liverpool.....bales.	1,0 4,000	836,000	1,034,000	1,175,000
Stock at London.....	6,000	10,000	9,000	8,000
Total Great Britain stock.	1,100,000	86 ,000	1,043,000	1,183,000
Stock at Hamburg.....	31,000	29,000	8,000	5,500

☞ The imports into Continental ports the past week have been 9,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 365,514 bales as compared with the same date of 1894, an *increase* of 124,786 bales over the corresponding date of 1893 and a decrease of 301,339 bales from 1892

At the Interior Towns the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to September 20, 1895				Movement to September 21, 1894

‡ Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 23,464 bales and are now 17,780 bales *less* than at same period last year. The receipts at all the towns have been 27,775 bales *less* than same week last year and since Sept. 1 are 73,798 bales *less* than for same time in 1894

Quotations for Middling Cotton at Other Markets.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Sept. 20	Closing Quotations for Middling Cotton on—

Eufaula	....	Natchez.....	7 11/16	Shreveport....	7 1/8

Receipts from the Plantations.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			Stk at Interior Towns.			Rec'pts from Plant'ns.		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
Aug. 16	12,248	7,213	1,749	79,179	56,939	41,714	6,760	4,217	.....
" 23	12,434	14,122	2,715	76,824	55,819	35,157	10,079	13,002	.....
" 30	17,634	25,173	6,503	74,501	56,366	34,782	15,311	25,720	6,428
Sept. 6.	28,117	33,396	15,033	79,928	55,913	35,892	33,544	36,974	16,203
" 13	53,703	85,884	47,533	84,871	66,830	43,275	58,646	96,801	54,922
" 20.	95,849	148,547	91,080	96,756	84,519	66,739	107,734	166,236	114,544

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 186,169 bales; in 1894 were 303,011 bales; in 1893 were 201,310 bales.

2.—That although the receipts at the outports the past week were 91,080 bales, the actual movement from plantations was only 114,544 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 166,236 bales and for 1893 they were 107,734 bales.

Overland Movement for the Week and since Sept. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Sept. 20 and since Sept. 1 in the last two years are as follows:

September 20.	1895.		1894	
	Week.	Since Sept. 1	Week	Since Sept. 1
Shipped—				
Via St. Louis.....	2,975	4,918	2,090	11,437
Via Cairo	39	288	1,273	2,181
Via Hannibal.....	.....	.....	.....	.....
Via Evansville.....	.....	.....	.....	.....
Via Louisville.....	147	1,061	449	1,060
Via Cincinnati	70	439	814	1,589
Via other routes, &c.....	507	1,603	403	1,917
Total gross overland	3,738	8,339	5,029	17,284
Deduct shipments—				
Overland to N. Y., Boston, &c	1,257	3,176	903	1,870
Between interior towns.	.....	.....	59	64
Inland, &c., from South. ...	493	1,734	751	1,967
Total to be deducted	1,750	4,910	1,719	3,901
Leaving total net overland	1,988	3,429	3,310	13,383

* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 1,988 bales, against 3,310 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 9,954 bales.

In Sight and Spinners' Takings.	1895		1894	
	Week.	Since Sept. 1.	Week	Since Sept. 1.
Receipts at ports to Sept. 20.....	91,080	152,421	148,547	275,827
Net overland to Sept. 20	1,988	3,421	3,310	13,383
Southern consumption to Sept. 20	19,000	55,000	17,000	49,000
Total marketed	112,068	210,850	168,857	338,210
Interior stocks in excess	23,464	34,039	17,689	27,184
Came into sight during week.	135,532	.....	186,546	.....
Total in sight Sept. 20	.....	244,889	.....	365,394
North'n spinners tak'gs to Sept. 20	17,010	33,819	28,446	72,093

It will be seen by the above that there has come into sight during the week 135,532 bales, against 186,546 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 120,505 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening denote that cotton is opening rapidly as a result of the high temperature and dry weather which has been quite general at the South during the week. Picking is consequently making rapid progress, and the movement of cotton to market is quite free. Further deterioration of the crop is claimed to have occurred in Texas, and damage is reported to have resulted from various causes in some districts of other States.

Galveston, Texas.—Further deterioration in the condition of cotton in Texas is claimed to have occurred the past week. We have had rain on five days of the week, the precipitation reaching thirty-five hundredths of an inch. Average thermometer 82, highest 87 and lowest 76.

Palestine, Texas.—It has been dry all the week. The thermometer has averaged 83, the highest being 93 and the lowest 68.

Huntsville, Texas.—Dry weather has prevailed all the week. The thermometer has averaged 81, ranging from 68 to 94.

Dallas, Texas.—There has been no rain the past week. The thermometer has ranged from 66 to 98, averaging 82.

San Antonio, Texas.—We have had rain on two days of the week, the precipitation being eleven hundredths of an inch. Average thermometer 83, highest 96, lowest 68.

Luling, Texas.—There has been rain on two days during the week, the rainfall being twenty-eight hundredths of an inch. The thermometer has averaged 83, the highest being 96 and the lowest 70.

Columbia, Texas.—Rain has fallen on one day of the week to the extent of twenty-eight hundredths of an inch. The thermometer has averaged 82, ranging from 68 to 96.

Cuero, Texas.—There has been rain on two days during the week, the rainfall reaching eighty-five hundredths of an inch. The thermometer has ranged from 62 to 94, averaging 78.

Brenham, Texas.—We have had rain on one day during the week, the rainfall reaching six hundredths of an inch. Average thermometer 83, highest 96 and and lowest 70.

Belton, Texas.—There has been but a trace of rain the past week. The thermometer has averaged 84, the highest being 98 and the lowest 69.

Fort Worth, Texas.—There has been no rain during the week. The thermometer has averaged 82, ranging from 66 to 97.

Weatherford, Texas.—The weather has been dry all the week. The thermometer has ranged from 66 to 96, averaging 81.

New Orleans, Louisiana.—There has been rain on two days during the week, and the rainfall reached one inch and thirteen hundredths. The thermometer has averaged 82.

Shreveport, Louisiana.—We have had no rain during the week. The thermometer has averaged 83, the highest being 98 and the lowest 70.

Columbus, Mississippi.—Cotton is opening rapidly. It has rained on one day of the week, the precipitation being thirty hundredths of an inch. Cotton is being rushed to market as a result of the urgent need for money. The thermometer has averaged 84, ranging from 66 to 101.

Leland, Mississippi.—Telegram not received.

Vicksburg, Mississippi.—We have had only a trace of rain during the week. Average thermometer 88, highest 95 and lowest 81.

Little Rock, Arkansas.—It is claimed that crops have been badly damaged. Dry weather has prevailed all the week. The thermometer has averaged 84, the highest being 96 and the lowest 72.

Helena, Arkansas.—There has been no rain since the 8th. We have had an extraordinary spell of weather the past eleven days. The maximum temperature has been above 92 and the lowest 70. This has caused cotton to open rapidly. Farmers say most of the cotton is now open. During the week the thermometer has averaged 88. There are no indications at present of cooler weather.

Mobile, Alabama.—Crop reports are quite poor. We have had rain on one day of the week, the rainfall reaching thirty-nine hundredths of an inch. The thermometer has averaged 82, the highest being 92 and the lowest 70.

Montgomery, Alabama.—The weather has been dry and hot all the week and picking continues uninterrupted. Crop reports show some improvement. The thermometer has averaged 82, ranging from 71 to 93.

Selma, Alabama.—Telegram not recived.

Memphis, Tennessee.—Except a light shower on Monday the weather has been dry and extremely hot all the week. The conditions continue unfavorable and cotton is deteriorating, but opening rapidly. The precipitation reached one hundredth of an inch. The thermometer has ranged from 73·1 to 96·1, averaging 83·9.

Nashville, Tennessee.—The week's rainfall has been thirty-eight hundredths of an inch. Average thermometer 81, highest 94, lowest 66.

Madison, Florida.—Picking is progressing finely. There has been rain on one day of the week, the precipitation being forty hundredths of an inch. Average thermometer 77, highest 89 and lowest 59.

Columbus, Georgia.—There has been no rain during the week. The thermometer has averaged 82, the highest being 92 and the lowest 70.

Savannah, Georgia.—We have had rain on two days of the week, to the extent of seventeen hundredths of an inch. The thermometer has averaged 78, ranging from 66 to 93.

Augusta, Georgia.—We have had no rain during the week. The thermometer has ranged from 66 to 92, averaging 79.

Albany, Georgia.—There has been rain the past week to the extent of forty-seven hundredths of an inch. Average thermometer 78·8, highest 89 and lowest 68.

Charleston, South Carolina.—Dry weather has prevailed all the week. The thermometer has averaged 79, the highest being 90 and the lowest 69.

Stateburg, South Carolina.—It has rained on one day of the week, the precipitation reaching seventy-three hundredths of an inch. The thermometer has ranged from 62 to 91, averaging 75·6.

Greenwood, South Carolina.—Hot, dry weather has greatly damaged late cotton, and it is now claimed that the crop in this section will be fully one-third less than last year. Cotton is all open in some districts. Average thermometer 75, highest 86 and lowest 65.

Wilson, North Carolina.—Telegram not received.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 9 o'clock September 19, 1895, and September 20, 1894.

		Sept. 19, '95.	Sept. 20, '94.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Sept. 20.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Contin't.	Total.	Great Britain	Contin't.	Total.	This Week.	Since Sept. 1.
1895	.....	5,000	5,000	.....	9,000	9,000	7,000	22,000
1894	5,000	.....	5,000	5,000	5,000	10,000	4,000	11,000
1893	.....	4,000	4,000	1,000	15,000	16,000	5,000	14,000
1892	.....	2,000	2,000	.....	5,000	5,000	2,000	6,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 3,000 bales and no difference in shipments, and the shipments since Sept. 1 show a *decrease* of 1,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week.			Shipments since Sept. 1		
	Great Britain.	Contin't.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1895	.....	1,000	1,000	1,000	1,000	2,000
1894	1,000	.....	1,000	1,000	.....	1,000
Madras—						
1895	1,000	.....	1,000	1,000	2,000	3,000
1894	2,000	.....	2,000	4,000	5,000	9,000
All others—						
1895	2,000	.....	2,000	3,000	3,000	6,000
1894	1,000	1,000	2,000	3,000	4,000	7,000
Total all—						
1895	3,000	1,000	4,000	5,000	6,000	11,000
1894	4,000	1,000	5,000	8,000	6,000	14,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *less* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments all Europe from—	1895.		1894.		1893.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay	5,000	9,000	5,000	10,000	4,000	16,000
All other ports	4,000	11,000	5,000	14,000	6,000	11,000
Total	9,000	20,000	10,000	24,000	10,000	27,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, September 18	1895.	1894	1893.
Receipts (cantars*)			
This week	24,000	7,000	3,000
Since Sept. 1.	38,000	36,000	4,000

	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week	Since Sept. 1.
Exports (bales)—						
To Liverpool	.....	.....	1,000	6,000	.....	2,000
To Continent†	2,000	5,000	2,000	13,000	1,000	7,000
Total Europe	2,000	5,000	3,000	19,000	1,000	9,000

* A cantar is 98 pounds.

† Of which to America in 1895, 200 bales; in 1894, —— bales; in 1893, —— bales.

This statement shows that the receipts for the week ending Sept. 18 were 24,000 cantars and the shipments to all Europe 5,000 bales

Manchester Market.—Our report received by cable to night from Manchester states that the market is firm for both yarns and shirtings. Manufacturers are generally complaining. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.			1894.		
	32s Cop. Twist.	8½ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.	Cott'n Mid. Uplds

Exports of Cotton Goods from Great Britain.—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of August and since October 1 in 1894-95 and 1893-94, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

Sundry articles							21,180	18,634
Total exports of cotton manufactures							1,166,673	1,150,168

The foregoing shows that there has been exported from the United Kingdom during the eleven months 1,166,673,000 lbs. of manufactured cotton, against 1,150,168,000 lbs. last year, or an increase of 16,505,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during August and since October 1 in each of the last three years:

Exports of piece goods and yarns to principal countries in August, and from October 1 to August 31.

Piece Goods—Yards. (000s omitted.)	August.			Oct. 1 to Aug. 31.		
	1895.	1894.	1893.	1894-95.	1893-94.	1892-93.

Jute Butts, Bagging, &c.—There has been a fair inquiry for jute bagging the past week, and quotations have been maintained at 4⅛c. for 1¾ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Car-load lots of standard brands are quoted at 4⅛c. for 1¾ lbs., 4⅝c. for 2 lbs. and 5⅛c. for 2¼ lbs. f. o. b. at New York. Jute butts on the spot have been without feature at 1⅛c. for paper quality, 1½c. for mixing and bagging quality nominal.

Hand-Book for Daily Cable Records of American, East Indian, Egyptian and Brazilian Cotton Statistics, &c.—The twenty-fifth annual issue of the daily cable records of the principal cotton crops of the world has just been published by Mr. John Jones of Liverpool and London. All the features of previous years have been retained, the pages being so arranged that the daily and weekly figures for this year as received can be inserted side by side with those for the previous year. The book will be found on sale at the office of the Commercial Telegram Bureau, 19 Beaver Street.

Sea Island Cotton Movement.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (September 20) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

Receipts to Sept. 20.	1895.		1894.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1895.	1894.
Savannah	410	554	1,855	2,720	777	2,669
Charleston	37	55	37	42	55	481
Florida, &c.	.....	.....	.....	.....	.....	445
Total	447	609	1,892	2,762	833	3,595

The exports for the week ending this evening reach a total of 81 bales, of which 1 bale were to Great Britain, 80 to France and — to Reval, and the amount forwarded to Northern mills has been 75 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Sept. 20.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
Savannah	.....	.....	.....	.....	.....	.....	75	100
Charl't'n, &c	.....	.....	.....	.....	.....	.....	.....	.....
Florida, &c.	.....	.....	.....	.....	.....	.....	.....	.....
New York	1	80	81	1	80	81	.....	.....
Boston	.....	.....	.....	.....	.....	.....	.....	.....
Baltimore	.....	.....	.....	.....	.....	.....	.....	.....
Total	1	80	81	1	80	81	75	100
Total 1894	10	.....	10	34	.....	34	287	421

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore, Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Sept. 20 at Savannah, for Floridas, common, 9c.; medium fine, 12c.; choice, 15½c.

Charleston, Carolinas, all nominal.

Domestic Exports of Cotton Manufactures.—Through the courtesy of Mr. W. C. Ford, Chief of the Bureau of Statistics, we have received this week a statement showing the exports of domestic cotton manufactures for July and for the seven months ended July 31, 1895, with like figures for the corresponding periods of the previous year, and give them below:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending July 31.		7 mos. ending July 31.	
	1895.	1894.	1895.	1894.
United Kingdom yards	318,401	606,096	5,760,651	4,971,483

The Exports of Cotton from New York this week show an increase compared with last week, the total reaching 6,496 bales, against 1,888 bales last week. Below we give our usual table, showing the exports of cotton from New York, and the direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1895, and in the last column the total for the same period of the previous year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 18,856 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamers Aurania, 1,000 upland and 1 sea Island ... Cevic, 4,148	5,149
To Hull, per steamer Buffalo, 200	200
To London, per steamer Rialto, 10	10
To Havre, per steamers La Touraine, 121 upland and 80 sea Island	201
To Bremen, per steamer Neckar, 2	2
To Genoa, per steamer Olympia, 634	634
To Barcelona, per steamer Glenogle, 300	300
NEW ORLEANS—To Liverpool, per steamers Costa Rican, 7,150 ... Vesta, 5,100	12,250
BOSTON—To Liverpool, per steamers Cephalonia, 3....Philadelphian, 30 Manxmore, 56	109
BALTIMORE—To Liverpool, per steamer Queensmore, 1	1
Total	18,856

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Hull.	London.	Havre.	Bremen.	Genoa.	Yokohama	Total.

BREADSTUFFS.

FRIDAY, September 20, 1895.

There has been a decided improvement in the market for wheat flour. An advance in the grain stimulated a demand from buyers and a moderate amount of business has been transacted at an advance of about 5 to 10 cents per barrel. City mills have sold fairly well at full values. For rye flour the demand has been slow and prices weakened slightly. Buckwheat has sold slowly, but prices have been quoted unchanged. Corn meal has been lowered 5c. per bbl. and at the decline a fair amount of business has been transacted. To-day the market for wheat flour was quiet and unchanged.

The speculative dealings in the market for wheat futures have been fairly active and prices have advanced on a brisk demand from "shorts," both here and at the West, to cover contracts, stimulated by an improved "cash" trade, stronger foreign advices, accompanied by buying orders, and increased attention having been given to the smallness of the movement of the winter-wheat crop. In the spot market shippers have been moderate buyers, and prices have advanced with futures. The sales yesterday included No. 1 Northern at Dec. price f. o. b. afloat, No. 1 hard spring at 2½c. over Dec. f. o. b. afloat for old crop, and 1¾@2c. over new crop; also No. 2 red winter at ¾c. under Dec. f. o. b. To-day the market opened higher in response to stronger foreign advances and foreign buying, but subsequently selling by professional traders caused a decline. The spot market was moderately active. The sales were principally choice ungraded red winter on private terms, but included No. 1 hard spring at 1⅞c. over Dec. f. o. b. afloat for new; No. 2 red winter was quoted at ½c. under Dec. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.

May delivery....c.	67 5/8	67 3/8	68	69	68 5/8	67 7/8

There has been a fairly active speculation in the market for Indian corn futures and prices have advanced on buying by shorts to cover contracts, stimulated by a small movement from the interior and in sympathy with the rise in wheat. In the spot market shippers have been less active buyers, but prices have advanced with futures. The sales yesterday included No. 2 mixed at 40 1/8@40 1/2c. in elevator and 2 1/8c. over Oct. f. o. b. afloat. To-day the market was weak and lower under general selling, prompted by favorable weather conditions at the West for the maturing of the crop. The spot

market was fairly active; shippers were buyers at lower prices. The sales included No. 2 mixed at 38½c. in elevator and 21¼@23⅜c. over October f. o. b. afloat; also No. 2 white at 40¼c. f. o. b. afloat.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

May delivery....c.	35¼	35⅛	35¼	35⅝	35⅝	35⅛

Oats for future delivery have been moderately active at advancing prices, with "shorts" fair buyers to cover contracts on a disappointment in the crop movement and in sympathy with the improvement in wheat and corn. The spot market has been fairly active and firmer. The sales yesterday included No. 2 mixed at 24¾c. in elevator and No. 2 white at 29@29¼c. in elevator. To-day the market was weaker in sympathy with the decline in wheat and corn. The spot market was quiet and easier. The sales included No. 2 mixed at 24½c. in elevator and No. 2 white at 28¾@29c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., September 20, 1895.

Strength and dulness have been the prominent features of the market for cotton goods during the past week. The demand was at no time more than moderate, and since Wednesday has been further curtailed by the break through the observance of the Jewish New Year, which took an important division of buyers more or less out of the market. In the aggregate the week's business has probably been the smallest for a considerable time past, but despite this there does not appear to be any increase in the supplies available for purchases for immediate delivery or any greater willingness on the part of the general body of manufacturers to accept orders to any extent for future delivery. Prices are firm throughout the staple goods market, and although there have been fewer advances reported than usual and the upward tendency has been less pronounced, indications show that it would not be safe to assume that prices generally have reached their top limit in either brown, bleached or colored cottons. Buyers may be fairly well provided for the moment, but there ought to be a considerable business coming forward between now and the end of next month for current requirements, and the market is in such shape that sellers can easily afford to await developments in an attitude of pronounced firmness. Cotton dress goods have been quiet but firm in printed lines of all kinds. The woolen and worsted departments have ruled dull and unchanged in men's wear, with a fair business in dress goods in fall and new spring lines.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 16 were 1,784 packages, valued at $98,056, their destination being to the points specified in the table below:

NEW YORK TO SEPT. 16.	1895. Week.	1895. Since Jan. 1.	1894 Week.	1894 Since Jan. 1.

* From New England mill points direct.

The value of the New York exports for the year has been $6,350,283 in 1895 against $8,416,786 in 1894.

Business in brown sheetings and drills has been quiet throughout, neither converters, jobbers nor exporters operating with any freedom. Coarse yarn goods are very firm at previous advances, and some fine yarn makes of sheetings have advanced ¼c. per yard. Stocks small in the aggregate. Bleached goods are without change; the demand is quiet at extreme prices in fine medium and low grades, but sellers are very firm. Wide sheetings are quiet but steady after some irregularity. Cotton flannels and blankets strongly held. Under print cloth influences kid-finished cambrics have been raised to the basis of 3⅞c. for 64 squares, but the demand is quiet. Other linings are quiet but very firm in price. Ticks are well sold ahead and leading makes are ¼c. higher on the week. Some fair sales of denims have been reported, but the general demand is quiet at firm prices. Plaids, cheviots, checks and stripes are all in moderate request on previous basis. Reorders for prints have shown further falling off in fancy and other regular calicoes, but the market is decidedly firm, prints cloths being a good support. Ginghams dull in all divisions. Business in print cloths has been practically at a standstill with extras nominally 3⅛c. The labor situation is perplexing and there is a disposition to await next week's developments.

WOOLEN GOODS.—The men's-wear woolen and worsted division has been even more inactive this week than before, particularly towards the close, when agents reported something akin to stagnation. In no description of either staples or fancies have sales been otherwise than small, a few pieces here and there constituting the bulk of individual transactions. Agents are awaiting the development of the re-order business with considerable anxiety, particularly those handling medium-grade goods, the condition of the latter in heavy-weights being far from satisfactory. There has been no material change in the price situation in any direction. Overcoatings and cloakings have also disclosed quiet conditions and unchanged prices. Satinets are dull, as are union and cotton-warp cassimeres. Woolen and worsted dress goods for spring are being opened, and some lines have already secured good orders at a slight advance on last season in bright fabrics. Re-orders for fall fabrics are fair for the time of year.

FOREIGN DRY GOODS.—Business has been indifferent in fall merchandise, with the exception of the demand for most popular lines of dress fabrics and ribbons. In spring goods woolen, worsted and mohair dress goods have been ordered in considerable quantities and a fair business done in new silks at firm prices to 5 to 10 per cent advance on last season.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending September 19, and since January 1, 1895, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1895 AND 1894.	Week ending Sept. 20, 1894. Pkgs.	Week ending Sept. 20, 1894. Value.	Since Jan. 1, 1894. Pkgs.	Since Jan. 1, 1894. The importations into this port during the week ending September 19 were 11,612 packages, valued at $2,782,106, against 16,337 packages, valued at $2,829,938, last year. The withdrawals for consumption were 7,151 packages, valued at $1,829,480, against 14,541 packages, valued at $2,301,013, last year. The withdrawals for consumption and warehouse from the market were 13,411 packages, valued at $3,210,284, against 17,056 packages, valued at $2,932,958, last year.

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(The above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopedia of information respecting Municipal Debts.

Forged Bonds of Lyons, Ill.—It has been reported this week that three bonds for $1,000 each, purporting to have been issued by the School Board of Lyons, Ill., have been pronounced forgeries. The bonds are held by the Seward National Bank, of Seward, Neb., as security for a loan, and it was upon their inquiry that the discovery of the fraud was made. This is the second time that forged school bonds of the town of Lyons have come to light. About two years ago similar securities for $2,000 held by the First National Bank of Chicago were found to be bogus.

Suggestions Regarding Municipal Bond Issues.—The United States Mortgage & Trust Co. of New York have issued a small pamphlet containing valuable suggestions regarding the issuance of municipal securities and urging the importance of surrounding them with every safeguard against fraud and forgery. It is estimated that more than $125,000,000 of municipal securities are issued every year in the United States and the present total issue is approximately $1,841,693,000.

The high public credit in this country has established for these bonds an exceedingly low interest rate, and has made them a favorite investment for the most conservative purchasers, savings banks, insurance companies, executors and trustees being among the heaviest investors. The time for adopting better methods of protection to both the community issuing its bonds and the investor buying them seems to be ripe. The United States Mortgage & Trust Company is prepared to arrange for the engraving of bonds in the best possible manner, and for securing high legal opinion to be endorsed thereon. The system suggested by the company would assure the counter signature of securities by a responsible trust company, a convenient place of registration in the chief financial city of the country, a certificate of legality by eminent counsel and the advantages of a payment of interest in New York. Such bonds would be likely to command a better interest rate and be a more popular and readily salable security, and would soon receive favorable discrimination from investors.

Whatcom and Fair Haven, Wash.—The cities of Whatcom and Fair Haven will vote to-day on consolidation. An unusually large number of voters have registered in both places.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale

Alva, O. T.—Bonds of this municipality have recently been voted for water-works.

Blue Earth City, Minn.—Proposals will be received until October 8, 1895, by C. N. Brown, Village Recorder, for the purchase of $10,000 of 6 per cent 20-year village bonds. Interest will be payable annually, both principal and interest to be payable at the Chemical National Bank, New York.

Boston, Mass.—Only one bid was received on September 18 for the purchase of a $1,000,000 temporary loan, issued in anticipation of taxes of 1895, that from the New England Trust Company offering to take $500,000 of the certificates bearing 2·475 per cent, which amount was awarded to them. The certificates are dated September 20, 1895, and are payable November 2, 1895.

Brownton, Minn.—On Sept. 2, 1895, the village of Brownton sold $6,000 of 6 per cent water-works bonds to Jefferson & Kasson of St. Paul for $6,001. Interest is payable semi-annually on January 1 and July 1, and the principal will mature in ten years.

Canyon County, Idaho.—On September 7, 1895, this county sold $40,000 of 6 per cent funding bonds to Roberts Bros., of Spokane, for $40,600, the firm to furnish the blank bonds. The loan matures at the rate of $4,000 yearly in from 11 to 20 years from date. Two other bids were received for the securities, one from De Van & Co., of Los Angeles, offering par, and one from S. A. Kean, of Chicago, offering a premium of $600.

Carbon County, Pa.—This county will issue bonds for about $15,000. The loan will bear interest at the rate of 4 per cent, payable semi-annually, in April and October, and will be redeemable in from 12 to 15 years.

The county's indebtedness consists of $2,000 of non-interest bearing bonds; $83,000 of 4 per cent court house bonds, issued in 1893; $34,250 of additional court house bonds, issued in 1894, and a temporary loan of $10,000; total $134,250.

Columbus, Ind.—Water-works extension bonds to the amount of $15,000 have recently been disposed of;

Corunna, Mich.—A vote will be taken September 21 on issuing $30,000 of water-works bonds.

District of Columbia.—On Sept. 17, 1895, the District of Columbia sold $27,000 of 3·65 per cent registered bonds to Harvey Fisk & Sons of New York at 112 50 flat. This was the only bid received. The securities are dated August 1, 1895.

Edmunds County, S. Dakota.—Proposals will be received until Oct. 8 by George C. Meadows, County Auditor, for the purchase of $13,000 of funding bonds. The loan will bear interest at the rate of 6 per cent and run 10 years.

Everett, Mass.—Proposals will be received until Sept. 30 for the purchase of $25,000 of sinking fund bonds. The securities are dated July 1, 1895, bear interest at the rate of 4 per cent and mature in 30 years.

Far Rockaway, N. Y.—The Board of Trustees of the village of Far Rockaway are entertaining the proposition to increase the assessed valuation of the village from $300,000 to $2,400,000. This step is proposed for the purpose of facilitating the sale of sewer bonds to the amount of $75,000, which were recently voted. The present assessment is only about 10 per cent of actual value.

Fergus Falls, Minn.—An election held September 7 on issuing $25,000 of electric-light bonds resulted in favor of the proposition.

Forest Grove, Oreg.—A vote taken on issuing $30,000 of water-works bonds resulted in favor of the proposition.

Grant City, Mo.—Five per cent 10-20-year water works bonds of this city to the amount of $5 000 will soon be issued. The city has at present only a floating debt of $700. Its assessed valuation for 1894, which is three-fourths of actual value, was $274,530; total tax (per $1,000) $15 00. The population, according to local estimate, is 1,000.

Hempstead, N. Y.—It is reported that on Sept. 19 this village sold $42,000 of 4 per cent gold water bonds, maturing at the rate of $2,000 yearly from Jan. 1, 1903 to 1923, to Daniel A. Moran & Co., of New York, at 101·10.

Houston, Texas.—An election will be held to-day to vote on issuing $200,000 of bonds for paving and improving the streets. The maturity of the bonds will not exceed 40 years and they are to be issued in amounts not to exceed $200,000 in any period of twelve months.

Idaho County, Idaho.—Proposals will be received until Oct. 16, 1895 by A. W. Talkington, Clerk of Board of County Commissioners, for the purchase of $74,500 of 10-20 year bonds. No bonds have heretofore been issued by this county.

Kentland, Ind.—Proposals will be received until to-day for the purchase of $6,000 of water-works bonds.

Logansport, Ind.—Proposals will be received until Oct. 8, 1895, by John B. Winters, City Clerk, for the purchase of $235,000 of 4 per cent funding bonds. The securities will be dated Nov. 1, 1895, interest will be payable semi-annually, and the principal will mature Nov. 1, 1915, with an option of call Nov. 1, 1905, or at the maturity of any interest coupon payment thereafter, both principal and interest to be payable at

the banking house of Winslow, Lanier & Co., New York. The loan will be issued to refund $160,000 of water-works funding bonds and $75,000 of L. C. & S. W. R.R. funding bonds.

A statement of the city's financial condition on May 1, 1895, is given below:

LOANS—	Amount.		
Water-works f'd'g bds.	$160,000 00	Total debt May 1, 1895	$363,052
L. C. & S.W. f'd'g bds.	75,000 00	Cash on hand.	32,587
Water-works imp. bds.	15,000 00	Net debt May 1, 1895..	330,465
Water-works certifs...	20,000 00	Tax valuation 1894 ...	7,993,940
School bonds	50,000 00	Real valuation (est.)...	12,000,000
Pratt charitable fund.	5,000 00	Population in 1890 was ...	13,328
City orders outstand'g	38,052 23	Population in 1880 was ...	11,198
		Population 1895 (est.)	17,500

The $20,000 of water-works certificates are payable from the net earnings of the water-works only and are in nowise a charge against the general fund of the city. These certificates were originally $37,000 and fall due $6,000 annually. Principal and interest has always been paid promptly when due, the last of which is payable Oct. 1, 1898.

The $15,000 of water-works improvement bonds was originally $20,000. Principal and interest are provided for by a special levy of eight cents on each $100 valuation, and the last of these bonds will fall due and be redeemed Dec. 1, 1897.

The Pratt charitable fund mentioned in this statement was bequeathed to the city by the late U. S. Senator Daniel D. Pratt, and is a debt that the city is only obligated to pay the interest on, amounting to $300 annually, to certain charitable institutions of the city.

Lorain, Ohio.—On Sept. 14, 1895, the village of Lorain sold $25,000 of 5 per cent Black River improvement bonds dated Sept. 15, 1894, and maturing at the rate of $5,000 each year commencing Sept. 15, 1924, and $25,000 of 5 per cent water-works extension bonds dated Aug. 24, 1895, and redeemable Aug. 24, 1915, for $51,000. Interest on both loans is payable semi-annually, the bonds to be payable at the Chase National Bank, New York.

Louisville, Ohio.—Proposals will be received until Sept. 30 for the purchase of $204,000 of 4 per cent 20-year refunding bonds.

Mansfield, Ohio.—Water-works extension bonds of Mansfield to the amount of $20,000 have been voted.

Massachusetts.—Proposals will be received until September 25, 1895, by State Treasurer E. P. Shaw for the purchase of $5,000,000 of 3½ per cent "Metropolitan Water Loan" bonds. The securities will be dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1, and the principal will mature July 1, 1935. Both interest and principal will be payable in gold coin or its equivalent.

The State Treasurer's advertisement will be found elsewhere in this Department.

McKeesport, Pa.—City Comptroller G. B. Herwick has given notice that $21,000 of city water bonds of the issue of 1884 numbered from 5 to 25, both inclusive, will be redeemed by the Sinking Fund Commissioners on or after September 30, 1895. Interest on the securities will cease on the date named.

Medford, Mass.—On September 13, 1895, the City of Medford sold $185,000 of 4 per cent sewerage bonds to E. H. Rollins & Sons at 107·09 and accrued interest. The securities are dated August 1, 1895, interest will be payable semi-annually on February 1 and August 1, and the principal will mature at the rate of $20,000 yearly from Aug. 1, 1916 to 1919; $25,000 yearly from Au. 1, 1920 to 1922, and $30,000 on Aug. 1, 1923.

Four bids were received for the loan as follows:

	Bid.
R. H. Rollins & Sons, Boston.....	107·09
Blake Brothers & Co., Boston	105·03
R. L. Day & Co., Boston.....	106·589
Brewster, Cobb & Estabrook, Boston	104·79

Montevideo, Minn.—Water-works bonds to the amount of $5,000 have been voted.

New York State.—There will be submitted to the people of New York State at the general election to be held in November the proposition to issue bonds of the State to the amount of nine millions of dollars for the purpose of enlarging and improving the Erie Canal, the Champlain Canal and the Oswego Canal.

North Dakota.—Proposals will be received until October 10 for the purchase of $33,000 of refunding bonds, the loan to bear interest at the rate of 4 per cent and to run 20 years.

METROPOLITAN WATER LOAN

BONDS.

Sealed proposals for the purchase of Bonds of the "Metropolitan Water Loan" for five million dollars ($5,000,000) will be received at this office until 12 o'clock noon, on Wednesday, September 25, 1895, at which time they will be publicly opened and read.

This Loan will be issued in Coupon Bonds of $1,000 each, dated July 1st, 1895, payable July 1st, 1935, with interest at the rate of three and one-half per cent per annum, payable semi-annually on the first days of January and July in each year.

Principal and interest will be paid in Gold Coin of the United States of America, or its equivalent, at the office of the Treasurer of the Commonwealth in Boston.

The "Metropolitan Water Loan" is authorized by Chapter 488 of the Acts of 1895.

The right is reserved to reject any and all proposals.

E. P. SHAW,
Treasurer and Receiver-General.

BOUGHT AND SOLD.

Oxford, Iowa.—The people of this town have voted to issue $8,000 of bonds for water-works.

Piqua, Ohio.—Six bids were received on Sept. 16 for the purchase of $30,000 of 5 per cent 1 to 9 year street improvement bonds, and the loan was awarded to the German-American Investment Company of New York at 102·81.

Rome, N. Y.—The people of Rome will vote Sept. 30 on issuing $240,000 of sewer bonds.

Santa Monica, Calif.—Five per cent sewer bonds of this municipality to the amount of $40,000 have recently been voted. Interest will be payable semi-annually in January and July, at New York, and the loan will mature at the rate of one-fortieth yearly.

Santa Monica has at present no debt of any kind. Its assessed valuation for 1895, which is one-third of actual value, is $1,800,000; total tax (per $1,000), $29 50. The population according to local figures is 2,700.

Sleepy Eye Independent School District No. 24, Minn.—Bonds to the amount of $20,000 have recently been voted to complete the new school building.

Sturgis, S. Dak.—Seven per cent 15-year court-house and jail bonds of Sturgis to the amount of $7,000 have been recently awarded to the contractor.

Syracuse, N. Y.—Proposals will be received until Sept. 30 for the purchase of $300,000 of water works bonds, the loan to bear interest at the rate of 3½ per cent.

Taunton, Mass.—An official report to the CHRONICLE gives the following list of bids received on September 11 for the purchase of $7,125 of 10-year sewer bonds, $7,000 of 20-year sewer bonds and $6,000 of 10-year bridge bonds. The securities were all awarded to R. L. Day & Co.

	Bid for $13,125 10 yr. bonds.	Bid for $7,000 20-yr. bonds
R L Day & Co.	104 547	106 527
Blake Brothers & Co	104 135	104 21
E H Rollins & Sons	103 41	105 20
Blodget, Merritt & Co.	102 17	104 29
W J Hayes & Sons	104 03	

Farson, Leach & Co. also bid for $14,125 at 104·135 and $6,000 at 102·855.

The securities are dated June 1, 1895, and interest at the rate of 4 per cent is payable semi-annually in June and December at the Atlas National Bank or at the office of the City Treasurer. Payment of principal and interest is secured by sinking fund.

Turner, Ill.—The people of this municipality will vote October 15 on constructing water-works at an estimated cost of $10,000, for which purpose bonds will probably be issued.

Washington.—The following report of a decision of the Washington Supreme Court in opposition to the issuance of State bonds for $1,500,000 is taken from the *Seattle Post and Intelligencer*. "The Supreme Court has denied the application for a writ of mandamus in the case of Attorney-General Jones against the State Board of Finance, consisting of the Governor, Auditor and Treasurer. This was an application for a writ to compel the board to issue bonds of the State to an amount aggregating more than $1,500,000, and to cause the same to be sold for the purpose of funding outstanding warrants drawn on the general military and tide land funds pursuant to the act of the last Legislature. The constitutionality of this enactment is assailed upon many grounds, only one of which the Supreme Court notices, as its determination disposes of the case. The authority conferred by the act is to issue and sell bonds, and, conceding that it is fairly to be inferred that the funds realized from the sale shall be applied to the payment of the present indebtedness of the State, it is apparent that after said bonds are sold and until the proceeds are applied, the indebtedness of the State would be increased more than $1,500,000, or to an amount beyond the limit of indebtedness fixed by the Constitution. Nor is it a sufficient answer, in the opinion of the Supreme Court, to say that it must be presumed that officers intrusted to carry out the provisions of the act will fully discharge their duties and that the present indebtedness of the State will be extinguished by the proceeds of the bonds, and ultimately the indebtedness will be reduced to its present limit.

"The Supreme Court fully coincides with the opinion expressed in Dow township vs. Cummins, 142 U. S., 366, that if

the proceeds of the sale are used by municipal officers as directed by the statute in paying off old debts the aggregate indebtedness will ultimately be reduced to the former limit, but it is none the less true that it has been increased in the interval, and unless those officers do their duty the increase will be permanent. The act is plainly in conflict with the constitution, and the application is denied."

Westwood, Ohio.—On September 16, 1895, this village sold $13,000 of 5 per cent sidewalk bonds dated Sept. 2, 1895, and payable Sept. 2, 1925, for $13,600; $20,000 of 5 per cent water-works bonds dated July 1, 1895, and payable July 1, 1915, for $20,836, and $4,438 60 of 6 per cent Beechwood Ave. bonds dated Sept. 16, 1895, and payable at the rate of $443 86 yearly in from one to ten years at 105·27. The securities were awarded to the Atlas National Bank of Cincinnati, Ohio. Interest on the sidewalk and water-works bonds is payable semi-annually and that on the Beechwood Ave. bonds annually, both principal and interest of all the loans to be payable at the Atlas National Bank, Cincinnati.

Other bids received for the securities were as follows: The German National Bank of Cincinnati offered a premium of $20·60 for the Beechwood Ave. bonds, $60 for the sidewalk bonds and $95 for the water-works bonds; Dietz, Denison & Prior of Cleveland offered 102·09 for the sidewalk bonds and 101·63 for the water-works bonds; Seasongood & Mayer of Cincinnati offered 105·25 for the Beechwood Ave. bonds, 106·55 for the sidewalk bonds and 105·35 for the water-works bonds. In addition to these, seven proposals were received which were informal, and which were not considered or read.

Willimantic, Conn.—It is reported that on Sept. 19, 1895, this city sold $100,000 of 4 per cent coupon bonds to the German American American Investment Company at 103·47 The securities are to be dated October 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925, with an option of call after October 1, 1910.

Yonkers, N. Y.—It is reported that $60,000 of 4 per cent water-works bonds of Yonkers have been sold to N. W. Harris & Co. at 107·57.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Berks County, Pa.—Below is a statement of the financial condition of this county, which has been taken from a specia report to the CHRONICLE.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, September 28, have been $1,006,728,550, against $1,096,220,039 last week and $831,-038,022 the corresponding week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending September 28		
	1895.	1894.	Per Cent.
New York	$468,902,650	$354,452,872	+24.5
Boston	72,522,851	59,[illegible],078	+20.8
Philadelphia	57,440,335	49,[illegible],550	+15.4
Baltimore	9,[illegible],487	9,[illegible],632	+ 9.2
Chicago	76,[illegible],783	71,[illegible],570	+ 6.5
St. Louis	19,711,990	15,[illegible],990	+24.2
New Orleans	4,170,650	4,[illegible],003	+20.2
Seven cities, 5 days	$703,[illegible],947	$574,207,502	+22.5
Other cities, 5 days	111,316,872	113,[illegible],341	+ 9.7
Total all cities, 5 days	$[illegible]	$[illegible]	+20.6
All cities, 1 day	170,477,331	137,[illegible],118	+23.6
Total all cities for week	$1,006,728,550	$[illegible]	+21.1

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

Our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, September 21, are given below, and we also present the results for the corresponding week in 1894, 1893 and 1892. In comparison with the preceding week there is an increase in the aggregate exchanges of over fifty-two million dollars, and at New York alone the gain is nearly thirty-nine millions. Contrasted with the week of 1894 the total for the whole country shows an increase of 20·9 per cent. Compared with the week of 1893 the current returns record an excess of 38·5 per cent and the loss from 1892 is 4·3 per cent. Outside of New York the gain over 1894 is 11 per cent. The excess over 1893 reaches 26 per cent, but making comparison with 1892 the decrease is seen to be 5·5 per cent.

Clearings at—	Week ending September 21.

THE FINANCIAL SITUATION.

We noted in this column a week ago that the facts indicated a freer movement of cotton, more commercial bills and lower exchange. The week has justified this forecast. Since we last wrote there has been a gradual fall in rates for sterling, due mainly to more liberal offerings of commercial bills against cotton, both for spot and future delivery. It is thought likely that after the gold shipments of this week have been made (which are reported to have been ordered from Berlin) the outward movement will cease for the season. That is a conclusion which the freer movement of the crops, especially of cotton, encourages; but it also finds support from the upward tendency of money. Last Saturday's bank return showed a loss of $7,564,700 in cash and of $4,241,750 in surplus reserve, reducing the latter to $22,443,500. This week's statement is sure to show a further and considerable loss in cash, for the movement of currency to the interior is increasing. The Treasury's better facilities to the banks for changing large notes into small notes tends to enlarge the flow. Through this exchange at the Sub-Treasury legal tenders are said to be accumulating, and the outstanding silver certificates are being increased. That is a wise policy, inasmuch as among the Treasury assets there were reported September 26 $22,186,983 net of silver dollars on hand. We are now passing through the period of the year when it is possible to make that balance a live asset. We all know that silver dollars will not circulate. During the time of an active demand for currency from the interior for moving crops silver certificates of small denominations can be easily distributed, and this year, with business so much more active, the presumption is that they will likewise be slow in returning.

An important event of the week is the distribution by Messrs. Morgan and Belmont among the members of the Syndicate of the profit of the negotiation of the 4 per cent bonds which they bought from the Government in February last. We have remarked upon the event in a subsequent column. This dissolution seems to dispose of two questions that have elicited discussion. One of these is that other bond sale which so many have tried to make themselves think was imminent. The Syndicate say they close up their work because the Government has no further need for their services. That statement pretty effectually settles that piece of gossip. Another impending catastrophe so confidently foretold which the closing of the accounts dissipates is the suggested dreadful state the Syndicate had put themselves in by over-selling foreign exchange. Who does not remember the oracular utterances published in London and New York with which the public was overwhelmed, depicting the deplorable situation the policy pursued had produced, so full of danger and sure to bring disaster in the end—the doleful references to the deferring of payments, the damming up of Niagara, &c. Where are these prophets of evil now and what has become of the accumulated unpaid balances they were so much concerned about? The Syndicate has gone out of business, settled up with its partners, and foreign exchange has dropped below the gold-exporting point! The public would certainly like to hear from some of these writers.

The muddle into which Northern Pacific affairs have fallen in the courts reveals a striking anomaly in the judicial administration of embarrassed properties. The receivers of the Northern Pacific were appointed by Judge Jenkins of the United States Circuit Court for the Seventh Judicial District, and they have operated the property under his direction ever since. The Northern Pacific system is of course a very extensive one, running half way across the Continent, and part of it lies in the Eighth Judicial District, over which Judge Caldwell presides, and part also lies in the Ninth District, of which Hanford is Circuit Judge. These are all courts of co-ordinate powers, but no conflict of authority has arisen between them until lately, when Judge Hanford decided that he would not recognize the Seventh Circuit as the court of primary jurisdiction and ordered the receivers to file new bonds and report to him hereafter. The receivers hence found themselves in a very bad plight. They were still amenable to Judge Jenkins, and Judge Hanford insisted that they must likewise be amenable to him. Questions which had already been disposed of before Judge Jenkins were again to be brought up before Judge Hanford. Judge Caldwell fortunately did not further complicate the situation by claiming primary jurisdiction for his circuit. In the dilemma in which the receivers were placed they took the only course open to them and tendered their resignations to Judge Jenkins. They well say that they cannot in justice to themselves or their bondsmen submit their accounts and their acts to the adjudication of different tribunals.

We have not the slightest doubt that some sensible way out of the difficulty will be speedily found. But that such an occurrence should be at all possible illustrates the need for a change in the existing practice in this respect. Other cases of the kind are of course not unknown, but they have fortunately been very rare, and consequently the difficulties and dangers involved in them have not received the attention they deserve. It is clear that a large system like the Northern Pacific cannot be operated to advantage in sections, but must be operated as an entirety. It is equally clear that under the prevailing practice where a property, as in this instance, extends through several districts, each Circuit Judge can claim jurisdiction over the part within his circuit, and that nothing but comity stands in the way of the exercise of such separate jurisdiction and the evils resulting from it. Obviously receivers cannot take instructions from more than one court. A receiver is but an arm of the court, and it is not simply questions of law that have to be dealt with, but questions of management and of policy, regarding which differences of opinion are almost certain to arise. Is an important property to be sacrificed and public interests in a great railroad system to be embarrassed because different Circuit Judges think each should have primary jurisdiction. To ask this question is to answer it. Manifestly such possibilities must be rendered impracticable, and if the present experience is any guide something more binding than comity is required to prevent them. A reform in this particular being imperatively called for, it is to be hoped the Judges will be able to devise a remedy among themselves, but if not the legislative power will have to take action and safeguard the vast interests coming within the care of the courts.

We referred last Saturday to the excellent exhibit of earnings which the Chicago Milwaukee & St. Paul had made for the second week of September as illustrating the great change that has occurred in the outlook for many railroad properties as the result of the excellent crops raised the present year and the expansion and

revival in trade which is so actively in progress. We now have some further statements of like character for the same road. We may mention first the return for the third week of September: here the 1895 figures do not approach so close to the large totals of 1892 and 1891 as was the case in the previous week, but nevertheless there is a very heavy gain over the earnings of last year, the increase being $69,709, or over 10 per cent. In addition the company has this week issued its return of gross and net earnings for the month of August, showing an improvement of $169,908 in gross and of $196,712 in net. In this instance the gain does not appear very large, but it is to be remembered that it follows a gain in both gross and net last year. The gross at $2,662,986 for August this year compares with $2,904,552 in August 1892, thus falling below the best previous total, but the net now is $1,021,634, while in 1892 it was only $876,582, and the total is, we believe, the largest for any August in the history of the company. For July and August combined—the first two months of the current fiscal year—the company is $679,922 ahead of 1894 in the gross and $555,535 ahead in the net. It deserves to be noted, too, that Vice-President Bond has this week been quoted as saying that he believed the company's earnings for the current fiscal year would be the largest on record. What a gain this means will appear when we say that in the late fiscal year gross was nearly 8½ million dollars less than in 1892-3 and net about 1¾ million dollars less than in that year. Perhaps it is too much to expect that the company can make up the whole of this large loss in gross, but certainly present indications point to a very noteworthy recovery. That the St. Paul is not alone in showing decided improvement is evident from the fact that the Chicago & North Western for August reports $319,970 increase over last year in gross and the St. Paul & Omaha $88,560 increase.

The Pennsylvania Railroad too—that system which is so typical of the nation's activities—has a very good statement of earnings for August. The increase in gross is $346,906 on the lines east of Pittsburg and Erie and $324,696 on the lines west of Pittsburg, making together $671,602. This, to be sure, is smaller than the amounts for the months immediately preceding, but it is to be remembered that in August we are for the first time comparing with improved results last year, the gain in gross for the combined system in that month of 1894 having been $419,470, to which this year's gain therefore is additional; in all the month's preceding we had been comparing with very heavy losses, the falling off in July last year having been $1,400,945, in June $2,784,583 and in May $2,904,188. In the net the Pennsylvania shows for August the present year a gain of $81,097 on the Eastern lines and of $259,831 on the Western lines, or $340,929 in the aggregate. Even the Philadelphia & Reading has a very good return for August, showing $122,751 gain in gross and $134,765 gain in net for the Railroad Company; in the case of the operations of the Coal & Iron Company gross receipts have been added to in the sum of $570,754, but repeating past experience under which the larger the amount of coal mined the poorer the net results, the net of the Coal Company shows a falling off of $91,679. The Central of New Jersey for August reports $121,553 increase in gross and $156,268 increase in net.

Money on call representing bankers' balances was moderately active early in the week and loans for small amounts were recorded at 3 per cent; but after Tuesday there were fairly liberal offerings from trust companies, institutions other than banks and by the foreign bankers, and the rate fell off to 1½ per cent, with some loans at 2 per cent. The average for the week has been about 1¾ per cent. Banks quote 2 per cent as the minimum. Time contracts are in only moderate request, but rates are firmly held at 2 per cent for thirty days, 2½@3 per cent for sixty to ninety days, 3½ per cent for four and 3½@4 per cent for five to seven months. There is a good assortment of commercial paper offering and brokers report that the indications point to higher rates. At the moment the demand is chiefly from Eastern cities and from other near-by points and there is a good inquiry from city institutions other than banks, but the larger banks are still out of the market, being engaged in meeting the wants of their correspondents. Rates are 4½@4¾ per cent for sixty to ninety-day endorsed bills receivable, 4½@5 per cent for four months' commission house and prime four months' single names, 5@5½ per cent for prime six months' and 5½@7 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 11-16 of 1 per cent. The open market rate at Paris is 1¾ per cent and at Berlin and Frankfort it is 2¾ per cent. According to our special cable from London the Bank of England gained £868,216 bullion during the week, and held at the close of the week £43,743,252. Our correspondent further advises us that the gain was due to the import of £1,603,000 (of which £1,076,000 came from the United States, £339,000 from Australia and £188,000 was bought in the open market), to £104,000 sent to the interior of Great Britain and to £630,000 exported, of which £300,000 was to Egypt, £250,000 to the Cape and £80,000 to South America.

The foreign exchange market has been lower this week, partly because of more active money, but mainly in consequence of more liberal offerings of spot and near cotton bills at important concessions and a moderate demand. After the middle of the week the market was affected by offerings of cable transfers against a shipment of gold to Berlin by W. H. Crossman & Bro. on Thursday and also by offerings against an intended shipment by the same house on Saturday. This destination of these consignments was said to be due to orders sent out from Berlin which had previously been offered to prominent banking houses here but declined by them and the orders were finally secured by the London agents of W. H. Crossman & Bro. It was reported on Thursday that the price of American gold coin had been advanced in London to 76 shillings 4½ pence per ounce, but bankers had no advices of an advance beyond 76 shillings 4 pence, and they said that even if the higher price was being paid it would scarcely justify the export of gold as an exchange operation at the then current rates for sterling. The market opened weak on Monday, influenced by a light demand and by somewhat liberal offerings of commercial bills against cotton which had accumulated since Friday. Rates for actual business in sterling were quoted at a reduction of one quarter of a cent compared with those at the close of Friday, and the demand was small in expectation of still lower rates. The Bank of British North America reduced nominal rates half a cent. On Tuesday the

tone was steady, and one feature was the offering of bills against an intended shipment of $1,000,000 gold by W. H. Crossman & Bro. on Thursday. On Wednesday the market opened easy, though not quotably lower, but during the day the tone grew weak in consequence of offerings of commercial bills, and the Bank of Montreal and the Merchants' Bank of Canada reduced nominal rates half a cent, while rates for actual business were half a cent lower for long and one-quarter of a cent for short. On Thursday the market was weak. Brown Bros., Baring, Magoun & Co., the Bank of British North America, Heidelbach, Ickelheimer & Co. and Lazard Freres reduced their posted rates half a cent and rates for actual business were quoted at 4 87½ @4 87¾ for long, 4 88½@4 88¾ for short and 4 88¾@4 89 for cable transfers. Then spot or near bills against cotton were quoted at 4 87¼, October deliveries at 4 87 and November and December at 4 86½. Futures against grain deliverable in December, January and March were quoted at 4 86@4 86½, and large engagements were reported for each of those months. Some bankers said that contracts for the delivery of bills early next week were moderately large, among them cotton bills at 4 86¾@4 87, and the indications pointed to a liberal supply next month. Yesterday the Bank of Montreal and the Canadian Bank of Commerce also reduced their posted rates half a cent. The close was easy. The following table shows the daily posted rates for exchange by leading drawers.

		Fri., Sept. 20.	Mon., Sept. 23.	Tues., Sept. 24.	Wed., Sept. 25.	Thurs., Sept. 26.	Fri., Sept. 27.

	Sight	90⅛	90⅛	90⅛	90	90	90

The market closed easy on Friday at 4 88@4 89 for sixty-day and 4 89@4 90 for sight. Rates for actual business in sterling were 4 87½@4 87¾ for long, 4 88½@4 88¾ for short and 4 88¾@4 89 for cable transfers. Prime commercial bills were 4 87@4 87½ and documentary 4 86½@4 86¾. Besides the withdrawal of $1,000,000 gold for shipment to Germany by W. H. Crossman & Bro. on Thursday, the Canadian banks took $700,000 gold for export to Canada, where bank reserves are low and money is wanted for moving the crops. Yesterday $1,500,000 was taken for shipment to Germany to-day.

We have referred above to the favorable exhibit of earnings made by the Pennsylvania Railroad for August, showing that while the gains are not as large as in the months preceding, this is owing to the fact that the comparison is with improved results last year, whereas in previous months we had been comparing with heavy losses in 1894. In the following we give the figures for the Eastern system for a series of years past, and from this it will be seen that the gross for Aug. 1895 falls only about 3 per cent below the large totals of 1892 and 1891.

Lines East of Pittsburg.	1895.	1894.	1893.	1892.	1891.	1890.

* The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the date given at the head of the column, they are the returns issued nearest to that date—that is, the latest reported figures.

SYNDICATE PROFITS UNDER THE BOND CONTRACT.

The bond Syndicate on Saturday last distributed, through checks issued by Messrs. Morgan and Belmont, to the banks and bankers who participated in the arrangement their share of the profits. These are stated to have reached 4·925 per cent besides 1·75 per cent for interest (computed at 4 per cent per annum) on advances made, aggregating 6·675 per cent in all. Some curiosity has been displayed in the effort to interpret the percentages given. As our readers are aware, the face value of the bonds issued to the Syndicate reached $62,315,400. The actual agreement on the part of the Syndicate was to sell the Government 3,500,000 ounces of gold at $17·80441 an ounce and accept in payment the Government 4 per cents. Inasmuch as the gold was really worth $18·60465 an ounce the difference of a little over 80 cents an ounce amounted in the aggregate to about $2,800,840, an amount which represents the premium paid for the bonds. In other words the Syndicate paid the Government a trifle over 4·494 per cent premium, or a total of $65,116,275 in money for the $62,315,400 of bonds.

The foregoing facts relate to the original undertaking between Messrs. Rothschilds–Morgan–Belmont and the Government. Shortly after the contract had been signed the new Syndicate was formed. One only has to recall the industrial situation in February to readily see the need there was for the co-operation and help of the banks and bankers who thus became parties to the arrangement. The loan was now offered to the public at 112½, the new Syndicate becoming the underwriters. To understand the situation at that date and since, it is necessary to have in mind that the division of profits made last Saturday covered the total which has accrued under the arrangement with the Government. An idea has prevailed in less informed circles—vague, to be sure, but on that account more mischievous—that a vast sum of money was secured and made out of this contract by the original parties to it. To the general public it will therefore come as a revelation that the whole affair was turned over to this broader Syndicate, and whatever has been made out of the contract is included in the present distribution. The bonds at the upset price went into the hands of investors, and the rise in their market value which followed the successful placing of the loan has accrued to those who purchased them through a rise in the market value of governments which has taken place since the offer of sale was published, and would not have taken place had it not been for the timely contract the Government entered into and the wisdom of the management.

From the above percentages of profits distributed an approximate estimate of the results of the Syndicate's operations can be obtained with the help of the original facts disclosed in the Government contract. It is well enough to say that these are our figures and not the Syndicate's; but they cannot differ very materially from the actual results. We have already stated that the face value of the bonds issued reached $62,315,400; that the premium paid was $2,800,840; that the total cash payments consequently aggregated $65,116,275, showing that the bonds were floated at 104·494, or very nearly 104½. Of course up to that point the transaction showed no profit to any one. The profits accrued with the next step in the proceeding; that was the sale of the bonds at 112½. At that figure they must have yielded $69,949,075 and the difference between that total and the $65,116,275 paid for them represents the gross profit realized, which was $4,832,800.

From the above gross profit there is to be deducted ¼ of 1 per cent commission to the management. This commission, if we assume it is to be computed on the $65,116,275 gold paid the Government, would be $488,372 and leave the apparent profits to be divided $4,344,428, equal to 6·672 per cent (instead of 6·675 per cent, the actual division made) on the $65,116,275. The variance in percentages here shown, though small, evidently indicates that some data are lacking which should be included. Our results demonstrate, however, that the profits have been much less than the public has imagined.

THE NEW YORK CENTRAL REPORT.

It is a pleasure to receive such a handsome document as the New York Central report. Issued from the De Vinne Press, and printed in folio form, on calendered paper, in a large and clear type, it reveals the art of printing at its very best. The matter contained in the report and the way it is arranged make the document likewise a very useful one. The report is entirely statistical, but nothing apparently is omitted from it, and the figures are all presented in such a manner that they are easily found and just as readily grasped. From the shareholders' standpoint, the year was not very flattering, but all the facts regarding the year's operations are given and no security holder is left in ignorance of the results or the condition of the property. In truth it would be difficult to point out any particular in which the report could be improved.

As to the character of the showing, that has already been clearly indicated by the company's quarterly returns which are issued with so much promptness. In the last two quarters of the fiscal year only one per cent was paid on the stock instead of the previous 1¼ per cent quarterly, so that the total distribution for the twelve months was but 4¼ per cent, as against 5 per cent in the previous fiscal year. But even after this reduction in the dividends, there is a deficiency for the twelve months in the sum of $1,217,576. Of course if the total of the dividends had been only 4 per cent—the rate at present being paid—the deficiency would have been to that extent reduced, amounting then, say, to only about three-quarters of a million dollars. Without doubt even that is a large shortage; and it appears that the actual amount earned for the stock during the twelve months was only 3¼ per cent. But this result must be considered in the light of the conditions which prevailed. While 3¼ per cent would have to be looked upon as a poor return for a year of favorable conditions, it cannot be regarded as otherwise than satisfactory for a year of phenomenally untoward events and influences like the last.

By a happy conjunction the company's return for the first quarter of the new or current fiscal year—we mean the quarter ending September 30 1895—is issued contemporaneously with the annual report. The one presents a sharp contrast with the other. The annual report serves to emphasize the unfavorable character of the late year, while the quarterly return indicates that the tide has turned, that the conditions have vastly improved, and that already a substantial recovery in tonnage and revenues is taking place. As a matter of fact, some improvement occurred even in the latter

part of the late year. For the twelve months as a whole gross earnings fell off $1,188,664 and net earnings $490,701. But a study of the results for the separate quarters shows that the comparisons, at least as regards the gross, became better with each quarter; in the first quarter there was a decrease of $1,371,025, in the second quarter a decrease of $509,683, in the third quarter an increase of $112,964 and in the fourth quarter an increase of $579,081, so that the loss occurred entirely in the first half of the fiscal year. In the net there has been considerable irregularity, due in part to special circumstances, like the severe weather in the March quarter, but it is the gross that tells the story of the change, which is daily becoming more pronounced.

For the September quarter of the current fiscal year the results are of course in part estimated. The estimate, however, shows a gain in gross of $710,000. In the net the increase is only $104,000, but the explanation of this is very simple: as the prospect is for continued gains hereafter, the company is now pursuing a more liberal policy in the making of expenditures, the same as the Pennsylvania Railroad and some other large companies—that is, it is felt that with prospects of steady improvement, greater freedom can be exercised in the making of outlays for renewals and betterments. The final result for the quarter is, however, much better than indicated by this gain of $104,000 in the net. As already pointed out above, the company is now paying only 1 per cent on the stock, whereas a year ago it was paying 1¼ per cent, and even though the amount of the stock has been increased there is a saving from the reduction in rate of nearly two hundred thousand dollars. As a consequence of all this, there is a surplus above the dividend in 1895 of $200,000, against a deficiency below the dividend in the corresponding quarter of 1894 of $96,942.

A few figures drawn from the report will furnish an idea of the extent to which the company suffered from the unfavorable conditions prevailing in the late year, and consequently the margin there is for a recovery under the change in conditions. We have stated that gross earnings during the year fell off $1,188,664. But this is in addition to a loss of over 3¼ million dollars in the year preceding. In other words, in the two years there has been a decline in the gross from $46,936,693 to $42,489,537, and this on a larger mileage, too. Of the decrease in the late year almost the whole amount occurred in the passenger revenues, which were only $12,965,112 in 1895, against $14,151,279 in 1894 and $14,047,572 in 1893. Of course the absence of the travel to the Fair accounts for the most of the falling off, though business depression naturally also had some part in it. In the freight revenues there was a trifling recovery in the late year, but nevertheless the total at $24,268,709 compares with $27,372,071 two years ago. The reduction in revenues was met by a great saving in expenses; still the net for 1895 is about a million dollars less than for 1893.

The causes for the falling off lie of course entirely on the surface. The continued depression in business, the crop failure of last year, the absence of the Fair travel, the severe winter weather, &c., are a few of these causes. We notice, too, that the average rate has again declined, after a small increase in the two previous years, and for 1895 is only 7·3 mills per ton per mile. The company moved 19,741,495 tons in 1895, against only 18,728,592 tons in 1894, of which increase, however, 712,488 tons was in the one item of coal and coke; in 1893 the total tonnage was as much as 21,312,072 tons. While there was a very considerable recovery in the local traffic in the late year, the through tonnage further declined, or at least there was a further decline in the through freight going east and south, of which only 1,589,236 tons were moved in 1895, against 1,895,399 tons in 1894, 2,367,226 tons in 1893 and 2,705,738 tons in 1892. The falling off here we may suppose is directly connected with the failure of the crops in the West last season. Many persons no doubt have thought that good or bad crops do not play much part in the Central's results, but these figures should dispel the notion; and as further confirmatory evidence we may note that the grain tonnage in the late year was only 1,762,835 tons, against 2,074,900 tons in 1894, 2,653,966 tons in 1893 and 3,243,858 tons in 1892.

The indications, as already said, now favor continued and decided improvement, and the return for the September quarter furnishes corroboration of this. The expectation of further gains is based on the excellent crops raised in the West the present year and the continued revival of business activity. The Central's lines do not run through the great iron districts, and hence the company is not in position to gain as decidedly or as directly from the special buoyancy of the iron trade as is the Pennsylvania Railroad. But trade revival is gradually extending to all branches of industry, and this will inure to the advantage of the Central, the same as to other roads. Not less important is the effort now being made to secure more remunerative rates in moving freight. In the late year rates were demoralized nearly the whole time, and the consequent loss in revenues in that way was large. Should the present attempt succeed, as seems likely, a considerable addition to earnings will result from that source alone.

During the year the capital stock of the company was increased from $94,273,400 to $100,000,000, and the funded debt was increased in the net amount of $2,700,000. The proceeds went to retire the $3,224,382 of sterling notes, to provide the means for the Park Avenue improvement and new bridge over the Harlem River, and to decrease the current liabilities while increasing the current assets. The company now has practically no floating debt, and while a year ago the current assets (deducting fuel and supplies on hand) fell $1,753,263 short of the liabilities, the present year the current assets on the same basis exceed the liabilities in the sum of $1,667,562.

OREGON RAILWAY & NAVIGATION COMPANY.

The statement of earnings for the Oregon Railway & Navigation Company for the fiscal year ending June 30 1895, recently published, has excited much interest. Seldom, indeed, does a company pass within the space of two years, as this Oregon Company has done, from large dividends to complete bankruptcy, and then, even before reorganization, to a condition of affairs so much more hopeful. The report for the late year has been given out in such brief form that the fuller statement which we have secured and furnish below will be appreciated.

Prior to October 1893, when the Union Pacific went into receivers' hands, the capital stock of the Oregon Railway & Navigation Company had generally been considered a fair investment. It was guaranteed 6 per

cent dividends under the lease to the Short Line, a lease for which the Union Pacific stood sponsor, and of the Navigation Company's 24 millions of capital stock outstanding $13,827,200 was owned by the Short Line and by it had been pledged to secure 13 millions of collateral trust bonds. Moreover, the stock had, long previous to the making of the lease, paid a good rate of dividend. It was therefore a bitter surprise to many when, with the downfall of the lessee, the Navigation stockholders found themselves not only deprived of dividends but with their company bankrupt. Had they watched current events more closely they would have been less surprised, for the reports of late years had shown net earnings far below the dividend charge.

In their predicament, and remembering the former prestige of their company in its independent state, it was but natural that the stockholders should think its crippled condition was due solely to unfair treatment by the Union Pacific. Recently, too, an unprejudiced writer has cited the earnings of the Navigation Company for a series of years to show how they were diminished in consequence of the road's being merged in the larger system. While apparently the property is better able to do well when operated independently, this is far from admitting that the Union Pacific gave it unfair treatment, or is solely responsible for the falling off in its net receipts. The fact is, as the following table shows, a smaller surplus for dividends is largely accounted for by the growing unprofitableness of the steamship lines, by the higher cost of operating accompanying the lower rates for freight, and by an increased railroad mileage, which entailed a heavier interest charge without a proportionate increase in earnings. The table is as follows:

	Railroad Earnings				Steamship Earnings		
Year—	Miles end of year.	Gross.	Net.	P. C. Op. Ex.	Gross.		Result.
		$	$		$		$
1893	1,059	3,865,113	1,021,749	73 59	675,566	Def.	61,481
1892	1,059	4,831,792	1,511,973	68 73	884,545	"	113,535
1891	1,059	5,678,172	1,858,784	67 27	1,337,297	"	80,680
1890	1,028	4,954,711	1,614,646	79 44	1,591,958	"	70,517
1889	984	4,576,136	1,692,539	63 02	1,530,450	"	17,570
1888*	752	4,512,792	2,078,500	53 95	1,215,674	Net,	119,214
1887*	752	3,991,692	1,648,873	58 69	1,312,436	"	290,784
1886*	714	4,161,610	2,215,687	46 63	1,344,933	"	344,902
1885*	657	2,757,115	1,193,923	56 72	1,325,000	"	376,595

* Year ending June 30.

We see here that the steamships, which in 1885 yielded net receipts of $376,595, have of late years been operated at a loss, this loss in 1893 being over $61,000, making the total loss in net income on this account compared with 1885 $437,000. As we pointed out in the case of the Oregon Improvement Company some months ago, steamship lines on the Pacific Coast are not now the source of profit they were before the rail competition became as keen as it is to-day. The mileage of the railroad was also increased from 714 miles in 1886 to 1,059 miles in 1893, and the funded debt for this and other proper purposes was raised from $13,835,000 in 1886 to $22,753,000 in 1893. The bonded debt is only $21,500 per mile, but the new mileage did not at once prove as profitable as expected. Finally the ratio of operating expenses, which in 1886 was 46·63 per cent, an extremely low rate, was sure to rise, and has risen; in 1893 it was 73·59 per cent. In the same interval the rate per ton per mile received for freight fell from 2·29 to 1·64 cents. The building of unprofitable mileage may be criticised, but the other causes mentioned affecting adversely the stock furnish reasons quite sufficient without impeaching the good faith of the Union Pacific Company to explain why the road's surplus receipts applicable to dividends could not be in 1893 as large as in 1886 before the lease was made. It is also interesting to note, as indicating the character of the management during that period, that in 1886 of the 714 miles of track belonging to the Oregon Railway Company 522 miles were laid with iron rails, while in 1893 of the 1,059 miles in operation 792 miles had steel rail and only 267 miles iron.

With reference to the earnings for the fiscal year ending June 30 1895—or rather the earnings of the road since July 3 1894, at which date the property was taken out of the Union Pacific system and placed in the hands of a separate receiver—only the totals have heretofore been published in the CHRONICLE. We are able to give a statement by months with the comparative figures for the year ending June 30 1894. Both the gross and net earnings here shown include the earnings of the steamships, which in the year 1893 94 resulted in a net loss of about $40,000. The earnings are as follows:

EARNINGS BY MONTHS, INCLUDING STEAMSHIP LINES.

	1894-95.		1893-94.	
	Gross.	Net.	Gross.	Net.
July 3 to 31	$164,050	$24,954	$343,388	$73,640
August	434,960	185,993	297,650	53,217
September	541,224	255,856	336,709	70,577
October	641,986	262,036	511,047	233,100
November	604,077	239,288	498,130	189,338

Total	$5,027,333	$1,698,838	$3,825,189	$464,566

NET EL. RESULTS, INCLUDING STEAMSHIPS.

Year ending June 30—	1895.	1894.	Changes.
Gross earnings	$5,027,333	$3,825,189	Inc. $1,202,144
Operating expenses	3,328,495	3,360,620	Dec. 32,125
Net earnings	$1,698,838	$464,569	Inc. $1,234,269

SUMMARY.

Net earnings year 1894-95	$1,698,838
Do year 1893-94	$464,569
Average net earnings for the two years	1,081,703
Interest charges, old basis	$1,305,250
Do do under plan of reorganization	930,480

The results here shown for the last fiscal year are, if viewed only in comparison with the figures for the previous year, very remarkable. But it should be borne in mind that in the year 1893-94 the most adverse conditions prevailed. This is true of almost the entire railroad mileage of the country. Much of the time during the spring of 1894 the clearings at Portland were showing a decrease upwards of 50 per cent. More particularly the floods interfered with the operation of the road. The earnings of the first few months of the last fiscal year were heavy—unduly swelled by the amount of traffic the floods had previously held back. During the period covered by the last seven months of the year 1893-94, it will be noticed, the road fell far short of earning operating expenses, and even in July 1894 the net earnings were only $24,954. Then for a few months followed a time of great activity, the pent up traffic coming forward with a rush. The gross earnings, which in June 1894 were $128,535 and in July 1894 $164,050, in October 1894 reached $641,986. During the late year therefore the comparison with the year previous was disturbed almost throughout, extraordinarily large earnings contrasting for a time with more normal returns, and subsequently more normal receipts contrasting with extraordinarily small income. So the results for the recent year, though excellent, are not expected to be equaled during the next two or three years. To determine how the property is doing probably a fair

course to follow would be to take the average of the earning for the two years. By this method we obtain net earnings of $1,081,703, to be contrasted with fixed charges under the reorganization plan of $930,480 and prior to reorganization of $1,305,250. It is of course a judicious provision that under the reorganization plan the fixed charges are reduced to a safe limit, so that if bad years or reduction in rates should at any time reduce receipts there may be no danger of further financial embarrassment.

In passing, we may say that the net earnings for the month of June 1895 were reduced to the small amount shown ($32,728) through the charging against them of $80,000 expended for repairs of steamships. The steamers were taken over by the receiver in very bad condition, and have required an outlay of $150,000 for betterments. A further fact of importance is that though so large a sum as $1,698,838 was earned during the past year, by no means such an amount was available for interest payments, the cost of repairing road and bridges damaged by floods having consumed a considerable part of the net receipts. Still a considerable balance appears to have been left over, since, as indicated in the reorganization plan (see page 325 of the Chronicle for August 24), the earnings of the road will in the reorganization contribute $560,000 towards needed improvements, the payment of the coupon due Dec. 1 1893 on the consols, etc.

The question naturally arises, to what is the better result of operations for the past year due? Mainly, as we have seen, it is attributable to the exceptional conditions prevailing the year before, which threw considerable business into the year just ended. In part it is owing to a saving in management possible under a separate organization. Under the Union Pacific the road was treated as a section of that great system, and was charged with its share of expenses made for the common good, as for instance joint agencies maintained over the country at large. This is named as one of many like causes which, though properly enough existing so long as the road was in the Union Pacific system, served to reduce the company's own net receipts. Then, too, the road is now free to do business with the competitors of the Union Pacific, but how much increase in the earnings this freedom secures is a question, for we are informed that the traffic interchanged with a leading competitor, the Great Northern, is still of small amount. We are told that there has been no material change in rates. A decree of foreclosure has been entered and the foreclosure sale of the Navigation Company's property is advertised for October 8 1895. The consolidated mortgage and collateral trust bondholders have almost unanimously approved the reorganization plan, and the new company will in all probability soon be in possession of the property.

In closing we cannot but express the thought that will most likely have occurred to many of our readers, "Are there not many similar cases in which the rights of branch line bondholders would be more fully conserved if these lines were managed by separate receivers for some time prior to reorganization?" This would apply equally well whether separation from the parent stem were intended eventually or not. It has seemed in the past too easy to lease a road, guarantee its bonds, and in the end scale them, because, forsooth, the road, as a helpless dependency of a large system, cannot show the earning capacity which perchance it might exhibit as a separate concern.

ILLINOIS CENTRAL'S GOOD RESULTS.

A few weeks ago we directed attention to the excellent exhibits of earnings which the Illinois Central had been making in its recent monthly returns, and pointed out that as a result the outcome for the fiscal year ending June 30 had proved very much better than any one had deemed possible six or seven months ago. The previous fiscal year had included nearly the whole of the period of the World's Fair—certainly the months of heaviest travel connected with that event, and from which the Illinois Central had derived benefits beyond those of any other road. In the late fiscal year as a consequence—comparison being with such exceptional earnings in 1893-4—the returns for the early months showed very large losses, so much so that by the end of October the company had fallen 2½ million dollars behind in gross and over 1½ million dollars behind in net. The outlook at that time did not appear very encouraging, particularly in view of the business depression prevailing and the crop failure which had occurred during 1894. After October, however, the company began to make gains in both gross and net. And these gains were so large and constant that by the close of the fiscal year on June 30 1895 the loss in gross had been reduced to below 1⅝ million dollars and the loss in net to less than $500,000. In other words, the company earned net within half a million dollars of the amount for 1893-4, when the Fair had so greatly added to the revenues.

This much, as said, appeared from the monthly returns, and very naturally the result was regarded as extremely satisfactory. We now have the company's annual report, and it presents the results for the year in a yet more favorable light. The report possesses special interest in view of the announcement made this week of a proposed increase of 10 million dollars in the stock of the company—enlarging the share capital from $50,000,000 to $60,000,000.

According to the report, the exact loss in gross receipts for the twelve months was $1,600,469. But in the passenger revenues the loss was as much as $2,208,255, or 36·10 per cent. On the other hand the freight revenues actually *increased* $567,598, and there was also an increase of $40,187 in the receipts from express, mail and other sources. The receipts from freight, it is stated, were larger than in any preceding year. What other company of magnitude can make a similar statement for the same period. Consider just what the statement means. The year, as we know, was an unfavorable one in its general features and conditions, and some of the Western roads, as our readers are aware, saw their earnings contract in the sum of several million dollars. It was marked by continued business depression (the revival not occurring until the close of the twelve months), by the strike of the American Railway Union, and by the failure of the corn crop in Northern Illinois, Iowa and other Western States. We notice, too, that the average freight rate again declined, being for the late year only a little over 8 mills per ton mile. And yet, under all these disadvantages the company is able to report larger freight earnings not only than in the previous year but larger than in any preceding year—this too with no addition to mileage, the operations being based on 2,888 miles of road, the same as for many years past.

All things considered, such a result is quite remarkable. It shows at once good management

under which the traffic of the system is being enlarged and extended even in bad times, and likewise shows the diversified character of the road's tonnage and the wide extent of territory traversed by the lines of the system. On the so-called Western lines—the lines running through Iowa—the freight revenues really fell off $385,582, the very short grain traffic telling against this part of the system, but on the Northern and Southern lines there was an increase of $953,180, thus producing the $567,598 gain in total freight revenues for the whole system. We observe too that the Traffic Manager says that if the years influenced by the World's Fair travel be eliminated the passenger earnings also are the largest in the history of the company.

Passing to an examination of the expenses, we find here also some noteworthy features. With a reduction of $1,600,469 in gross earnings, accounted for, as we have seen, by the contraction in the passenger revenues, expenses were reduced $1,100,885, leaving a loss in net of only $499,584. The report tells us that "the improved standards of maintenance have been adhered to and the physical condition of the railway and of its equipment has been maintained in all respects and improved in many." No one who knows how the Illinois Central property has been managed will need any evidence to support this statement. It is interesting nevertheless to see how the reduction of nearly 1½ million dollars in the expense accounts was effected. We find first of all that passenger-train expenses were diminished $210,085, and the decrease in this case follows of course entirely from the great reduction in the volume of the passenger traffic. Then we find a reduction of no less than $300,758 under the head of claims and damages, and a saving of $77,029 in station expenses, of $56,926 in general office expenses and supplies and of $43,056 in general expenses. Under the head of maintenance of way and structures there was no decrease, but an increase of $68,824; no less than 1,104,178 new ties were put in during the year (giving a high average of renewals for 2,888 miles of road) and 16,521 tons of new rails were used. For maintenance of equipment $338,774 less was spent than in the previous year, but in this previous year the outlay had been $330,679 more than in 1892-3, so that the amount for 1894-5 was almost precisely the same as two years before.

Under the small loss in net earnings the income account makes an exceedingly gratifying showing. It is not necessary to detail here the changes in the various items. The important, the significant fact is that according to the figures furnished the company earned in full during the twelve months its five per cent dividends. Such an outcome we need hardly say appeared rather improbable at the beginning of the fiscal year; and certainly a road which can show 5 per cent dividends earned for its shareholders in a year like the last, with all the special and general adverse features which marked the course of the period, must be considered to have done remarkably well. Many other large companies, as the reader knows, were obliged to reduce their dividends, and even then found themselves with a heavy deficit at the end of the year. In the Illinois Central case the result is particularly gratifying, as the company has in recent years largely increased its obligations through the various new acquisitions which it has made. The Yazoo & Mississippi Valley (formerly the Louisville New Orleans & Texas) is one of these acquisitions whose accounts are kept separate and distinct from those of the Illinois Central, and it shows for the late year a surplus above charges in the sum of $261,901; the Illinois Central received the $219,134 surplus of the previous year as interest on its holdings of Louisville New Orleans & Texas second mortgage income bonds.

A number of important financial transactions were carried through during the year. Among these was the refunding of the 7 per cent bonds of the Iowa lines by the issue of Illinois Central Western Lines 4 per cent bonds. Another was the purchase of $5,982,000 of Chesapeake Ohio & Southwestern first mortgage bonds (out of a total issue of such bonds of $6,176,000) at a cost of $6,889,699. The company already owned the greater part of the junior securities of the same road. The report refers to the contract of sale of the property to the Louisville & Nashville and says the contract was annulled November last year. The suit brought by the State of Kentucky against that company, to prevent the carrying out of the arrangement, has been twice decided adversely to the Louisville & Nashville, it is pointed out, the last time by the unanimous opinion of the Court of Appeals of Kentucky, which is the Court of last resort in the State from which the Nashville Company holds its charter. "While it is understood that a writ of error has been taken to the Supreme Court of the United States, such writ does not supersede the decision rendered, which is and will remain permanently binding unless reversed by the Supreme Court, of which we are advised by counsel there is no prospect."

To provide for the purchase of the Chesapeake Ohio & Southwestern first mortgage bonds the Illinois Central arranged a temporary loan of $7,000,000, payable in 1896, and it is an indication of the very high credit of the company that this loan was placed on the basis of only 3½ per cent interest per annum. The new stock now to be issued will go to the extent of $7,000,000 to take up these notes and the Chesapeake Ohio & Southwestern 1st mortgage bonds will then be in the Illinois Central treasury absolutely free from all lien. The company reports also $1,801,471 of bills payable and $646,644 of other current liabilities, making a total of current liabilities (including the $7,000,000 notes) of $9,448,115. But against this the company held $5,675,787 of cash and cash assets, making the net total of current liabilities only $3,772,328.

A POSSIBLE RESULT OF THE WAR IN THE EAST.

Since the commencement of hostilities between China and Japan it has been evident that the results of the war would be numerous and weighty, having an influence to be felt the world over and probably for generations to come. So certain was it to lead to new combinations of the Powers that it could hardly fail to give new features to modern diplomacy.

We had not long to wait to see the justice of those opinions vindicated. Scarcely had the war ended when Russia, contrary to all precedent, steps forward and forbids Japan to retain her conquered territory, practically dictating new terms of peace. It was no surprise to find France abetting Russia. It was, however, a surprise to find Germany on the same side; and there was unconcealed satisfaction among thinking men that Great Britain, Italy and the United States held themselves aloof from this alliance.

There is no evidence that Germany has reaped any satisfaction from the temporary compact. On the contrary there is reason to believe that it has given to her some cause for regret. France, on the other hand, besides reaping certain pecuniary advantages, has apparently grown more aggressive both in Asia and in Africa, and the tenor of her conduct points to the existence of an understanding with Russia that help will not be withheld when it is needed by the one or the other, either for attack or defense.

The two Powers which have special need to guard against this combination are Great Britain and Germany. France, naturally enough, hankers after Alsace and Lorraine. We are not permitted to doubt that in the event of war arising from any source and becoming general, Russia being on her side she would run the risk of a fresh invasion by Germany to recover them. She feels unfriendly also towards Great Britain for her continued occupation of Egypt; and it would seem as if expulsion of the British from the banks of the Nile would give the French people hardly less pleasure than the recovery of their lost provinces.

The relations of Russia and Great Britain are of a far more delicate kind than the relations of France and Great Britain. At a thousand points the two empires touch. For nearly six thousand miles—from the Bosphorus to the Pacific—they confront each other. Collision would be easy; and collision at any point might lead to a most ruinous war. They are and long have been natural enemies. Might they not be friends? Russia wants an outlet to the Mediterranean. She wants also an open port on the Pacific Coast—a port which shall not be ice-bound for three months in the year. Great Britain refuses to give her consent to either the one arrangement or the other. So long as this state of things continues there is danger of war; and it could not fail to be war on a large scale. What the result would be no one can foresee. It would certainly be a world-wide calamity. It would convulse Europe—it would convulse Asia, and it would undo all the good work which has been done in Africa in recent years.

Is there no way of getting out of these difficulties except by the sword? Must these huge armaments continue? Must they grow larger and larger every year? Is peace to become as expensive and as ruinous as war merely because war is dreaded? These are questions which men who have the good of mankind at heart are seriously asking themselves, and which are pressing themselves upon the attention of governments. As an indication of the anxiety that begins to prevail, the London "Spectator," goes back upon the past, advising the concession of Russia's demands, and recommending an alliance between Great Britain and the Northern Power. How far the "Spectator" speaks for itself or how far in this instance it is the mouth-piece of the Government we have no means as yet of knowing. But it is well known that the editor of that ablest and most consistent of the weeklies favors the Conservative side of politics, and that he enjoys the confidence of Lord Salisbury and his friends; and when we bear in mind that the course suggested and recommended is directly the opposite of that which is historically associated with the Conservative party, we find it hard to believe that so daring a step would be taken by so eminent an organ of public opinion without some understanding with the Government, or at least with some of its more prominent members. The most reasonable presumption is that the article is intended to act as a feeler, and that its object is to test the pulse of public sentiment.

The "Spectator," however, must be allowed to speak for itself. After reminding the reader that Russia and Great Britain stood side by side in the wars against Napoleon, and denying that there is any necessary enmity between the two Powers, it boldly declares that "the people of the United Kingdom have abandoned the idea of keeping Russia out of Constantinople, or an open port in the Mediterranean." "It is not business or common sense or common prudence" to persist in such a policy. That Russia should desire a port in the North Pacific is "most legitimate and most natural." "Russia with open ports would be more vulnerable to the Power which commands the sea than Russia with closed harbors." "What then should we do? We should say to Russia: We abandon frankly and finally all attempts to prevent your access to the Mediterranean, and we do the like in the case of the North Pacific, on the understanding that you give up the policy of threatening the Indian frontier and of working with France to injure our interests in Africa and elsewhere. Further, we are prepared to come to a detailed arrangement as to your and our expansion in Asia generally. For example, so long as our trade interests are saved from injury, we shall make no objection to your absorbing portions of Northern and Eastern China." More in a similar vein follows; and the article closes with "the hope that Lord Salisbury will find it possible to come to such an understanding as that indicated. If he does, he will secure the gratitude of all those who wish to see England free and strong, and not entangled in a net-work of conventional and unreasonable enmity with a Power that nature has marked out for our friendship."

If such sentiments have found a lodgment in the mind of Lord Salisbury or of any number of his colleagues, or if they have found favor with any large section of the British people, a most marvelous change has passed over them since 1878, when Beaconsfield and Salisbury returned from Berlin, bringing peace with honor. But times change, and men change with them. The war in the East has created new conditions; and Great Britain cannot afford to be indifferent to the Russo-French combination or to the fact that next year the Triple Alliance will come to an end. Russia in the Pacific might be a matter of comparatively little importance to any of the European Powers; but Russia in Constantinople or Russia in the Mediterranean would be a revolution more complete than anything Europe has experienced in some centuries. We very much doubt if any of the Powers except France is prepared to welcome such a change; and France in this matter is probably influenced more by sentiment than by reason. That such suggestions, however, should emanate from such a source proves that we are on the eve of a period of active diplomacy. Great changes are pending. It is satisfactory to know that the changes promise to be in the interests of peace.

GOLD AND SILVER MINING IN AUSTRALASIA.

Melbourne, Australia, July 31, 1895.

[From an occasional correspondent.]

For the first half-year of 1895 I have to report a general advance in gold getting, coupled with an abnormal proportion of journalism on the subject of Western Australia. Westralia is "a land of sand, sin, sorrow sore eyes" and statistics—and the

most marvelous of these is statistics. In a former report I said the imagination put no bounds to the richness of the place, and I am still content to phophesy that it will do great things; but I do not want it to do all the great things promised to a credulous London public. When the good things sold by the gross to Englishmen pay dividends gold will be a depreciated metal and we will see the gold bugs clutching at a 16 to 1 offer on the part of the silver bi-maniacs. At the time of writing the Westralian boom has reached Melbourne, which is a good certificate for the "Golden West." Melbourne ought to know a safe boom, if having been crushed by a disastrous boom serves at all as educational. The Westralian official figures of gold production for three and one-half years past are:

	Ounces.		Ounces.
1892	39,548	1894	207,131
1893	110,890	1895 (half-year)	108,280

These amounts represent the entries for export and are a fair criterion of the progress of the annual yield. Sixty per cent of the properties are awaiting the arrival of machinery, and the proportion that is is not wild-cat will in two years time, according to my opinion, materially affect the output. As part of the programme, with true melodramatic instinct, the Western Australian Government has introduced and carried a bill to establish a mint at Perth. In the meantime, without noise or blustor, New South Wales is forging ahead. For the past half year the mintage was..... 93,269 ounces. The export was—

Gold bars and in matte..... 93,069 ounces.
Quartz ore and concentrates ..... 30,000 ounces.

Making a gross total of ..... 213,338 ounces.

The figures for 3½ years are:

NEW SOUTH WALES.

	Ounces		Ounces.
1892	156,870	1894	3.4,787
1893	179,388	1895 (half year)	213,338

The great progress of this province in this direction is officially ascribed to Government action in drafting men from the cities and labor-congested centres to the gold fields.

The silver returns from the two principal New South Wales outports concerned, Willyama (for Broken Hill) and Sydney are:

		(£ sterling)
Silver in matte	176,422 ounces	4[illegible]
Ingots	307,[illegible] ounces.	28,747
Lead bullion	17,[illegible] tons	624,[illegible]
Silver ore	[illegible] tons.	[illegible]
Lead ore and concentrates	82,[illegible] tons.	294,672
Copper matte containing silver	378 tons.	21,101

The great Proprietary Company is at time of writing struggling with a remarkable subterranean fire, the timbering of the drives and tunnels having become ignited. The principal fire experts of Adelaide and Melbourne have been on the spot for some days consulting, but the streams of water being poured into the depths make little difference and the company has the apparatus ready to fill up the mine with carbonic acid gas and choke off the fire scientifically. But the fear is that the gas will penetrate to the other mines on the line and cause special damage on its own account. The great Proprietary was already commencing to nurse its ores, as if it saw its final dividend in the near distance. It has had labor troubles plenty for its special disadvantage, it has suffered with all silver concerns in the great silver slump, and now it is hit because it did not have its hole in the earth insured against fire.

Tasmania's modest contribution to the stock of precious metals is shown thus by the Customs returns:

FIRST HALF YEAR 1895.

Gold, 24,526 ounces	£97,569
Silver ore, 9,201 tons	105,501

Queensland's gold returns show a small advance. For the first half-year of 1894 the total yield was 207,289 ounces and for the same period this year 248,284 ounces. The returns for silver in this province are only collated at the end of the year.

New Zealand returns are not to hand. The production there has not varied very considerably of late years.

The mintage for South Australia shows a probable increase in the mintage to the extent of 12,000 ounces.

The statistics for Victoria, really the premier gold-producing province, are somewhat confused. Owing to the facilities for depositing small parcels of gold the Melbourne Mint is dealing more directly with the miner each year—the number of deposits in 1894 having been 6,458 against 2,846 in 1891. This means that a large bulk of gold that would hitherto have passed through the banks now goes direct to the Mint. But the "official estimate" is principally based on the *bank* returns. The error in this "official estimate" therefore grows greater each year. For the past half-year the "official estimate" is 317,565 ounces, whereas the Melbourne Mint received and coined 360,550 ounces of Victorian gold! The foolish "official estimate" indicates a decline of 25,000 ounces, while the Mint returns indicate a normal yield. For 1894 there was an error of 50,000 ounces in the "official estimate." As a matter of fact the Parliamentary head has been approached in the matter and he pleads guilty to the error but makes no effort to correct it. In making my estimate for the year I accept the indication of the Mint figures as to Victoria. It may be convenient to quote here a return of the Australasian gold coined at the two existing mints (Sydney and Melbourne for the first half-year of 1894 and 1895.

	—First six months of—	
Province—	1894.	1895.
Victoria	360,358	360,565
New South Wales	110,252	93,269
New Zealand	47,462	44,130
Queensland	296,108	248,400
South Australia	16,854	24,051
Tasmania	20,979	28,649
Western Australia	82,764	107,700
Total	934,777	903,774

This table is a criterion for four provinces, Victoria, South Australia; Tasmania and Western Australia. The other provinces export large quantities direct to England or America. In the case of Victoria I will treat the official error for 1894 (678,680 ounces) as if it were correct, and will quote 1895 without change, although it really will produce 731,000 ounces.

With this proviso I have much pleasure in submitting a forecast for the current year.

1894 AND AN ESTIMATE FOR 1895.

Province—	1894. *gross ounces.*	*(estimate)* 1895. *gross ounces.*
New South Wales	324,787	400,000
New Zealand	221,533	221,533
Queensland	675,000	680,000
South Australia	35,844	48,000
Tasmania	57,873	60,000
Victoria	673,680	673,680
Western Australia	207,131	240,000
Total	2,195,848	2,323,213

To bring these figures to ounces fine, a general reduction of 8 per cent for base metal is necessary.

The Australasian gold progress for three years is shown thus:

	Fine ounces
1893	1,711,892
1894	2,020,140
1895	2,137,357

STOCK EXCHANGE CLEARING-HOUSE TRANSACTIONS.—The subjoined statement includes the transactions of the Stock Exchange Clearing-House from Sept. 16 down to and including Friday, September 27; also the aggregates from January to August, inclusive, in 1895, 1894 and 1893.

Monetary and Commercial English News

[From our own correspondent.]

LONDON, SATURDAY, Sept. 14, 1895.

There is a better political feeling both here and on the Continent. Strong hopes are now entertained that the Sultan will give way to the pressure put upon him by the United Kingdom, France and Russia, and that the Bulgarian Government will exert itself earnestly to prevent interference in Macedonia. The Austrian Emperor has been visiting the German Emperor to take part in the military manœuvres, which has caused great gratification both in Germany and in Austria-Hungary, and the Roumanian Government, if it has not actually entered the Triple Alliance, is very friendly disposed thereto, and is exerting itself to allay the Roumanian agitation in Transylvania.

Perhaps the most significant event of the week is the transference of the British Ambassador at Pekin to St. Petersburg, our recent Ambassador at St. Petersburg being sent to Berlin. This means that Lord Salisbury is about to enter into serious discussions with Russia respecting China and Japan, and that he wishes to have in St. Petersburg a minister who is thoroughly well informed on all matters respecting the Far East. At home, now that Parliament is broken up, everything political is at a standstill. But it may be noted that Mr. Balfour has just written a letter in which he repeats his statement in the House of Commons, namely, that while he remains a convinced bi-metallist, he cannot speak for his colleagues. He does not believe that a conference would come to anything, and he thinks an unsuccesful conference would be injurious. It is understood that strong pressure was put upon Mr. Balfour by his colleagues and his party to dissociate himself as much as possible from the bi-metallist agitation.

The large and steady inflow of gold is making the Bank of England stronger every day. The stock of the metal is now nearly 42 millions sterling; the reserve is not much short of 32½ millions sterling, and the total deposits are nearly 53½ millions sterling. Yet there has been some borrowing at the Bank this week at 2 per cent, mainly due to the demand for the Stock Exchange. Upon the Continent the value of money is rising, as it usually does at this season of the year, the Austro-Hungarian Bank having advanced its rate of discount from 4 per cent to 5 per cent.

The price of silver is steady at 30 9-16d. per ounce, though there is very little demand for the Far East, and the India Council continues to sell its drafts exceedingly well. Partly this is due to remittances to Japan and partly to the purchases here of rupee paper. During the week there has been a very active speculation in that stock, though there is nothing more to justify it than a vague belief that silver having remained steady so long is likely to advance further. The price of 3½ per cent rupee paper in calcutta is now 108¾, so that speculators here are buying at a price equivalent to a premium of 8¾ per cent.

The fortnightly settlement on the Stock Exchange, which began on Monday morning and ended on Thursday evening, showed an unwieldly account open in gold shares. There was plenty of money available for every one in good credit, but there was much disinclination to lend to weak people, and many of these were unable to carry over. Consequently there has been a good deal of selling. The over-work likewise of both brokers and dealers makes it impossible to get through the clerical labor in time, and therefore the passing of names for transfer could not be affected, and in consequence there was a good deal of official buying in. There has therefore been some set-back in the mining market, though not nearly as much as might have been expected under the circumstances after so great a rise as has taken place during the past three months. Two or three times it looked as if there would be a serious break, but buying for the Continent has kept up courage. And furthermore, it is announced that the crushings at the Witwatersrand mines for the month of August are 203,573 ounces, an increase of somewhat over 4,000 ounces compared with July and of 2,612 ounces compared with June, previously the largest output. Taking the three months together the product the present year has been 603,887 ounces, against 511,092 ounces in the corresponding period of 1894, 385,145 ounces in 1893 and 306,754 ounces in 1892.

In the American department the continued gold shipments are creating much uneasiness here and practically have stopped business. The belief is very general that a new loan will be brought out before long and that thereafter the shipments will end, for some time at all events. But until a loan is announced or there is assurance that the loan syndicate will maintain the reserve at 100 million dollars, there is little probability of a revival of business here. At the same time the market is being watched with great eagerness, for whenever the currency question is settled there is sure to be an immense investment.

One quarter of the shares of the Anaconda Mining Company has been bought by a syndicate here subject to the condition that the statements of past profits, condition of the mine and so on made by Mr. Haggin are found correct by Mr. Hamilton Smith.

There is a fair amount of business in South and Central American securities, and the Continental bourses are fairly steady, though matters are looking very bad in Spain. At home trade is steadily improving, the Board of Trade returns for August being exceedingly good, and the reports from all the principal centres being very hopeful. Prices have not risen very much yet, though there is a distinct upward tendency, and certainly there is much more confidence than has been felt here for years.

The following shows the quantities of wheat, flour and maize afloat to the United Kingdom:

		This week.	Last week	1894	1893.
Wheat	qrs.	2,340,000	2,581,000	2,202,000	2,747,000
Flour, equal to	qrs.	207,000	172,000	285,000	345,000
Maize	qrs.	734,000	711,000	239,000	391,000

The imports since January 1st have been as follows:

Imports.	1895. £	1894. £	Difference. £	Per Ct.
January	36,753,068	38,458,613	−1,705,545	−4·43

Messrs. Pixley & Abell write as follows under date of Sept. 12:

Gold—The total purchases by the Bank of England during the week amount to £1,0 5,000; there having been no other outlet for arrivals. During the same time, £200,000 has been withdrawn for the Cape, £(illegible) for Alexandria and £70,000 for Rio. Arrivals: New Zealand, £78,0 0; Cape Town, £128,000; New York, £715,000; Australia, £77,000; China, £12,000; India, £21,000; total, £1,050,000. Shipments to Bombay, Sept. 5, £50,197.

Silver—There has been no change in price for a week past, and the market continues steady. Supplies are small, and orders rather holding off. Arrivals: New York, £130,000; China, £47,000; total, £184,000. Shipments, Sept. 5: Bombay, £51,700; Shanghai, £35,000; total, £86,700.

Mexican Dollars—The nearest price of these coin is 30⅜d.; there is very little doing. Shipments to Penang, £65,000.

The quotations for bullion are reported as follows:

Commercial and Miscellaneous News

NATIONAL BANKS.—The following information regarding national banks is from the Treasury Department:

NATIONAL BANK ORGANIZED.

5,018.—The First National Bank of Wills Point, Texas. Capital, $50,000. John E. Owens, President; W. R. Howells, Cashier.

CORPORATE EXISTENCE EXTENDED.

2,302.—The First National Bank of Bellevue, Ohio, until September 17, 1915.

2,304.—The Winthrop National Bank of Boston, Massachusetts, until September 17, 1915.

2,305.—The People's National Bank of Brattleboro, Vermont, until September 18, 1915.

IN LIQUIDATION.

4,334.—The First National Bank of Rico, Colorado, has gone into voluntary liquidation, by resolution of its stockholders, dated April 18, 1895, to take effect April 30, 1895.

4,827.—The Idaho National Bank of Pocatello, Idaho, has gone into voluntary liquidation, by resolution of its stockholders, dated July 19, 1895, to take effect August 5, 1895.

4,950.—The People's National Bank of Colorado, Texas, has gone into voluntary liquidation by resolution of its stockholders, dated July 22, 1895.

3,277.—The First National Bank of Cherryvale, Kansas, has gone into voluntary liquidation by resolution of its stockholders, dated June 2, to take effect August 1, 1895.

3,659.—The First National Bank of Red Lake Falls, Minnesota, has gone into voluntary liquidation by resolution of its stockholders, dated April 15, 1895.

INSOLVENT.

4,399.—The Keystone National Bank of Superior, Wisconsin, is insolvent, and was, on August 15, 1895, placed in the hands of Gilbert G. Thorne, Receiver.

4,467.—The First National Bank of South Bend, Washington, is insolvent, and was, on August 17, 1895, placed in the hands of Joseph G. Heim, Receiver.

2,694.—The State National Bank of Denver, Colorado, heretofore in voluntary liquidation, is insolvent, and was, on August 24, 1895, placed in the hands of William S. Nelson, Receiver.

3,201.—The Kearney National Bank, Kearney, Neb., is insolvent and was on September 19, 1895, placed in the hands of Robert Payne, Receiver.

IMPORTS AND EXPORTS FOR THE WEEK.—The following are the imports at New York for the week ending for dry goods September 19 and for the week ending for general merchandise September 20; also totals since the beginning of the first week in January.

FOREIGN IMPORTS AT NEW YORK

For Week.	1892	1893	1894	1895
Dry Goods	$2,171,691	$1,640,050	$2,782,106	$2,829,938
Gen'l merchdise	8,916,456	5,316,549	4,857,285	6,945,856
Total	$9,088,147	$6,956,649	$7,639,391	$9,775,794
Since Jan. 1				
Dry goods	$93,206,113	$101,754,926	$93,514,901	$109,405,758
Gen'l merchdise	321,824,340	329,552,883	241,841,902	270,164,720
Total 38 weeks	$415,030,453	$431,311,809	$315,356,803	$380,070,478

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending September 24 and from January 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1892.	1893	1894	1895.
For the week	$6,364,378	$7,920,043	$6,881,471	$7,782,898
Prev. reported	270,642,608	265,105,987	260,993,767	239,644,017
Total 38 weeks	$277,007,186	$273,026,030	$267,875,238	$247,426,915

The following table shows the exports and imports of specie at the port of New York for the week ending September 21 and since January 1, 1895, and for the corresponding periods in 1894 and 1893:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.

Of the above imports for the week in 1895 $107,312 were American gold coin and $173 American silver coin. Of the exports during the same time $1,780,000 were American gold coin.

Breadstuffs Figures Brought From Page 526.—The statements below are prepared by us from the figures of the New York Produce Exchange. We first give the receipts at Western lake and river ports, arranged so as to present the comparative movement for the week ending Sept. 21, 1895, and since August 1, for each of the last three years:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye
	Bbls.196lbs	Bush.60 lbs	Bush.56 lbs	Bush.32 lb	Bush.48 lb	Bu.56 lb.
Chicago	63,180	634,672	1,808,570	2,329,720	620 622	11,816
Milwaukee	51 470	232.050	22,100	194,000	609 200	16,200
Duluth	125,295	2,447,196	.....	3 ,021	152,555	..

WALL STREET, FRIDAY, SEPT. 27, 1895.—3 P. M.

The Money Market and Financial Situation.—Business at the Stock Exchange during the week has been largely of a routine character. Recovery from the decline of two weeks ago has naturally been slow, but in many cases prices are again approaching the highest of the year.

While interest in speculative investments is at a low ebb, the demand for securities of a substantial character which give promise of a permanent revenue is shown by the recent negotiation of $15,000,000 of New York Lake Erie & Western Railroad new prior lien four per cent bonds by a syndicate of prominent bankers.

Besides this large transaction the sale of $3,300,000 New York City three per cent bonds has been made to New York banking firms and $5,000,000 Massachusetts three and one-half per cent bonds to a prominent Boston house.

The resignation of the receiver of the Northern Pacific Railroad was generally a surprise in financial and railroad circles. It was caused by the decision recently made in the Federal Court as to the jurisdiction of the Court which appointed the receivers. The preferred stock of the company has been weak since the resignation was announced, and some issues of the bonds have materially declined, as the reorganization may be considerably delayed.

Rates for sterling exchange have declined to a point which makes it no longer profitable to export gold to London, but $700,000 has been shipped to Canada and $2,500,000 to Germany, including $1,500,000 going to-morrow.

The money market shows a hardening tendency under the increasing demand for loans and the reduced bank surplus.

The open market rates for call loans during the week on stock and bond collaterals have ranged from 1½ to 3 per cent. To-day rates on call were 1½ to 2 per cent. Prime commercial paper is quoted at 4½ to 5 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £809,716, and the percentage of reserve to liabilities was 61·32 against 60·21 last week; the discount rate remains unchanged at 2 per cent. The Bank of France shows an increase of 975,000 francs in gold and a decrease of 1,325,000 francs in silver.

The New York City Clearing House banks in their statement of Sept. 21 showed a decrease in the reserve held of $7,764,700 and a surplus over the required reserve of $22,443,350, against $29,685,250 the previous week.

Foreign Exchange.—Rates for foreign exchange are lower. The market has been dull and weak under a moderate demand and more liberal offerings, which include gold bills, commercial acceptances and drawings against sterling loans.

To-day actual rates of exchange were as follows: Bankers' sixty days sterling, 4 87½@4 87¾; demand, 4 89½@4 89¾; cables, 4 89¾@4 89.

Posted rates of leading bankers are as follows:

September 27.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 88 @4 89	4 89 @4 90
Prime commercial	4 87 @4 87½	.....
Documentary commercial	4 86½@4 86¾	.....
Paris bankers' (francs)	5 18⅛ @5 18⅜	5 16 15/16@ 16⅞
Amsterdam (guilders) bankers	40 3/16@40 1/4	40 5/16@40 3/8
Frankfort or Bremen (reichmarks) b'kers'	95 5/16@95 3/8	95 3/4 @95 13/16

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying par, selling ⅛ premium; Charleston, buying par, selling ⅛ premium; New Orleans, bank, $1 00 premium; commercial $1 50 premium; Chicago, 45c. per $1,000 discount; St. Louis, 50@75c. per $1,000 premium.

United States Bonds.—Sales of Government bonds at the Board include $4 000 4s, coup., 1907, at 113 and $7,500 4s, reg., 1907, at 111¾.

Following are closing quotations:

Total	25,503,607	20,905,723	....	.....	....

State and Railroad Bonds.—State bonds have been dull. Sales at the Board include $6,000 Louisiana con. 4s at 99½, $2,000 Alabama class B at 108½ to 109¼ and $12,000 Virginia fund. debt 2-3s of 1991 at 63 to 63½.

The market for railroad bonds has been unusually dull but generally firm, and in some cases notable advances have been made. Chicago & Erie 1sts and N. Y. L. E. & Western new 2d con. rects. stamped and U. S. Cordage 1st rects have each gained 2 points or more. Bonds which have advanced from 1 to 2 points during the week include Kan. Pac. 1st con. rects., Duluth & Iron Range 1sts, Mo. Kan. & East. 1sts, Ore. Short Line 6s, Ore. S. L. & Utah No. con. rects., and San A. & A. Pass 4s. Substantial gains have been made by all the Readings. Some of the No. Pac. issues have been unsteady; the 3d coups., which sold at 103⅜ last week, dropped to 100½ to-day and close at 102.

Railroad and Miscellaneous Stocks.—The stock market has been chiefly in the hands of professional traders. The industrial list is most conspicuous for activity, in which American Sugar has taken the lead. Pending the action of the Governing Committee of the Stock Exchange as to requiring the company to make a statement of its condition, the stock has fluctuated between 105⅜ and 109½, closing at 108¾.

Distilling was traded in to the extent of nearly 84,000 shares on Wednesday, when it was reported that the various interests had been harmonized, and the stock advanced to 24½. The report was afterwards denied but the stock closes at 24⅛, 4 points above our last quotations. The report of an agreement between Pacific Mail interests and the Panama Railroad Company was contradicted on Monday and Pacific Mail stock declined about 2 points. Chicago Gas has been strong under various rumors and advanced about 2 points. General Electric reached within a fraction of the highest point of the year on Monday. Tenn. Coal & Iron has fluctuated between 44½ and 42⅛, while American Tobacco has been relatively steady.

The railroad list has been dull but firm and steady, with changes in the active stocks chiefly confined to fractions.

The coalers have advanced on the improved conditions in the coal trade. The grangers have been strong on the announcement of a dividend by Rock Island and the excellent report of earnings by St. Paul. Manhattan had gained over two points on Tuesday, when it sold up to 112¾. It closes to-day at 111 bid. Southern Railway pfd. has gained about one point and Pittsburg C. C. & St. Louis pfd. advanced over 3 per cent on buying reported to be by inside interests.

Illinois Central has been weak and declined on the announcement that the stockholders will meet in November to act upon the proposition to issue $10,000,000 additional stock.

NEW YORK STOCK EXCHANGE—*ACTIVE STOCKS for week ending SEPTEMBER 27, and since JAN. 1, 1895.*

Investment AND Railroad Intelligence.

RAILROAD EARNINGS.

The following table shows the gross earnings of United States railroads (and also a few Mexican and Canadian roads) for the latest period reported. The statement includes every STEAM road from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

The returns of the street railways are not included in this table, but are brought together separately on a subsequent page

Net Earnings Monthly to Latest Dates.—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of September 21, 1895. The next will appear in the issue of October 19, 1895.

STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the *gross* earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

STREET RAILWAYS AND TRACTION COMPANIES.

* Road in process of reconstruction.

† Weekly statements do not include amount received from trolley parties, which is kept separate until end of month.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns. The latest full statement will be found in the CHRONICLE of September 21. The next will appear in the issue of October 19.

Northern Pacific Railroad.

(Report of Receivers.)

The table showing the details of earnings and operating expenses for the year ending June 30, 1895, as now published, were given in the CHRONICLE of Aug. 31 and should be examined in connection with the following statement.

In their report to the Court the receivers say in part:

Floating Debt.—In September last your receivers devised a comprehensive plan for financing the receivership by a reissue of their certificates at lower rates of interest and at a higher price, and we have the gratification of reporting the sale of $4,900,000 of the whole issue of $5,000,000 of certificates, payable on or before July 15th, 1897, at our option. Your receivers have paid all preferred claims that have been authorized for payment and have redeemed every outstanding security of the company, and there is not now a single dollar of indebtedness due in Wall Street. The wisdom of these measures is shown by the fact that the market price of the securities so preserved to the estate has advanced from $6,754,997 to $7,659,450.

The following is a comparative statement of current assets and liabilities, exclusive of overdue interest, as of June 30 in 1893 and 1895:

	June 30, 1893, Company.	June 30, 1895, Company.	June 30, 1895, Receivers.
	$	$	$

† These advances having been made to companies now bankrupt are presumably of only contingent value as assets.—EDS.

Difficulties of Operation, etc.—Between April 20 and May 24, 1894, the road was overrun by large numbers of men out of employment, the so-called "Coxeyites," the purpose of whom was to reach Washington to induce Congress to furnish them employment or other relief. This movement became general. Large mobs assembled at Portland, Tacoma, Seattle, Spokane and other Western points. Trains were captured by the mobs and re-captured by the marshals and troops. This constituted practically an embargo upon the successful operation of the railroad. Added to all this, there commenced on May 24 a series of extraordinary floods. Nearly sixty miles of the road at various points between Missoula and Portland were submerged, and a number of bridges were carried away. The first washouts were repaired and operations resumed, but the water rose steadily, and finally the entire roadbed for miles was several feet under water, and it became necessary to abandon the operation of the road between Missoula and Spokane and between Portland and Kelso. The flood did not subside until June 23.

On June 27 the discharge of yard crews for refusing to handle Pullman cars resulted in a strike which became general over the entire system within twenty-four hours. From that time until July 20 it was entirely impracticable to operate the road, and again freight and passenger trains were detained at many points upon the line. It is not reasonable to expect that a railroad operated with however much skill and care under the circumstances could produce satisfactory results. The crop of 1894 was quite bountiful, and the business resulting from its transportation afforded a decided relief to the situation. The prices of agricultural products, however, were very low, and farmers were consequently without money to buy the necessaries of life, except in a small way. As a result, there was a very light Western merchandise movement. The crop of Kansas and Nebraska having failed, there was a much smaller demand for timber and shingles than usual, and the revenue of the road was considerably affected by reason of this condition. The winter of 1894-95 was favorable for operation, but business was exceedingly light. In the early spring conditions improved, and there was a gradual increase in earnings from that time until the end of the fiscal year.

Maintenance, Improvements, Etc.—Expenditures under maintenance of way and structures decreased 10·27 per cent, while conducting transportation decreased $514,667, or 7·96 per cent. General expenses show a very large increase, it being $336,540, the total of the account being nearly 10 per cent of the entire operating expenses. Very much of this expense is the result of the efforts which have been made since the appointment of receivers to harass them in every way.

The operating expenses for the year ending June 30, 1895, include $251,745, and for the previous year $236,464, a total of $488,210 for improvements, consisting of such work as masonry lining of tunnels, additional sidings and spurs, increase in weight of rail, cost of permanent bridges in excess of cost of renewal of temporary structures, right of way, additional fencing, etc., which on many roads are charged to capital account. For the two years in question all expenditures of this character have been charged to operating expenses.

The average of freight cars per train was 22·53, against 21·26 during the previous year. The average freight car miles per day was 24·5 miles, against 22·07 miles for the previous year.

Competition.—The revenues of the road have been affected by the reduction of rates incident to the completion of the

Great Northern Railway to the Pacific Coast on February 15, 1893, which resulted in an average reduction in rates, as compared with those in effect in January, 1893, of about 30 per cent. This, together with the diversion of some traffic to the newly-constructed line, were of considerable injury to the Northern Pacific. To these causes may be attributed a direct loss in gross earnings for the years ending June 30, 1894 and 1895, of about $800,000 per annum. In the opinion of your receivers the effect of this competition has been greater during the past two years than it will be in the future.

Statistics with regard to the business done at the principal stations of the road affected by the deductions show the total earnings from Eastern terminals for the period from March 1, 1893, to and including May, 1895, to have been $4,975,047, which, except for the reductions, would have been $6 771,608, a loss for 27 months of $1,796,561.

Likelihood of Improvement.—In spite of the great decreases which have resulted from the causes hereinbefore mentioned, the gross freight earnings for the year ending June 30, 1895, as compared with the previous year, show an increase of $1,645,206, and there is reason to believe that the improvement which has already commenced will continue until the large earnings of former years are closely approximated, if not equaled.

As touching other matters of interest the report says:

On August 26, 1892, the "Soo Line" and Canadian Pacific completed an extension which formed a new route from St. Paul to the Pacific Coast, and has become an important competitor of the Northern Pacific Railroad at several points in the wheat fields of North Dakota, as well as on through business to and from the coast. The Butte Anaconda & Pacific Railroad was completed in the fall of 1893, and has deprived us of a large amount of business, as its operations have been entirely in conjunction with the Great Northern Railway line. The Burlington system has made connection with the Northern Pacific Railroad at Huntley, Mont., and has deprived us of some business. It is believed, however, that this has been at least offset by additional business. The depression of silver and lead has resulted in the development of many gold properties that have been idle for some years, and considerable traffic has resulted therefrom. The outlook for mineral freights is better than it has been for some time.

The passenger earnings for the year ending June 30, 1895, show a decrease of over $700,000, resulting largely from the strike in July, 1894, and it must also be remembered that the comparison with the previous year is with the earnings made during the period of the World's Fair. The passenger earnings for the past six months of the fiscal year have, however, been greater than for the corresponding months of the previous year, and we are justified in expecting substantial increases during the coming year.

It will be noted that, as compared with the year ending June 30, 1894, the operating expenses for the year ending June 30, 1895, have been reduced $496,437 76, while gross earnings have increased $887,771 29, the improvement in net earnings being $1,384,209 05. Had it not been for the strike in July, 1894, there is no doubt the net earnings for the year would have been at least $600,000 greater, and the ratio of operating expenses to gross earnings would have been correspondingly reduced.

Branch Lines.—Your receivers having constantly in view the importance of preserving the integrity of the system have brought about a dismissal of all the actions, except one, in which separate receiverships had been created, and entered into arrangements with the consent of their branch line bondholders and others interested which have resulted not only in maintaining the integrity of the system, but in rendering more efficient the operation of the branch lines, increasing their advantage to the main line, and greatly reducing the expenses of operation.

Land Grant.—The land grant bestowed by the General Government to aid in the building of the road amounted, in round numbers, to 43,000,000 acres. Your receivers found the receipts of the land department, because of the general depression, and perhaps in a measure for other reasons, insufficient to defray the expenses of the land grant, and even of paying the taxes already levied. The situation of the trust estate was not such that moneys derived from the operation of the road could be used for land grant purposes. Here was presented to the receivers an emergency full of difficulty and danger. If the taxes upon lands already acquired were not paid they would be sold for non-payment of taxes; and so much of the assets of the company would be swept away. The preferred stock had fallen to so low a price that parties who desired to purchase land could best afford to pay for it in preferred stock; the preferred stock could not, however, be utilized for the payment of taxes nor for the expense of surveying the lands or adjusting the grant with the United States. In accordance therefore with a petition presented Sept. 18, 1893, this Honorable Court authorized the receivers to appoint a land commissioner, and prohibited in order to prevent the land grant estate from being swept away) the exchange of lands east of the Missouri River for preferred stock, until there should be realized a sufficient sum upon cash sales to pay the taxes accrued for the years 1893 and 1894, and for the payment of other necessary expenses.

The road was completed in 1887, and the company had then earned the full quantity of lands granted to it by Congress, but up to Aug. 15, 1895, there had been patented to the company but 2,741,296 acres. Your receivers found that a large amount of lands to which the company had not received title had been sold. In addition, under the rulings of the Department of the Interior, the trust estate had been for a long period of time constantly losing, by settlement and otherwise, lands within the indemnity limits because of the delay of the company in selecting them, and also because, under a changed ruling of the Interior Department, a large number of selections which had been filed were declared to be defective. Your receivers, impressed with the great importance of obtaining, as speedily as possible, patents to the lands, had up to June 30, 1895, succeeded in obtaining patents for 6,042,435 acres, and there are now pending at Washington applications for patents for 3,800,000 acres more. Your receivers became satisfied that the estimates of timber upon the lands had not theretofore been conducted with adequate accuracy, and also that efficient means had not been employed to protect the timber lands from trespassers. The re-estimation of timber thus far made has resulted in demonstrating that a very large increase in the value of timber upon the grant will result to the trust estate. Equally favorable results have attended the investigation of trespasses. Owing to the industrial depression throughout the country, the tide of immigration had practically stopped, but since the reorganization of the land department sales of land have largely increased, and the prospect of greatly increased future sales is almost without limit. It is the conviction of your receivers that the true and lasting interests of the trust estate is to be best subserved by inviting actual settlement upon and cultivation of the arable lands at prices attractive to the public, reserving, however, for future sale every desirable body of merchantable timber. If your receivers were at liberty to do so, they would offer the arable lands within the grant to actual settlers, at attractive prices, with extraordinary inducements in the way of free or reduced transportation for themselves and their families, to the end that the grant might be speedily peopled and a lasting and profitable local business be built up, at just and fair rates for the trust estate.

The grant by Congress excepted therefrom mineral lands. Regarding these the Supreme Court of the United States, reversing the decision of a lower court, has held that mineral lands, whether known or unknown at the time of definite location, did not pass by the grant; that the Government was entitled to reasonable time to ascertain what lands were mineral, and that up to the issue of patent to the company, if any lands were discovered to be mineral, the Government was entitled to refuse a patent. It was also held that the issue of a patent constitutes evidence of adjudication by the Government that the land therein described is not mineral land.

Equipment.—June 30, 1895, the condition of the locomotives was as follows: In good condition 55 per cent, fair condition 18 per cent, poor condition 15 per cent, in shops 12 per cent. During the years ending June 30, 1894 and 1895, 541 locomotives had heavy repairs, at a cost of about $1,000 each; 33 per cent of all freight cars are equipped with automatic couplers and 85 per cent with air brakes.

Physical Requirements.—The physical condition of the property is good, but a very large annual economy, estimated at $475,000, could be obtained by the expenditure of about $1,500,000 in reduction of grades. During the next five years it will be necessary to renew about 1,400 miles of steel rail in the main line at a probable cost of $4,000,000, including ballasting, to put the track in first class condition. This will result in a very large annual expense, which, however, will be reduced by the amount realized from the old rail taken up and disposed of, either by using it on the branches or by selling it for cash. It will be advisable also to continue to replace temporary wooden bridges with permanent earth fills or steel bridges at an approximate aggregate expenditure of $3,000,000, but it is not necessary to make all replacements at once, and no extraordinary sum will be required in any one year. The cross-tie renewals will also be heavy hereafter, but this will be an ordinary maintenance expense and should be so treated. It will soon be advisable to add a few heavy locomotives to the equipment, but the cost of same will not be a large sum. It is not likely that any additional cars will be required for some years to come, but considerable amounts should be expended soon in improved devices for heating and lighting passenger cars to keep pace with other trans-Continental roads. Additional terminals, new depots and other improvements will be needed within a few years, and will probably cost about $1,000,000.

Summed up, provision should be made for extraordinary expenditures in the next five years of $9,000,000, in order to place the property on an equal footing with its rivals for economical operation, to wit:

For reduction of grades	$1,500,000
Perfecting right of way	385,000
Purchase of title lands on Puget Sound	100,000
[illegible] new and relaid rails taken up	2,500,000
Additional terminals and other facilities	1,000,000
Bridge renewals	3,600,000
Total	$9,085,000

—Vol. 61, p. 517.

Chicago Great Western Railway.

(Report for the year ending June 30, 1895.)

President A. B. Stickney in his annual report says in part:

General Results.—The decrease in earnings commenced in February, 1893, and continued until May, 1895—about twenty-seven months. But the decrease for May was comparatively little, and the increase in June and July would seem to indicate that the bottom had at last been reached. At this writing an unusually large crop seems nearly assured, and the prospects for returning prosperity are such that it has infused courage into all classes. Compared with last year the gross earnings have decreased 9·3 per cent, following a decrease in 1893-94 of 21·1 per cent. The cost of the Pullman boycott probably reduced the net earnings from $70,000 to $100,000.

Renewals and Improvements.—Notwithstanding small earnings the policy of steadily improving the road-beds and

rolling stock has been pursued, and even more money has been expended than in the previous year. For the past two years it has been necessary to renew an abnormally large number of sleepers and wooden bridges. During the fiscal year over 700 000, or more than one-quarter of all the sleepers in the whole road, have been replaced. As the average life of a sleeper is eight to nine years, this large number is evidently more than is properly chargeable to the expenses of one year. Therefore, in making up the expenses of the year, about one-quarter of the purchase price of these sleepers, and all the labor of putting them in the track, and the cost of transportation on the company's line, have been charged to expenses. The excess cost of oak ties ($78,765), owing to their superior quality, has been charged as improvements, and the balance carried forward in a suspense account, to be charged against the expenses of the next few years.

One hundred and fifty-nine freight cars have been equipped with improved draw-bars and 65 stock cars with automatic couplers and air brakes, at a cost of $5,516. The process of equipping stock cars with automatic couplers and air brakes is being prosecuted at the rate of about 60 cars per month.

Average Rates.—The company has discontinued the statistics of the average rate per ton per mile and per passenger per mile, as the cost of keeping such statistics, about $700 per month, has been deemed altogether beyond their value.

Leavenworth Bridge—New Shops.—At Leavenworth, Kan., the company has negotiated permanent leases over a new and better located bridge [the Leavenworth Terminal Railway & Bridge Company's property], and on other lines through the city, at an annual rental of $16,000 for the first year and $17,500 for each year thereafter, a reduction in rentals of $1,600 the first year and $10,100 for each succeeding year. This arrangement takes effect September 1, 1895, and enables the company to acquire station facilities in the center of the city.

The repair shops of the company located at St Paul have proven inadequate for a line of 922 miles, and owing both to their location and inadequacy have made the repairs of rolling stock costly. During the year the Olwein Land Company offered to build extensive shops, costing $200,000, at Olwein, and make a free gift of them, and about 40 acres of land on which they are situated, to the company on condition that the company would occupy them when completed as its principal repair shops. The location is the best that could be adopted and the prospect is that the shops will be completed within the next eighteen months.

Securities Not Exchanged.—Of the securities for which the Chicago St. Paul & Kansas City Ry. Co. was responsible the following amounts have not been exchanged for stock and bonds of the Chicago Great Western: First mortgage bonds, $388,000; general mortgage bonds, $45,000; income bonds, $274,600; stock, $412,050.

The following comparative tables have been compiled for the CHRONICLE.

EARNINGS, EXPENSES AND CHARGES.

	1894-95.	1893-94.	1892-93.	1891-92.

NOTE.—In addition to the amount of stocks shown as outstanding there is issuable, in exchange for securities of the C. St. P. & K. C. Ry. Co. which are still outstanding, the following, which as issued will be charged to cost of the property: Four per cent debenture stock, $191,000; five per cent preferred stock A, $242,500; four per cent preferred stock B, $15,000; common stock, $617,925 total $1,089,725.

—V. 60, p. 1144.

West Virginia Central & Pittsburg Railway Co.

(Report for year ending June 30, 1895.)

President A. G. Davis says in part in the annual report:

General Remarks.—The business of the road, notwithstanding the continued depression during most of the year in industrial affairs, has been good, the gross revenue being greater than last year by $81,058 88, while the net revenues show an increase of $16 285 74. The maintenance of the property has been in no wise neglected, the policy of keeping the equipment and road-bed in good order having been continued. Several large trestles have been filled, curves lessened and grades lightened. Further improvements of this character and to a greater extent are now in progress.

The company's bonded debt is all covered by a first mortgage on the railroad and its coal properties. This mortgage permits the issue of $3,600,000, of which $3,000,000 have been issued, leaving $600 000 unissued. No bonds have been sold since 1893 and no additional issue is in contemplation.

Coal.—There were produced and shipped from the various mines on the line of the road, including the shipments received from the Cumberland & Pennsylvania road and the Roaring Creek & Charleston road, for the year ending June 30, 1895, 938,188 gross tons, an increase of 174,044 gross tons compared with the previous year.

As to the coal business the report says:

The competition for the sale of coal and coke was exceedingly close, and the low prices at which big vein from other regions was offered in the market affected the sale of the Upper Potomac coals. The company's coal had to be sold at less profit per ton, but the increased amount gave a net revenue about equal to the preceding year. The Davis Coal & Coke Company, which owns and operates most of the mines on the line of the road, has developed a trade of considerable importance with Mexico in coke, and is also sending more or less coal to that country. The prospects are that this trade will increase and furnish the Railroad Company with additional traffic.

Baltimore & Cumberland Railway.—In the last annual report reference was made to the steps being taken by this corporation, organized by friends of the West Virginia Central, looking to the construction of a line from Cumberland to Hagerstown, to provide an eastern outlet for that company, which would be under its own control. The line has been thoroughly surveyed, considerable right of way secured, and the project is now in such shape that active operations for its fulfilment could be entered upon at any time that the conditions are deemed favorable. A contract has been made with the Pennsylvania and Cumberland Valley roads in which they agree to prorate on favorable terms with the Baltimore & Cumberland and to reserve 5 per cent of the gross revenue derived from the interchange of traffic with that road, to be applied if necessary towards the payment of the interest on its bonds.

Chesapeake & Ohio Connection.—From Elkins to the Chesapeake & Ohio a road can be built with reasonable grades at a moderate cost. The Chesapeake & Ohio express a willingness to build part way and steps are being taken by your company looking to the construction of a line to meet an extension of the C. & O. A road so situated would provide a direct route through the State near its centre, and make a connection furnishing the shortest line from the Lakes via Pittsburg to the South through Lynchburg.

Traffic.—Of the 1,485,971 tons of freight carried in the year 1894 95, bituminous coal contributed 73·17 per cent, and lumber, bark, etc., 16·41 per cent.

Physical Condition, etc.—The following table gives various statistics regarding track, equipment, train-loads, etc., for the fiscal years ending June 30:

Road—	1895.	1894.		1895.	1894.
Main line & branches	123	123	*Special statistics for two years*—		
Weight of rails on above—			Average train load—		
70 lbs (steel), miles	39	37	Freight train (tons)	264	260
56 lbs.	84	86	Pass'g'r train (pass.)	23	23
Pied. & Cum. oper'd M.	29	22	Maintenance of way and structures—		
Total equipment—			Amount per mile of road owned	$711	$800
Locomotives (numb'r)	29	29	New 70-lb rails, tons laid	253	192
Passenger cars (No.)	17	17			
Freight cars (No.)	1,792	1,792			

Statistics.—Earnings, expenses and charges have been as follows:

Atlantic Avenue RR. (Brooklyn, N. Y.).

(Report for the year ending June 30, 1895.)

This road belongs to the Brooklyn Traction System. The amount expended by the company during the year for betterments was $301,987, of which sum $16,013 was spent on the road and $274,974 in additional equipment.

The company reports that the total length of its road (single track) is 21.68 miles. Its equipment comprises 10 box cars, not motors; 30 open cars, not motors, and 101 motor cars.

During the year the number of passengers carried was 17,834,856, against 18,431,745 a year ago. The average number of the company's employes, including officials, during the year, was 225.

There were 22 accidents during the twelve months, caused by the road's operation, of which number 8 were fatal.

Earnings for the late fiscal year compare with the previous year as follows:

	1894-95.	1893-94.
	$	$
Gross earnings	854,208	897,534
Operating expenses	744,558	604,588
Net earnings	109,650	292,949
Other income	90,778	64,549
Total income	200,428	357,498
Deduct—		
Taxes	53,054	31,489
Interest	225,578	194,505
Rentals, etc.	12,504	16,278
Total charges	292,136	242,272
Balance for year	def. 91,709	sur. 115,226
Dividends paid		100,000

GENERAL BALANCE SHEET JUNE 30.

Assets—	1895.	1894.
Cost of road and equipment	$4,984,646	$5,248,018
Stocks of other companies	1,360,239	1,645,200

Interest on funded debt, accrued	85,344	87,035
Accounts payable	58,985	
Open accounts	104,075	240,378
Profit and loss, surplus		17,866
Total	$7,119,272	$7,085,514

The Brooklyn Bath & West End Railroad is leased to the Atlantic Avenue Company, which owns the entire capital stock. The earnings are kept separate and for the year ending June 30, 1895, are reported as follows: Gross, $128,171 against $107,844 in 1893-4; net, $48,777 against $20,588; there was a debit under interest charges, taxes, rentals, etc., of $5,490 in 1894-5 against deficit of $14,830 in 1893-4. The company reports that the total length of its road (single track) is eight miles; its equipment comprises 49 cars and 6 locomotives.

During the year the number of passengers carried was 2,787,236 against 1,545,345 a year ago. The average number of the company's employees (including officials) during the year was 103.—V. 61, p. 516.

GENERAL INVESTMENT NEWS.

Reorganization Plans, etc.—The following is an index to all statements relating to defaults, foreclosure sales, reorganization plans, reorganization committees, payment of coupons, and receiverships, of the principal companies, that have been published in the CHRONICLE *since* the last editions of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS were issued, all earlier facts of this nature being set forth therein. It does *not*, however, include matter in to-day's CHRONICLE.

The following abbreviations are used: *Plan* for reorganization or readjustment plan; *coup.* for coupon payments; *def.*, for default; *Com.* for committee.

Addison & Penns lvania Ry.—*Default*—No action has been taken with reference to the second mortgage bond interest, which was defaulted June 1, 1895. No proposition has been made for funding the coupons, and it is no possible to say now whether any such action will be taken. Foreclosure suit has not been brought, and there is no committee representing the loan.—V. 61, p. 469.

American Sugar Refining—*Reports to Stock Exchange.*—The Governors of the Stock Exchange have decided not to insist at present on the filing by this company of regular financial statements. The company's stock is dealt in on the "unlisted" department. The *New York Sun* says:

The company made no declaration of its intentions should such a necessity be passed, but it was pretty clearly understood that it would not comply with these conditions. The company had nothing to gain by so doing, and if the Exchange forced such a condition it would be very much like cutting off its own nose, so far as business in this stock is concerned. The American Sugar Refining shares are not listed, and therefore the company is not compelled to furnish information. All of the facilities of the Exchange, however, are at its disposal.—V. 61, p. 469.

American Tobacco—*Suits*—Both in the States of Illinois and New York suits are in progress against this company to prevent its doing business within the State, and in New Jersey there is a suit for the nullification of the company's charter. The Illinois suit brought by Attorney-General Moloney has been postponed until Oct. 1. The New York suit came up for hearing Sept. 20 and the contending attorneys were given thirty days in which to submit their briefs.—V. 61, p. 67.

Ann Arbor—Toledo Ann Arbor & North Michigan—*New Company*—Articles of incorporation for the new Ann Arbor Company were filed on the 21st. Subsequently a board of directors was elected, as follows: W. R. Burt, G. W. Quintard, J. E. Simmons, R. M. Galloway, R. C. Martin, C. J. Lawrence, John Jacob Astor, R. D. Murray, Benj Perkins, E. W. Tillotson, A. C. McClure, A. W. Wright. Mr. W. R. Burt, the late receiver, was elected President of the new company. The Escanaba Frankfort & Southeastern was formally consolidated this week with the Ann Arbor. The old Toledo Ann Arbor & North Michigan stock will be given an opportunity in a few days to subscribe for the new stock at $10 a share for every two shares of the old.

Subscriptions must be paid to the Metropolitan Trust Company, 37 Wall Street, within sixty days from Oct. 1, 1895.—V. 61, p. 239, 328.

Atchison System—Colorado Midland Ry.—*Status of Reorganization, etc.*—Mr. Oscar Banke, Secretary of the Bondholders Committee of the Colorado Midland, has kindly furnished the CHRONICLE with the following statement respecting the status of reorganization matters:

There have been deposited $5,821,000 first mortgage bonds and $3,493,000 coupons under the terms of the agreement of Jan. 28, 1895. The Central Trust Co. is authorized to continue to receive bonds until further notice. As stated in circular of May 10, 1895, the foreclosure proceedings begun under the consolidated mortgage were supplemented by proceedings under the first mortgage. The two actions were consolidated and are still pending, but the committee does not desire to obtain a decree of foreclosure until the earning power of the Colorado Midland RR., which is now operated independently from the Atchison System, has been demonstrated sufficiently to be a safe guide in the future reorganization of the property. All due coupons of Book Cliffs bonds, Aspen Short Line bonds and both issues of equipment bonds, including the coupons due Sept. 1, 1895, have been paid. The only interest not paid since the property has been operated by receivers is that on first mortgage bonds and on consols.—V. 61, p. 516.

Atchison System—St. Louis & San Francisco—*Coupon Notice.*—The coupons due August 1 on the Missouri & Western and the collateral trust sixes and the September coupon on the St. Louis Wichita & Western were paid promptly as usual at maturity, the collateral trust coupons at the United States Trust Co. and the others at the Atchison office, 120 Broadway.—V. 61, p. 516.

Atchison Topeka & Santa Fe RR.—*Chicago Terminals.*—Gen. Torrence this week executed a deed and all necessary conveyances to clear the title of the Atchison Topeka & Santa Fe RR. Co. to the Chicago Elevated Terminal Railroad property in Chicago. Subsequently Gen. Torrence resigned the presidency of the Terminal Company and Edward King, chairman of the Atchison reorganization committee, was elected in his place.—V. 61, p. 516.

Buffalo & Niagara Falls Electric Ry.—Niagara Falls Power Co.—*Road opened.*—The Buffalo & Niagara Falls Electric Ry. was opened between Niagara Falls, N. Y., and Buffalo, a distance of 15 miles, on Sept. 20. The entire road is operated by electric power generated by the Niagara Falls Power Company.—V. 60, p. 1007.

Buffalo North Main St. & Tonawanda RR.—*New Bonds.*—The stockholders have authorized first mortgage bonds for $75,000 for funding, etc.

Buffalo Rochester & Pittsburg Ry.—*Listing.*—This company has listed on the New York Stock Exchange $436,000 additional general mortgage five per cent bonds, of which $64,000 to retire equipment bonds, $225,000 for permanent improvements and new rolling stock, $147,000 on account of road between Howard Junction and Mount Jewett, Pa. Total amount listed to date $4,407,000.—V. 61, p. 280.

Cape Fear & Yadkin Valley—Roanoke Southern—Baltimore & Ohio.—Hambleton & Co.'s circular says:

There appears to be a probability of the building of a connecting link between the Chesapeake & Ohio at Buchanan and the Roanoke Southern at Roanoke, Va. Such a connection, it is proposed, may be used by the Baltimore & Ohio and the Chesapeake & Ohio jointly, the Chesapeake & Ohio to give the Baltimore & Ohio access to their meeting road over its tracks from Lexington to Buchanan. It is proposed by certain interests at Roanoke to contribute a desirable site for a terminus at Roanoke, and the holders of Roanoke Southern and Cape Fear & Yadkin Valley bonds, it is intimated, may find it to their interest to assist in building this connecting link. At present the Roanoke Southern Road is leased to the Norfolk & Western. The Yadkin Valley reorganization is still delayed, partly through inability to satisfy the claims of the A bondholders and partly through a disposition to wait awhile, in hope that the improved earnings of the property will justify more advantageous terms than at first proposed.—V. 61, p. 365, 473.

Capital Traction—Washington & Georgetown RR.—*Consolidation.*—The stockholders of the Washington & Georgetown RR. Co. on Sept. 21 ratified the proposed consolidation with the Rock Creek Ry., under the title of the Capital Traction Co., with capital stock of $12,000,000.—V. 61, p. 283, 328.

Chicago & Atchison Bridge—*Default.*—Coupons due January 1, 1895, remain unpaid. The approach to the bridge was washed down in the fall of 1894.

Chicago Gas—*Reorganization.*—A plan to reorganize the company so as to make its status conform in all respects with the existing laws of Illinois is under consideration. It is understood that the plan will provide for the consolidation of the several subsidiary companies and for the issuance of voting stock, but some time may elapse before anything of the kind is attempted.—V. 61, p. 68.

Chicago Peoria & St. Louis RR—St. Louis Springfield & Peoria - St. Louis Alton & Terre Haute—*Foreclosure Sale.*—The Chicago Peoria & St. Louis was sold at Springfield Sept. 21 on decree of foreclosure of the United States Court. The property was sold in four parcels. The first, extending from Pekin to Jacksonville and Havana to Springfield, 120 miles, brought $1,000,000; the second, Springfield to East St. Louis, $900,000; the third, north and west from Havana to Canton, $150,000; the fourth was acquired by the receiver on account of mortgages for $50,000. This made a total of $2,100,000. The property was then offered in bulk, but the amount bid fell short of the above aggregate, and the sale made in parcels was confirmed. The Reorganization Committee, represented by Paul D. Cravath, was the only bidder. It is expected the control of the new company, which it is said will be the St. Louis Springfield & Peoria, will pass as proposed to the St. Louis & Terre Haute.—V. 61, p. 431, 470.

City Electric Street Ry. (Decatur, Ill.)—*Dividend.*—This company has just declared a preferred stock dividend of 12 per cent for a period of two years. The preferred stock amounts to $125,000. All of the earnings thus far have been expended for extensions, brick paving and other improvements.

Columbus & Hocking Coal & Iron—*Circular*—A circular to the bond and stock holders, setting forth the present condition and prospects of the company, will be mailed to all security-holders probably the first of next week. Accompanying it will be a proposition from the committee of reorganization, in which John H. Davis & Co. are interested.—V. 61, p. 240.

Columbus Sandusky & Hocking RR.—*Sale.*—The re-sale of this road is set for Oct. 19. The reorganization plan is now operative. Over 90 per cent of the bonds have been deposited. The Zanesville Terminal coupons due July, 1895, were paid August 12, with interest.—V. 61, p. 516.

Deer Creek & Susquehanna RR.—*Receiver.*—Hugh J. Jewett, Jr., has been made receiver of this company.—V. 61, p. 470.

Detroit & Mackinac Ry.—*Listing.*—This company's first lien 100-year 4 per cent bonds for $900,000 and mortgage 4 per cents for $1,250,000 were listed this week on the New York Stock Exchange. The company is a reorganization of de- Detroit Bay City & Alpena and its securities are fully described in the reorganization plan in the CHRONICLE of Jan. 19, 1895, on page 130. The application to the Stock Exchange says in part:

Of the "mortgage bonds," $750,000, as well as the entire common stock, are held in trust by C. H. Coster, Edward N. Gibbs and Anthony J. Thomas, committee, to be distributed to the old Detroit Bay City & Alpena bondholders only when and as said committee may think such distribution prudent, with the right to them in the meanwhile to waive interest on said $750,000 bonds and to take preferred stock for such interest, or for the entire allotment of bonds if thought more prudent. The company has sold $800,000 prior lien bonds, of which $600,000 to purchase the Alpena & Northern RR., extending from Alpena to South Rogers City, 25 miles, together with various "logging branches," and $500,000 to extend the present line from Emery Junction south to Bay City. When this extension is completed the company will own about 170 miles of main line and about 130 miles of branches, most of the latter, however, being only of a temporary character for logging purposes. Pending the completion of this extension, the company owns about 125 miles of main line. For the months of May and June, being the two months in which the Alpena & Northern was operated as a part of the system, the gross earnings were $9,744, and the net earnings were $44,079. It is expected that the construction of the line from Emery Junction to Bay City will add largely to both the gross and net earnings of the system, as the company is greatly hampered by the lack of a suitable connection to Bay City. Without this extension, however, the company has earned in five months within $10,000 of a full year's interest on all its *outstanding* bonds ($600,000 first lien and $1,250,000 "mortgage bonds"), including those to be used for building the extension. The mortgage is to the State Trust Company, of New York, trustee.—V. 61, p. 470.

Distilling & Cattle Feeding—American Spirits Manufacturing—*New Securities*—The new company has opened offices in the Mills Building, but when the new securities will be issued is very uncertain, the whole matter being tied up by the pending litigation.—V. 61, p. 366.

Flint & Pere Marquette RR.—*Listing*—First consolidated mortgage five per cents for $300,000, used for reduction of floating debt incurred in completing extension of line to Detroit, and other construction work, were listed on the New York Stock Exchange this week, making total amount listed $2,100,000.—V. 61, p. 366.

Gettysburg Electric Ry.—*Receiver.*—President E. M. Hoffer and the West End Trust & Safe Deposit Co. of Philadelphia have been appointed receivers of this property upon application of the Maryland Steel Company, which owns $5,000 bonds that have been in default since Nov. 1, 1893. Floating debt is said to be $10,000.

Great Northern Ry.—St. Paul Minneapolis & Manitoba Ry.—*Listing.*—Montana Extension first mortgage bonds for $337,000 have been listed on the New York Stock Exchange; total now listed $7,805,000.—V. 61, p. 517.

Green Bay Winona & St Paul RR.—*Deposits.*—The time within which holders of income bonds and preferred and common stocks can deposit them with the Manhattan Trust Company under the plan of reorganization has been extended to Oct. 5. After that date no securities will be received, except in the discretion of the committee, of which John I. Waterbury is the chairman, and subject to such penalties as may be prescribed. Over a majority of the consols, stock and incomes respectively have assented. The plan calls for the assent of 75 per cent of the stock and incomes, but the committee reserves the right to declare it operative on deposit of a less amount.—V. 61, p. 471.

Illinois Central RR.—*New Stock*—A special meeting of the stockholders has been called for Nov. 26 to vote upon a proposition to issue $10,000,000 additional stock, making the total stock $60,000,000. The new issue will be offered pro rata to the present stockholders at par. The proceeds will be used principally to meet the cost of Chesapeake Ohio & Southwestern securities purchased during the past year or so; the improvements on the Lake front at Chicago will also call for the expenditure of about $1,200,000 and $1,800,000 is said to be needed for other purposes.

The notice of the meeting says:

Each stockholder of record on October 19, 1895, shall have the privilege on or before December 16 of subscribing, at par, for one of the new shares for every five shares registered in his name. Payment for the new shares to be made as follows: 10 per cent thereof on Dec. 16, 1895; 15 per cent Dec. 31, 1895; 25 per cent Jan. 31, 1896; 25 per cent Feb. 28, 1896, and the remaining 25 per cent March 31, 1896. To such as shall by Dec. 31, 1895, have paid their subscription in full certificates will be issued carrying the March, 1896, dividend.—V. 61, p. 112, 324.

Ithaca Street Ry.—*Yearly Earnings*—Earnings for the fiscal year ending June 30, 1895, compare with the previous year as follows:

	Gross.	*Net.*	*Int. & taxes.*	*Bal., sur.*
1894-95	$55,370	$23,454	$16,806	$7,048
1893-94	41,896	20,265	14,216	6,049

The general balance sheet of June 30, 1895, shows an increase of $25,000 in the funded debt (over 1894), which now stands at $275,000. Loans and bills payable were $44,971 against $23,304 in 1894.

Kentucky & Indiana Bridge—*Suit, Etc.*—The *Louisville Courier-Journal* says: "Briefs in the Kentucky & Indiana bridge case have been submitted before Judge Barr, and an opinion is expected in a few weeks. The Youngstown Bridge Company and the second mort. and terminal bondholders are the plaintiffs. The point at present is principally to learn just how much of the property each issue of the bonds covers. The bondholders are gaining heart at the improvement in earnings shown recently."—V. 61, p. 240.

Lake Erie & Western—*Lease.*—This company will take over the Northern Ohio, formerly Pittsburg Akron & Western, under lease October 1.—V. 61, p. 324.

Lehigh & New York RR.—Southern Central RR.—Lehigh Valley RR.—*New Bonds.*—The first mortgage fifty-year 4 per cent gold bonds of the Lehigh & New York RR. to a total of $2,000,000 have been offered for sale. They are guaranteed by the Lehigh Valley RR. Co. and are secured by a first mortgage at the rate of about $18,000 per mile on the road formerly known as the Southern Central RR., now reorganized. This road furnishes an outlet to Lake Ontario for the Lehigh Valley system. The mortgage covers the road and terminal property and it is agreed that the proceeds of $350,000 of the bonds shall be expended for equipment, to be included under the mortgage.—V. 61, pp. 377, 471.

Lima Northern.—*New Company.*—This company has been organized to build a road from Lima, Ohio, the Northern terminus of the Ohio Southern RR. to Adrian, Mich., a distance of 70 miles. The contract has been let and the road is to be completed by next spring.

Little Rock & Memphis.—*Reorganization.*—It is reported that plans have been matured by which the bondholders committee will buy the road at the foreclosure sale, October 17, and extend the line westerly to Wister, I. T., to connect with the Frisco line and the Choctaw Coal & Iron Road. The latter line would put them in touch with the Missouri Kansas & Texas, and with the Rock Island route, thus giving the most direct line from all Western points to Memphis. At a meeting of prominent business men representing the Board of Trade and the Commercial League, at Little Rock on the 20th inst., it was decided to offer a bonus of $100,000 to the first road built into Little Rock from any direction to break the monopoly enjoyed by the Gould system. Of the $3,300,000 first mortgage bonds outstanding on the Little Rock & Memphis, all but about $60,000 have been deposited with the committee. There are also $28,000 preferred bonds outstanding.—V. 60, p. 967.

Louisville Evansville & St. Louis Consolidated RR.—*Listing.*—There have been listed this week on the New York Stock Exchange the New York Security & Trust Co.'s engraved certificates of deposit for $3,119,000 first consolidated mortgage 5 per cent gold bonds deposited under the agreement of the Bondholders Committee, consisting of Charles S. Fairchild, chairman, Wm. L. Ball, Jas. Stillman, Wm. H. Payne and Mayer Lehman. A decree of foreclosure is expected this fall, but it will be some months before a reorganization plan is announced.

Coupon Payments.—The receivers give notice that the coupons on the Louisville Evansville & St. Louis first and second mortgage bonds due April 1, 1895, will be paid upon presentation at the New York Security & Trust Company, New York City, on and after September 30, 1895. Vernon & Carondelet coupons due October 1, 1895, will be paid on that date at the same place.—V. 61, p. 471.

Louisville & Jeffersonville Bridge—Chesapeake & Ohio Ry.—Cleveland Cincinnati Chicago & St. Louis Ry.—*Listing of New Bonds.*—The first mortgage fifty-year 4 per cent gold bonds of the Louisville & Jeffersonville Bridge Co. to the amount of $3,000,000, guaranteed by the Big Four and Chesapeake & Ohio, were listed this week on the N. Y. Stock Exchange. The following facts concerning the company and its securities are taken from the application to the Exchange.

The Bridge Company owns about 40 acres of land in the city of Louisville and 30 acres in Jeffersonville on the opposite bank of the Ohio River, also a railroad bridge ¾ mile long of the most substantial construction connecting the two cities. The viaducts on either side aggregate 1¾ miles. It furnishes entrance to the railway companies into Louisville, Ky., with ample land for terminal facilities in that city and in Jeffersonville for possibly all time to come. The real estate is of exceptional value and extends to the main business street of the city and to within two blocks of the State House. The principal depot and a large portion of the track next to that on which the last decree is entered has been acquired with the view of acquiring the whole of it and erecting a large passenger station at this point hereafter, upon destruction; meanwhile another passenger station, adjacent to the Bridge Company's tracks is used.

The entire stock of the Bridge Company is owned "in the interest of" the two railway companies. The mortgage is for $5,000,000 to the United States Trust Co. of New York and the Union Trust Co. of Indianapolis as trustees, and $2,000,000 of the bonds issued are held by the trustees to be used only as provided by the mortgage for additional property, new equipment, betterments, etc., and bear no interest. Both the underlying mortgages have been satisfied, so that the 4 per cents are a closed first mortgage. Both principal and interest are payable in gold coin at the company's agency in New York, J. P. Morgan & Co.'s, without deduction for any taxes which the Bridge Company may be obliged to pay or retain therefrom. The following is the guaranty endorsed on each bond: "For value received, the Cleveland Cincinnati Chicago & St. Louis Railway Company and the Chesapeake & Ohio Railway Company do hereby jointly and severally guarantee the due and punctual payment of the principal and interest of the within bond according to the terms thereof, and of the deed of trust securing the same; and, in witness thereof, have severally caused this guaranty to be executed by a duly authorized corporate agent, and their corporate seals to be hereunto affixed, this 20th day of February, 1895," signed by the Vice President of each of the guarantors.—V. 61, p. 27, 2-5, 328.

Maine Central RR.—*Earnings.*—The fiscal year has been changed from Sept. 30 to end June 30 and the report for 1895 covers only the nine months from Sept. 30, 1894, to June 30, 1895. We give below the figures contrasted with the corresponding months of 1893-94. The complete report will be reviewed next week.

9 mos. end. June 30—	Gross earnings.	Net earnings.	Int., rents, &c.	Dividends.	Balance.
1894-95	$3,445,947	$1,182,057	$1,031,243 (6)	$124,440	sur. $26,374
1893-94	3,316,723	1,264,777	1,074,311 (6)	244,583	def. 54,117

The net earnings include $17,033 of "other income" for 1894-95, against $59,548 the previous year.—V. 60, p. 836.

Mississippi Valley Ry.—*New Road.*—Concerning, we understand, this company the *St. Louis Globe-Democrat* says:

The necessary funds have been obtained for going ahead with the new line from East St. Louis to Cairo, known as the St. Louis & Mississippi Valley project. The contract price is in good bonds and it is said that the work of construction will progress rapidly during the fall months.—V. 61, p. 196.

Montgomery & Eufaula RR.—*Sinking Fund Sale.*—Under decree of the Court the sinking fund assets of the first mortgage bonds, including sundry stocks and bonds, will be sold at auction Oct. 8 at Savannah.—V. 60, p. 523, 1008.

Nashville Traction—Overland R. C.—*Receiver.*—The Baltimore Trust & Guaranty Co., as mortgage trustee, has applied for a receiver for the Overland RR. Co., interest on whose $100,000 of bonds has not been paid for a year. The Nashville Traction Co. was intended to succeed the Overland Co.

New York Central & Hudson River RR.—*Earnings.*—Earnings for the quarter ending Sept. 30 have been reported as follows, the figures for 1895 being partly estimated:

3 months to Sept. 30.	Gross earnings.	Net earnings.	Fixed charges.	Dividend on stock.	Balance.
1895	$11,580,240	$3,884,240	$2,940,000	$1,000,000	sur. $200,000
1894	10,840,822	3,726,053	2,650,152	1,192,854	def. 96,943

The dividend for the quarter in 1895 was 1 per cent, in 1894 1¼ per cent.—V. 61, p. 11.

New York Lake Erie & Western RR.—*Sale.*—The foreclosure sale of this road is advertised for Nov. 6, the upset price being fixed at $10,000,000.

Prior Lien Syndicate.—A syndicate formed by Harvey Fisk & Sons has purchased from the underwriting syndicate the $15,000,000 of new first consolidated prior lien 4 per cent bonds.

Reorganization Notice.—The Reorganization Committee calls attention to the fact that the foreclosure sale of the Erie property has been fixed for November 6, as above stated, and say that it is essential for bondholders coming under the reorganization, viz., holders of New York Lake Erie & Western Railroad Company's new second consolidated mortgage bonds, second consolidated mortgage funded coupon bonds, funded coupon bonds of 1885, income bonds, and Chicago & Erie Railroad Company's income bonds, should deposit their securities on or before Friday, Oct. 25, with Messrs. J. P. Morgan & Co. of New York or J. S. Morgan & Co. of London. Bonds not deposited on or before that date will be received only on such terms as the committee may hereafter determine. The holders of reorganization certificates or receipts under said plan of reorganization for preferred and common stock of the New York Lake Erie & Western Railroad Company are also notified that the second instalment is called to be made on or before Oct. 21 and the third instalment on or before Nov. 21 and the fourth instalment on or before Dec. 23. Certificates or receipts must be presented at time of payment so that same may be endorsed thereon.—V. 61, p. 517.

New York Lake Erie & Western RR—Chicago & Erie RR.—*Listing.*—J. P. Morgan & Co. engraved certificates of deposit for $4,177,000 Chicago & Erie income bonds deposited under the plan, were listed on the New York Stock Exchange this week.—V. 59, p. 965; V. 61, p. 517.

New York New Haven & Hartford RR.—*Listing.*—It has been ordered that on Oct. 1, 1895, the $3,500,000 of new stock and $3,287,500 additional 4 per cent convertible debenture certificates, issued according to the authority given last spring, shall be included in the amounts listed on the N. Y. Stock Exchange. The company's capital stock listed will then be $47,500,000 and its convertible debentures $16,437,500. The new debentures are in form, maturity and privilege precisely similar to those previously issued.—V. 61, p. 517.

New York Ontario & Western Ry.—*Annual Meeting.*—The annual meeting of this company was held Thursday. C. Ledyard Blair, of the banking firm of Blair & Co., was elected to fill the vacancy in the board caused by the death of E. K. Sibley. The other directors and all of the old officers were re-elected. President Fowler advocated the continuance of the voting trust, and a resolution was passed continuing the trust. There was no discussion of the question of classifying the capital stock. An interesting address was made by Vice President Price of London.

Coal Lands.—Regarding the sale of coal lands by John Jermyn, reported this week, President Fowler says:

The sale of 3,0 0 acres of anthracite coal lands near Scranton by John Jermyn to the Lehigh Coal Company includes an arrangement between the Ontario & Western and the New York Susquehanna & Western by which the Susquehanna receives a considerable sum of money and the Ontario & Western secures a large addition to its coal tonnage.—V. 61, p. 419, 424.

Northern Pacific RR.—*Resignation of Receivers.*—Thomas F. Oakes, Henry C. Payne and Henry C. Rouse, the receivers of this company, on Tuesday presented their joint resignation to Judge Jenkins of the United States Circuit Court for the Eastern District of Wisconsin. This action was taken on account of the claim made of the Court for the District of Washington (see p. 439) to the effect that the Wisconsin Court was not the court of primary jurisdiction. In their letter of resignation the receivers say:

It is the understanding of your receivers that the Honorable the Circuit Court for the District of Washington has to all intents and purposes asserted primary jurisdiction of this cause and of this receivership. Your receivers feel that in this exigency their first duty is to the great property committed to their care, and that if the conflict of jurisdiction is to proceed and rest as seems apparent in separate receivership for portions of the railroad, it will greatly minimize the loss and injury to the great estate of receivers appointed by this Court, and by such courts as shall hold its jurisdiction to be primary, are free from contumacy to other courts.

An order was accordingly issued by Judge Jenkins, directing all persons interested to appear before him September 27 to submit suggestions respecting the appointment of receivers, but as we go to press news of his action has not yet been received.—V. 61, p. 517.

Old Colony RR.—New York New Haven & Hartford RR.—*New Stock and Bonds.*—The stockholders of the Old Colony duly authorized the proposed $4,000,000 of bonds for refunding. The company's 6,000 shares of stock were sold on Sept. 25 at prices ranging from 176 to 177½.—V. 61, p. 517.

Reports and Documents.

ILLINOIS CENTRAL RAILROAD COMPANY.

FORTY-FIFTH ANNUAL REPORT OF THE DIRECTORS TO THE STOCKHOLDERS.

The following is a summary of the Company's business for the year ended June 30, 1895:

Gross Receipts from Traffic		$19,056,994 18
Expenses of Operation and Taxes		13,268,530 71
Net Receipts from Traffic		$5,788,463 47
Net Receipts from Sale of Lands		85,568 56
Income from Investments and Miscellaneous Profits	$1,519,408 94	
Income from Investments in Surplus Dividend Fund	37,165 00	1,556,573 94
Total Net Receipts		$7,430,905 97
Surplus Dividend Fund brought forward June 30, 1894, as shown in last Report		817,268 97
Available for Fixed Charges and Dividends		$8,248,174 94
From this there have been paid:		
Interest on Funded Debt, and Bonds drawn under Sinking Fund	$2,807,845 00	
Rent of the Chicago St. Louis & New Orleans RR.	$1,648,765 00	
Rent of the Dubuque & Sioux City RR.	471,379 41	2,120,144 41
Total Fixed Charges and Rent		4,927,989 41
Leaving Available for Dividends		$3,320,185 53
Out of which there have been taken the Dividends payable March 1 and August 31, 1895 (5 per cent on $50,000,000)		2,500,000 00
There has been carried forward to Surplus Dividend Fund, as of June 30, 1895, and set apart as applicable to future Dividends.		$820,185 53

The number of Miles of Railway Operated has been 2,888, the same as in the preceding year.

The following is a comparison with the results for the year ended June 30, 1894:

Gross Receipts from Traffic have decreased	$1,600,469 60	or	7·75 per cent.
Expenses of Operation and Taxes have decreased	1,100,885 22	"	7·66 "
Net Receipts from Traffic have decreased	499,584 38	"	7·94
Net Receipts from Lands have increased	59,027 88	"	219·92
Income from Investments and Miscellaneous Profits, including Income from Investments of Surplus Dividend Fund, have decreased	323,030 93	"	17·19
Total Net Receipts have decreased	763,587 43	"	9·32
The sum Available for Fixed Charges and Dividends has decreased	300,311 88	"	3·51
Interest on Funded Debt and Bonds drawn under Sinking Fund have increased	92,580 00	"	3·41
Rents of C. St. L. & N. O. RR. and of D. & S. C. RR. have decreased	395,808 44	"	15·73
The total Fixed Charges and Rent have decreased	303,228 44	"	5·80
The sum Available for Dividends has increased	2,916 56	"	·09 "
Surplus Dividend Fund carried forward has increased	2,916 56	"	·36 "

The proportion of the Expenses of Operation, including Taxes, to the Gross Receipts from Traffic has been 69 63 100 per cent, an increase of 07-100 per cent compared with the year preceding.

The Receipts from Passengers have been		$3,908,348 0
a decrease from the previous year of 36 10-100 per cent, or	$2,208,255 03	
The Receipts from Freight have been		$12,821,210 4
an increase over the previous year of 4 63-100 per cent, or	$567,598 46	
The Receipts from Express, Mail and other sources have been		$2,327,435 34
an increase over the previous year of 1 76-100 per cent, or	$40,186 97	

During the two years previous to the one under consideration, the Receipts from Passengers were swelled by the World's Fair, and the large reduction therein marks a return to normal conditions. On the other hand the Receipts from Freight have been larger than in any preceding year.

In view of the continued depression in general trade, which was aggravated by the utterly uncalled for "sympathetic boycott" on your and other railways during July, 1894, and of the failure of the corn crop in Northern Illinois, Iowa and other Western States, the results of the year's business are both satisfactory in themselves and encouraging for the future.

The usual dividend has been earned within the year without drawing on the large surplus carried over from the previous year as applicable to that purpose. Indeed, a small sum has been added to that fund.

The improved standards of maintenance have been adhered to and the physical condition of the railway and of its equipment has been maintained in all respects and improved in many, as will appear by reference to the detailed statements attached hereto.

The first four months of the year—July, August, September and October—1894 each showed a large decrease in the Net Receipts as compared with the corresponding months of 1893 (during which the World's Fair had been in progress), but each of the last eight months has, by like comparison, shown a tangible increase in the Net Receipts.

The increase in the Interest on the Funded Debt is due to the payment of a full year's interest on the Four Per Cent Bonds given in payment for the securities of the Chesapeake Ohio & Southwestern Railroad Company, on which only one half-yearly coupon became payable during the preceding year.

The lease of the Dubuque & Sioux City Railroad to the Illinois Central Railroad Company, dated July 1, 1890, was by mutual consent canceled and a new lease made in January, 1895. The rent remains, as before, the net earnings of the property after deducting the expenses of operation and taxes, but it is to be applied as follows:

First.—To the payment of the interest on the Bonds of the Illinois Central Railroad Company that may be issued to refund the bonded indebtedness of the Dubuque & Sioux City Railroad Company, and to provide means for the improvement of and additions to this property.

Second.—To provide a fund for the payment, at maturity, of the entire authorized issue of such Bonds.

Third.—The sum remaining is to be turned over to the Dubuque & Sioux City RR. Co.

Concurrently with the making of the new lease, the Dubuque & Sioux City Railroad Company, in pursuance of powers conferred on it by statute, mortgaged its property to secure a contemplated issue of not exceeding $10,000,000 of the Four Per Cent Western Lines First Mortgage Bonds of the Illinois Central Railroad Company. Of these $3,550,000 were issued to refund the bonded debt of the Dubuque & Sioux City Railroad Company, all of which was owned by the Illinois Central RR. Co. Of the remainder, $1,875,000 may be issued when the Cedar Falls & Minnesota Railroad shall have been freed from other liens and subjected to the Western Lines Mortgage, and the remaining $4,575,000 when the Iowa Falls & Sioux City Railroad shall in like manner have been subjected to that Mortgage.

The $3,550,000 of Western Lines Bonds received by the Illinois Central Company in exchange for the old Bonds of the Dubuque & Sioux City Company have been disposed of in part for cash and in part in exchange for other securities.

All of the Prior Lien Bonds of the Cedar Falls & Minnesota Railroad Company, amounting to $200,000, and $1,243,000 of the First Mortgage Seven Per Cent Bonds of that Company, were bought for $1,453,236 25. The latter are part of an issue of not exceeding $1,577,000.

Reference was made in the last Report to the sale of securities of the Chesapeake Ohio & Southwestern Railroad Company and of the corporations affiliated therewith, to the Louisville & Nashville Railroad Company, and to the suit by the State of Kentucky against that Company. That suit has been twice decided adversely to the Louisville & Nashville Railroad Company, lastly by the unanimous opinion of the Court of Appeals of Kentucky, which is the Court of last resort in the State from which the Louisville & Nashville Railroad Company holds its charter. While it is understood that a writ of error has been taken to the Supreme Court of the United States, such writ does not supersede the decision rendered, which is and will remain permanently binding unless reversed by the Supreme Court, of which we are advised by counsel there is no prospect.

The Louisville & Nashville Railroad Company having defaulted in the payment of the interest due July 1, 1894, upon the Five Per Cent Gold Bonds received by this Company in payment for the Chesapeake Ohio & Southwestern securities, and such default having continued four months, the contract of sale was, in the manner therein provided for, annulled on November 7, 1894; the Bonds of the Louisville & Nashville Railroad Company being also at that time returned to it.

A bill for the sale of the Chesapeake Ohio & Southwestern Railroad, under foreclosure of its Second Mortgages, is being pressed for hearing.

In December, 1894, your Company purchased the majority of the First Mortgage Six Per Cent Gold Bonds of the Chesapeake Ohio & Southwestern Railroad Company, due August 1, 1911, with the coupons then overdue attached, and agreed to receive the remainder at the same price for a limited period, which has expired. The amount of Bonds so bought was $5,982,000, at a cost of $6,889,699. The coupons due on and prior to August 1, 1894, amounting to $346,200, were collected and credited against the cost of the bonds, reducing it to $6,543,499. The coupon due February 1, 1895, was collected after some delay, and, with the interest on other deferred payments, amounted to $188,624 26. This sum is included in the Income from Investments above reported.

These Bonds can in no way be affected by the foreclosure of the Second Mortgage, which is in every respect subject to the paramount lien of the First Mortgage.

To provide for these large purchases of bonds a temporary loan of $7,000,000, payable in 1895, with interest at 3½ per cent per annum, was effected. The net earnings of the Chesapeake Ohio & Southwestern Railroad have always greatly exceeded the interest on its entire issue of $8,178,000 of First Mortgage Bonds, and the annual interest on those which are owned by your Company amounts to $[illegible], thus assuring a large profit from this transaction.

The payment of the £[illegible] of Six Per Cent Sterling Bonds of the Illinois Central Railroad Company, which matured April 1, [illegible], was by agreement extended until April 1, 1951, the rate of interest being reduced to Four Per Cent, and new coupons being attached to the Bonds.

The assets in the Insurance Fund amount to $[illegible],970 62, showing an increase during the year of $[illegible],6[illegible]3 36.

The Trustees of the Cairo Bridge Fund hold $215,547 34, which, with the exception of $845 34 in cash, is well invested in the securities authorized by the mortgage under which they act.

As shown in greater detail in the accompanying tables, the outlay on Capital Account has been as follows:

Illinois Central Railroad	$462,411 07
Chicago & Springfield Railroad	31,967 28
[illegible] Railroad	4,987 61
Blue Island Railroad	389 51
Chicago, Madison & Western Railroad	299 64
Kansas Division	173 68
Chicago, Milwaukee & Northern Railroad	5,505 10
Chicago, St. Louis & New Orleans Railroad	278,206 51
Yazoo & Mississippi Valley Railroad (Texas Branch)	699 90
Canton, Aberdeen & Nashville Railroad	176 25
	$785,927 05
Less	
Station, Grounds and Wharf Property at New Orleans sold to the Yazoo & Mississippi Valley RR. Co. at cost	$507,010 59
Proceeds sale of coal lands in Cairo Bridge	900 00
	507,910 59
	$278,016 46

Toward the end of the fiscal year work was begun on an elaborate system of new car shops at Burnside, adjoining the locomotive shops erected two years ago. It is estimated that these shops, with their appurtenances, will cost approximately $[illegible],000. The very valuable land which the old car works have so long occupied at Twenty-seventh Street in Chicago will be available for other uses, and the work of building and repairing cars and locomotives will, for the first time in the history of the Company, be brought together in one place and under one supervision. Work has also been begun on a number of station buildings, round houses and other structures.

The Yazoo & Mississippi Valley Railroad Company reports the following as the result of operating its 807 miles of railway (formerly Louisville New Orleans & Texas Railway) for the year ended June 30, 1895:

Gross Receipts from Traffic		$3,391,334 58
Operating Expenses		2,280,207 20
Excess of Gross Receipts over Operating Expenses		$1,011,127 08
Taxes		80,068 53
Excess of Gross Receipts over Operating Expenses and Taxes		$931,058 55
Income on Investments		4,765 43
		$935,823 98
Interest paid on First Mortgage Bonds	$673,260 00	
Interest paid on Notes	17,242 72	
Loss on sale of securities	5,220 00	695,722 72
Surplus		$241,901 26

The investment of the stockholders is invited to the Report of the Vice President with accompanying General Balance Sheet and Abstracts, and to that of the Second Vice President, which give in greater detail the results of the year's business.

The stocks, bonds and other assets owned by the Company have been examined by Mr. Charles M. Beach and Mr. Charles A. Peabody, Jr., a Committee of the Board of Directors, and found to be as shown in Abstracts C, D and E attached to the Balance Sheet.

Your Directors take pleasure in expressing their appreciation of the energy and skill with which the Officers have conducted the Company's business, and of the constant devotion to duty displayed by the men now in the service, during a most trying period.

By order of the Board of Directors,

ALEXANDER G. HACKSTAFF,
Secretary.

NEW YORK, September 18, 1895.

—Mr. George I. Malcom, No. 4 Wall Street, offers Standard Gas Light Company gold bonds to net about 4½ per cent, and buys and sells the two classes of stock and subscription privileges. Advertisement will be found in to-day's CHRONICLE.

—The entire $5,000,000 of Massachusetts metropolitan water loan bonds were awarded this week to Messrs. E. H. Gay & Co. of Boston, who now offer them for sale; price and particulars on application.

—Messrs. Redmond, Kerr & Co. advertise in to-day's CHRONICLE a list of investment securities, to which attention is directed. Prices and details are given in descriptive circulars, to be had on application at their offices in New York and Philadelphia.

—Attention is called to the offering of several issues of municipal bonds by Messrs. Blodget, Merritt & Co., Boston.

NEW YORK CENTRAL & HUDSON RIVER RAILROAD CO.

EXTRACTS FROM THE TWENTY-SIXTH ANNUAL REPORT, FOR THE YEAR ENDED JUNE 30, 1895.

ROAD OPERATED.

Road owned.	*Miles.*
New York Central & Hudson River Railroad, main line (New York to Buffalo)	441·75
New York Central & Hudson River Railroad, branches	377·70
Total miles New York Central & Hudson River Railroad	819·45
Roads leased: main lines and branches	1,573·03
Total miles of road operated	2,392·48

The Dunkirk Allegheny Valley & Pittsburg Railroad and the Beech Creek Railroad are also leased by this company, but their mileage and operations are not included in this report, as separate accounts have been kept and separate reports made by the officers of those companies.

CONSTRUCTION AND EQUIPMENT.

The total of this account stands at $157,731,083 63, as shown on the balance-sheet. During the year the account has been increased $263,075 51. All other expenditures for additions and improvements have been charged to operating expenses.

CAPITAL STOCK.

During the year 57,266 shares of additional capital stock have been issued under authority of the stockholders, April 19, 1893, making the capital stock of the company $100,000,000 00, to wit: 1,000,000 shares at $100 00, including $6,300 00 consolidation certificates not yet converted.

FUNDED DEBT.

The total funded debt of the company is $70,677,333 33 During the year $3,500,000 00 New York Central & Hudson River Railroad Company four per cent gold debentures were issued, being the balance of the amount authorized May 13, 1890. By virtue of the same authority, $300,000 00 has been reserved from income and used, together with $500,000 00 balance of the "Fund for redemption of four per cent gold debentures," for the purchase and retirement of $800,000 00 of these bonds, making a net increase in the funded debt of $2,700,000 00.

CLEVELAND CINCINNATI CHICAGO & ST. LOUIS RAILWAY COMPANY.

SIXTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING JUNE 30, 1895.

To the Stockholders:

For the fiscal year ending June 30, 1895, the gross earnings of the L. C. C. & St. L. Ry. Co. proper have been	$14,625,027 69
Operating expenses, including taxes	10,254,068 19
Net earnings	$4,370,959 50
Interest and rentals	3,844,795 58
Leaving a balance to credit of income of	$526,163 92
Add sundry balances of accounts	23,372 88
	$549,536 80
Deducting from this dividends on preferred stock at the rate of 5 per cent	500,000 01
Leaves a balance of	$49,536 80
Which, carried forward to the credit of the income account of the previous year	461,936 49
Makes a balance of	$511,613 29
From which has been deducted the amount paid on account of Indiana taxes for previous years, which were in dispute, but having been charged out in previous years the actual amount the excess under the decision of the courts which had to be paid this year being	340,173 51
Leaving a balance to bring forward on June 30, 1895, of	$171,439 78

The mileage of main track from which these earnings were derived has been the same as in the previous year, to wit, 1,852·14 miles. There has been, however, an increase of second track of 3·29 miles and an increase of sidings of 25·89 miles, built at various stations along the line. There is also a slight difference between the mileage this year and that reported last year, owing to remeasurement of some of the divisions. The corrected statement of mileage, in detail, will be found on a subsequent page of this report.

The Mt. Gilead Short Line (2 miles in length), operated by this Company, earned, gross, $4,431 49, an increase of $31 49 over the previous year; the operating expenses were $3,803 19, showing a profit for the year of $628 30, against a deficit of $1,089 75 for the previous year.

The Kankakee & Seneca Railroad (42·08 miles in length), operated jointly for account of this Company and the Chicago Rock Island & Pacific Railway, earned, gross, $48,130 43; operating expenses were $71,308 39; net earnings, $11,222 04 against a deficit last year of $96,511 53. This great improvement is due to better earnings and to the fact that, as was stated in last year's report, several of the large bridges on the road had to be renewed, while this year the expenses were normal.

The Peoria & Eastern Railway, from Springfield, Ohio, to Peoria, Ill., (352 miles in length), earned, gross, $1,811,739 67; operating expenses, $1,347,801 98; net earnings, $463 937 69; fixed charges, $441,620 00; surplus, $22,317 69, as against a deficit last year of $264,430 62. The great improvement in the results of this line is due to its better physical condition and to better rates, a more complete explanation of which will appear subsequently in this report.

The above lines make a total mileage of track on all the system operated and controlled by this Company, including double track and sidings, of 3,131·14 miles. The total gross earnings of the entire system have been $15,524,329 28, an increase of $796 459 97; net earnings, $3,848,747 53, an increase of $453,614 03 over the previous year.

The results for the year upon the entire system are more encouraging than were those in the report submitted to you one year ago. Although during the year there has been active competition for business and rates generally have ruled very low, yet we have been able to keep the average rate of freight per ton per mile practically the same as the previous year. Owing to the better condition of our track and equipment, the operating department has been able to haul more tons per train, and therefore the earnings of the freight trains per mile have increased from $1 36 to $1 45. Owing to the fact that for four months we were working against receipts from the Chicago Fair, the passenger earnings decreased a little over $300,000, while the passenger train mileage, on account of new trains rendered necessary by competition, increased 136,438 miles, so that the earnings of passenger trains per mile decreased from $1 04·26 to $0 94·98. The freight earnings increased nearly $900,000, but this large increase, as well as the increase in passenger train mileage, was made with a slight reduction in the cost of conducting transportation. In looking at the detailed statement of expenses, it will be found that the general expenses increased slightly, owing chiefly to a change in accounts; traffic expenses were substantially the same; conducting transportation slightly less; the maintenance of equipment shows a large increase; and the maintenance of way a decrease of about 6 per cent. In car mileage there is a large increase; this is due, in the case of passenger cars, to hauling more sleepers; and in freight to the fact that more and more each year the higher classes of freight are controlled by transportation companies who own their own cars, and in order to secure this freight the Company is obliged to use these private cars, paying mileage therefor, while its own are lying idle. There is a large increase in taxes, due to the results of the litigation in Indiana, the entire amount of taxes for this year, under the new decision, having been charged out to expenses.

It will be noticed that there is a very large increase in the maintenance of equipment; this is due to the fact that the Company has endeavored in its own shops to improve the equipment, and has also added largely to it by purchases which have been charged to expenses. During the year the

company has purchased eight new passenger locomotives, at a cost of $75,439 73, which it has charged directly to expenses; four postal cars, costing $17,892 00; thirty-one passenger cars to replace those lost by the Wood Street fire in Cincinnati, in August, 1894; new and improved coaches were bought to replace those burned, and the entire cost of the same, less the amount received from the insurance company, charged to expenses; this extraordinary amount was $80,975 73; 250 flat cars, costing $86,250 00, were purchased and charged to expenses; 50 new flat cars, costing $17,250 00, also 100 new dump cars, costing $30,500 00, were built in the shops and charged to expenses

There has been charged to operating expenses, the cost of 25·89 miles of side track and 3·29 miles of second track; also, $15,959 66 for change of line at Georgesville, on the Cincinnati division and $25,863 48 for a portion of the viaduct in Columbus. The Company has had no construction account whatever during the year, and all additions and improvements have gone directly to expenses.

With the exception of $91,000 of the first consolidated mortgage bonds, no bonds have been sold during the year. $33,000 of bonds have been taken up for the sinking fund and canceled. $680,632 25 of equipment notes falling due have been paid. The Company's accounts receivable have been decreased and its bills audited have increased, but it has no loans and its working balances are in comfortable condition.

The results of the past year have been due to the physical condition of our property by expenditures in previous years for yards, sidings and equipment, and we can undoubtedly do as well for the coming year; but as stated in the last report, the future, like that of all railway properties, depends largely upon rates. If the Company had received during the year just closed the same rate per ton of freight and per passenger per mile that it received even at the low rates of 1892, it would have had $1,309,616 03 more of net earnings, or over 4 per cent upon its stock. We can congratulate ourselves, perhaps, that we have succeeded in doing what but few railways have during the last year, that is, holding our rate per ton per mile; but it would seem as though the public interest, as well as that of our stockholders, would be conserved if we should at least get the low rates prevailing before the panic of 1893.

The interchange of business for the past fiscal year with the Lake Shore & Michigan Southern Railway and the Chesapeake & Ohio Railway, our two principal eastern connections, compared with the year previous, has been as follows:

	TONNAGE.				PASSENGER.			
	Delivered to		Received from.		Delivered to.		Received from.	
	1894.	1895.	1894.	1895.	1894.	1895.	1894.	1895.
L. S. & M. S	983,910	1,203,603	370,840	385,299	29,314	34,128	26,137	32,661
C. & O.	433,842	408,448	454,476	631,754	32,716	9,628	40,980	16,522

I have already called your attention to the great improvement in the operations of the Peoria & Eastern Railway. This is due first to the fact that, as stated in the previous report, the road has been put in good condition, and therefore its expenses during the past year have been normal; its locomotives have been improved so that they could do the work fairly; and to the further fact that there has been an increase in the rate per ton per mile upon freight from 5 48-100 to 6 04-100 mills. The freight earnings of that division increased 20 per cent; the passenger earnings were practically the same; notwithstanding this increase in earnings the expense of transportation decreased $7,000, and the result has been a marvelous improvement in the net earnings for the year. One new passenger engine costing $8,556 has been bought and charged to repairs of locomotives; and 50 flat cars, costing $17,250. This in addition to the work done in the shops 10,008 feet of sidings for the passage of trains and to various industries have been laid during the year, and the cost of the same charged to expenses. There has been advanced to this division since the lease, for deficit in earnings and for improvements, $893,562 81, and this Company is also liable as endorser upon its notes for $367,566 69, for which it has $397,000 of its consolidated bonds as collateral, which should be sold and the proceeds applied to the payment of advances, and the balance of the amount either funded or carried as an asset until the net earnings of that Company shall pay it out. I do not anticipate any further deficit on account of that company, but a gradual improvement from year to year in its net earnings. The bonded debt of the company is $10,000,000, consisting of $1,000,000 7 per cent bonds, due in 1900; $500,000 5 per cent bonds, due in 1938, and $8,500,000 consolidated 4 per cent bonds, due in 1940. This latter mortgage is for $10,000,000 and $1,500,000 of the bonds are held by the trustees for the purpose of retiring the $1,500,000 of bonds mentioned above. There is a sinking fund for this purpose, in which there are at present accumulations of over $100,000.

The lines of this company hitherto have extended south in the direction of Louisville only to North Vernon, 53 miles from that city. The importance of Louisville as a center of trade for Kentucky and the South has been increasing each year, and also the railway connections to the South and the Southwest through that point, and your management thought it wise to extend its line into that city. In connection with the Chesapeake & Ohio Railway Company, it has purchased what was known as the Louisville & Jeffersonville Bridge property, which consists of large terminals in Louisville and Jeffersonville and a bridge over the Ohio River. The cost of the entire plant when completed will be about $3,000,000, for which 4 per cent bonds have been issued, involving an annual charge of $120,000 a year, which it is expected the business of the station will more than pay. In case of any deficit the company is liable for two-thirds, and the Chesapeake & Ohio Railway Company for one-third. In order to make the connecting link and to avoid building a new railway, arrangements were made with the Baltimore & Ohio Southwestern for using their track from North Vernon to Jeffersonville, at a rental of $27,500 a year and the proportion of maintenance which our wheelage bears to theirs. It is not believed that there will be any loss on this operation, but that the traffic will furnish earnings south of North Vernon (the present end of your line) to more than pay the increased cost; and in addition to this we will obtain a large and important business between the various stations on our line and Louisville and the connections extending beyond there. We hope to have the line in full operation by January 1st next.

Your careful attention is called to the attached statements, as they give you a full and complete history of the operations of the Company for the past year and its condition at the close, and also its mileage and equipment.

Due recognition is hereby given to the faithfulness and zeal with which the employees of the company have performed their duty during the last fiscal year.

All of which is respectfully submitted.

By order of the Board of Directors.

M. E. INGALLS,
President.

CINCINNATI OHIO, August 22, 1895.

Oregon Improvement.—*Default.*—A default is expected Oct. 1 on the consol. fives, at which time it is said a statement will be made as to the company's affairs.—V. 61, p. 27.

Pacific Mail—Panama RR.—*Agreement Pending.*—The negotiations which have been pending for some time between Messrs. Huntington and Simmons, the respective presidents of the two companies, has not as yet resulted in an agreement.—V. 60, p. 874, V. 61, p. 29, 470.

Peoria Decatur & Evansville Ry.—*Suit.*—President Anderson has issued the following statement:

A circular issued a few days ago with reference to the formation of a stockholders' protective committee has caused some uneasiness and needs explanation with reference to the suit referred to therein. The facts are that the suit is in the hands of friends of the company. It was begun to prevent a forestall action by those who might not have been friendly, and it will be treated as part of the reorganization proceedings. It will not be pressed until the reorganization plan is perfected. Consequently it need give the stockholders no uneasiness.

Listing.—The second mortgage bondholders' committee, of which the chairman is Moses L. Scudder, have had listed on the New York Stock Exchange the New York Security & Trust Company's engraved certificates of deposit for $1,525,000 second mortgage bonds of 1926, deposited under the agreement dated June 4, 1895.—V. 61, p. 517.

Philadelphia & Reading.—The results of operations for August and the nine months of the fiscal year—Dec. 1 to August 31—have been as follows:

	August. 1895.	August. 1894.	Dec. 1 to Aug. 31. 1894-95.	Dec. 1 to Aug. 31. 1893-94.

St. Louis Southwestern Ry.—*Earnings.*—The following is a brief comparative statement of earnings for the last two years. The annual report will be given at greater length next week.

Years end. June 30—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance.
1895	$5,217,175	$1,239,953	$24,319	$958,033	sur.$306,189
1894	4,615,144	741,366	31,031	970,165	def.197,768

—V. 59, p. 739.

Seattle Consolidated Street Ry.—*Reorganization Plan.*—A plan of reorganization satisfactory to a large amount in interest of the bondholders has been issued and will be summarized in this column next week.

Southern Railway—Alabama Great Southern RR.—*Listing.*—There have been listed on the New York Stock Exchange 43,000 shares of preferred stock and $3,100,000 first consols of the Southern Ry. Co., issued to pay for 34,500 "A" first preference shares, £10 each (total outstanding issue 67,607 shares), and 90,801 "B" ordinary shares, £10 each (total outstanding issue 156,600 shares), of the Alabama Great Southern Railway Company, Limited. These shares were obtained pursuant to the agreement made last spring, and are to be held as part of the security of the Southern Railway Company's first consolidated mortgage, as provided by a supplementary mortgage dated August 27, 1895.

The application to the Exchange says the gross and net earnings of the Alabama Great Southern were as follows:

	1893.	1894.	1895.
Gross	$1,418,229	$1,553,782	about $1,328,000
Net	321,651	424,083	" 500,000

"The earnings for the present year are sufficient to pay all fixed charges and a dividend of 6 per cent on the preferred shares of the English company, but as the surplus earnings have been used for construction purposes, such dividend has not been declared."

Of the Southern Railway first consols the total amount listed to date is $24,011,000, and of the preferred stock the total listed is $54,300,000.—V. 61, p. 67,517.

Suburban Traction, Orange (N. J.)—*Foreclosure Sale.*—The sale is set for Oct. 14.

Union Traction—Philadelphia Traction—People's Traction.—*Consolidation, Etc.*—At the meeting of the stockholders of the Philadelphia Traction Co. on Tuesday, the following motion was adopted by a vote of 277,000 shares:

That the directors of the Philadelphia Traction Company are authorized to lease the roads to the Union Traction Company for a term of [illegible] years from October 1, 1895, upon a net guarantee of 8 per cent on the amount of capital stock issued, and interest on the collateral trust bonds, together with the assuming of all liabilities as to rental and interest of the various leased lines under the control of the Philadelphia Traction Company; the lease to be in such form and to contain such other clauses and conditions as the board of directors, under the advice of counsel, may think proper for carrying this resolution into effect.

The People's Traction Company stockholders met to reduce their capitalization, but adjourned without action, to meet again Nov. 2. There are differences between the Philadelphia and the new Union Traction company, which are being adjusted, and the best authorities claim that the deal will eventually be consummated.—V. 61, p. 197, 518.

United States Cordage.—*Listing.*—The engraved Manhattan Trust Company certificates of deposit for $6,245,100 of the $7,500,000 first collateral mortgage 6 per cent gold bonds were listed this week on the New York Stock Exchange.—V. 61, p. 518.

Valley Ry. of Ohio—Baltimore & Ohio RR.—*Sale Confirmed.*—The foreclosure sale of the Valley Railway of Ohio has been confirmed, and the road will be turned over to the B. & O. Oct. 1.—V. 61, p. 478.

Wheeling & Lake Erie Ry.—*Listing.*—Listed this week on the N.Y. Stock Exch'ge were $16,000 additional extension and improvement mortgage 5 per cent gold bonds.—V. 61, p. 153.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, September 27, 1895.

General business conditions are promising. Jobbers report further increase in demand from country trade and find the selections of buyers extending into a broader variety of merchandise. Exporters are still handling fair quantities of grain and flour, show an increased desire to secure cotton and are furnishing a larger number of orders for manufactured goods of staple character. Speculation in cotton has been active, but rather indifferent toward other commodities. Latest information from the winter-wheat localities reports continued slow marketing of the harvest, and some detention in seeding for next crop in consequence of unpropitious weather. Low ruling prices are reported as an influence, serving to retard the movement of oats from growers' hands. The corn crop is considered secure. Iron and metals are selling less freely, but producers generally very busy, meeting previously-booked contracts.

There has been a fairly active demand for lard on the spot from shipp rs and prices have advanced slightly, closing firm at 6·80c. for prime Western, 6c. for prime City and 6·75c. for refined for the Continent. There has been no speculation in the local market for lard futures, but prices have been quoted slightly higher in sympathy with an advance in the grain market, closing steady.

DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
October.....c.	6·20	6·20	6·17	6·17	6·20	6·25

The demand for pork has continued moderately active, and the close was steady at $10@$10 25 for mess, $11 50@$13 50 for short clear and $12@$12 50 for family. Cut meats have been in moderate request at slightly higher prices, closing at 7@7½c. for pickled bellies, 6c. for pickled shoulders and 9@9½c. for pickled hams. Beef has been in fair demand for export, and firm, closing at $7 50@$8 for extra mess, $8 50@$9 for packet, $9@$12 for family and $16@$16 50 for extra India mess. Beef hams have been quiet, closing at $15 50. Tallow has been quiet but steady, closing at 4¼c. Oleo-stearine has been quiet, closing steady at 6c. Lard stearine has been dull, closing at 7¼@7½c. Cotton seed oil has been firmer, closing at 27c. for prime yellow and 26¼@26½c for off-grade yellow. Butter has been fairly active for fancy, but the close was quiet and steady at 13@22c. for creamery. Cheese has been fairly active and firm, closing at 6@8½c. for State factory, full cream. Fresh eggs have advanced and the close was firm at 17c. for choice Western.

Coffee remains under considerable neglect and weak in tone, but in absence of pressure to sell has not seriously declined. Rio quoted 15¾c. for No. 7, good Cucuta 18¾@19c, and standard Java 27@27½c. Speculation for future delivery was moderate, but a little covering of short contracts on near months served to hold values against a decline and the close is steady. The following were the final asking prices:

Sept..	15·30c.	Dec.	14·85c.	March	14·35c
Oct.	15·15c.	Jan.	14·75c.	April	14·15c
Nov.	14·95c.	Feb.	14·50c.	May	13·95c

Raw sugars made further advance in cost and were freely taken by refiners whose working stocks had become nearly exhausted. Centrifugal quoted at 3½c. for 96-deg. test and Muscovado at 3 3·16c. for 89-deg. test. Refined sugars are again higher and largely over-sold; granulated quoted at 4 11-16c. Teas dull.

For Kentucky tobacco there has been a quiet market but prices have held firm; sales 150 hhds. Seed leaf tobacco has been decidedly less active but prices have ruled steady; sales for the week were 1,775 cases, as follows: 500 cases 1894 crop, New England Havana, 15@22c.; 300 cases 1894 crop, New England seed leaf, 18@20c; 200 cases 1894 crop, Zimmer's, 10@11½c.; 100 cases 1894 crop, State Havana, 10c.; 100 cases 1893 crop, State Havana, private terms; 300 cases 1894 crop, Wisconsin Havana, 9@14c.; 150 cases 1894 crop, Pennsylvania Havana, 9@11c., and 75 cases 1893 crop, New England Havana, 30@40c.; also 1,250 bales Havana, 68c.@$1 10, and 250 bales Sumatra, 40c.@$2 80 in bond.

There has been very little trading in the market for Straits tin and prices have been without important changes, closing steady at 14·30@14·35c. Ingot copper has been quiet and unchanged, closing at $12 06@$12 25 for Lake. Lead has been without change, closing steady at 3·35c. for domestic Spelter has weakened slightly and the close was dull at 4·20c. for domestic. Pig iron has been fairly active and firmer, closing at $12@$14 50 for domestic.

Refined petroleum has been quiet but steady, closing at 7·10c. in bbls., 4·60c. in bulk and 7 50c. in cases; crude in bbls. has been nominal; naphtha, 9 25c. Crude certificates have been steady, closing at 1·23½c. asked. Spirits turpentine has advanced and the close was firm at 28¼@28¾c. Rosins have been moderately active and steady, closing at $1 45@1 50 for common and good strained. Wool has been firm but quiet. Hops have been in fair request and steady.

COTTON.

FRIDAY NIGHT, September 27, 1895.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 149,139 bales, against 91,080 bales last week and 47,589 bales the previous week, making the total receipts since the 1st of Sept., 1895, 301,560 bales, against 481,048 bales for the same period of 894, showing a decrease since Sep. 1, 1895, of 179,488 bales.

Speculation in cotton for future delivery at this market has been of a liberal and exciting character, with the highest prices of the season reached. Continued poor crop accounts and low estimates of yield, together with a marked increase of attention from consumers, served as the stimulating influences. Saturday opened at 5 points advance, which afterwards disappeared in the absence of any important demand. On Monday there was a gross gain of 18 points, with only slight reaction, the market stimulated slightly by weather reports, but principally by advices from the South indicating an increased demand from Northern mills and Continental buyers. Tuesday opened at 6 points decline but sharply recovered and closed at 6 points net gain in consequence of low crop estimates from sources accepted as authoritative, and the same influence was potent on Wednesday, stimulating great activity in Liverpool as well as here, and our market retained 12 points net gain out of a gross advance of 17 points. Yesterday the excitement was still intense and after an opening decline of 5 points there was a sharp advance of 26@28 points from lowest, closing at 16 points net gain, heavy buying on foreign account and prompt acceptance of all notices of delivery on October contracts serving as stimulants. To-day strong accounts from abroad caused further advance of about 10 points average, and at that gain there was some realizing. Cotton on the spot firm at 8⅝c. for middling uplands.

The total sales for forward delivery for the week are 1,847,900 bales. For immediate delivery the total sales foot up this week 3,612 bales, including 1,500 for export, 2,012 for consumption, — for speculation and 100 on contract. The following are the official quotations for each day of the past week—September 21 to September 27.

Rates on and off middling, as established Nov. 22, 1893, by the Revision Committee, at which grades other than middling may be delivered on contract:

Fair	c. 1⅛	on.	Good Ordinary..... c. 1⅛ off.
Middling Fair.....	⅝	on.	Good Middling Tinged .. Even.
Strict Good Middling.....	⅜	on.	Strict Middling Stained.. 1/32 off.
Good Middling	1/16	on.	Middling Stained ..... 7/16 off.
Strict Low Middling.....	3/16	off.	Strict Low Mid. Stained. 29/32 off.
Low Middling	7/16	off	Low Middling Stained.. 1⅛ off.
Strict Good Ordinary	15/16	off	

On this basis the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7⅛	7⅛	7 3/16	7 3/16	7⅜	7⅜
Low Middling	7 11/16	7 11/16	7 15/16	7 15/16	8 1/16	8 1/16
Middling	8⅝	8 11/16	8⅝	8⅝	8⅝	8⅝
Good Middling	8 13/16	8 13/16	8⅞	8 13/16	9 1/16	9 1/16
Middling Fair	9⅛	9⅛	9 3/16	9⅛	9⅜	9⅜
GULF.	Sat.	Mon	Tues	Wed	Th.	Fri
Good Ordinary	7⅛	7⅛	7 3/16	7⅜	7⅜	7 7/16
Low Middling	8 1/16	8 1/16	8 1/16	8 5/16	8 5/16	8 11/16
Middling	8⅝	8⅝	8 11/16	8⅝	9	9⅛
Good Middling	8 13/16	8 13/16	8 15/16	9 1/16	9 1/16	9 7/16
Middling Fair	9⅛	9⅛	9 3/16	9⅜	9⅝	10
STAINED.	Sat.	Mon	Tues	Wed	Th.	Fri.
Low Middling	6⅞	7	7 1/16	7⅛	7⅜	7⅜
Middling	7 11/16	7 11/16	7 15/16	8 5/16	8 5/16	8 7/16
Strict Middling	8 1/32	8 1/32	8 5/32	8 11/32	8 11/32	8 21/32
Good Middling Tinged	8⅛	8⅛	8 3/16	8⅜	8⅜	8⅝

MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

☞ The imports into Continental ports the past week have been 21,000 bales.

The above figures indicate an *increase* in the cotton in sight to-night of 266,788 bales as compared with the same date of 1894, an *increase* of 54,593 bales over the corresponding date of 1893 and a decrease of 333,974 bales from 1892.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week, and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1894—is set out in detail below.

Towns.	Movement to September 27, 1895. Receipts. This week.	Since Sept. 1, '95.	Shipm'ts This week.	Stock Sept. 27.	Movement to September 28, 1894. Receipts. This week.	Since Sept. 1, '94.	Shipm'ts This week.	Stock Sept. 28.

* Louisville figures "net" in both years.
† This year's figures estimated.
‡ Last year's figures are for Columbia, S. C.

The above totals show that the interior stocks have *increased* during the week 28,848 bales and are now 18,658 bales *less* than at same period last year. The receipts at all the towns have been 34,447 bales *less* than same week last year and since Sept. 1 are 108,239 bales *less* than for same time in 1894.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below we give closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending Sept. 27.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston...	7 15/16	7 15/16	8	8 1/16	8 1/4	8 5/16

Cincinnati..	8	8 1/8	8 1/8	8 1/4	8 1/2	9 1/4
Louisville...	7 7/8	7 7/8	7 7/8	7 7/8	7 7/8	8 1/8

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	8 3/16	Little Rock....	8 1/8	Newberry.....	8 1/4
Columbus, Ga.	8 1/8	Montgomery...	8 3/16–1/4	Raleigh.....	8 1/4
Columbus, Miss	8	Nashville.....	8 1/8	Selma.....	.....
Eufaula.....	8 1/4	Natchez...	8 1/4	Shreveport.....	8

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1893.	1894.	1895.	1893.	1894.	1895.	1893.	1894.	1895.
Aug. 23 ...	12,434	14,122	2,715	76,824	55,819	35,157	10,079	13,002	.. ..
" 30	17,634	25,173	6,803	74,501	56,386	34,782	15,311	25,720	6,428
Sept. 6. .	28,117	38,396	15,093	79,928	55,913	35,892	33,544	36,974	16,203
" 13 ...	53,703	85,884	47,539	84 871	66,830	43,275	58,646	96,801	54,922
" 20.	95,849	148,547	91,060	96,756	84,519	66,739	107,734	166,226	114,544
" 27	161,438	205,221	149,139	128,438	109,245	90,587	193,120	229,947	172,987

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1895, are 359,447 bales; in 1894 were 532,958 bales; in 1893 were 394,430 bales.

2.—That although the receipts at the outports the past week were 149,139 bales, the actual movement from plantations was only 172,987 bales, the balance going to increase the stocks at the interior towns. Last year the receipts from the plantations for the week were 229,947 bales and for 1893 they were 193,120 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending Sept. 27 and since Sept. 1 in the last two years are as follows:

September 27.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1
Shipped—				
Via St. Louis.....	4,751	9,699	3,413	14,850
Via Cairo.....	560	848	3,379	5,560
Via Parker City.....	543	543	.....	.....
Via Evansville.....	.....	.....	.....	.....
Via Louisville.....	120	1,181	514	1,574
Via Cincinnati.....	201	524	1,317	2,906
Via other routes, &c.....	643	2,362	1,142	2,159
Total gross overland.....	6,818	15,157	9,765	27,049
Deduct shipments—				
Overland to N. Y., Boston, &c..	1,765	4,941	1,822	3,692
Between interior towns.....	5	5	263	327
Inland, &c., from South.....	621	2,355	2,374	4,341
Total to be deducted.....	2,391	7,301	4,459	8,360
Leaving total net overland*..	4,427	7,856	5,306	18,689

The foregoing shows that the week's net overland movement this year has been 4,427 bales, against 5,306 bales for the week in 1894, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 10,833 bales.

In Sight and Spinners' Takings.	1895.		1894.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Sept. 27.....	149,139	301,560	205,221	481,048
Net overland to Sept. 27..	4,427	7,856	5,306	18,689
Southern consumption to Sept. 27	19,000	74,000	17,000	66,000
Total marketed	172,566	383,416	227,527	565,737
Interior stocks in excess.....	23,848	57,887	24,726	51,910
Came into sight during week.	196,414	.....	252,253	.....
Total in sight Sept. 27.....	.....	441,303	.....	617,647
North'n spinners tak'gs to Sept. 27	30,145	63,964	34,700	106,793

* Including movement by rail to Canada.

It will be seen by the above that there has come into sight during the week 196,414 bales, against 252,253 bales for the same week of 1894, and that the decrease in amount in sight to-night as compared with last year is 176,344 bales.

WEATHER REPORTS BY TELEGRAPH.—Advices to us this evening by telegraph indicate that hot and dry weather has been quite general at the South during the week, causing the rapid opening of cotton, and enabling planters to make excellent progress in gathering the crop. Complaint is made from some sections that bolls are opening prematurely, and that the continued drought has resulted in a further lowering of prospects. Damage by army worms is reported from parts of Texas.

Galveston, Texas.—The extremely hot weather has caused cotton to open rapidly, so that picking is making excellent headway. It is quite generally admitted that the crop is very short and very little hope of a second growth is entertained. Reports of damage by boll worms are not so frequent, but the army worms are said to be doing much injury. It has rained on five days during the week, with rainfall to the extent of thirty-five hundredths of an inch. The thermometer has averaged 82, the highest being 87 and the lowest 76.

Palestine, Texas.—We have had no rain the past week. The thermometer has averaged 83, ranging from 68 to 98.

Huntsville, Texas.—There has been no rain during the week. The thermometer has ranged from 62 to 94, averaging 81.

Dallas, Texas.—It has been dry all the week. Average thermometer 82, highest 98 and lowest 66.

San Antonio, Texas.—There has been rain on two days of the week, the rainfall reaching eleven hundredths of an inch. The thermometer has averaged 82, the highest being 96 and the lowest 68.

Luling, Texas.—There has been rain on two days during the week, the precipitation being twenty-eight hundredths of an inch. The thermometer has averaged 83, ranging from 70 to 96.

Columbia, Texas.—Rain has fallen on one day of the week, the rainfall reaching twenty-eight hundredths of an inch. The thermometer has ranged from 70 to 96, averaging 83.

Cuero, Texas.—We have had rain on two days of the week, to the extent of eighty-five hundredths of an inch. Average thermometer 78, highest 94 and lowest 62.

Brenham, Texas.—It has rained on one day of the week, the rainfall reaching six hundredths of an inch. The thermometer has averaged 82, the highest being 96 and the lowest 70.

Belton, Texas.—There has been only a trace of rain during the week. The thermometer has averaged 84, ranging from 69 to 98.

Fort Worth, Texas.—It has been dry all of the past week. The thermometer has ranged from 66 to 97, averaging 82.

Weatherford, Texas.—We have had dry weather all of the past week. Average thermometer 81, highest 96, lowest 66.

New Orleans, Louisiana.—There has been rain on two days of the week, the precipitation being thirty-seven hundredths of an inch. The thermometer has averaged 82.

Shreveport, Louisiana.—It has rained on four days of the week, the rainfall being sixty-three hundredths of an inch. The thermometer has averaged 77, ranging from 58 to 90.

Columbus, Mississippi.—We have had no rain during the week and picking is making very good progress. The thermometer has ranged from 63 to 101, averaging 82.

Leland, Mississippi.—We have had no rain all the week. Average thermometer 78·4, highest 95, lowest 58.

Vicksburg, Mississippi.—There has been only a trace of rain during the week. The thermometer has averaged 80, the highest being 91 and the lowest 61.

Little Rock, Arkansas.—Rain has fallen on three days of the week, to the extent of twenty-five hundredths of an inch. The thermometer has averaged 76, ranging from 59 to 91.

Helena, Arkansas.—Cotton is mostly all open. Picking is going on, but with cooler weather better progress will be made. It has rained on one day of the week to the extent of forty hundredths of an inch. The thermometer has ranged from 58 to 92, averaging 77.

Memphis, Tennessee.—Cotton is opening rapidly and picking is general. We have had light rain on two days of the week, the precipitation reaching twenty-seven hundredths of an inch, but more rain is desirable. Average thermometer 77·6, highest 91·5 and lowest 57·2.

Nashville, Tennessee.—We have had no rain during the week. The thermometer has averaged 78, the highest being 94 and the lowest 58.

Montgomery, Alabama.—The weather has been hot all the week. The drought continues and is doing much damage. Cotton is being picked, marketed and sold rapidly, but doubtless the crop is out very short. The thermometer has averaged 82 and ranged from 70 to 93.

Mobile, Alabama.—Rain has fallen on two days of the week to the extent of twenty-five hundredths of an inch. Picking is active but the yield is disappointing. It is now estimated that the out-turn will be from forty to fifty per cent less than last year. The thermometer has ranged from 72 to 91, averaging 81.

Selma, Alabama.—Telegram not received.

Madison, Florida.—We have had no rain during the week. The thermometer has averaged 79, the highest being 91 and the lowest 66.

Columbus, Georgia.—There has been no rain the past week. The thermometer has averaged 82 and ranged from 68 to 91.

Savannah, Georgia.—It has been dry all the week. The thermometer has ranged from 70 to 90, averaging 79.

Augusta, Georgia.—Dry weather has prevailed all the week. Average thermometer 80, highest 95, lowest 66.

Albany, Georgia.—It has been dry all the week. The thermometer has averaged 79·7, the highest being 91 and the lowest 70.

Charleston, South Carolina.—We have had no rain during the week. The thermometer has averaged 80, ranging from 72 to 88.

Stateburg, South Carolina.—The weather has been dry and extremely hot during the week—bad for the top crop of cotton. The thermometer has ranged from 70 to 93, averaging 81·1.

Greenwood, South Carolina.—The hot dry weather which has prevailed the past week has worked further injury to late crops. It is estimated that the cotton crop will be not over one-half of last year's yield. Average thermometer 76, highest 89 and lowest 64.

Wilson, North Carolina.—The excessive heat is causing shedding and premature opening of bolls. It has been dry all the week. The thermometer has averaged 86, the highest being 98 and the lowest 74.

The following statement we have also received by telegraph showing the height of the rivers at the points named a 8 o'clock September 26, 1895, and September 27, 1894.

		Sept. 26, '95.	Sept. 27, '94.
		Feet.	Feet.
New Orleans	Above zero of gauge.	4·6	4·1

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to Sept. 26.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Contin't.	Total.	Great Britain.	Contin't.	Total	This Week.	Since Sept. 1.
1895	.....	.....	.....	.....	9,000	9,000	11,000	13,000
1894	.....	2,000	2,000	5,000	7,000	12,000	3,000	14,000
1893	.....	.....	.....	1,000	15,000	16,000	9,000	23,000
1892	.....	1,000	1,000	.....	6,000	6,000	4,000	10,000

According to the foregoing Bombay appears to show an *increase* compared with last year in the week's receipts of 8,000 bales and a *decrease* in shipments of 2,000 bales, and the shipments since Sept. 1 show a *decrease* of 3,000 bales. The movement at Calcutta, Madras, and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Cocoanada.

	Shipments for the week.			Shipments since Sept. 1		
	Great Britain.	Contin't.	Total.	Great Britain.	Continent	Total.
Calcutta—						
1895	.....	.....	.....	1,000	1,000	2,000
1894	.....	1,000	1,000	1,000	1,000	2,000
Madras—						
1895	1,000	.....	1,000	2,000	2,000	4,000
1894	.....	1,000	1,000	4,000	3,000	7,000
All others—						
1895	1,000	3,000	4,000	4,000	6,000	10,000
1894	.....	2,000	2,000	3,000	6,000	9,000
Total all—						
1895	2,000	3,000	5,000	7,000	9,000	16,000
1894	.....	4,000	4,000	8,000	10,000	18,000

The above totals for the week show that the movement from the ports other than Bombay is 1,000 bales *more* than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1895, and for the corresponding periods of the two previous years, are as follows:

EXPORTS TO EUROPE FROM ALL INDIA.

Shipments all Europe from—	1895.		1894.		1893.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay	.....	9,000	2,000	12,000	.....	16,000
All other ports	5,000	16,000	4,000	18,000	4,000	15,000
Total	5,000	25,000	6,000	30,000	4,000	31,000

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, September 25	1895.		1894		1893.	
Receipts (cantars*)						
This week	60,000		19,000		12,000	
Since Sept. 1	95,000		55,000		18,000	
	This week.	Since Sept. 1	This week.	Since Sept. 1.	This week	Since Sept. 1.
Exports (bales)—						
To Liverpool	1,000	1,000	.....	6,000	4,000	6,000
To Continent†	2,000	6,000	3,000	16,000	2,000	9,000
Total Europe	3,000	7,000	3,000	22,000	6,000	15,000

* A cantar is 98 pounds.

† Of which to America in 1895, 645 bales; in 1894, —— bales; in 1893, 469 bales.

This statement shows that the receipts for the week ending Sept. 25 were 60,000 cantars and the shipments to all Europe 3,000 bales.

MANCHESTER MARKET.—Our report received by cable to night from Manchester states that the market is strong for yarns and firm for shirtings, in consequence of the news from Liverpool. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison:

	1895.		1894.	
	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.	32s Cop. Twist.	8¼ lbs. Shirtings, common to finest.

SEA ISLAND COTTON MOVEMENT.—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (September 27) and since Sept. 1, 1895, the stocks to-night, and the same items for the corresponding periods of 1894, are as follows.

The exports for the week ending this evening reach a total of — bales, of which — bales were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 75 bales. Below are the exports for the week and since September 1 in 1895 and 1894.

Exports from—	Week Ending Sept. 27.			Since Sept. 1, 1895.			North'n Mills	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1
Savannah	.....	.....	.....	.....	.....	.....	75	175

Florida, &c.	.....	.....	.....	.....	.....	.....	.....	.....
New York	.....	.....	.....	1	80	81	.....	.....
Boston	.....	.....	.....	.....	.....	.....	.....	.....
Baltimore	.....	.....	.....	.....	.....	.....	.....	.....
Total	.....	.....	.....	1	80	81	75	175
Total 1894	243	92	335	277	92	369	326	747

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Sept. 27 at Savannah, for Floridas, common, 9c.; medium fine, 12c.; choice, 15½c.

Charleston, Carolinas, all nominal.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.—A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1894, and in previous years, have been as follows:

Monthly Receipts.	Year Beginning September 1					
	1894.	1893.	1892.	1891.	1890.	1889.
Sept'mb'r	518,762	377,408	405,355	676,823	732,236	561,710

Percentage of total port rec'pts Sep. 27	05·56	04·84	06·53	07·62	08·86	

This statement shows that the receipts since Sept. 1 up to to-night are now 136,858 bales less than they were to the same day of the month in 1894 and 12,059 bales greater than they were to the same day of the month in 1893. We add to the table the percentages of total port receipts which had been received to September 27 in each of the years named.

AVERAGES OF TEMPERATURE AND RAINFALL.—As of interest in connection with our monthly weather record, we have prepared the subjoined tables, which show the State averages of thermometer and rainfall in May, June, July and August for six years, 1890 to 1895, inclusive.

Thermometer Averages.	May.			June.			July.			August.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been quiet during the week under review, but the close is firm at 4¼c. for 1¼ lbs., 4½c. for 2 lbs. and 5c. for standard grades in a jobbing way. Carload lots of standard brands are quoted at 4¼c. for 1¼ lbs., 4½c. for 2 lbs. and 5¼c. for 2¼ lbs. f. o. b. at New York. Jute butts on the spot have been dealt in very moderately on the basis of 1¾c. for paper quality and 1½c. for mixing. Bagging quality is nominal in the absence of stock.

EGYPTIAN COTTON CROP.—The following report on the cotton crop in Egypt was issued by the Alexandria General Produce Association under date of August 31:

The temperature during August, with the exception of a few cool days during the latter half of the month, has been excellent for the cotton plant. Fogs have been rare and only partial. They have been light and of short duration, and are considered to have caused no injury. Worms have not reappeared in Lower Egypt, except in a few fields, and have done no harm. Irrigation has always been easy, and water sufficient. The plantations have experienced during the last two months the most favorable atmospheric conditions. They have produced largely of late. The plants look prosperous and bear abundance of bolls and buds. The general opinion is that picking will commence from September 10 to 15 in the plantations which have not suffered from worms (the being about ten days earlier than last year. Where the worms did harm the plants are not so forward. From the above it will be seen that the condition of the crop has improved considerably during the last two months, and allows of hoping for good results, provided that atmospheric influences continue to be favorable. In Upper Egypt and in the Fayoum picking commenced some time ago. It is reported that the provinces of Upper Egypt will show an increase of crop this year of from 20 to 25 per cent. In the Fayoum this year serious fears existed for the first time, they reappeared in August and caused damage, which, however, may be compensated by the increased acreage under cotton in that district.

EAST INDIA CROP.—From the Bombay *Prices Current* of August 30 we have the following:

Reports received on Monday morning by wire from the cotton-growing districts showed a continued need of rain generally since the 15th or 16th instant. In the Bengal and Oomrawutee circles the fall had ceased, from 11 cents at Agra to 19 cents at Cawnpore, in the former circle, and from 8 cents at Khangaom to 7.5 cents at Shahapore, in the latter; and at Oomrawutee there was a fall of 2 inches or 50 cents. The weather had been favorable in the Broach and Dholleera districts, where the rains also had ceased. The largest fall in these two districts had been at Broach, where 5.5 cents were registered, while at Viramgaum 1.8 cents fell and at Kheralgaon 87 cents. The plants were reported to be in good condition throughout the area and crops were in general looking well. At Oomrawutee the cotton plants could scarcely have looked better, but at Agra more rain would have done good, and at Cawnpore the plants were suffering from want of rain. The morning's telegram was quite of a favorable tenor, as absence of rain had ceased, or nearly so. At Cawnpore anxiety was felt owing to the rain continuing to keep off, while at Khangaom and Dhulia the crops were suffering from an insufficient fall, more being needed. In other parts of the districts, however, the plants were doing well and crop prospects continued to be good.

WEATHER RECORD FOR AUGUST.—Below we give the thermometer and rainfall record for the month of August and previous months of this year and the two preceding years. The figures are from the records of the Weather Bureau, except at points where they have no station, and at those points they are from records kept by our own agents.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 22,025 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.
NEW YORK—To Liverpool, per steamers Servia, 2,938	
Teutonic, 965	3,903
To Hull, per steamer Martello, 1,174	1,174
To Havre, per steamer La Gascogne, 200	200
To Bremen, per steamer Ems, 200	200
To Rotterdam, per steamer Rotterdam, 240	240
To Gothenburg, per steamer Sicilia, 250	250
To Barcelona, per steamer Catalina, 150	150
To Genoa, per steamer Pawnee, 1,200	1,200
To Venice, per steamer Pocahontas, 400	400
NEW ORLEANS—To Liverpool, per steamers Capella, 5,020	
Rosse, 2,112	7,132
To Rotterdam, per steamer Loango, 85	85
SAVANNAH—To Barcelona, per steamer Octubre, 6,550	6,550
NORFOLK—To Hamburg, per steamer Lisanerleve, 458	458
BOSTON—To Liverpool, per steamer Cambroman, 83	83
Total	22,025

The particulars of these shipments, arranged in our usual form, are as follows:

	Liverpool.	Hull.	Havre.	Bremen & Ham burg.	R'dam & Gothenburg.	Barcelona.	Genoa and Venice.	Total.

BREADSTUFFS.

FRIDAY, September 27, 1895.

A fairly large amount of business has been transacted in the market for wheat flour, principally in trade brands, and at the close holders were obtaining an advance of 10c. per bbl. on some grades, in sympathy with a rise in grain. City mills have sold fairly well at an advance of 10c. per bbl. Rye flour has been quiet and without change. Buckwheat flour has sold slowly and prices have weakened slightly. Corn meal has been in fair demand for the choice grades at steady prices. To-day business in wheat flour was checked by the higher views of holders.

The speculative dealings in the market for wheat futures have continued moderately active, and prices have advanced, principally on a demand to cover contracts from "shorts," who have been somewhat anxious latterly as the market has appeared to be over-sold. Foreign advices have shown more tone, and this has also added to the strength of the market. In the spot market shippers have been moderate buyers and prices have advanced with futures. The sales yesterday included No. 2 red winter at Dec. price f. o. b. afloat; No. 1 Northern at Dec. price f. o. b. afloat; No. 1 hard spring at 2@2½c. over Dec. f. o. b. afloat for new and 2¾@3c. over Dec. for do. old; also choice soft Toledo to arrive at 5c. over Dec. f. o. b. afloat. To-day the market was moderately active and the close was fractionally higher on buying by "shorts" to cover contracts. The spot market was quiet; No. 2 red winter was quoted at Dec. price f. o. b. afloat and No. 1 hard spring at 2½c. over Dec. f. o. b. afloat for new and 2½c. over Dec. for do. old.

DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
September delivery....c.	61⅜	61⅞	63½	62⅞	61⅜	64¾
October delivery .....c.	61⅜	62½	63⅜	63	61⅞	65
December delivery.....c.	63½	64	65½	64⅞	63¾	66⅞
May delivery.....c.	67⅛	67⅝	69	68⅜	70¼	70¼

Speculation in the market for Indian corn futures was moderately active, and early in the week prices declined under selling for Western account, prompted by the favorable crop prospects, but subsequently part of the loss was recovered, in sympathy with the advance in wheat. In the spot market there has been a fair demand from shippers, and as supplies are somewhat limited, prices have held steady. The sales yesterday included No. 2 mixed at 39c. delivered and 2½c. over Oct. f. o. b afloat; also No. 2 white at 2½c. over Oct. f. o. b. afloat. To-day the market was quiet but prices held steady with wheat. In the spot market business was quiet but prices were steady. The sales included No. 2 mixed at 38⅞c. delivered and 2¼c. over Oct. f. o. b. afloat; also yellow at 1c. over Oct. in elevator.

DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

Oats for future delivery have been quiet, and during the first half of the week prices were easier, but subsequently there was an improvement in sympathy with the advance in wheat and corn. In the spot market business has been quiet and prices have weakened, especially for the white grades which have been more plentiful. The sales yesterday included No. 2 white at 27c. in elevator and No. 2 mixed at 24c. in elevator. To-day the market was dull but steady. The spot market was quiet and easier for No. 2 white at 26½@27c. in elevator; No. 2 mixed was steadier at 24¼c. in elevator.

THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., September 27, 1895.

The dominating influence in the market has again been the upward movement in raw cotton, but the effect is much more noticeable on sellers than on buyers. The general run of the latter show little more anxiety to buy than they did a week ago, although there have been some bids made for considerable quantities, particularly within the last two days. The reception given to these has not been encouraging and has probably had something to do with the apparent indifference of the body of the trade. Sellers are more disposed to turn down than to accept business, and this is the most prominent feature in connection with the products of the Southern mills, more of them than ever being practically out of the market for the time being. The market for coarse brown and colored cottons is fully 5 per cent higher than a week ago, and the tendency at the close is still upwards. Wide goods have also advanced from 7½ to 10 per cent and bleached shirtings have a hardening appearance. There has been no material change in fancy cotton fabrics, such as prints and ginghams, the general demand for which has been moderate. The woolen and worsted goods departments have also disclosed little alteration in actual conditions, although sellers are counting upon a firmer market as a result of the advance in wool reported from the London wool sales. A feature of the week was an auction sale of silks on Wednesday, when some 5,500 pieces of plain and fancy silks were disposed of. The sale was well attended, but prices were very irregular and the average low.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending September 23 were 9,815 packages, valued at 416,421, their destination being to the points specified in the table below:

NEW YORK TO SEPT. 23.	1895. Week.	1895. Since Jan. 1.	1894. Week.	1894. Since Jan. 1.
Great Britain	14	3,655	53	4,489

Total	9,815	171,467	2,532	184,625

*From New England mill points direct.

The value of the New York exports for the year has been $6,766,704 in 1895 against $8,576,953 in 1894.

Numerous advances of ⅛c. to ¼c. have been reported in brown sheetings, drills and ducks, and sellers are conservative, even at the enhanced limits. The demand has been quiet as a rule although some large buyers have made bids for quantities, ineffectually as a rule, and the market still has an upward tendency. Coarse colored cottons are also moving against buyers, even without an important demand coming forward, and advances ranging from ¼c. to ¾c. are reported in some leading makes of denims, ticks, cheviots, checks, etc. Wide sheetings have at length responded to surrounding influences, and several leading makes have been marked up 7½ to 10 per cent. Business in cotton flannels and blankets has been light, as sellers are mostly out of the market. Kid finished cambrics are dull and the recent advance to 8⅛c. for 64 squares is hardly maintained. Other linings are firm, with moderate sales and occasional advances of ⅛c. in corset jeans. Fancy calicoes are quiet but well sold and firm. Other regular prints are in about average request and occasionally tending upward. Dress ginghams show no improvement, selling slowly. Staples are firm, with moderate sales. Print cloths close with extras very firm at 3⅛c. after small sales earlier in the week at slight concession therefrom. Wide goods very firm; 38½ inch 64 squares, 4½c. per yard.

Stock of Print Cloths—	1895. Sept. 21.	1894. Sept. 22.	1893. Sept. 23.
At Providence, 64 squares	93,000	84,000	170,000
At Fall River, 64 squares	28,000	131,000	377,000
At Fall River, odd sizes	83,000	137,000	
Total stock (pieces)	204,000	352,000	547,000

WOOLEN GOODS.—The new lines of dress goods for spring have been of chief interest in this department, and a considerable number of orders have been taken during the week at prices mostly showing advances of from 5 to 10 per cent over last season. Bright fabrics, such as mohair and lustre wool effects, predominate. The business done is regarded as encouraging in view of the extensive orders which are reported to have been secured by foreign manufacturers for spring goods. The higher prices reported from the London wool sales are expected to further strengthen the market. The manufacturers of men's-wear woolens and worsteds are also hoping that these will strengthen the tone of their market and help them to meet the supplementary demand for light-weights on a fairly firm basis. The demand for men's-wear goods is, however, still too limited to admit of this influence being tested. There has been no change in the character of business passing in satinets, cotton-warp cassimeres, or in the general run of overcoatings and cloakings. Carpets are firm, as are flannels and blankets, with a moderate demand coming forward.

FOREIGN DRY GOODS.—A number of sellers of dress goods for spring are practically out of the market, having secured all the orders they can take care of. The tone is firm under these conditions and the higher price of wool and mohair abroad. Men's-wear fabrics also are firm. Silks are selling fairly for spring at firm prices, as are ribbons. Linens also firm with fair sales. Seasonable business is featureless.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending September 26, and since January 1, 1895, and for the corresponding periods of last year are as follows:

STATE AND CITY DEPARTMENT.

TERMS OF SUBSCRIPTION.

THE INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

THE STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

THE QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

Terms of Advertising—(Per inch space.)

One time	$3 50	Three Months (13 times)	$25 00
One Month (4 times)	11 00	Six Months (26 times)	43 00
Two Months (8 times)	18 00	Twelve Months (52 times)	58 00

(Two above terms for one month and upward are for standing cards.)

The purpose of this State and City Department is to furnish our subscribers with a weekly addition to and continuation of the STATE AND CITY SUPPLEMENT. In other words, with the new facts we shall give, the amplifications and corrections we shall publish, and the municipal laws we shall analyze in the "State and City Department," we expect to bring down weekly the information contained in the STATE AND CITY SUPPLEMENT to as near the current date as possible. Hence every Subscriber will at all times possess a complete and fresh cyclopædia of information respecting Municipal Debts.

Arkansas State Debt Less Than Reported.—State Auditor C. B. Mills has discovered that the debt of Arkansas is less by $221,000 than it has been reported for a number of years. It is shown that there are 1,755 bonds outstanding instead of 1,985, as previously estimated. The total bonded debt of the State, as last reported to the CHRONICLE on October 1, 1894, was $1,805,000, and the overdue interest amounted to $3,018,022, making a total State indebtedness of $4,823,022. After making the deduction noted above, these figures are reduced to $4,602,022, and it is reported that Mr. Mills is confident that a further investigation will show that there are at least eighty other bonds, heretofore included in the bonded indebtedness, which have really been canceled, thus decreasing the debt probably as much more.

The present discovery shows that on November 12, 1860, Gordon N. Peay, as Receiver, paid into the State Treasury Arkansas State Bank bonds and coupons to the amount of $[illegible], which sum was due the State from the Arkansas Real Estate Bank. Embraced in this amount was $50,000 of State Bank bonds, with interest from January 1, 1838, amounting to $[illegible], which has since been erroneously included in the reports of outstanding bonded indebtedness of the State.

Bond Proposals and Negotiations.—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale:

Allegheny, Pa.—The City Comptroller has been authorized to advertise for bids on $650,000 of original water extension bonds.

An ordinance authorizing the issuance of $400,000 of water-extension bonds voted at the last spring election was laid over for one month.

Belmond, Iowa.—Bonds of this municipality will be issued to construct water-works at an estimated cost of $6,000.

Bluffton, Ohio.—A vote will be taken October 21 on issuing $15,000 of water-works bonds.

Boston, Mass.—It is reported that $200,000 more of the $1,000,000 temporary loan recently offered for sale have been disposed of at 2·455 per cent. Five hundred thousand dollars of the certificates were previously awarded to the New England Trust Company at the same rate. The loan is dated September 20, 1895, and payable November 2, 1895.

Brockton, Mass.—Proposals will be received until September 30, 1895, by W. H. Emerson, City Treasurer, for the purchase of $10,000 of 4 per cent registered fire bonds, dated October 1, 1895, and payable at the rate of $1,000 yearly, beginning October 1, 1896, and $25,000 of 4 per cent coupon water bonds, dated October 1, 1895, and payable October 1, 1925. Interest on both loans will be payable semi-annually on April 1 and October 1. The water bonds are secured by sinking fund.

Brooklyn, N. Y.—City Comptroller George W. Palmer will receive proposals until October 7, 1895, for $1,052,000 of 3½ per cent gold bonds described as follows:

LOANS—	When Due.	LOANS—	When Due.
LOCAL IMPROVEMENT BONDS—		CITY HALL IMPROVEMENT—	
3½g. J&J. $100,000	g. Jan. 1, 1914	3½g. J&J. $95,000	g. Jan. 1, 1920
SEWERS—		MUSEUM OF ART AND SCIENCES—	
3½g. J&J. $250,000	g. Jan. 1, 1925	3½g. J&J. $100,000	g. Jan. 1, 1925
AUXILIARY SEWERS—		3½g. J&J. 100,000	g. Jan. 1, 1926
3½g. J&J. $50,000	g. Jan. 1, 1925	3½g. J&J. 92,000	g. Jan. 1, 1927
WALLABOUT MARKET—		WATER-WORKS—	
3½g. J&J. $15,000	g. Jan. 1, 1925	3½g. J&J. $250,000	g. Jan. 1, 1925

The bonds will be free and exempt from all taxation except for State purposes. Payment of purchase money is to be made October 10, 1895, at which time the bonds will be dated. Proposals must state the price offered and the description of bonds desired.

Carthage, Ohio.—Proposals will be received until Oct. 7 by Lewis Hall, Village Clerk, for the purchase of $3,597 86 of 6 per cent Lockland Avenue improvement bonds. The securities will be dated Oct. 7, 1895, interest will be payable annually, and the principal will mature at the rate of $360 yearly in from one to nine years, and $357 86 in ten years, both principal and interest to be payable at the German National Bank, Cincinnati, Ohio.

Cicero, Ill.—Proposals will be received until to-day by Nelson Halgren, Clerk of the town of Cicero, Austin, Ill., for the purchase of $102,411 95 of 4 per cent 20-year railroad-aid bonds. Interest will be payable semi-annually, both principal and interest to be collected and paid by the State Auditor.

Corunna, Mich.—An election held September 21, on issuing $30,000 of water-works bonds resulted in the defeat of the proposition by a majority of 7 votes.

Darlington, Wis.—An election held Sept. 24 on issuing $4,000 of additional water bonds resulted in favor of the proposition by a vote of 197 to 87.

Delphos, Ohio.—Water-works bonds to the amount of $75,000 have been voted.

Dickens County, Texas.—Proposals will be received by J. D. Harkey for the purchase of $3,000 of 6 per cent road and bridge bonds of Dickens County, dated May 16, 1894.

Easthampton, Mass.—Bonds of this town for about $25,500 have been authorized for various purposes.

Evanston, Ohio.—Proposals will be received until Oct. 19, 1895, by Wm. H. Kramp, Village Clerk, for the purchase of $45 6 10 of 6 per cent sewer bonds. The securities are dated Sept. 12, 1895, interest will be payable semi-annually, and the principal will mature in annual instalments in from one to ten years, both principal and interest to be payable at the Atlas National Bank, Cincinnati, O.

Everett, Mass.—On Sept. 20, 1895, the city of Everett sold $25,000 of 4 per cent sewer bonds to E. H. Rollins & Sons at 106·29 and accrued interest from July 1, 1895. The securities are dated July 1, 1895, interest will be payable semi-annually on January 1 and July 1 at the Winthrop National Bank, Boston, and the principal will mature July 1, 1923. The loan is secured by sinking funds. Six bids were received for the loan, as follows:

	Bid.
Blodget, Merrit & Co.	104·78
Blake Brothers & Co.	104 83
George H. Fernald & Co.	105·53
W. J. Hayes & Co.	105·53
R. L. Day & Co.	105·796
E. H. Rollins & Sons	106·29

Franklin, Ky.—A vote taken August 26 on issuing $32,000 of water-works bonds resulted in favor of the proposition. F. N. Farline, City Clerk, writes the CHRONICLE that it has since been determined, however, that an election should not have been held at that time, and the question will probably have to be submitted to a vote of the people again.

Foxboro, Mass.—It is reported that 4 per cent bonds to the amount of $10,000, averaging 3½ years, have been sold on about a 3·7 per cent basis.

Gallipolis, Ohio.—On Sept. 19, 1895, this city sold $7,500 of 5 per cent 5 20-year redemption bonds to the Ohio Valley Bank of Gallipolis for $7,585.

Gloucester County, N. J.—Road bonds of this county to the amount of $20,000 have been authorized.

Grant City, Mo.—Water-works bonds of this city to the amount of $5,000 have been voted.

Grove City, Minn.—An election held September 16 on issuing $5,000 of water-works bonds resulted in favor of the proposition.

Harmony Grove, Georgia.—It is reported that school bonds of this municipality have recently been sold at 102½.

Hatfield, Mass.—The people of this town have voted to construct water-works at an estimated cost of $30,000, for which purpose bonds will probably be issued.

Hector, Minn.—Water-works bonds of this village to the amount of $7,000 were voted September 17.

Houston, Texas.—A. S. Richardson, City Secretary, reports to the CHRONICLE that an election held September 21 on issuing $500,000 of bonds for street improvement, bridge and sewer purposes, resulted in the defeat of the proposition.

Independence, Mo.—A vote will be taken October 15 on issuing $50,000 of bonds for a system of sewerage.

Jacksonville, Fla.—Bonds to the amount of $168,000 have been authorized by the Council for extending sewers.

Juniata, Pa.—The people of this municipality will vote in November on issuing $25,000 of water-works bonds.

Lancaster, Pa.—Proposals will be received until October 4, 1895, by Edwin S. Smeltz, Mayor, for the purchase of $120,000 of 4 per cent judgment bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually at the City Treasurer's office, and the principal will mature October 1, 1925, with an option of call after October 1, 1915. The bonds will be exempt from taxation. The city's bonded debt, including this issue, is $1 134,958; sinking fund, $74,458; net debt, $660,500. The city has no floating debt. The assessed valuation for 1895 is $14,250,000; estimated actual valuation, $25,000,000; city tax rate (per $1,000), $9. The population, according to local figures, is 40,000. The question of issuing $100,000 of bonds for the purpose of establishing a garbage crematory will be voted on at the next general election.

Le Sueur County, Minn.—The people of this county will erect a court-house at an estimated cost of $40,000, for which purpose bonds will probably be issued.

Mansfield, Ohio.—Proposals will be received until Oct. 28, 1895, by F. M. Remy, City Clerk, for the purchase of $20,000 of 5 per cent water-works bonds. Interest will be payable semi-annually on April 28 and October 28, and the principal will mature at the rate of $1,000 yearly from October 28, 1896, to October 28, 1915, both principal and interest to be payable at the office of the City Treasurer.

Massachusetts.—State Treasurer E. V. Shaw reports to the CHRONICLE that on Sept. 25 $5,000,000 of 3½ per cent "Metropolitan Water Loan" bonds were awarded to Messrs. E. H. Gay & Co. at 110·67. The securities will be dated July 1, 1895, interest will be payable semi-annually on Jan. 1 and July 1, and the principal will mature July 1, 1935. Both interest and principal will be payable in gold coin or its equivalent. No further issue of the Metropolitan water loan will be made for at least six months. A list of the bids received for the loan is given below.

	Amount.	*Bid.*

Messrs. E. H. Gay & Co. are advertising the securities elsewhere in this department of the CHRONICLE.

Middletown, Ind.—The people of Middletown have voted to construct water-works at an estimated cost of $15,000, for which purpose bonds will probably be issued.

Newburyport, Mass.—A list of the bids received on Sept. 18 for the purchase of $13,000 of armory bonds is as follows.

	Bid.
E. H. Rollins & Sons, Boston, for 4 per cent bonds	101·06
Blake Bros. & Co., Boston, for 4 per cent bonds	100·665
R. L. Day & Co., Boston, for 4 per cent bonds	1 0·317
E. H. Gay & Co., Boston, for 4 per cent bonds	100·83

The Institution for Savings, Newburyport, bid for $13,000 on a 3¾ per cent basis, and Jere McDonald, Newburyport, bid for $4,000 on a 3½ per cent basis.

Four thousand dollars of the amount were awarded to Jere McDonald on a 3½ per cent basis, and arrangements were afterward made with the Institution for Savings, Newburyport, to take the remaining $9,000 on a 3½ per cent basis.

Interest on the securities is payable semi-annually in March and September, and the principal will mature at the rate of $2,000 yearly from September 1, 1896, to September 1, 1900, inclusive, and $3,000 on September 1, 1901.

New Paynesville, Minn.—A. T. Watson, Village Recorder, will receive proposals until October 15 for the purchase of $5,000 of water-works bonds. The loan will bear interest at the rate of 6 per cent and run 20 years.

New York City.—On September 24th Comptroller Fitch received twenty-two responses to his advertisement for proposals for $3,345,589 70 of 3 per cent gold bonds of the city of New York. The securities have been awarded to Messrs. J. P. Morgan & Co., Blake Bros. & Co. and Harvey Fisk & Sons, on their joint bid of $100·3177 for the entire loan. The bonds are described as follows:

LOANS—	*When Due.*	LOANS—	*When Due.*

	Total of bids	$11,291,788 66	

Niagara Falls, N. Y.—Bridge bonds of this city to the amount of $9,000 were recently voted.

Norwood, Ohio.—Proposals will be received until Oct. 4, 1895, by W. E. Wichgar, Village Clerk, for the purchase of $30,000 of 5 per cent electric-light bonds. The securities will be dated Oct. 1, 1895, interest will be payable semi-annually, and the principal will mature at the rate of $1,000 yearly from Oct. 1, 1897, to Oct. 1, 1926.

Nyack, N. Y.—A vote recently taken on issuing $100,000 of water-works bonds resulted in favor of the proposition.

Oakley, Kans.—W. L. Camp, City Clerk, will receive proposals for the purchase of $7,000 of water-works bonds, the securities to bear interest at the rate of 7 per cent.

Oconomowoc, Wis.—A vote taken September 17 on issuing bonds for water-works resulted in the defeat of the proposition.

Painesville, Ohio.—A vote taken Sept. 17 on issuing $125,000 of water-works bonds resulted in favor of the proposition.

Philadelphia, Pa.—The Finance Committee of the Philadelphia Common Council has decided to report favorably on an ordinance creating a temporary loan of $1,200,000.

Port Townsend School District No. 1, Wash.—Six per cent 10-20 year bonds of this district to the amount of $35,000 have recently been awarded to Farson, Leach & Co., for $35,100. Five bids in all were received.

Raleigh, N. C.—The citizens of Raleigh will vote at the election in November on issuing $50,000 of street improvement bonds.

Sharon, Pa.—The people of Sharon voted September 19 in favor of issuing $21,000 of bonds to puchase the plant of the Sharon Water Company.

Springfield, Mass.—Proposals will be received until Oct. 2, 1895, by E. T. Tifft, City Treasurer, for the purchase of $35,000 of 4 per cent registered school-house bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually in April and October, and the principal will mature October 1, 1915, both principal and interest to be payable in gold coin at the office of the City Treasurer.

St. Louis, Mo.—St. Louis gold bonds to the amount of $975,000, bearing 3·65 per cent interest, have been admitted to the New York Stock Exchange list this week. The securities

were sold by the city on April 23d to Messrs. Kunn, Loeb & Co., of New York, at $1,031 50 per bond flat, or about 103 after deducting accrued interest. This is a higher price than the city had ever obtained for its bonds before. The securities are to be dated May 1, 1895, interest will be payable semi-annually on May 1 and November 1 at the National Bank of Commerce, New York, and the principal will mature May 1, 1915.

Syracuse, N. Y.—Proposals will be received until September 30, 1895, by E. F. Allen, City Treasurer, for the purchase of $300,000 of 3½ per cent water-works bonds. The securities will be dated October 1, 1895, interest will be payable semi-annually in January and July at the office of the Metropolitan Trust Company, New York, and the principal will mature July 1, 1920. The bonds will be paid for and delivered at the office of the Metropolitan Trust Company.

Theresa, N. Y.—This municipality will construct water-works at an estimated cost of $19,500, for which purpose bonds will probably be issued.

Tully, N. Y.—Water-works bonds of this village to the amount of $10,000 have been voted.

Willimantic, Conn.—An official list of the bids received on September 19, for the purchase of $100,000 of 4 per cent coupon bonds, is given below.

	Bid.
German-American Investment Co., New York	103·47
E. D. Shepard & Co., New York	103·30
C. H. White & Co., New York	103·05
E. H. Gay & Co., Boston	102·75
G. A. Fernald & Co., Boston	102·67
E. H. Rollins & Sons, Boston	102·629

Norwich Savings Society, Norwich, Conn	102·03
Street, Wykes & Co., New York	101·625
Wilson & Schoemmer, New York	101·55
Windham National Bank, Willimantic, Conn	101·4166
H. C. Warren & Co., New Haven, Conn	101·33
Willimantic Savings Institution, Willimantic	101·

The securities were awarded to the German American Investment Company of New York. The loan is to be dated October 1, 1895, interest will be payable semi-annually on April 1 and October 1, and the principal will mature October 1, 1925, with an option of call after October 1, 1910.

STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

Exeter, N. H.—The following statement has been taken from a special report to the CHRONICLE from E. S. Thyng, Town Treasurer.

Exeter is in Rockingham County.

Bonded debt Feb. 15, '95.	$90,000	Tax valuation, personal.	$868,823
Town has no water debt.		Total valuation 1895	3,044,695
Floating debt	3,700	Assessment about ⅔ actual value.	
Total debt Feb. 15, '95	93,700	Total tax (per $1,000)	$17·00
Tax valuation, real	2,175,870	Population in 1890 was	4,284

The bonds all bear interest at the rate of 4 per cent, and are issued for street improvement, library and refunding purposes. They are all held by local investors.

TAX FREE.—The town's bonds are exempt from taxation if owned by residents.

Old Town, Me.—Herbert Gray, Mayor; A. Otis Woodman, City Clerk. Below is a statement of the indebtedness, etc., of Old Town, which has been taken from the city's annual report.

Old Town is in Penobscot County.

Bonded debt Mar. 1, '95.	$89,950	Tax valuation, personal.	$104,364
Floating debt	21,503	Total valuation 1894	1,170,651
Total debt Mar. 1, 1895	61,453	Population in 1890 was	5,312
Tax valuation, real	1,046,287	Population in 1880 was	3,395

Polk Township, Mo.—This statement regarding the indebtedness, etc., of Polk Township has been taken from a specia report to the CHRONICLE.

Polk Township is in Cass County.

LOANS—	When Due.		
RAILROAD AID BONDS—		Tax valuation 1894	$524,000
5s, Jan., $52,000	Jan. 1, 1913	Assessment is ⅓ actual value.	
Total debt Sept. 15, '95	$52,000	Population in 1890 was	1,267
		Population in 1880 was	1,499

OPTIONAL.—Thirteen thousand dollars of the township's bonds are subject to call each year on January 1, 1898, 1903 and 1908.

INTEREST is payable at the Franklin Bank, St. Louis, Mo.

INDEX TO STATE AND CITY DEPARTMENT.

In the following index references are given by volume (v.) and page (p.) to every item regarding State, city, town or county finances which has been published in the CHRONICLE since the issuance of the last STATE AND CITY SUPPLEMENT, APRIL 13, 1895.

Items in the current number are not noted in the index.

Full-face types refer to latest reports of total debt, assessed valuation &c.

This index will be published in the STATE AND CITY DEPARTMENT of the CHRONICLE on the last Saturday of each month

WILLIAM B. DANA COMPANY,

76½ PINE STREET, NEW YORK.

1850. 1895.

The United States Life Insurance Co.

IN THE CITY OF NEW YORK.

This old and reliable Company now has the experience of forty-five years of practical Life Insurance, which has taught it that the *sine qua non* of success is the adoption of good plans of insurance, and the pursuit of a liberal policy towards both its Insured and its Agents. These essentials it possesses in an eminent degree, but judiciously tempered by that conservatism which is the best possible safeguard of the policy-holder. Its contracts are incontestable after two years. They are non-forfeiting, providing generally for either paid-up policy or extended insurance, at the option of the policy-holder. It gives ten days of grace in payment of all premiums. Its course during the past forty-five years abundantly demonstrates its absolute security.

Active and successful Agents, wishing to represent this Company, may communicate with the President at the Home Office, 261 Broadway, New York.

THE FINANCIAL SITUATION.

A further decided fall in sterling exchange has been the feature of the week. As it has also been accompanied by lower figures for Continental, it indicates a uniform weakness of the market. This sudden and decided downward turn has been attributed quite as much to a light demand as to more liberal offerings of bills, and it looks a little as if this gold export movement had been somewhat forced and overdone. For this reason little surprise would be expressed if gold imports should become a feature sooner than has been anticipated. Cotton drafts are reported to be coming forward quite freely now, though they are still held at comparatively high figures; but the indications point to more liberal offerings and lower figures in the near future.

Our industrial interests remain in a satisfactory state of activity. In some trades where there has been extreme buoyancy a trifling reaction has occurred, but that is natural, and the volume of business remains very large. The returns of bank clearings reflect the activity prevailing. We have this week prepared our statement for the month of September, and it shows an increase over the corresponding month of last year of 18·4 per cent. In August the increase had been not quite as large as this, being only 16·1 per cent; in the months immediately preceding, however, the ratio of improvement had been much heavier, having been for May 24·7 per cent, for June 22·1 per cent and for July 29·8 per cent. But in these earlier months the circumstances as to the comparison were different. Then we were comparing with heavy losses in 1894. For August and September the comparison is with figures last year which had shown gains over 1893. In September 1894 this gain was 5·7 per cent, and the present gain of 18·4 per cent is therefore additional to that gain. Another influence affecting the totals the present year should not be overlooked. We had a short winter-wheat crop this season, and consequently the movement of that grain in the winter-wheat districts has been very much smaller than a year ago. As a result the volume of clearings at some of the Western points has also been reduced. We notice, for instance, that at Chicago there is an increase in the clearings of only a fraction of one per cent. Again, parts of the West are still suffering from last year's short crops. In addition in the South we have the present year not only a small cotton crop but an exceedingly late crop. The effect of all this is seen in a ratio of gain outside of New York of only 8·6 per cent, and the increase of 18·4 per cent for the country as a whole has been made in face of this small addition at the outside points.

With business expanding all over the country and with large crops giving the assurance that it will continue to expand, we may expect that mercantile failures in the near future will be reduced to a minimum. Up to the present time the improvement in that particular has not been as striking as it might have been. But the results reflect past conditions, not present conditions. Messrs. R. G. Dun & Co. have this week issued their compilation of failures for the third quarter of the year, prepared according to the intelligent system formulated by Col. W. M. Grosvenor, and they show that the failures have continued rather large both in number and liabilities. The number has been a little less than in the corresponding three months of 1894, being 2,792, against 2,868, but on the other hand the amount of the liabilities has increased, the comparison standing at $32,167,179 against $29,411,196. Of the total of 2,792 failures for the quarter in 1895, 2,159 with liabilities of $18,430,147 are classed as trading, 587 with liabilities of $12,205,115 are classed as manufacturing, 46 with liabilities of $1,531,917 are designated as "other commercial;" 31 banking failures for $3,532,523 are reported separately. We give the figures for the different geographical groups in a little tabular statement on another page, and will only say here that for the New England States and the Middle States the comparison with last year shows a decrease both in the number of insolvencies and the amount of the liabilities. These are the manufacturing sections, which are distinctly enjoying the greatest benefits from the revival of business. In the Southern, the Southwestern and the Central States, where the agricultural situation dominates largely, there has been an increase both in numbers and liabilities. In the Far Western States the number of failures has fallen off while the liabilities are somewhat larger, and in the Pacific States there has been a small increase in numbers, with a marked decrease in liabilities.

Last week's bank statement showed a decrease of $5,866,700 in loans, making $11,322,700 in two weeks. This reduction has seemed out of accord with large discounts for interior banks. It is probably in the main to be accounted for by the liquidation of contracts which we recorded as made sixty and more days ago with near-by interior banks and Eastern and Middle States cities, the latter borrowings being in anticipation of taxes, and were obtained in very considerable amounts at low figures of our Clearing House institutions. The small loss in cash last Saturday's return showed, notwithstanding the free movement of currency to the interior, is most likely to be accounted for by the distribution of profits by the Bond Syndicate to the participating banks. This week the outflow of currency to the South and West has been heavy again, but it is in some measure covered up by the interest payments by the Treasury, the amount of interest falling due on the first of October being about 5½ million dollars on the old 4 per cents.

Money on call, representing bankers' balances, has loaned generally at 2 per cent this week, there being less competition because many of the largest lenders were distributing October interest and dividends, and those lenders who were in the market sought to obtain full rates. Some loans have been made every day at 1½ per cent, and yesterday the range was from that figure up to 2½ per cent; the average for the week was probably only a small fraction below 2 per cent. Banks and trust companies quote 2 per cent as the minimum, and very few obtain any higher rates. Some of the foreign bankers called in outstanding loans early in the week and none appear to have been lending liberally. Time contracts have been in little better request and more firmly held this week, and in some instances rates have been slightly shaded where very choice collateral was offered. Quotations on good Stock Exchange security are 2 per cent for thirty days, 2½@3 for sixty to ninety days, 3½ for four and 3½@4 for five to seven months. The supply of commercial paper is fairly liberal and there is a good assortment of names from which to select, but the demand is not urgent; the large city banks remain out of the market and the business done is chiefly by institutions other than banks and by purchasers in the interior. Banks having large interior correspondence continue to

report a dearth of money in the Northwest, which makes a good demand upon Eastern banks, and generally speaking money is moving to all points in the South. Mobile banks sent in applications this week for re-discounting for the first time this season. Cotton is moving freely from nearly all plantations to the seaboard. Quotations for commercial paper are 4½@5 per cent for sixty to ninety day endorsed bills receivable, 4½@5½ per cent for four months' commission house and prime four months' single names, 5@5½ per cent for prime six months' and 5½@7 per cent for good four to six months' single names.

The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London 9-16@⅝ of 1 per cent. The open market rate at Paris is 1½ per cent, at Berlin it is 2 per cent and at Frankfort 2 per cent. According to our special cable from London, the Bank of England lost £970,937 bullion during the week and held at the close of the week £42,772,315. Our correspondent further advises us that the loss was due to £984,000 sent to the interior of Great Britain, to an import of £267,000 (of which £217,000 were bought in the open market and £50,000 were from Australia), and to an export of £254,000, of which £200,000 were to Egypt, £44,000 were to Spain and £10,000 to the Continent.

The foreign exchange market has been decidedly lower this week and each day until Thursday the tone at the close was easier than at the opening. The offerings of commercial bills against cotton have increased, though they are held at full rates, and in some cases above the views of buyers. Bankers who do a large business with the South directly through their own agents are reported to have been abundantly supplied, and the fall in rates for bankers' bills has naturally tended to induce buyers to hold off in the expectation of still lower figures. The absence of inquiry, for this and other reasons, has materially contributed to the easier tone. All accounts agree in stating that cotton is moving freely to the seaboard from all points in the South, and it is felt that the supply of bills must increase rapidly. On Monday the market opened dull though fairly firm, but the Merchants' Bank of Canada reduced rates half a cent. It was reported that there were some cable transfers in the market, presumedly against an intended shipment of gold to Germany and there were comparatively few commercial bills. In the afternoon the tone grew easier and on the following day Brown Bros. reduced their rates half a cent and the figures for actual business were quoted at 4 87½@4 87½ for long, 4 88½@4 88½ for short and 4 88½@4 88¾ for cable transfers, a reduction of one-quarter of a cent compared with the close on Friday of last week, while francs were fully 1-16 lower. The market was weak and the supply of commercial bills against cotton was reported large. On Wednesday Brown Bros. reduced rates another half cent, and Baring Magoun & Co., the Bank of British North America, the Bank of Montreal, the Canadian Bank of Commerce, Heidelbach, Ickelheimer & Co., Lazard Freres and the Merchants' Bank of Canada lowered their rates half a cent and the tone was weak at the close with a still better supply of commercial bills. Rates for actual business were quoted at 4 86½@4 87 for long, 4 87½@4 88 for short and 4 88@4 88½ for cable transfers, while Continental bills were lower all around. The light demand seemed to induce holders of spot commercial bills and of futures to offer them at concessions. On Thursday Brown Bros., the Bank of British North America, the Bank of Montreal and the Canadian Bank of Commerce again reduced their rates half a cent and the market opened steady at a decline for actual business in short to 4 87½@4 87¾ and in cable transfers to 4 87¾@4 88, while francs and marks were about 1-16 lower. The demand was fairly good all day and the tone continued steady to the close. It was reported that some of the gold bills which were sold early in the week had been re-bought and there were no indications whatever of gold exports even on order. Yesterday Baring, Magoun & Co. and the Merchants' Bank of Canada marked their rates down half a cent. The tone was easier at the opening but the close was steady at an advance of ¼ cent in the rates for actual business in sight bills and cable transfers. The following table shows the daily posted rates of exchange by leading drawers.

	Sight	90	90 1/16	89 1/16	89	89	88 1/16

The market closed steady on Friday at 4 87@4 88 for sixty day and 4 88@4 89 for sight. Rates for actual business were 4 86¾@4 87 for long, 4 87¾@4 88 for short and 4 88@4 88½ for cable transfers. Prime commercial bills were 4 86¼@4 86½ and documentary 4 85¾@4 86. There were some sales of bills during the week, supposed to be against the reported purchase by the Rothschilds of the Anaconda Copper Mine, and it is understood that the entire issue of $3,000,000 fifty-year 4 per cent gold bonds of the Louisville & Jeffersonville Bridge Company has been placed in Amsterdam. But the exchange against these bonds is said to have been sold last week. One of the Canadian banks sent $50,000 gold to Canada. Lazard Freres have $600,000 in gold in transit through this port from Europe and Zimmerman & Forshay have $250,000 in transit.

The Cleveland Cincinnati Chicago & St. Louis has issued its August return of gross and net earnings this week, and it shows $76,217 increase in gross and $38,339 increase in net. The Louisville & Nashville for the same month has $34,493 increase in gross and $54,598 decrease in net; the Denver & Rio Grande $23,761 increase in gross, $10,241 decrease in net; the Chesapeake & Ohio $68,641 decrease in gross, $48,945 decrease in net; the Southern Railway $46,503 increase in gross, $38,273 increase in net; the Chicago Burlington & Quincy $140,052 increase in gross, $30,644 decrease in net; the Chicago Burlington & Northern $16,346 decrease in gross, $22,887 decrease in net; the Canadian Pacific $19,811 increase in gross, $72,121 increase in net; the Atchison $77,357 decrease in gross, $192,362 decrease in net; the New York Susquehanna & Western, $39,407 increase in gross, $49,100 increase in net; the Mexican Central $118,548 increase in gross, $114,384 increase in net; the Mexican International $55,802 increase in gross, $30,418 increase in net; the Buffalo Rochester & Pittsburg $21,160 decrease in gross, $2,527 decrease in net; the Rio Grande Western $34,362 increase in gross, $37,985 increase in net; the St. Paul & Duluth $7,773 increase in gross, $13,067

decrease in net; and the Oregon Improvement Company $56,687 decrease in gross, $13,035 decrease in net.

Excluding Colorado Midland in all the years.

In the earlier portion of this article we have referred to the increase of 18·4 per cent in our statement of bank clearings for the month of September, and enumerated the circumstances which give particular significance to this increase. In the different geographical divisions the ratio of improvement varies greatly for the reasons there given. For the Middle States the increase is as much as 24·3 per cent, for the New England States it is 16·4 per cent, for the Middle Western States only 3·9 per cent, for the Pacific States but 2·8 per cent, for the Far Western States 4·2 per cent and for the Southern States 8·5 per cent. In the following we show the comparative monthly aggregates back to the 1st of January.

At the leading cities the ratios of gain also vary greatly, but there are only a few cases where there is an actual decrease. Among the points in the following only three appear which show reduced totals as compared with a year ago. Among the smaller places, however, the decreases are more numerous, as may be seen by reference to our detailed statement on the page preceding this article.
